SLIPPERS —AND— SHOES.

AT THE SLIPPER COUNTER

You could hear these exclamation:

"Oh, Mamma, buy me them."

"Aint they darlings?"

My, where did you get them Mr. Munford?"

"Just the thing for the baby."

"The ones that will give wife solid comfort and stop that tired feeling."

"The only up to date line that I have ever seen in Greenville."

"Why is it that Mr. Munford's salesmen are so anxious to show them?"

Mrs. Hardtop please.---
"Because they know they will suit the old and the young."

In High Cuts

Ziegler Bros. SHOES.

We still lead in styles.

No trouble but a pleasure to show them.

C.T. MUNFORD

THE LEGISLATURE.

Condensed Report of Proceedings.

TWENTY-FIRST DAY.

SENATE.

The senate met at 10 o'clock.

Bills and resolutions were introduced as follows:

Clark, authorizing the appointment of tax collectors.

Farker, of Randolph, to prevent introduction and dissemination of dangerous insects.

Hardison, that no company or corporation shall catch fish by seine or net in any water of the state without first obtaining a \$2,500 annual license from the treasurer.

Early, to prevent fishing with nets in Albemarle sound and rivers emptying therein.

Alexander, to impose a fine not exceeding \$50 or imprisonment not more than thirty days on tramps and vagrants.

The special order was taken up, being the following resolution:

Resolved, by the senate, the house of representative concurring. That our senators and representatives in congress be and are hereby instructed upon all occasions and at every opportunity, to vote for free and unlimited coinage of silver at the ratio of 16 to 1, independent of any international agreement, whether the same be in the nature of an independent bill or be attached as a rider to any bill or species of legislation.

Butler offered the following substitute:

Section 1. That our senators be instructed and our representatives requested to use every honorable and lawful effort to not only secure free and unlimited coinage of both gold and silver, without waiting for the consent of any foreign country, but also to further increase the amount of legal tender sufficient to meet the needs of our increasing population and business and to abolish the national banking system, and to have the government issue all money and currency, as the constitution provides and requires, and to prevent discrimination against any of the various kinds of lawful money in the United States, and to prevent the retiring of greenbacks.

Sec. 2. To prevent special favors from being given to monopolies and trusts and to take away from every person or corporation any special favors, privileges, franchises or subsidies which have or may tend to create monopolies or trusts.

Sec. 3. To prevent the passage of the bill now before congress known as the Pacific Funding bill or any similar measure to fund or extend the debts of the Pacific railroads and to have the government foreclose its mortgage on these roads and to take charge and operate them.

Sec. 4. To secure the establishment of postal telegraph and telephone system, also government postal savings banks.

Sec. 5. To check and prevent dangerous extension and usurpation of powers by the executive and federal judiciary not granted by the constitution.

Sec. 6. To secure the adoption of a graduated "income tax" or any measure to equalize taxation and place upon the wealthy its share and burden of taxation.

On the roll call Butler's substitute passed its third reading.

HOUSE.

At 10 o'clock the house met.

BILLS AND RESOLUTIONS.

Pool, to appropriate \$500 to Albemarle colored fair at Elizabeth City.

[CONTINUED ON SECOND PAGE.]

ANOTHER CLOSE CALL.

The John Flanagan Buggy Co's. Factory Has a Narrow Escape.

About 4 o'clock Sunday afternoon parties passing by the factory of the John Flanagan Buggy Co. saw smoke issuing from the building. The fire alarm was sounded and for a while the whole town was in the midst of great excitement. When the door was thrown open fire was seen burning rapidly from floor to ceiling in one end of the wood-working room.

The fireman and a large number of citizens were quickly on hand and the fire was soon extinguished.

The buggies and most of the stock and tools were hurriedly moved out to a safe distance.

The origin of the fire is a mystery. No one had been in the shop during the day and there had been no fire in any of the stoves since the day before.

There was some damage to the building, and also to the stock, the latter being from hurried moving and from water, all reaching probably \$300. There was insurance on the building but none on the stock.

The discovery of the fire in its early stages was fortunate, for had it made sufficient headway to get beyond control of the firemen there would have been a large and far reaching blaze.

"Potash in Agriculture."

Is the title of a pamphlet, published by the German Kali Works, No. 93 Nassau street, New York, N. Y. This book is known to many of our readers from its first edition, published a few years ago. The second edition contains many valuable improvements.

The contents embody a collection of results obtained with fertilizers at our Experiment Stations. It would appear from these conclusions that many brands of fertilizers now on the market do not contain as much potash as they should for the production of the best results. It would certainly pay every farmer to write for a copy of this book, which we understand is sent free.

The Advertising Light.

The man who advertises stands before the public in the full, legitimate and dignified prominence of one who is proud of his business, has a right to be proud of it, is doing a lot of it, and wants to do more it; and he is the kind of man that everybody wants to do business with, for just so long as the moth will be attracted by the candle light, so long will trade swarm around the advertising light of business.—Tobacco.

Beautiful Work.

Bob Greene & Co. undertakers, have placed one of their caskets on exhibition in the window of H. C. Hooker & Co's store. This casket which is a sample from their stock, is the handsomest piece of work in this line ever shown here. It is of the canopy top pattern brocaded in white, the upholstering being white silk.

Here Two Days Only.

Dr. h. O. Hyatt will be at the King House on Monday and Tuesday, Feb. 15th and 16th, for the purpose of examining and treating diseases of the eye, ear, nose and throat. Parties needing his services should remember the dates.

Card of Thanks.

We desire to return sincere thanks to the fireman and citizens of Greenville, both white and colored, for their prompt response to the fire alarm at our factory, Sunday afternoon, and the valuable service rendered in saving our property from the flames.

Liberal Commission on subscription rates paid to agents.

MONDAY, FEBRUARY 1, 1897.

THE LEGISLATURE.

Sutton, of Cumberland, to add that county to the eastern criminal circuit.

Young, to create the office of public printer; to let to the lowest responsible bidder all printings and binding; may let it to different persons; the salary to be \$1,500, the term of office four years, appointment to be by the governor.

Sutton, of Cumberland, to allow the governor to convene special courts in great emergencies.

Sutton, of New Hanover, offered a resolution providing for the impeachment of Judge Norwood.

Following is the text of the resolutions and articles of impeachment:

Resolved, That the house of representatives of the State of North Carolina exhibits and propounds to the honorable senate of North Carolina this impeachment against Honorable William L. Norwood, judge of the superior court for the Twelfth judicial district of North Carolina, and presents and alleges:

Article 1. That said Norwood, judge of the superior court as aforesaid, hath been, and doth yet continue to be, guilty of habitual drunkenness while holding his office as aforesaid.

Article 2. That said Norwood, while engaged in the exercise of his office, hath been intoxicated and thereby rendered incapable and incompetent to properly exercise and perform the duties of the same.

Article 3. That said Norwood while acting as judge hath been guilty of drunkenness in public places, to wit: at Burnsville, November 6, 1896, at Lenoir, September 14, 1896; at Lumberton at spring term, 1895, and Rockingham at spring term, 1895, and also at Wilmington on or about day of April, 1895.

Wherefore it is demanded that the honorable senate take due order in this behalf and cite said Norwood to appear at its bar to answer and for trial according to the constitution and laws of the state.

Resolved, That the speaker of this house is hereby directed to appoint a committee of three members of this house, learned in the law, who shall deliver these articles of impeachment to the presiding officer of the senate and demand that order be taken thereon, and who also shall prosecute this impeachment in behalf of the house of representatives and of the people of the state.

The resolution of Hauser regarding information as to salaries of railway officials over \$2,500, which caused such heated discussion, came up on third reading and passed—ayes, 51; noes, 34. There was applause at its passage.

The bill, applying only to Moore county, to make it a misdemeanor for the owner of poultry to allow the latter to trespass upon cultivated grounds caused much laughter. It passed.

By leave Sutton, of Cumberland, introduced a bill to extend equitable and preventive remedies, making it lawful

for any person or corporation as plaintiff to bring action against any other person or corporation as defendant to prevent or restrain any unlawful injury or damage or wrong to plaintiff, or to compel performance of any act or deed to which plaintiff may be lawfully entitled, and no such action shall be dismissed or complaint be demurred on the ground that the plaintiff has adequate legal remedy. Actions herein authorized are to be subject to all the laws and rules of procedure as other actions and writs of injunction may issue as ancillary remedies as in other actions and all issues of fact in any action herein authorized shall be tried by jury as in other cases.

THE NORTH CAROLINA PRESS, TAKE NOTICE.

OFFICE OF THE EX. COM. OF THE GREENSBORO INDUSTRIAL AND IMMIGRATION ASSOCIATION.

GREENSBORO, N. C., Jan. 15, 1897.

The idea which the Greensboro Industrial and Immigration association has emphasized perhaps more than any other is that of home patronage. The association has always fostered as far as it was able every worthy home enterprise. The individual members have made it a rule to buy at home. By precept and example this principle has been drilled into our business community until it has become the general rule of practice.

We believe that nothing else has contributed so much to the comparative prosperity which the business interests of Greensboro have enjoyed during the last two or three years of depression, and so marked have been the good effects here of this habit of home patronage, that we believe the adoption of the same plan elsewhere can be the means of immeasurable benefit to the State at large. To this end and in the interest of the general good of the State as a business community, we cordially invite all chambers of commerce and other business organizations in North Carolina to unite with us during this year in popularizing this idea, and see what will be the effect of a general movement in this direction.

As this is a matter of some public interest, the newspapers of the State are respectfully requested to copy.

Great Girl.

"Greatest girl at our boarding house you ever saw," declared Quirkly, with a giggle. "Never says what you expect her to say, and you'd be disappointed if she did, after hearing her."

"Dry goods clerk sits opposite her, and asked the other day if she really thought there were bargains in the matrimonial lottery. 'Of course there are,' she answered with a laugh. 'I myself have been marked down from 38 to 25.'"

"Old bachelor that sits next to her at the table spilled his ice cream in her lap. She never screamed nor ran away, but effusively took him by the hand and congratulated him on the coolness of the entire proceeding."

"Dude boarder had the nerve to propose to her, and she took half an hour explaining to him how it was all she could possibly do to support her mother and herself. When she thought of taking on any more obligations, she would certainly have another talk with him. The chump went around telling it, proud as a turkey gobbler."

"Real estate fiend wanted to sell her a lot for twice what it was worth. She closed the deal by offering to take half his commission and give him a quit claim to the lot. He

still scratches his head and looks at her from the corners of his eyes."

"Think of laying my own fortune at her feet. Haven't the slightest idea that she will accept, and for that very reason am inclined to think that she will."—Detroit Free Press.

Human Nature.

The Next Door Neighbor—Just finished painting your fence, eh? Why don't you put a sign on it to warn people?

The Householder—Sh! If I did, every passerby would want to see if the sign spoke the truth. It'll have a chance to dry now.—Pearson's Weekly.

CATARRH

HIS WORST ENEMY

DEFEATED

For Three Years He Suffered—Could Hardly Breathe at Night—One Nostril Closed for Ten Years.

Mr. A. M. Ramsey, of De Leon, Texas, was a sufferer from Catarrh in its worst form. Truly, his description of his sufferings seem little short of marvelous. Instead of seeking his couch, glad for the night's coming, he went to it with terror, realizing that another long, weary, wakeful night and a struggle to breathe was before him.

DE LEON, TEXAS.
Messrs. Lippman Bros., Savannah, Ga., GENTS: I have used nearly four bottles of P. P. P. I was afflicted from the crown of my head to the soles of my feet. Your P. P. P. has cured my difficulty of breathing, smothering, palpitation of the heart, and has relieved me of all pain. One nostril was closed for ten years, but now I can breathe through it readily.

I have not slept on either side for two years; in fact, I dreaded to see night come. Now I sleep soundly in any position all night. I am 50 years old, but expect soon to be able to take hold of the plow handles. I feel glad that I was lucky enough to get P. P. P., and I heartily recommend it to my friends and the public generally.

Yours respectfully, A. M. RAMSEY.

THE STATE OF TEXAS, ss.:
County of Comanche, ss.:
Before the undersigned authority, on this day, personally appeared A. M. Ramsey, who, after being duly sworn, says on oath that the foregoing statement made by him relative to the virtue of P. P. P. medicine, is true.

Sworn to and subscribed before me this August 4th, 1897.

J. M. LAMBERT, N. P.,
Comanche County, Texas.

CATARRH CURED BY P. P. P.
(Lippman's Great Remedy) where all other remedies failed.

Woman's weakness, whether nervous or otherwise, can be cured and the system built up by P. P. P. A healthy woman is a beautiful woman.

Pimples, blotches, eczema and all disfigurements of the skin are removed and cured by P. P. P.

P. P. P. will restore your appetite, build up your system and regulate you in every way. P. P. P. removes that heavy, down-in-the-mouth feeling.

For blotches and pimples on the face, take P. P. P.

Ladies, for natural and thorough organic regulation, take P. P. P., Lippman's Great Remedy, and get well at once.

Sold by all druggists.

HELEN KELLER.

*The Manner in Which She Was Taught
 to Speak and to Read Speech.*

Helen Keller is a household name both in America and foreign lands. She is blind as well as deaf. That the walls of silence and darkness which shut her from the world have been broken down, that her soul has been set free and the seal of silence taken from her lips, seems miraculous to those who know not how it was done. The limits of this article will permit only the briefest outline of her story.

Rendered both deaf and blind at 19 months by severe illness, she passed the first seven years of her life in silence, darkness and ignorance. Who could have suspected the exquisite soul imprisoned in that mute and darkened body? A bright, patient, loving woman came, and the miracle began.

There was only one possible avenue of approach to the beleaguered soul. The sense of touch remained, and to that the teacher, Miss Annie M. Sullivan, addressed her efforts. Through finger spelling the child at length obtained the idea of language, and with this key other doors could be unlocked. Having naturally a fine mind, she learned rapidly when once started and developed a phenomenal memory.

While Helen received information only through spelling and in limited amount, she never forgot. To tell her something was like writing it in a book. When you wished the fact again months or even years afterward, you had only to ask for it. But later, as she began to read books, to meet more people and to receive impressions through more channels and in larger numbers, her memory ceased to be so absolutely reliable.

Until she was 11 years of age her only means of communication was by finger spelling. Then, at her own urgent request, she was given lessons in speech by Miss Fuller, principal of the Horace Mann school. The rapidity with which she acquired the ability to speak was unprec-

edented. ~~Her~~ soft attached finger spelling as a means of expression and has ever since used speech alone.

But others still had to communicate with her by their fingers. She then expressed a strong wish to learn to read the lips by touching them with her fingers. For the purpose of attempting this difficult task and to get special training in speech she came to the Wright-Humason school in New York city. During the two years that she remained there she succeeded in acquiring the power of understanding people when they spoke to her, and at the same time pursued regular courses of study in arithmetic, history, physical geography, French and German. She has read much of the best literature and is very intelligent on the topics of the day. Her own speech is now excellent, and she has entered a girls' school in Cambridge, Mass., where she is taking a course preparatory for Radcliffe college.

When being spoken to, she places her index finger lightly upon the lips, while the other fingers rest upon the cheek, the middle one touching the nose. Her thumb is upon the larynx. This position gives her the greatest possible information concerning the elements of which speech is composed.—John Dutton Wright in Century.

Air Used by a Human Being.

Dr. Radcliffe Hall makes the following interesting calculation on the amount of air a human being of the average size and proportions will consume in the space of one minute when in repose, and also when in the different degrees of activity. When at rest, we consume 500 cubic inches of air per minute; if we walk at the rate of one mile an hour, we use 800; two miles, 1,000; three miles an hour, 1,600; four miles an hour, 2,300. If we start out and run six miles in an hour, we will consume 3,000 cubic inches of air during every minute of that time.—St. Louis Republic.

THE

REVIEW OF REVIEWS

Monthly

AN INTERNATIONAL MAGAZINE

Illustrated

Edited by ALBERT SHAW

"If only one magazine can be taken, we would suggest the REVIEW OF REVIEWS, as covering more ground than any other magazine."—Board of Library Commissioners of New Hampshire, 1896.

THIS magazine is, in its contributed and departmental features, what its readers, who include the most noted names of the English-speaking world, are pleased to call "absolutely up to date," "thoroughly abreast of the times," "invaluable," and "indispensable." It is profusely illustrated with timely portraits, views, and cartoons. Its original articles are of immediate interest, by the best authorities on their respective subjects. The Editor's "Progress of the World" gives a clear, rightly proportioned view of the history of the human race during the current month. The "Leading Articles of the Month" present the important parts of the best magazine articles that have been written in every part of the world. The newest and most important books are carefully reviewed. Indexes, chronological records, and other departments complete the certainty that the reader of the REVIEW OF REVIEWS will miss nothing of great significance that is said or written or done throughout the world.
