### WHAT OUGHT YOU TO DO? WHAT WILL YOU DO?

For some time a few of the Populist leaders and a majority of the rank and file of the party have been saying that they were tired and disgusted with the arrangement and fusion with the Republicans by which they were to aid in the election of goldbugs. They have been demanding of their leaders fusion with the Democrats and have been told that the Democrats were obstinate and would not offer any terms. By this means they have been keeping the Populists together and causing them to feel that a fusion with the Republicans was a necessity. But how about it now? This week they have had an opportunity to fuse with the Democrats both on State ticket and Congressional district, and on most liberal terms. They would get half of the offices though they would not cast over a third of the votes. Their leaders at Raleigh say no we prefer to fuse with the Republicans and thereby turn over the Supreme Court to them, to give us Dan Russell for governor, a gold-bug for Attorney General, four gold-bug Congressmen, and Jeter Pritchard a declared advocate of McKinley and the gold standard for Senator. This shows the object of the leaders of the Populist in Raleigh, just what many of the rank and file of the party have already seen. It is to lead you into the Republican party. All this is done to in the face of the fact that the Republicans had agreed to take down Russell and allow Guthrie to be elected Governor which they now positively refuse to do. This in the face too of the fact that Holton is having Populist registrars hauled down to Raleigh charged with trying to prevent an honest registration.

The matter is now settled. What will the Populists do? Will they be led into the Republican party? Will they be a party to the election of gold bugs? Take up your Caucasus of this week and read what it says and see if it does not ask you to vote for gold bugs. He says "the ticket at the head of this paper is the one which you will be asked to vote, and we believe every Populist ought to vote it." See there the name of Zeb Vance Walser. See there the names of Linney and Pearson in the 8th and 9th district for Congress. These you are asked to vote for. Don't you know they are gold bugs? Have you thought of this too that as things now stands it means Cy Watson or Dan Russell for Governor? A member of the State Populist Executive Committee said a few days ago that you could not now find a Populist negro. A few months ago there were many of them. Now they are all solid for McKinley and Russell. This means that so far as the result is concerned a vote for Guthrie, however much you may desire to see him elected, will count nothing. In conversation with a Populist last night he made this sensible remark: "As it now stands it is Russell or Watson. I would like to see Guthrie governor and if all things were equal in this race I should vote for him but when it comes to a choice as it is now between Russell and Watson it does not take a minute for me to decide for Watson." This is the view which we believe all Populists who are truly seeking good government will take and if they will do this Dan Russell will be left at home. This is a time when men ought to think and act wisely. No man who loves his country desires the triumph of Russell and Mc-

Kinley in this election. If you aid in their election and you still suffer under the pressure of bad government you will have no right to complain. Remember what some of your leaders have done and said by their action and vote for the interest of your country and all will be well.

### One of the Most Gigantic Combinations of Capital of Modern Times.

A tobacco deal, which if consummated will have under its control nearly all the largest plug tobacco manufactures in the United States.

A dispatch from New York to the Lynchburg News under date of Oct. 8 contains the following news which may prove of interest to the tobacco trade. What the outcome will be we are yet unprepared to say, but in this age of centralization we shall not be much surprised if the entire plug tobacco business of this country does not fall in the hands of these rich English capitalists.

One of the greatest financial deals known to the world is on, and a well-known Cincinnati has been handling a most important feature of the venture. This deal is one similar to those by which English capital some years ago got possession of so many American breweries. The Cincinnati who figures so extensively in the present deal is Mr. Charles M. Lindley. As in the case of the brewery deals, it is English capital that is seeking investment at this time. Their object is to buy up all the important plug tobacco manufactories in the United States and to pool their output. Most of the owners of the great concerns engaged in manufacturing the weed have placed a valuation on their plants with the intention of selling to the Englishmen. This is true also with reference to some of the well known manufactories throughout Kentucky and Ohio. The owners of but one great plant alone seem to have objected to selling. That was the Drummond Company of St. Louis. Every effort was made to have the Drummonds set a price upon their property, only to be met with a declination on their part. Here it was that Mr. Lindley came into play. He was selected to effect a deal with the Drummonds, and at one time very recently it appeared that he would accomplish what he had set out to do. The first offer made for the St. Louis concern was \$7,000,000. This sum, within the past few days has been raised to \$7,500,000. The Drummonds, however do not appear anxious to dispose of their valuable property. At least they are now giving but little encouragement to Mr. Lindley. The carrying out of the deal depends upon the capturing of their plant, and thus may be seen the confidence placed in Charley Lindley. Such a compliment has been paid but few men. Should the deal go through the entire business of manufacturing plug tobacco will be capitalized at a sum near the \$100,000,000 mark. Should the Drummonds conclude to sell an amount of English capital will come to America as great as the last Cleveland bond deal. One man has engineered the whole thing so far. Though it may not yet be known to Mr. Lindley himself, Colonel Joseph H. Hughes of Hamilton, Ohio, a gentleman who brought English money into America with which to purchase breweries, is the one credited by New York financiers with having originated this last and greatest of all deals.

More people looked at the circus pictures today than anything else. And they will be looking at the circus itself on the 29th.

[From Our Regular Correspondent.]

WASHINGTON, Oct. 16, 1896.

Senator Faulkner calls Senator Quay's absurd claim of 270 electoral votes for McKinley a burlesque, and says that Quay knows the battle is lost and being compelled to put out some kind of figures he made them so large that nobody would believe them.

A significant result of the publication of Quay's figures was their immediate effect upon the betting fraternity, the members of which may be counted upon to recognize a bluff when they see it.

The most reckless of the gamblers were offering odds of 3 to 1 on McKinley until Quay's claim was made public. They at once reduced them to 2 to 1 and in some cases the most they will now offer is 7 to 5, and there are reasons for believing that the money to offer these odds comes from Mark Hanna's corruption fund.

Senator Gorman returned from New York this week. As usual he refused to be interviewed, but he reiterated his statement that Bryan would carry Maryland.

The returns from polls made in nearly all the Congressional districts are sufficiently complete to indicate how the next House will stand, and an estimate, which is regarded by the Democratic Congressional committee as very conservative, shows that 190 silver Representatives will be elected, including Democrats, Populists and Silver Republicans. That will give the silver men control of the House by a comfortable working majority and ensures the early enactment of a law providing for the free coinage of silver, if the estimate be correct and Mr. Bryan be elected, and Democrats have no doubt of either, as Mr. Bryan has said that if elected he would call an immediate extra session of Congress for the express purpose of providing for the free coinage of silver, and the Senate is solid for silver and will remain so.

A Washington hotel proprietor has stirred up a regular hornet's nest by inviting all the other hotel proprietors to meet at his place "for the purpose of contributing to the McKinley and Hobart finance committee." Many hotel men have publicly condemned this scheme and announced that they would neither attend the meeting nor contribute and the following resolution, unanimously adopted shows what Democrats generally think of it: "Resolved, That the Columbia Democratic Club denounces the action of T. E. Roessle, proprietor of the Arlington Hotel, Washington, D. C. (who in the past has been the beneficiary of Democratic patronage through National committees and representative Democrats of the various States), in his personal efforts to tax the hotel men of this city in behalf of McKinley and Hobart finance committee, and we earnestly call upon the hotel proprietors of Washington, without regard to their political affiliations, who do not wish to confine their trade to one political party, to repudiate and repel this contemptible effort to array them in such a partisan movement. Resolved, That when hotel men arrogate to themselves the right to dictate to the people what their political course should be, we reserve and shall exercise the right to notify the traveling public of our political faith as to whom they should patronize when they visit Washington.

I attend church on rainy Sundays because—

1. God has blessed the Lords day and hallowed it, making no exceptions of hot, or cold, or stormy days.
2. I expect my pastor to be there and should be surprised if he were to stay at home for the weather.
3. My presence is more needful on Sundays when there are few, than on those days when the church is crowded.
4. Whatever station I hold in the church my example must influence others. If I stay, why may not they?
5. On any important business, rainy weather does not keep me at home, and church attendance is, in God's sight, very important.
6. Among crowds of pleasure seekers I see that no weather keeps the delicate from the ball, the concert, or the theatre.
7. Such weather will show me on what foundation my faith is built. It will prove how much I love Christ. True love rarely fails to meet an appointment.
8. My faith is to be shown by my selfdenying Christian life, and not by the rise or fall of the barometer.
9. Though my excuses satisfy myself, they must undergo God's scrutiny; and they must be well grounded to do that.

CATARRH.

His Worst Enemy Defeated by  
P. P. P., Lippman's  
Great Remedy.

FOR THREE YEARS HE SUFFERED—COULD  
HARDLY BREATHE AT NIGHT—ONE  
NOSTRIL CLOSED FOR 10 YEARS.

Mr. A. M. Ramsey, of DeLeon, Texas, was a sufferer from Catarrh in its worst form. Truly, his description of his sufferings seem little short of marvelous. Instead of seeking his couch, glad for the nights coming, he went to it with terror, realizing that another long, weary, wakeful night and a struggle to breathe was before him. He could not sleep on either side for two years. P. P. P., Lippman's Great Remedy, cured him in quick time.

DE LEON, TEXAS.  
Messrs. LIPPMAN BROS., Savannah, Ga.  
Gents: I have used nearly four bottles of P. P. P. I was afflicted from the crown of my head to the soles of my feet. Your P. P. P. has cured my difficulty of breathing, smothering, palpitation of the heart, and has relieved me of all pain. One nostril was closed for ten years, but now I can breathe through it readily.

I have not slept on either side for two years; in fact, I dreaded to see night come. Now I sleep soundly in any position all night.

I am 50 years old, but expect soon to be able to take hold of the plow handles. I feel glad that I was lucky enough to get P. P. P., and I heartily recommend it to my friends and the public generally.

Yours respectfully,  
A. M. RAMSEY.

THE STATE OF TEXAS—County of Comanche.—Before the undersigned authority on this day, personally appeared A. M. Ramsey, who, after being duly sworn, says on oath that the foregoing statement made by him relative to the virtue of P. P. P. medicine is true.

A Bird Catching Insect.

In this country we talk of insecti-  
vorous or insect-eating birds, and  
few of us have ever heard or read of  
a country where the tables are turned  
to such a degree that they speak  
of a bird eating insect, but that is  
the exact condition of affairs in  
southern Brazil and Venezuela. In  
those countries they have an insect  
called the great mantis, which is  
some four or five inches in length,  
not including his strong jaws and  
immense nipperlike fore legs.

This pair of enormous "pinchers"  
are equal in strength to those of a  
crawfish or a crab and are used by  
the giant mantis in capturing its  
prey. The food of this cannibalistic  
insect consists of spiders, grasshop-  
pers, small snakes and lizards, and,  
according to Brumlister, the most  
robust specimens of the genus will  
not stand aside with an empty stom-  
ach if he can manage to get his nip-  
pers on a bird of the size of a canary,  
warbler or chickadee. The great  
mantis resembles a combined leaf  
and twig both in color and shape  
and being aided by this resemblance  
is able to stealthily approach its  
prey, whether it be reptile, insect  
or bird, and seize the unsuspecting  
creature with its razorlike claws.—  
St. Louis Republic.

A hat is "pounced" or smoothed  
by means of a machine which pol-  
ishes the whole surface finely and  
smoothly with emery paper. For-  
merly this process was done by  
hand, the workmen using pumice  
stone for that purpose.

Avarice is generally the last pas-  
sion of those lives of which the first  
part has been squandered in pleas-  
ure and the second devoted to am-  
bition.—Johnson.

## Wilson Air-Tight Heater

With Patent Automatic Smoke Doors.

The Wilson Heater, which is a stove for house heating, is the most remarkable that has ever been patented.

In the first place it radiates more heat than any stove known, and will save 25 per cent. in fuel over any stove made.

Second, with two or three ordinary sticks of pine stove wood it will keep the fire from 36 to 48 hours, and with ordinary care the fire will never go out.

Third, being entirely closed at the base there is no danger of fire, and it is the cleanest stove in use. It is not necessary to remove the ashes oftener than once a month. These stoves are made of different styles—the small one, which is made for bed rooms, is especially recommended for health as well as comfort.

The Wilson Heater has a great advantage over any similar stove, because it has Patent Automatic Smoke Doors, which prevent the smoke from coming into the room when you take the top off to put in the wood. These doors are so constructed that they can be taken off and put back on in one minute. These stoves can be seen our store, come and look at them.
