ELECTION FACTS AND FIGURES.

There were 444 votes in the electoral college in 1892. This year the number is increased to 447.

The shortest term served by any President was one month. It was by William H. Harrison. He was inaugurated on March 4, 1841, and died April 4, following.

The 25th President of the United States will be elected on November 3rd. His name will be William J. —.

Cleveland's largest majority of the popular vote in 1892 was in Texas. That State gave him 157,704 majority over Harrison. Alabama came next with 128,941 majority. Cleveland got only 2 votes in Idaho.

The Prohibitionists put their first candidate in the field in 1876, when G. C. Smith was the nominee. He polled 9,522 votes. They have had a candidate in each succeeding presidential election and their votes have steadily increased, 264,133 ballots having been cast for Bidwell in 1892.

At the last presidential election North Carolina gave Cleveland 132,951 votes and Harrison 100,332, a majority of 2,709 for Cleveland.

The closest election since 1894 was in 1896, when Tilden was elected over Hayes, though counted out by the returning board. The official record of that election, as finally determined was: Hayes 4,033,950 popular votes representing 180 electoral votes, and Tilden 4,284,885, representing 184 electoral votes.

The Democrats ran no electoral ticket in 1992 in Colorado, Idaho, Kansas and Wyoming, but voted for the Populist electoral ticket to bring about the defeat of the Republicans.

The Democratic popular vote in 1892 was 5,556,918 an increase of 18,685 over 1888. In 1892 the Republican popular vote was 5,176,108, a loss of 264,108 over the vote of 1888.

North Carolina has had three Presidents—Andrew Jackson, James K. Polk and Andrew Johnson. Virginia has had seven—George Washington, Thomas Jefferson, James Madison, James Monroe, William H. Harrison, John Tyler and Zachary Taylor. —Charlotte Observer.

Skinner's Epitaph.

In a joint discussion at Aurora last Tuesday between Harry Skinner and W. H. Lucas, the following lines were gotten off by Col. Lucas — Skinner in his rejoinder:

"Here lies the tricky Harry Skinner, All his life a political sinner; His crimes are many, his sins are great. And he would go to the devil for office sake, But now he is dead and we hope at rest. And in his death his country is blessed."

This brought loud cheers from the audience.—Washington Messenger.

Democrats to the Front.

The Republicans and Populists are doing some wild figuring on the result of the election. Some of them are reporting around that the registration books show only a small fraction over one hundred more white voters than colored in the county. But in their calculation they miss the true figures by nearly 600. The fact of the matter is the majority of the white registration over the colored is larger than it has been in any previous year, and if the Democrats will just turn out solidly to the polls next Tuesday and do their full duty they can elect every man on the ticket.

The most sanguine of the fusionists only figure up 200 majority for their ticket, when with the error they made in summing up the registration on which their calculations are based, it is easy to see that the Democrats have got them down and are going to win.

Now Democrats turn out next Tuesday. Don't a man of you stay away from the polls. Go there, vote the straight ticket and work, and when the votes are counted out you will find you have elected your entire county ticket and that old Pitt has given a good majority for Lucas, Watson and Bryan.

The Wrong Mr. Moore.

Yesterday a colored man who appeared by his dress to be fairly fixed stepped up to one of the windows at the postoffice and asked to see "Mr. Moore" on private business. Forwarding Clerk W. W. Moore went out into the corridor near the stairway leading to Collector Rogers' office, and the negro approached him with a little hesitation.

"Mr. Moore," he began, "I haven't fixed my taxes yet, and I was told that if I would come to see you, I could get you to fix 'em for me. I—"

But he proceeded no further, for Mr. Moore informed the negro that he was attending only to his own taxes, or words to that effect, and that the negro was pouring his tale of woe into the wrong Mr. Moore's ears. The Mr. Moore he sought was Secretary C. B. Moore of the Republican Congressional committee.—Asheville Citizen.

Chaunaa Manly's Prediction.

"I have received reports from nearly all the counties in the State. There is the largest registration ever had in North Carolina, and the vote, if cast, will be in excess of 300,000. The gain in the white vote has exceeded that in the black vote even as the registration now stands. From almost every county comes the news of strong Democratic organization, and if I can rely on the reports of several of the leading Democrats from different sections who have been at the headquarters this week, our folks are waking up to splendid work. Especially is this activity noticed in the plain Democratic workers and the young men.

Bryan will carry this State by over 30,000. Our State ticket is as certain to be elected as it is that November will come, if the fraudulent registration of negroes is prevented being voted against us, and the Democrats, who are now registered, will vote.

CY WATSON'S VOTE.

He Will Receive a Plurality of 31,288 Over Russell—His Vote Will Be 156,650.—Will Exceed Vote For Guthrie and Russell by 3,250.—Guthrie's Vote Will Be 27,840.

We print below a statement of the outlook in the coming election, prepared by a gentleman who has given careful and long study to the election figures, and whose position entitles his views to the greatest weight. He seldom ever makes predictions, and never unless he presents the facts that show upon what his predictions rest. The predictions and figures below show a thorough familiarity with the political statistics of the State, and the deductions drawn from the figures will be regarded as eminently conservative by those who have made a careful examination of the vote in North Carolina.

The campaign has progressed sufficiently far to enable us to make a fairly accurate forecast of the result. That Bryan will carry the State by an overwhelming majority, is conceded by all intelligent observers. The increased registration, particularly in Democratic counties, discloses the fact that we can safely count upon a full Democratic vote, something we have not had since 1888. Very considerable gains will be made from the Populists for the entire State tickets. Gains are likewise reported from silver Republicans. The only thing that can bring about Republican success will be the failure of Democrats to vote, and the successful vote by Republicans of illegal registered negroes. The following figures based on former votes, make these facts apparent:

In 1892 the vote for Governor Carr was 135,519. If we add to this the natural increase of 6 per cent., which is the lowest percentage of one Presidential year over another in twelve years, we have 8,131, which added to Governor Carr's vote, makes 143,650. There is no doubt that 5,000 men who voted for Weaver in 1892 will vote for Watson this year; at least 2,000 silver Republicans will do likewise, which, added to the former figures, makes a total Democratic vote of 150,650. The total vote of the State in 1888 was 282,686; in 1892 there was 278,043; net loss of 2 per cent., where as there should have been a gain of 6 per cent. This discloses the fact that at least 22,000 voters did not vote in 1892. The exodus principally took place between these dates during which time some 10,000 negro voters left the State. Many Democrats in 1892 were dissatisfied with the nomination of Mr. Cleveland, and while not willing to leave the party, staid at home. So it is fair to assume that one-half of the remaining stay-at-home vote, amounting to something like 6,000, were Democrats, who will vote in this election. If this be added to the former ascertained vote, we have as the conservatively estimated Democratic vote for this year 156,650.

In 1892 the Republicans cast for Furches 94,684, and for Harrison 100,342. If we take the larger vote and add to it 6 per cent. as the natural increase, we have 106,362, from which we should deduct 2,000 silver Republicans who have left the party, which leaves 104,362. In 1892 a larger number of negroes voted the Populist ticket. They will vote the Republican ticket this year. It is estimated that they number 15,000 which, added to the 104,362, makes a total vote which Russell ought to expect in this State of 119,362. To this must be added

6,000 stay-at-home votes, which would make a total vote of 125,362. This calculation assures Watson a plurality over Russell of 31,288. According to these figures the Populist vote should be as follows: For Exam in 1892, 47,840 (we take Exams vote because it is the largest, although Weaver only received 44,736), from which must be deducted 5,000 Populist who will vote the Democratic ticket this year, and the 15,000 negroes, who will vote Republican. This means a balance of 27,840, which should be Major Guthrie's vote. If Maj. Guthrie's vote is added to Russell's vote we have a total of 153,202, which represents the maximum vote which can be polled for the fusion candidates on the State ticket. This vote is 3,250 less than the estimated Democratic vote. No one who is acquainted with the politics of this State now, will claim that the fusion State ticket will receive a total combined vote of the Republicans and Populists. Every vote less than this combined vote will add to the Democratic majority.—Kaleigh News and Observer.

This year the women of Utah, Colorado and Wyoming will vote for President.

The greatest difficulty about the Republican campaign just at present is that McKinley is the worst whipped presidential candidate the country has ever had, and Hanna knows it.—Atlanta Constitution.

Chairman Ayer is quoted as saying that Maj. Guthrie had "played thunder." This means that Maj. Guthrie has not been willing to talk for silver in public and trade with gold-bags on the sly.—Raleigh News and Observer.

Major Guthrie, Populist nominee for Governor, urges all free silver men to vote only for free silver candidates; not to vote for gold bugs or any candidate who will vote for gold bugs. The election of Bryan can avail nothing for silver if enough gold bug Senators and Representatives are elected to control the Congress. Therefore, every man who honestly wants free silver must vote for the Democratic nominees for the Legislature. They alone have pledged themselves to vote only for a silver man for the United States Senate.—Statesville Landmark.

A Story of Crisp.

Here is a little story of the late Charles Frederick Crisp: In one of the counties of his district there was a little weekly newspaper to which he faithfully subscribed. When he would come home from Washington he always sought the editor and demanded to know if his subscription had not expired. On one of these occasions, meeting with the editor, he handed him a \$5 bill saying:

"I have missed three issues of my paper and I am sure I must be in arrears. Take that and call it square."

"But," said the editor, "the paper is only a dollar a year, and your subscription won't be out until January!"

"That's all right," replied Crisp, "but you keep the money," and then, in a whisper: "I never saw an editor yet that didn't need it!"

To steal a man's vote by coercion, direct or indirect, is precisely the same as stealing it out of the ballot-box. And the theft is the same, whether done by a railroad magnate or a political heel.—Richmond Dispatch.

RICKS & TAFT.

We Sell Goods Cheaper Than Any Other House.

DRESS GOODS.

It gives us pleasure to announce that we are now displaying the most extensive and attractive stock of wool Dress Fabrics ever imported by us, selected with the utmost care as to desirability of weave, beauty of effect and excellence of quality; the result has been to enable us to present a superb variety of superior grade goods in a truly wonderful assortment of the most recent creations of wool and silk and wool "fashion's favorites."

Handsome materials and fashionable fabrics will be difficult to obtain this season, for the reason that importation are much below the average, particularly in fine silks and dress fabrics, and the American manufacturers have been obliged to curtail their productions.

Each department of our business is fully prepared to show the newest and correct materials, styles and colorings for fall and winter, and we strongly recommend an early examination of the various departments.

RICKS & TAFT, The Money Savers.

There will be a big Democratic rally at Grindool tonight. Messrs. L. I. Moore, F. G. James and others will make speeches. A grand time is expected.

A man who keeps putting off advertising until he is more prosperous is like a dog trying to catch his tail. There is plenty of motion but no progress.—Spatula.

If every dealer sells as many wool stoves as Baker & Hart have sold Wilson heaters this season, the coal trust will have a hard time working its goods off on the people.

John C. Dancy, colored, spoke to the colored people here on Monday. Thus the effort to unite the colored vote goes on. There is still another colored speaker on the programme to be here before the election.

Wilson Air-Tight Heater.

With Patent Automatic Smoke Doors.

The Wilson Heater, which is a stove for house heating, is the most remarkable that has ever been patented.

In the first place it radiates more heat than any stove known, and will save 25 per cent. in fuel over any stove made.

Second, with two or three ordinary sticks of pine stove wood it will keep the fire from 33 to 48 hours, and with ordinary care the fire will never go out.

Third, being entirely closed at the base there is no danger of fire, and it is the cleanest stove in use. It is not necessary to remove the ashes oftener than once a month. These stoves are made of different styles—the small one, which is made for bed rooms, is specially recommended for health as well as comfort.

The Wilson Heater has a great advantage over any similar stove, because it has Patent Automatic Smoke Doors, which prevent the smoke from coming into the room when you take the top off to put in the wood. These doors are so constructed that they can be taken off and put back on in one minute. These stoves can be seen our store, come and look at them.
