WEATHER CROP BULLETIN.

The week ending Saturday, August 22d 1896, was more favorable for crops and especially for farm work than any since the middle of July. The first two days of the week continued warm, but on the 18th very beneficial rains occurred at a large number of places, following which the temperature dropped below the normal, with some agreeably cool nights. The rain-fall was not sufficient to break the drought generally, but caused some improvement in the crop conditions.

EASTERN DISTRICT

Past week was favorable. Good rains occurred on several dates, chiefly on the 18th, but small in amount, and were followed by several agreeably cooler days. Late corn, peas, turnips and potatoes were benefitted. The extent to which cotton has been cut off over the State is variously estimated from one-fourth to one-half. Cotton is opening rapidly and will all be picked out by the middle of October. It needs more rain to mature bolls, though rain would probably not cause any new bolls to form. Early corn came through all right, but late is poor, though aided by showers this week. Fodder is nearly all pulled in the South. Curing tobacco about finished. Making sorghum syrup has begun. Rains brought out turnip seeds and further planting is progressing. Peas are forming fruit fairly; rice and sweet potatoes are still very good; pea-nuts suffered considerably from the drought.

CENTRAL DISTRICT.

The hot spell was broken on the 18th and cooler, pleasant weather followed, which was more beneficial to those pulling fodder and picking cotton than to crops. Scattered rains occurred on Tuesday, but many counties remain entirely dry and experienced further decline in crop conditions. Cotton is still shedding in places; is opening fast, especially on sandy land, lint is short and the crop generally a great disappointment. In many places fodder is all saved; not much will be made from late corn. Tobacco is generally poor and not curing so well, though it seems to be all right in color, and the crop is earlier than usual. Peas and potatoes are needing rain. Some farmers have begun to make sorghum molasses. Soil not fit for plowing.

WESTERN DISTRICT.

The first part of the week was still warm and dry, but followed by local showers and cooler weather: a few nights were very cool. Favorable showers occurred on the 18th and 22d, but by no means sufficient to break the drought, while over large portions of the district no rain has fallen. The general crop condition have, however, improved. Cotton still inclined to wilt and shed bolls, some fields much worse than others; bolls are small; picking progressing with prospects for nothing like a full crop. Fodder-pulling fully under way; with sufficient rain late corn would make a short crop. Tobacco seems to be curing nicely. Cabbage is not much good; peas and sweet potatoes doing tolerably well; molasses making begun; some plowing and seeding turnips was accomplished; large amounts of excellent hay stacked and ready for housing in the west.

CONGRESSIONAL CONVENTION

The Democratic Congressional Convention for the first District was held yesterday in Washington, N. C.

The Convention met at noon and was called to order by the chairman of the executive committee, W. B. Rodman. He made an admirable speech and named J. H. Small as temporary chairman and J. A. Arthur as temporary secretary. Mr. Small on taking the chair made a ringing speech which received much applause.

Pitt county was represented as follows on the committees:

Organization—Fred Moore.

Platform—F. G. James.

Credentials—R. R. Cotton.

The Committee on organization named Hon. F. G. James for permanent chairman, and Arthur, Whichard, Jacob and King as secretaries.

The convention then adjourned until 3 o'clock P. M.

At the afternoon session of the convention Col. W. H. Lucas, of Hoke, was nominated by acclamation for Congress. John H. Small, of Beaufort, was nominated for elector on the first ballot.

Washington opened her tobacco market yesterday with a twenty thousand pound break.

There was a large crowd in town.

A SENSATION IN JAMES CITY.

Newbern, N. C., August 20.—Yesterday afternoon while undertaking to arrest a negro man named John Koonce who has been outlawed by the governor, and who is wanted in Pamlico county for wife beating and murderous assault on two deputies last May, S. T. Thompson and Irvin Rumbley, two young white men of Pamlico county, came very near being lynched in James City. The man Koonce was found in one of the huts of which "James City" is built up. He ran off making a lunge with a knife at Thompson, and several shots were fired at him. The colored churches were just then turning out, and Koonce escaped into the thickest of the crowd. One of the officers, Rumbley, ran around to head him off. The other man, Thompson, plunged into the midst of the crowd in pursuit of the outlaw. He was grabbed by the excited negroes, and with a sharp blow from a heavy stick the pistol was knocked from his hand. The mob grew frenzied, and cries of "Lynch him" "Damn him, kill him so that he can tell no tales!" "Club him," &c., were heard on every side. He was taken up bodily by the mob, who started off towards the edge of the village to a clump of trees.

Whatever would have occurred can only be surmised. A negro justice of the peace, Washington Spivey, met the crowd and, after bringing them to a halt, ordered them to take their prisoner to his office. In the meantime the other deputy had been caught up by another mob and, after Rumbley had suffered several blows and stabs, and his coat is slashed in a number of places, they too, were quieted by Spivey and ordered to his office. After a noisy hearing the negro magistrate put both of the men under arrest and ordered them to be placed in jail until morning, when he would give them a hearing for disturbing a congregation while at worship. The men were escorted to Newbern over the Atlantic and North Carolina railroad bridge, and turned over to Sheriff Lane. The two men are of the opinion they would have been killed by the negroes had not Spivey arrived. Excitement ran high here last night.

James City has a population of two or three thousand, every one being a negro. A few years ago it necessitated the presence of seven companies of the state guard to enable the sheriff of Craven county to execute eviction papers in this village.—Wilmington Dispatch.

WEDNESDAY, AUGUST 26TH, 1896.

A short while ago a hair lifting story was published from Alleghany county in which it was stated that a boy cutting bonds to feed a threshing machine out the feeder's hand, and the man became so enraged that he picked the boy up, shoved him into the separator, where he was ground into sausage when the boy's two big brothers rushed upon the man and jabbed two big pitchforks into him, killing him instantly. With the exception that there was no cut hand, no boy shoved into the machine, and no man jabbed into kingdom come with pitchforks, there may be some truth in the story. The Statesville Landmark goes so far as to say that it is an awful lie. Just some Republican practicing for campaign work, no doubt—Wilmington Star.

TEMPERANCE DEPARTMENT.

A Drunkard's Body After Death.

A post-mortem examination of nearly seventy person who had died from excessive use of ardent spirits showed the following facts:

1. Congestion of the scalp and of the membrane of the brain, with much serious (watery) effusion. The substance of the brain white and firm, as if it had lain in alcohol for one or two hours.
 2. The lungs not always, but frequently congested or inflamed.
 3. The heart flabby enlarged, dilated, and loaded with fat outside; the blood in it of a cherry-red color, and with no tendency to coagulate.
 4. The stomach perfectly white, and thickened in some cases; in others having patches of chronic inflammation. In the worst cases a large portion of the stomach covered with that species of inflammation which causes the blood to be pured from the minute veins.
 5. The liver enlarged—in old drunkards weighing from six to twelve pounds.
 6. The omentum—a sort of apron which immediately covers the abdomen in front—loaded with a gray, sloshy fat.
 7. The kidneys enlarged, flabby and infiltrated in numerous spots with whitish matter.
 8. The small intestines filled with bile and coated with a tenacious mucus.
 9. The blood in a very fluid condition, having but little fibrine, but much albumen and fat.
 10. The whole body, except the brain, decomposing very rapidly.
- Is it any wonder that a drunkard has woes?—Temperance Companion, Eng.

The imagination of man is not able to conceive any hell more foul than the drink-cursed slums of a densely populated English town. You who are shielded by the purer surroundings of your quiet homes imagine that we are fanatical and speak in terms of exaggeration. It is because you do not know what drunkenness is and we do because we

have descended into hell. Michael Aggelo, before he painted the altar piece for the Conventual Church of Florence, had the coffins of the newly-buried opened and placed beside him that the hideous anatomy of death might be burnt into his soul, enabling him to reproduce it with terrible effect. In like manner the hideous anatomy of drink-cursed men and women is burnt into our minds, because again and again we have descended into hell.

TWENTY TIMES A DAY.

Twenty times a day, dear;
Twenty times a day,
Your mother thinks about you,
At school or else at play.
She's busy in the kitchen,
Or she's busy up the stair.
But, like a song her heart within,
Her love for you is there.

There's just a little thing, dear,
She wishes you would do,
I'll whisper—'tis a secret;
Now, mind, I'll tell it you:
Twenty times a day, dear;
And more, I've heard you say,
"I'm coming in a minute."
When you should at once obey.

At once, as soldiers instant
At the motion of command;
At once, as sailors seeing
The captains warning hand.
You could make the mother happy
By minding in that way,
Twenty times a day, dear;
Twenty times a day.

PROFITABLE PUBLICITY.

Dull Time Advertising.

BY NATH'L C. FOWLER, JR. DOCTOR OF PUBLICITY.

Some advertisers advertise a part of the time.
Some advertisers advertise the whole time.

The advertiser who advertises a part of the time may make money.

The advertiser who advertises all of the time almost always makes money.

It doesn't make any difference what you think, or what I think, when the fact states both of us in the face, that while all who advertise may not make money, few make money who do not advertise, and that those who make the most money, are those who advertise all the time.

There may be several men in your town who have fairly well succeeded with advertising a part of the time, but if your town is like most towns, the men who succeed all the time are the men who advertise all the time.

When times are good, advertising pays, because, although there be much advertising, there is much buying.

When times are bad, advertising pays, because although there may be little buying, there is little advertising, and the man who advertises is more conspicuous, and stands more in a class by himself, and draws from those who don't advertise the business that might be their's if they did advertise.

Dull time advertising, sometimes pays better than good time advertising, because some people are buying all the time, and they are more likely to buy of the man who advertises, than of the man who doesn't.

Times may be dull now.
Times ought to be dull now.
Times can't be good all the time.

It times are very dull in your town, it is largely because the local merchant assists in making them dull by thinking they are dull.

It is largely because the local merchant assists in making them dull by thinking they are dull.

THE SONG I'D SING.

I long, I long to sing a song
That will, when I've departed;
Still ring and ring and comfort bring
To cheer the broken hearted.

I do not care the when or where
I sing it, but that only
It live and live and comfort give
To cheer the sad and lonely.

I'd have my song not great and long,
That men might praise and covet,
But sweet and true and simple, too,
That all who heard should love it.

I would not grieve should it receive
But scanty condescension.

For not for fame I sing, or name,
And not for honored mention.

But only long to sing a song
And with such comfort wing it
That men unborn, when I am gone,
When they are sad may sing it.

Numbered Cars.

Strange things will occasionally happen on railroads. Not long ago a Fort Wayne freight conductor, on looking over the cars of his train, was surprised to find seven cars the numbers of which were in correct rotation. He could scarcely believe that through pure chance such a thing could happen, but there were the cars, with the first one next to the engine numbered 7,453, and the others back to the seventh one with numbers in the ascending order and in correct position. In their wandering about from place to place the cars got shuffled together by accident so that their numbers were as described above. According to the laws that govern the operations of chance such a thing is not likely to occur again in 1,000 years.

Probably.
Probably a woman would be a bride to her husband longer if she would continue making company of him. Most women begin to save their jam for visitors when they have been married three months.—Boston Post.

This Is Different.

ORIGINAL OBSERVATIONS.

Gate attachments in the form of two hearts that beat as one are coming to the front, but we'll not make light of a matter upon which so much hinges.

Life is like a harness. There are traces of care, lines of trouble, bits of good fortune, breaches of good manners, bridled tongues, and everybody has a tug to pull through.

"Because some men haven't brain enough to originate a new idea or to read in any progressive movement, they fight every new thought or work with the ferocity of tigers.

Indignation is sometimes a righteous thing, but on a hot day it doesn't seem to do the least bit of good to get down the snow shovel and make motions as if cleaning your neighbor's walk of snow.

A scientist has been investigating the mosquito, and has discovered that the mission of the insect is to purify stagnant water. We don't believe it. All the mosquitoes we ever knew were engaged in drawing blood.

What kills men is discouragement. It is getting down under trouble that destroys men. It is standing up valiantly and resolutely meeting trouble that enables men to go through the battle without harm.

HINTS OF THE SEASON.

The bee is browsing in the dew ; And storing winter honey ; And skies above are just as blue As fellows out of money.

The dusty fly looks forlorn— No fairy cares to do it ; The farmer gathers in his corn— And stamps "XXX" upon it.

And mellow sounds of autumn come, And soon the royal summer Will pass, with melon, peach and plum, And leave us with the plumber.

It Was Here To-day.

The tobacco breaks to-day were up in the pictures and the prices ruled high. The Greenville opened the sale with 30,000 pounds on the floor and the prices were tip-top and Leon Evans made the farmers happy.

The Star came next with 30,000 pounds on the floor and more in their prizery that could not get on. Every farmer that sold was satisfied and there were many happy faces.
