They don't cost too much. They are ready to put on without a wrinkle. You

of the season--we've got them here plenty as pie at a fair. We show the best.

C. T. MUNFORD.

Base Ball.

Boston, Mass., May 5.—The Bostons defeated the Philadelphias again today, the home team bunching their hits in the seventh. Young Stahl distinguished himself with the stick. Score. Boston, 7; Philadelphia, 5.

Pittsburg, May 5.—The Pirates and the Colonels played two games and split even on the day. Hawley's miserable work in the first inning and half was responsible for the loss of the first game. Hemming was taken out in the third inning because the home team was hitting him hard. The second game was well played. Both pitchers had their opponents guessing most of the time. Score. First game—Pittsburg, 8; Louisville 10.

Second game—Pittsburg, 3; Louisville, 2.

New York, May 5.—New York Washington game postponed—wet grounds.

Chicago, May 5.—In but one inning were the Colts able to hit Donohue to advantage, while the Browns had their hits in four different innings, finally winning out in the ninth on two singles, a double and Connor's fourth hit, a triple. Score. Chicago, 7; St. Louis 9.

Brooklyn, May 5.—Superb pitching by Kennedy, brilliant work by the fielders and ability to hit Pond at opportune moments contributed to a victory for Brooklyn today. Score. Brooklyn, 5; Baltimore, 3.

Cleveland, May 5.—The Reds and Indians played an interesting game today. Both pitchers did good work. Score. Cleveland, 2; Cincinnati, 3.

The Meeting.

There was another very large congregation last night. Rev. B. H. Melton preached about "The Conversion of the Three Thousand," dividing his sermon under the sub-headings, the preacher, the sermon and the result.

The choir has grown larger and was placed in rear of the pulpit. This gives more room in the auditorium, and if necessary chairs will be placed in the church tonight so no one need stay away for fear of not being able to get a seat.

At tonight's service Prof. F. F. Dawson will repeat the solo, "Diamonds in the Rough," by special request.

The cottage prayer meeting will be held at the home of Mr. W. R. Parker Saturday morning at 10:30 o'clock.

SECOND WARD VOTER ENDORSED.

MR. EDITOR.—I want to endorse every word that "Second Ward Voter" had to say in Thursday's REFLECTOR in regard to the action of their misrepresentative from that ward, in casting his vote as he did for Clerk. I think when any representative of the Democrats cast his vote as he did, we as Democrats have a right to demand his resignation and we want it, and want it at once. I understand that this Councilman has approached several of the voters of the town and asked their opinion as what he should do, and a good many, if not all of them, have told him in no uncertain terms that he ought to resign. If he will do so all well and good, but if he will not let us get up an indignation meeting and force his resignation.

It is better to have no representation at all on the Board than to have a man who so misrepresents us who elected him. We want a "Democrat" who is a Democrat from principal and not a man who is anything for the dollars and cents there is in the office.

A DEMOCRAT.

Town Council.

The old Board of Town Councilmen held their last regular monthly meeting Thursday night and transacted the usual business.

Some changes were made in the special tax list as levied a month ago. The tax on sales stables was reduced from \$15 to \$10; on dogs and goats from \$2 to \$1; on hotels from \$15 to \$7.50; on restaurants from \$2.50 to \$2.

S. T. White and H. C. Hooker were appointed a committee to settle with the Tax Collector.

Stemmeries.

When the building just started for B. E. Parham & Co. is completed, the Greenville tobacco market will have two well equipped stemmeries. The plant of P. H. Gorman & Co., has already been doing considerably work in this line, and with two good stemmeries in operation next season the facilities of the market will be largely increased.

Pinned a Note on the Door.

The Observer says a Charlotte woman who wanted to make a visit before her husband went home to dinner, pinned a note on the front door telling him where he could find the key. A negro read the note, got the key and ransacked the house, carrying off what money and jewelry he could find.

She Was Surprised.

"This is strange!" exclaimed young Mrs. Torkins.

"To what do you refer?" asked her husband.

"The Turkish army captured a Greek magazine and found nothing in it. I don't see what they got it out for if they didn't have a few war articles and some advertisements in it."

FRIDAY MAY 7, 1897.

The Drummer's License Tax—Inoperative and Void.

Section 51, Revenue Act of 1897 provides that "Every person, firm, company or corporation who shall engage in business of selling or offering for sale by a drummer or drummers, with or without sample, goods, wares or merchandise of any description, in this State, shall, before so selling or offering for sale any such goods, wares or merchandise, pay to the State Treasurer a tax of fifty dollars (\$50.00) and obtain a license, which shall operate one year from its date."

It is evident that the General Assembly, by saying "Every person, firm, company or corporation meant that this tax should apply to all drummers alike, both foreign and resident. But as the Supreme courts, both national and State, have decided that a State can not tax foreign drummers, therefore this Section is inoperative and void as applied to foreign drummers. It is further evident that as the section was intended to apply to all drummers alike, and can not apply to foreign drummers, it should not, and cannot justly apply to resident drummers. It is, also, evident that the Legislature intended to put this tax upon a class. If their power fails as to a part of the class there is no reason to believe it was intended to be in force as to the rest. It is not rational to ascribe to the Legislature a purpose to impose a burden upon a portion of that class resident within its borders, and exempt that portion of the same class who are non resident.

I hold, therefore that Section 51, Revenue Act of 1897, inasmuch as it cannot apply to all drummers alike as clearly intended, it cannot apply to any drummers and is therefore inoperative and void.

Respectfully,
 W. H. WORTH,
 State Treasurer.

Weekly Crop Bulletin.

The week ending Monday, May 3rd, was again generally favorable for farm work, but crops made comparatively slow growth on account of the drought which was, however, broken throughout the State by generous rains April 30th and on May 1st. In a few counties the rainfall was quite heavy, but averaged for the State about 1.50 inches. The week was fairly bright and warm until Sunday, when it turned cold. The cold weather following the rain will check growth a little, but the prospects are now decidedly better.

EASTERN DISTRICT.—Crops made slow growth this week on account of the dry weather, but farm work progressed favorably, as grass is not yet troublesome. The early part of the week was cool in the

Northern portion, with light frosts doing no damage, but over the greater portion of the district the weather was bright and warm. Sunday after the rain was very cool. The drought was broken by fine showers Friday and Saturday, which thoroughly soaked the ground, so that prospects for next week are much better. Cotton is pretty well all planted except in north portion, and a good stand is now insured. Corn about all planted and some being plowed; generally a poor stand reported; some damage by cut-worms. Irish potatoes are coming out again. Gardens look better. Very large shipments of berries and truck took place this week. Transplanting tobacco progressing. Some water melons up and looking well.

IT IS NOW GREATER NEW YORK.

ALBANY, N. Y., May 5.—Governor Black signed the Greater New York charter today. The following is a brief synopsis of the main provisions of the new charter: The municipality is divided into five boroughs, Manhattan, Bronx, Brooklyn, Queens and Richmond, which are in turn each sub divided into ten council districts. The mayor will be elected for four years, at a salary of \$15,000 per annum, instead of for two years at \$10,000, as at present. With the exception of the comptroller, who will be elected by popular vote, all municipal officers will be appointed by the mayor, who may remove at will, during the first six months of his tenure. There will be only one police force, under a bi-partisan board of four, as at present. The department of public works is abolished, and water supply, sewer, bridge and street bureaus will replace it, their heads to be appointed by the mayor. There will be a municipal legislature of two houses, the council of 18 members elected from designated districts, and the assembly of five members from each of the 21 senatorial districts in the Greater New York.

Brooklyn and Long Island City are names no longer on the map. Greater New York covers a territory of 359 1/2 square miles, 32 miles long and 16 miles wide, with an estimated population of about 3,400,000, second in both respects only in London. The first mayor will be elected November 2d next.

Current Topics.

In Wanneth, a little town in Kansas, there is a doctor who is proprietor of the drug store, Justice of the Peace and Constable. He sells the boys liquor, and then arrests and fines them for drunkenness. One day recently he had three of the five voters of the town in his Court at the same time.

The raising of peppermint has become a considerable industry in Southwestern Michigan, where a large acreage is devoted to its cultivation. The English or black mint has been the chief crop for several years; but better prices are offered for the American plant, and that is to be the leader this year. Greater areas also are to be planted this year than heretofore.

A farmer of Clare county, Mich., says the New York Sun, has found that he can increase the egg-laying abilities of his hens by feeding to them old newspapers torn to bits and soaked in sour milk until the whole becomes a pulp. The hens, it is said, like the new food and the inventor expects to see almost any day one of the freak papers come out with the picture of a hen that sets type.

FUN.

"That actress seems absorbed in her role of 'Lady Macbeth.'" "Yes; her manager has to make her carry an alarm clock in the sleep-walking scene."—Chicago Record.

Plump.—Mr. Stoneybroke (with mock pathos)—"Would you really rob me of my only daughter, Mr. Oldrich?" Mr. Oldrich—"It's no robbery, sir; you're selling her to me!"—Fun.

"Say, boy, what did you kick that dog for?" "He's mad."

"No, he isn't mad, either."

"Well, if any one should kick me I'd be mad."—Truth.

Mrs. Boardem—How do you find the chicken soup, Mr. Boarder?

Mr. Boarder—I have no difficulty in finding the soup, madam, but I am inclined to think that the chicken will be able to prove an alibi.—Richmond Dispatch.

Mrs. Gray—"It's positively disgraceful. Black has begun courting again before his dead wife is hardly cold."

Mr. Gray—"My dear, I think you wrong Black. I happen to know that his wife was cremated."—Minneapolis Times.

"Mary had a dreadful experience on her trip to Painesville."

"How was that?"

"Why, she got something in her eye and it hurt so that she asked a nice looking young man to look for it, and he was so dreadfully near-sighted that he got so close that his big mustache tickled her nose so that in trying not to sneeze right in his face she burst four buttons off her new spring jacket."

"Dear me!"—Cleveland Plain Dealer.

Sometime ago, Mr. Joseph Hatcher, who lives four miles beyond Selma, dreamed that he would soon sleep continuously for a period of four days and nights. On Sunday, April 25th, he went to sleep and slept continuously until Thursday, the 29th. During that time, he was never wholly aroused, being only partially awakened when stimulants were administered.—Smithfield Herald.

WEDED.

Some quick and bitter words he said, And then we parted. How the sun swam through the sulen mist of gray! A chill fell on the summer day, Life's best and happiest hours were done; Friendship was made. How proud we went our separate ways, And spake no word and made no moan! She braided up her flowing hair, That I had always called so fair, Although she scorned my loving tone, My word of praise. And I! I matched her scorn with scorn, I hated her with all my heart, Until—we chanced to meet one day; She turned her pretty head away, I saw no pretty tear-drops start, Lo! love was born. Some told repeating word I said, She answered only with a sigh; But when I took her hand in mine A radiant glory, half divine, Flooded the earth and filled the sky— Now we are wed.

A Peculiar Accident.

Tuesday afternoon Mr. Hampton Hilbreth, who lives near the Cason Old Field, Guilford township, suffered a peculiar and to him, painful accident. He had both barrels of his gun heavily loaded and was in his corn field hunting crows. He carried the gun on his left arm cocked and as he was in the act of throwing it to his shoulder to shoot a crow both barrels were accidentally discharged simultaneously. When it was discharged the butt of the gun was just opposite Mr. Hilbreth's face and it "kicked" him squarely on the nose, breaking that member and cutting a severe gash in one of his cheeks.—Wadesboro Messenger.

Deputy Sheriff Woodley and John Gregg, of Yancey county, Monday, arrested Will Ray in McDowell county. After the arrest all the parties got drunk. A dispute arose, and Ray, who was handcuffed, called Gregg a liar, Gregg struck Ray on the head with a gun, killing him instantly. Gregg escaped.

North Carolina is a grand State. Its physical beauty will compare favorably with any State in the union. If her mountains are not covered perpetually with the beautiful snow, they are clothed in a gorgeous drapery which pleases the eye and fascinates the soul. Her rivers are deep and navigable, and abound in every species of fish from the mountain trout to the low land pike. The hills and mountain sides of North Carolina are full of iron, coal, gold and other metals so essential to the prosperity and happiness of mankind. The soil of North Carolina is adapted to the cultivation of all kinds of grains and vegetables, and cotton and tobacco can be raised here with the greatest degree of success. The grand old State lies in the very heart of the great temperate zone, and therefore we have one of the finest climates on the face of the globe. Our atmosphere is pure, sweet, soft and balmy, and the wandering Italian, with his harp and violin, can almost imagine that the gentle zephyrs of Italy are blowing upon him as he wends his way over the hills and dales of fair Carolina and discourses his native songs and melodies to the people who never forget to throw their cents and nickles into the hands of the way-faring man who may be as grum as the grizzly bear he leads around, and as filthy as the monkey who smokes the pipe and collects the fare. North Carolina is just developing into a great manufacturing state, and when the present financial crisis passes away as a thick cloud, modern looms and more ponderous machinery will tell the whole civilized world that the old North State is keeping pace with the advancing civilization and progress of the world.—Fair Bluff Times.
