A Sweet Mess.

The Republican convention of Anson county nominated a negro for the Legislature, and for county commissioners all the nominees are negroes. They also endorsed part of the Populist county ticket. Under the new law, only three commissioners are to be elected. Isn't it about time for the Democrats of North Carolina to be organizing? A full board of negro commissioners for Anson county! Is that what we are coming to?—Wilmington Star.

The Per Capita \$21.48.

The Treasury circulation statement shows that on September 1st, all kinds of money in the United States, outside of what is held in the Treasury, aggregated \$1,539,169,634, or \$21.43 per capita, on an estimated population of 71,645,000. As compared with September 1, 1895, the circulation shows a decrease of \$64,413,384. During the month of August, however, the circulation shows an increase of \$24,266,492 made up largely from the Treasury loss of gold.

Opinions On the Gold Ticket.

St. Louis Republic: The Indianapolis convention was very considerate in its choice of candidates. It selected two old men who have no hopes to be blasted and no careers to be checked.

Chattanooga News: Palmer and Buckner means an attempt to throw Illinois and Kentucky to McKinley, but the scheme will fail. Personal popularity counts for nothing this year.

Rochester Union and Advertiser: The Indianapolis convention has lifted a great weight of apprehension from the regular democratic ticket by its nomination of Palmer and Buckner, and gives the ticket of Bryan and Sewall a buoyancy and a prospect of success that it would be deprived of if the disaffected democrats were left in a dispirited condition and open to temptation to vote for McKinley and Hobart.

Brooklyn Citizen: The decoy platform adopted at Indianapolis is more notable for what it omits than for anything it contains. It is precisely such a statement of purposes as might have been expected from representatives of the Standard Oil Company, the sugar trust and the various other monopolies which are alarmed by the candidacy of Bryan and the platform adopted at Chicago.

WEATHER BULLETIN.

The week ending Saturday, September 5th, 1896, was comparatively warm with two or three days slightly below the normal in temperature, and scattering showers on the 3rd, 4th and 5th, poorly distributed, however, except in the western portion of the State, where the rainfall was more general; over other portions the drought in many places is unbroken. But little improvement is now possible in the crop conditions.

EASTERN DISTRICT.

The week was pleasant, not too warm with some cool nights, and was fine for farm work. Rains occurred at scattered points on four dates, but is still dry over the greater part of district. Cotton-picking is going on rapidly; the crop will be nearly all open by October 1st. Peas and potatoes are needing rain, but will be good, though peas are slow to mature. Turnips are not coming up well generally on account of the drought. Pea-nuts will be short, the usual result of a dry August. Rice is only ordinary. On the whole very little improvement occurred this week.

CENTRAL DISTRICT.

Several thunder-storms occurred this week and the rain-fall was beneficial to late corn, turnips, peas, etc., but poorly distributed. At a few points amounting over an inch fell and the ground was softened enough for plowing. Cotton will soon be all open; many fields already look as bare and brown as if ruined by frost; lint being picked out rapidly under favorable conditions. Old corn nearly dry in the fields. Tobacco cures continue poor in quality; most of the crop has been housed. Some oats were planted. The absence of a general rain-fall will cut short all late crops.

WESTERN DISTRICT.

Good, soaking rains fell on the last two or three days of the week at a large number of places in the Western District, effectually breaking the drought, but came too late to materially benefit crops. Cotton will be no better than already estimated; picking going on rapidly, except for two days, when interrupted by rain. Late corn is shooting up tall, but little crop. Good crop of pea-vine hay has been harvested. Turnips fairly good and much benefited by the rain. Some wheat land has been broken, this work being quite backward. Leaves of forest trees are beginning to take the variegated hues of fall in the west.

Registration Law.

Under the existing election laws there are four days only allotted for registration, to wit; Saturday, September 26th, Saturday, October 3rd, Saturday, October 10th, and Saturday, October 17th. The Registrars are required to meet on these days at the voting places in these precincts, and between the hours of 9 o'clock, A. M., and 4 o'clock, P. M. register the qualified voters.

The Registrars and Judges of election are required to meet at the voting place on Saturday, October 24th from 9 A. M. until 4 P. M. for the purpose of permitting challenges to be made, and at 10 o'clock A. M. on Saturday, October 31st, they shall meet at the polling places and hear and decide the challenges.

Chicago Dispatch: "Look at Mexico!" shrieks a goldbug contemporary. "Mexico is a silver country!" And after you get through looking at Mexico good look at Spain and Turkey, both of which are doing business on a gold basis.

Billville on Li

It is probable that Li Hung Chang will visit Billville, but if he asks the head of our family her age, Lord help him.

We don't know that we shall be in a position to welcome Li to Billville, for, having lost our ticket, the local Chinaman still retains our shirt.

Ten to one if Li attends a lynching bee in Billville he will ask the master of ceremonies: "Who paid for the rope?"

One thing is certain: If Li drinks moonshine liquor it won't do to ask a fellow where he made it.

If he asks the circulation of The Banner we shall tell him we don't swear.

He is perfectly welcome to know just how much salary we don't get.

And we can tell him in advance that we're bowlegged from riding a mule in a hurry through the war—Atlanta Constitution.

Killed in Fun.

Dr. Laughinghouse, Coroner, went Tuesday evening in response to a telegram to hold an inquest over Isaac Ellis, who had been killed by Lewis Ellis. It seems that the negro, who were cousins, were playing together, and sparring with each other. Isaac ran Lewis in the house where the latter picked up a gun and emptied the load in Isaac. This was about the substance of the testimony given before the jury, and failing to find any malice in the killing they acquitted Lewis.

Wilson Air-Tight Heater.

With Patent Automatic Smoke Doors.

The Wilson Heater, which is a stove for house heating, is the most remarkable that has ever been patented.

In the first place it radiates more heat than any stove known, and will save 25 per cent. in fuel over any stove made.

Second, with two or three ordinary sticks of pile stove wood it will keep the fire from 36 to 48 hours, and with ordinary care the fire will never go out.

Third, being entirely closed at the base there is no danger of fire, and it is the cleanest stove in use. It is not necessary to remove the ashes oftener than once a month. These stoves are made in different styles—the small one, which is made for bed rooms, is specially recommended for health as well as comfort.

The Wilson Heater has a great advantage over any similar stove, because it has Patent Automatic Smoke Doors, which prevent the smoke from coming into the room when you take the top off or put in the wood. These doors are so constructed that they can be taken off and put back on in five minutes. These stoves can be seen our store, come and look at them.
