THE PACERS RECORD BROKEN.

John R. Gentry Paces a Mile in Two Minutes and a Half Second.

Portland, Me., September 24.—At Rigby track today the world's pacing record was broken by John R. Gentry, the magnificent horse pacing the fastest mile ever made in harness and placing the world's record at only a half second over two minutes, or 2:00½. Gentry was roundly applauded when he appeared on the track for his great trial of speed. He had been out on the track several times before, and had been the centre of all eyes.

When W. S. Andrews drove him on the track for the effort to break his record, the air was chilly and a light northwesterly breeze blew up the home stretch. His record before starting was 2:01½, which he made September 8th, at Glen falls, N. Y., in the second heat of a race with Star Pointer. Andrews had driven Gentry two warming up miles, and it was nearly sunset when he was ready to start for the event mile.

A runner appeared with Gentry to pace him. After scoring twice Andrews came down to the wire to pace the fastest mile ever accomplished by a horse in harness. The crowd cheered as he approached the starting point. "Go," shouted Starter Culbertson and hundreds of watches caught the pacer at the start. The runner's horse was within two feet of Gentry's nose as they made the first turn. On the stretch Gentry was going gracefully and steadily, getting over the ground in shape, and the runner had to work hard to keep up.

The first quarter was given by the judges as made in 29¼. People began to wonder when the half mile was finished in 59½ seconds and to look for a two minute pace. At this point the runner's driver was using the whip and making a great effort, and succeeding in keeping at the wheel of Gentry's sulky.

The third quarter was reeled off in 30¼, making the time at three quarters past 1:30¼. This was great going and now came the last quarter and home stretch.

As the horses turned into the home stretch they caught the wind in their teeth. The crowd began to shout and hurrah, and Andrews shouted encouragingly to his horse. The runner's driver also urged his horse and used the whip sparingly. All this nerved the pacer to a supreme effort and it can be seen how noble an effort he made, for with the wind in his face he made the last quarter quicker than the third quarter, doing it in 30¼, and thus covering his mile in two minutes and one-half second. This was a whole second less than his former record, which had never been surpassed by any horse, and only equaled by Robert J. (2:01½) in 1894, at Terre Haute.

GENTLEMEN'S

FINE CLOTHING!

A SPECIALTY.

It's not merely the beauty of stuff, or the stylish cut—its the fit, the finish, the exquisite stitching and pressing, the shaping of a pocket, the rounding of a corner; nothing forgotten or half done—all-round clothing. Take time to look thoroughly, to compare. There's plenty of cheap clothing, of half-price clothing. See if you want to buy it when you've seen this.

The Origin of Tobacco.

The prophet was taking a stroll in the country when he saw a serpent, stiff with cold, lying on the ground. He compassionately took it up and warmed it in his bosom. When the serpent had recovered, it said:

"Divine prophet, listen. I am now going to bite thee."

"Why, pray?" inquired Mohammed.

"Because thy race persecutes mine and tries to stamp it out."

"But does not thy race, too, make perpetual war against mine?" was the prophet's rejoinder. "How canst thou, besides, be so ungrateful and so soon forget that I saved thy life?"

"There is no such thing as gratitude upon this earth," replied the serpent, "and if I were now to spare thee, either thou or another of thy race would kill me. By Allah, I shall bite thee."

"If thou hast sworn by Allah, I will not cause thee to break thy vow," said the prophet, holding his hand to the serpent's mouth. The serpent bit him, but he sucked the wound with his lips and spat the venom on the ground. And on that very spot there sprang up a plant which combines within itself the venom of the serpent and the compassion of the prophet. Men call this plant by the name of tobacco.

Of what consequence is it that anything should be concealed from man? Nothing is hidden from God; he is present in our minds and comes into the midst of our thoughts. Comes, do I say? As if he were ever absent!—Seneca.

Yard was once any stick, rod or pole. The expression is still used with this meaning when applied to various parts of a ship's equipment, as yardarm, sailyard and the like.

CATARRH.

His Worst Enemy Defeated by

P. P. P., Lippman's Great Remedy.

FOR THREE YEARS HE SUFFERED--COULD HARDLY BREATHE AT NIGHT--ONE NOSTRIL CLOSED FOR 10 YEARS.

Mr. A. M. Ramsey, of DeLeon, Texas, was a sufferer from Catarrh in its worst form. Truly, his description of his sufferings seem little short of marvelous. Instead of seeking his couch, glad for the nights coming, he went to it with terror, realizing that another long, weary, wakeful night and a struggle to breathe was before him. He could not sleep on either side for two years. P. P. P., Lippman's Great Remedy, cured him in quick time.

DE LEON, TEXAS.
 Messrs. LIPPMAN BROS., Savannah, Ga.
 Gents: I have used nearly four bottles of P. P. P. I was afflicted from the crown of my head to the soles of my feet. Your P. P. P. has cured my difficulty of breathing, smothering, palpitation of the heart, and has relieved me of all pain. One nostril was closed for ten years, but now I can breathe through it readily.

I have not slept on either side for two years; in fact, I dreaded to see night come. Now I sleep soundly in any position all night.

I am 50 years old, but expect soon to be able to take hold of the plow handles. I feel glad that I was lucky enough to get P. P. P., and I heartily recommend it to my friends and the public generally.

Yours respectfully,
 A. M. RAMSEY.

THE STATE OF TEXAS—County of Comanche.—Before the undersigned authority on this day, personally appeared A. M. Ramsey, who, after being duly sworn, says on oath that the foregoing statement made by him relative to the virtue of P. P. P. medicine is true.

Sworn to and subscribed before me this, August 4th, 1891.

Dear Sir:—I hold accident policy No. 9787 in your Company.

On the 23rd day of June, 1896, while superintending work at my saw-mill my arm was crushed between two logs.

On the 27th day of August I filed my claim with your company for indemnity for two weeks, claiming \$25.

Your company, noting that my disability was for a period longer than I claimed, sent me their check dated Sept. 1st, 1896, for \$26.78. This is a striking contrast with companies which prefer to scale a claim instead of paying the full amount.

I thank you and your company for this prompt and generous settlement, having paid me more than I claimed.

I commend your excellent company to those desiring the best insurance.

Yours very truly,
 W. E. PROCTER.

From an Unpublished Letter From William Penn to Duke Ormonde.

I thank god I am safely arrived in the province that the providence of god and Bounty of the King hath made myne, and which the credit, prudence and industry of the people concerned with me must render Considerable. I was received by the ancient Inhabitants with much kindness and respect and the rest brought it with them; there may be about four (f. 215b) thousand soules in all, I speak, I think within compass; we expect an increase from France, Holland and Germany, as well as our Native Country.

The land is Generally good, well water'd and not so thick of wood as imagin'd; there are also many open places that have been old Indian fields, the trees that grow here are the Mulberry, white and red, walnut, black, gray and Hickery, Poplar, Cedar, Cyprus, chestnut, Ash, Sarsafraz, Gum, pine, Spruce, oake, black, white, red Spanish chestnut and Swamp which has a leafe like a willow, and is most lasting. The food the woods yeild is your Elks, Deer, Racoons, Beaver, Rabbits, Turkeys, Phusants, heath-birds, Pidgeons and Patredges, innumerable; we need no setting dogs to ketch, they run by droves into the house in cold weather. Our Rivers have also plenty of excellent fish and water fowl, as Sturgeon, rock, shad, herring, caddish, or flatheads, sheeps-heads, roach and perch, and trout in inland Streames; of foule, the Swan, white, gray, and black geose, and brands. (f. 216) the best duck and tel I ever eate, and the Snipe and the Carluo with the Snow-bird are also excellent.

The Aire is sweet and cleare which makes a screen and steady sky, as in the more southern parts of France. Our Summers and Winters are commonly once in three years in extremes; but the Winters Seldom last above ten weeks and rarely begin till the latter end of December; the days are above two hours longer, and the Sun much hotter here then with you, which makes some recompense for the sharpe nights of the Winter season, as well as the woods that make cheap and great fires. We have of graine, wheat, maize, rye, barley, oates, severall excellent sorts of beans and peas, pumpkens, water and mus meilons, all english roots and Garden stuff, good fruit and excellent Sider, the Peach we have in divers kinds, and very good, and in great abundance. The Vine (of several sorts and the signe with us of rich land) is very fruitfull, and the not so sweet as some I have eaten in Europe, yet it makes a good wine, and the worst, good vinegar. (f. 216b.) I have observed three sorts, the Great grape that has green, red, and black, all ripe on the same tree, the muskedell and black little grapes, which is the best, and may be improvd to an excellent wine. These are spontaneous. Of Cattle, we have the horse, not very handsome but good. Cow Cattle and hogs in much plenty, and sheep encrease apace.

Our town of Philadelphia is seated between two navigable rivers, haveing from 4 to 10 fathom water, about 150 houses up in one yeare, and 400 country settlements, thus do we labour to render ourselves an industrious Colony, to the honour and benefit of the Crown, as well as our own comfort and advantage, and lett there not be separated, say I.—Notes and Queries.

Thomas C. Platt.

Mr. Platt never smoked a cigar except once, when he was a stripling in Owego. He had just left Yale college and started a drug store in this now famous town of Tioga county. This was in the first days of the Republican party. He then wrote the songs for the Fremont campaign, later for the Lincoln contests, and later still for the Grant boomers. He has two trunks at his old home in Owego full of these campaign songs. All through New York state there are happy geniuses with a predilection for writing verses. But Mr. Platt has a record in this respect which is marvelous. A few years ago he was the guest of the newspaper men of the Fellowship club. He was called upon for a speech. He looked round the board and saw politicians of the two parties, literary critics, artists and dramatists. All expected a speech from him. Instead he recited an original poem which he composed that afternoon at his office, 49 Broadway, telling of the ultimate fate of a mischievous yet enthusiastic pig. Mr. Platt's poem was the speech of the evening and was received with roars of

Wilson Air-Tight Heater.

With Patent Automatic Smoke Doors.

The Wilson Heater, which is a stove for house heating, is the most remarkable that has ever been patented.

In the first place it radiates more heat than any stove known, and will save 25 per cent. in fuel over any stove made.

Second, with two or three ordinary sticks of pine stove wood it will keep the fire from 36 to 48 hours, and with ordinary care the fire will never go out.

Third, being entirely closed at the base there is no danger of fire, and it is the cleanest stove in use. It is not necessary to remove the ashes oftener than once a month. These stoves are made in different styles—the small one, which is made for bed-rooms, is specially recommended for health well as (in so)

The Wilson Heater has a great advantage over any similar stove, because it has Patent Automatic Smoke Doors, which prevent the smoke from coming into the room when you take the top off to put in the wood. These doors are so constructed that they can be taken off and put back on in one minute. These stoves can be seen our store, come and look at them.
