TIME TO STOP IT.

The last issue of the Watch Tower, edited by Rev. J. L. Winfield, at Washington, contains a very timely editorial on "A Needed Reformation." But for its length we would be glad to reproduce the entire article in the REFLECTOR. The great evil referred to as needing reforming is the way candidates for office are bleb by dead-beats and bums that infest almost every community. When the candidate starts around making his canvass before the people there is some sucker at every appointment who takes advantage of the opportunity to draw upon his pocket. As the Watch Tower puts it, "there is a church to build, a school house to erect, a horse to buy for some poor man, a poor widow with a dozen children to be helped and the first to head the list of donors must be the candidate, who the beggars think has a barrel of money."

The candidate responds to the first of these "charitables" thinking that such calls will come upon him but seldom, and his surprise can be imagined when he finds more and more of them the further he goes into the canvass. And besides these calls upon him under the head of charity, there is the whiskey bum who in addition to all the drinks he takes himself at the candidates' expense must have a well-filled jug with which to go out and work for "our favorite," and the free lunch bum who seldom sees a square meal except when the candidate buys up all the barbecues in reach and turns it over for a picnic.

In fact there are many ways and many pretexts for drawing on the candidate's cash account, and the evil has grown so gigantic that many of the best men dread to accept a nomination and go into a campaign. The Watch Tower uses a number of illustrations showing the extent to which the evil is carried, and many more could be used with good effect. No one but a candidate himself can tell you what has to be endured in this particular. This is one reason it requires so much money to run a campaign.

It is time such an evil was brought to an end. It men have not enough self respect to desist from such begging and bunning they ought to be compelled by law to stop it.

The Watch Tower makes these suggestions by way of a remedy:

1. Let a conference be held by all the candidates before they enter the canvass and an agreement entered into that neither liquor nor money shall be given to beggars and suckers during the campaign. Not only enter into this agreement, but stick to it regardless of consequences. Advise all the dear people to postpone building churches, school houses and buying horses until after the election.

2. Take the name of every one who ask for money or liquor and pass the list over to the county commissioners, with a recommendation that the names on the roll are proper subjects to be sent to the alms house or be made pensioners upon the bounty of the county.

3. Make it a misdemeanor by statute that no candidate shall distribute money or liquor among the voters during the campaign.

1. Let the same statute apply to voters. If the voter enters upon his begging campaign, issue a warrant against him and in addition to the statutory provisions in such cases add another statute which debar him from voting in the current election.

FIRE IN RICHMOND.

(Special to Reflector.)

RICHMOND, Va., Sept. 10.—The leaf tobacco factory of Gorman-Campbell Co., in this city, was destroyed by fire this afternoon. Loss \$50,000.

[The many friends of Mr. P. H. Gorman in Greenville will learn of this loss with great sorrow.—Ed.]

DEMOCRATIC CONVENTION.

Large Attendance—Good Ticket Nominated.

The Court House was well filled with people today when at 12:30 o'clock Alex. L. Blow, chairman of the Democratic Executive Committee, called to order the county convention to nominate candidates for the county offices and Legislature. He congratulated the Democracy for arising from its combined defeat of two years and assembling in such large numbers today. Mr. Blow made an admirable speech in calling the convention to order and was loudly applauded at the mention of the names of William J. Bryan and Cyrus B. Watson.

The secretary of the county executive committee being absent, H. T. King and D. J. Whichard were requested to act as temporary secretaries.

The roll of delegates from the several townships was called and a full delegation found present.

On motion of D. C. Moore the temporary officers were made permanent chairman and secretaries of the convention.

FOR SENATOR.

The chairman declared nominations for Senator in order and the roll of townships was called. When Chicod was reached the name of J. J. Laughinghouse was placed in nomination. Contentnea, Greenville and Pactolus townships seconded the nomination.

At the close of the roll call on motion of L. I. Moore, the nomination of J. J. Laughinghouse was made unanimous by acclamation.

FOR REPRESENTATIVES.

The chairman declared nominations for the Legislature next in order. J. A. K. Tucker presented the name of J. S. Harris; John King presented the name of C. L. Barret; J. H. Blount presented the name of E. Buck; J. R. Barnhill presented the name of J. B. Little.

It was decided to vote for one representative at the time and the roll of townships was called and on first ballot the vote was Harris 2, Buck 6, Barret 39, Little 38. On second ballot Buck 3, Barret 30, Little 52. J. L. Little was declared the nominee as one Representative.

On motion of D. C. Moore for the other Representative C. L. Barrott was nominated by acclamation.

FOR COMMISSIONERS.

Nominations for County Commissioners were next declared in order to be voted for one at the time. The names of G. T. Tyson, J. A. K. Tucker, Jesse Cannon and A. B. Congleton, were presented.

First ballot—Tyson 10, Congleton 15, Cannon 21, Tyson 39.

G. T. Tyson withdrew his name and moved that J. A. K. Tucker, Jesse Cannon and A. B. Congleton be nominated by acclamation; carried.

FOR SHERIFF.

When the roll of townships was called the names of O. W. Harrington, G. M. Tucker and R. W. King were presented. King's name was withdrawn and on first ballot. Tucker received 48, Harrington 37. Tucker was declared the nominee of the convention.

How Tickets Will Be Arranged at the Next Election—The Ballot Boxes.

The new election law, enacted by the last Legislature, directs that all the candidates shall be voted for on two separate ballots, which must be deposited in two boxes. On one ballot or ticket must be the names of the candidates for Governor, Lieutenant Governor, Secretary of State, Auditor, Treasurer, Superintendent of Public Instruction, Attorney General, member of Congress, justices of the Supreme Court, judge of the Superior Court, and presidential electors. And on the other ballot must be the names of the candidates for the Legislature, county treasurer (if there be one), register of deeds, sheriff, coroner, surveyor, constable and magistrates in each township, and county commissioners.

Thus there will be two long tickets, one containing 22 names and the other containing 14 names. These ballots may be partly printed and partly written on paper of any color and may have a device on them.

This new election law also directs that four ballot boxes shall be made for every precinct, and each of the boxes must be large enough "to contain one cubic foot of inside measurement and shall be provided with a good, strong lock and key." The ballots must be deposited in two of the boxes, and when counted (at the close of the polls), must be deposited in the other two boxes and carried to the clerk's office for safe keeping. These boxes (four for every precinct) must be paid for by the county commissioners and will be quite an expensive item in every county.

Japan Taking Our Cotton.

It has been officially announced that Japan will buy the cotton she needs for her mills in New Orleans.

American cotton is the best in the world for general manufacturing purposes, and as the Japanese are a shrewd people, it is to be expected that they would use it in the extensive cotton mills they have recently built.

It is also natural that they should buy their cotton from New Orleans as that is the center of the cotton trade in this country.

The Japanese mills already use between 75,000 and 100,000 bales of cotton a year and this consumption is constantly increasing. The people of Japan buy immense quantities of cotton goods and the native manufacturers have an ambition to supply the home market. The government is offering inducements for the establishment of cotton mills in

the overcrowded islands belonging to Japan where there is not enough land to give employment in agriculture to all the population and where labor can be had very cheap. Several cotton mills which were located on the Pacific coast have been transferred to Japan on account of these attractions and in the belief that the demand for cotton goods will increase rapidly in the Orient.

Japan is already a considerable purchaser of our cotton and it seems certain that her demand for it will increase very largely.—Atlanta Journal.

Sewall deserves more credit for being for free silver than Tom Watson does. In Georgia, where Watson lives, the great majority of the people are for free silver and he is on the popular side, but in Maine where Sewall lives the great majority are against free silver and he is on the unpopular side. A man shows much more sincerity and courage in advocating a measure that is unpopular with his neighbors, than one that is popular and advocated by everybody around him. Why then doubt Sewall's sincerity any more than Watson's?

Oh, but it is said that he owns stock in corporations, and therefore Populists cannot trust him. How then can they trust and vote for a candidate for Governor, who not only owns stock in several corporations but is a corporation lawyer and railroad attorney?

Democrats do not doubt Maj. Guthrie's sincerity for silver nor censure him because he is a corporation lawyer, nor should Populists doubt Sewall's sincerity simply because he is a stockholder in some corporations!—Pittsboro Record.

Dr. Frank P. Connelly, superintendent of the bureau of contagious diseases in Newark, recommends to the board of health of that city that drinking cups and dippers for general use shall be abolished from the public schools and that each scholar shall be required to provide an individual cup or glass. He makes this recommendation because he fears an increase of diphtheria in the city. He says that the common drinking cups are, in his opinion, ready means of disseminating the disease. He also discourages the exchange of pencils, sponges, rubber erasers and pens between the pupils.

No Populist can consistently or conscientiously favor fusion with the Republicans in any county in North Carolina.

Why? Because the Republican State Executive Committee, in their published address, expressly state that fusion with the Populists in any county must be with distinct understanding "that members of the Legislature of both parties shall support the nominees of the Republican caucus for United States Senator." This is the only basis and condition of fusion required by the Republicans. How can Populists accept and consent to such a requirement?

What does it mean? It means that every Populist, who is elected to the Legislature by such a fusion, must vote for the re-election of Senator Pritchard, because he has already been nominated by the Republican State convention. And Senator Pritchard is for McKinley and against free silver!

What sense or honesty can there be in any man, who professes to be for Bryan and free silver, and yet votes for a member of Legislature pledged to vote for a United States Senator who is daily fighting Bryan and free silver?—Pittsboro Record.

Some people still say these are hard times, but we learn that a Mr. T. L. Turnage, of Dongola, paid \$125 for a hog recently. That hog must have been a fine one.

S. V. Laughinghouse says the REFLECTOR reporter misunderstood his remarks in the recent Populist convention here, that he did not say "he was willing to lay aside principle for the sake of electing the ticket," but what he said was he "could not see that it was any sacrifice of principle to elect the fusion ticket."

Base Ball.

This season for the National League is drawing to a close and the champion Baltimore club is in the lead. She has just captured 5 straight games from Louisville and she heads the list with her per cent. at 707. The Cincinnati club comes next with 621, Cleveland third with 612. There is no chance for Baltimore to be defeated. Undoubtedly she has the finest team in the league. It will be nip and tuck between Cincinnati and Cleveland for second place.

DEMOCRATIC CONVENTION.

Smith, D. C. Moore, L. B. Mewborn, R. Williams, R. B. Bynum, Charles Skinner were presented.

On first ballot—Skinner 3, Bynum 5, Williams 5, Smith 12, Moore 23, Mewborn 37.

Second ballot—Skinner 1, Bynum 2, Smith 3, Moore 30, Mewborn 49. Mewborn declared the nominee.

FOR TREASURER.

The name of J. L. Little was presented and his nomination was made unanimous by acclamation.

FOR CORONER.

The names of Dr. C. O. H. Laughinghouse and Dr. B. T. Cox were presented, and Cox receiving 70 votes on the first ballot was declared the nominee.

The nominees were called for by the convention and came forward. Several brief, witty speeches of acceptance were made and received with much enthusiasm and good humor.

B. F. Cox stated that he could not accept the nomination of Surveyor, and the convention nominated J. B. Kilpatrick by acclamation.

It was the most harmonious and good humored convention we ever saw and a good day's work was done for the Democratic party.

16 TO 1

Sixteen times as many novelties in Ladies Goods as we have even shown.

Sixteen times as many styles in Ladies Dress Goods and Trimmings as we have formerly shown.

Sixteen times as handsome are our entire purchase for the coming season.

Sixteen times as much business do we expect with the many bright and brilliant goods that crowd our counters. Call and see if we can't show you the thing you want.

The republicans had a big speaking at Raleigh on Tuesday night and Daniel L. Russell made a speech and when he was introduced as Governor Russell, said:

"He got that right, my friends." I want to say that I am the republican nominee and mean to be so until the last ballot is counted unless I die. They say I am running away from Watson and Guthrie, but when the people of the state get at them there will be a judgment final against them. The democratic party is dead and damned and to be buried face downward. They wanted us to draw crowds for them to talk to. We will draw our own crowds and talk to them. They want discussions so as to get up disorder. It is the policy of the republicans to have no joint discussions this year, as was also the case four years ago. Any man who says I have ever said negroes would steal every day in the week and pray it off on Sunday is a liar."

Wilson Air-Tight Heater.

With Patent Automatic Smoke Doors.

The Wilson Heater, which is a stove for house heating, is the most remarkable that has ever been patented.

In the first place it radiates more heat than any stove known, and will save 25 per cent. in fuel over any stove made.

Second, with two or three ordinary sticks of pine stove wood it will keep the fire from 36 to 48 hours, and with ordinary care the fire will never go out.

Third, being entirely closed at the base there is no danger of fire, and it is the cleanest stove in use. It is not necessary to remove the ashes oftener than once a month. These stoves are made in different styles—the small one, which is made for bed rooms, is specially recommended for health as well as comfort.

The Wilson Heater has a great advantage over any similar stove, because it has Patent Automatic Smoke Doors, which prevent the smoke from coming into the room when you take the top off or put in the wood. These doors are so constructed that they can be taken off and put back on in no minute. These stoves can be seen our store, come and look at them.
