THAT

TAILORS CAN GIVE THEM

They don't cost too much. They are ready to put on without a wrinkle. You

have seen the browns, olives, green mixtures, plaids--the swell colorings of the

of the season--we've got them here plenty as pie at a fair. We show the best.

C. T. MUNFORD.

Base Ball.

Pittsburg, May 10--Nichols, Pittsburg's usual Jonah, could not put the game out today because of slow fielding behind him. On the other hand Killen's support was first class. The game was won in the fourth by three singles and Collin's fumble. Score, Pittsburg, 4; Boston, 2.

Washington, May 10--The pitchers decided the contest here today. King was in good form; while Nops and Cogan who succeeded the latter in the seventh inning were both wild and ineffective. A triple play was the feature of the game. Doyle caught a fly from Selbach's bat, threw to Jennings, who retired at second and then sent the ball to Riet who caught Brown off first. Score. Washington, 13; Baltimore, 5.

Louisville, May 10--Seymour began by striking out the first three Louisville batters today, but after that he lost control and this, together with opportunity hitting gave Louisville the game. Scrapping Joyce and the rest of the Giants delayed the game several times, objecting to Umpire Sheridan's decisions and that official was compelled to put Davis out of the game and fine Warner \$25. Score. Louisville, 9; New York, 7.

Cleveland, May 10--Cleveland was unable to hit Daub today and for that reason Brooklyn won. In the ninth inning Sockalexis led off with a two base hit and was sacrificed to third, but the next two batters were unable to bring him home. Score. Cleveland, 2; Brooklyn, 3.

St. Louis, May 10--The Phillies had no trouble in beating the Browns today LaJoie's stick work was a feature. Score. St. Louis, 1; Philadelphia, 13.

Chicago, May 10--Rank errors by locals gave today's game to the Reds. Five of their seven runs resulted from four misplays, and but four hits. The Colts scored twice on Rhine's wild pitch and earned their other three by good base running and a bunching of hits. Lange and Hoy played a great field, the former getting several good catches while Hoy robbed Decker of what looked to be two sure four baggers. Score. Chicago, 5; Cincinnati, 7.

Small Robbery at the Depot.

Some time during Tuesday night the office at the depot was broken into and about \$5 stolen from the cash drawers. Two drawers were broken open but nothing has been missed except the change that was left in them. The thief got in the office by breaking out the top section of one of the windows and climbing over the iron bars. It was evidently done by some one familiar with the surroundings.

WEDNESDAY MAY 12, 1897.

THE POSTAL SERVICE TOO EXPENSIVE.

In the Arena for May Judge Walter Clark, of the Supreme Court of North Carolina, has an article on the maladministration of the Postoffice Department which we see very interestingly summarized in the Richmond Times. The government, we are told, "pays to the railroads for the rental of postal cars \$3,600,000 annually, a sum more than enough to build outright nearly double the number of postal cars it has in use. There are 500 of these cars, Judge Clark adds, costing at the outside \$4,000 each, and their average life is twenty years, so that, according to his figures, the government is paying \$72,000,000 for what it could acquire for \$2,000,000. On the Pennsylvania Railroad, he says, the government pays nearly \$37,327 per car for the rent of 69 cars, which could each be bought outright for less than half the money." These figures are startling enough, but not so startling as the other statement, made in the same article, that the average cost of carrying the mails is 8 cents per pound for an average distance of 448 miles, making \$29,000,000 per year for transportation in addition to the \$3,600,000 for car rent, whereas the Southern Express Company gets a freight rate of about 1/2 cent, or 7 1/2 cents the better of the government.

If the facts are as Judge Clark has them, they are outrageous, and in view of them our Richmond contemporary suggests that "if the government would farm out to a private corporation the contract for carrying the mails, putting it to the lowest responsible bidder, it would save millions of dollars in the course of a year and get a better service." This doesn't appear to be a very practical idea. The thing to be done is for the Postoffice Department and Congress to take hold of this evil and remedy it by bringing the railroads down to a business basis in the premises.—Charlotte Observer.

Gold standard prosperity is an abomination. Conceived in the interest of organized wealth, and against the welfare of humanity, it was brought forth in the last campaign to fill the screeching mouths of partisan howlers with the rallying cry of "sound money and prosperity," while it robbed their stomachs of needed food and their backs of raiment. And the Dingley tariff monstrosity is another child of the same parentage, and the trusts who furnished the swaddling clothes for the first, and the campaign pap to make the latter possible, are its godfathers.—Brevard News.

The summer girl, in her cool shirt waist, causes the Macon news to enquire: "Who said the peach crop is a failure?"

NORTH CAROLINA.

One hundred bicycles were sold in Henderson last month.

The Wadesboro Messenger says lightning struck the chimney of the house occupied by Jean Smith colored, and not only demolished the chimney, but came near killing two of Smith's children.

Goldsboro Argus: Much interest is being manifested in the revival services commenced in the Presbyterian church last night by Rev. E. W. Oakes, whose reputation as an evangelist is well known to the people of Goldsboro.

Fayetteville Observer: We regret to learn that Dr. D. Sinclair, the venerable father of our esteemed townsman, N. A. Sinclair, Esq., happened to a very painful accident on Thursday night last near his home in Robeson county, by which his left shoulder was dislocated. He was riding in his buggy when his horse became frightened at some object in the road and refused to travel. Dr. Sinclair alighted and catching the horse by the bridle rein, when suddenly the horse jumped to the road side, throwing the doctor violently to the ground.

Raleigh News and Observer: Harry Skinner is getting in his work in getting Democrats removed and having new postmasters appointed in the first district. Last week M. M. Alexander was removed at Creswell, Washington county, and C. T. Spruill appointed; D. S. Powell removed at Parmele and Wm. Powell appointed; Warren Brickhouse was removed at Columbia, Tyrrell county, and Maynard Davis appointed, and J. T. Hyman had to bite the dust at Coahoho, Martin county to make room for J. L. Hines.

Dallas will today honor the memory of the private soldier of the confederacy. No braver, more self-sacrificial or uncompromising patriot ever shouldered a gun in defense of his home and rights in all the history of nations, than the private soldier of the southern confederacy.

The Arkansas Senate last week rejected, 16 to 14, a bill for the creation of a railroad commission. The failure of this bill at the regular session and the failure of the general appropriation bill was to the calling of the present extra session.

Child With Three Eyes.

A remarkable birth has just occurred in the family of John Higgs, at Glenham, N. Y., his wife having become the mother of three bouncing babies of ten pounds each. What is still more remarkable about this event and a fact which is puzzling the medical profession is that one of the infants has three eyes, one of them being located just above the bridge of the nose, while the other two eyes are in their normal position. Quite a number of people have viewed the three eyed child and pronounced it a wonder.

Big Trade.

The doctors up in a Kennebec town recommended sea water for an old farmer's wife who was suffering from some ailment, and the farmer started for the seashore with a jug.

The farmer had never seen the ocean and must have had an idea that it was private property. Else he decided that doctors never prescribe anything that is free. At any rate, he walked into a store on the beach and asked for a jugful of sea water. The proprietor looked him over and told him to go down and help himself. When the farmer asked him how much the price was, the trader nearly tumbled over, but he recovered and charged a quarter.

About a month afterwards the farmer showed up again with his jug and was told to go out as before and help himself.

But the tide was out this trip and the old man was obliged to walk about a quarter of a mile across the flats. As he was paying a quarter on his return, he pointed with his thumb at the distant water line and remarked: "By Jim Hill, what a gosh-darnation of a trade you've been having since I was here last?"—Lewiston (Me.) Journal.

INDUSTRIAL AND STATISTICAL.

Among all races the weight of the male brain is 10 per cent. heavier than that of the female.

It has been estimated that in 1812 the number of Hebrews in the United States did not exceed more than 3,000. Now it is claimed that there are in this country 500,000, and New York city has 140,000 of these.

There are 1,425 characters in the twenty-four books that Dickens wrote.

There are 49,605,000 dwelling houses in Europe, and 11,400,000 in the United States.

Three fourths of the total population of Russia are engaged in cultivating the soil.

Engel considers that a child of 10 years represents an outlay of \$100; a youth of 15, \$700.

The Raleigh board of Aldermen, while they created a great muss in the selection of city officers and disappointed a number of good men and faithful officers, did one commendable thing, which should be followed by every municipal board in the State. It was this—

"Resolved, That the City do not employ or retain in its employ any man in any department who fails to pay his just debts."

This is right and just. In these times of stringency in money matters, every man working on a salary, in public employ, should relieve this stringency as far as he is able by prompt payment; he should not be retained, as a servant of the people when he contracts debts and lets them run on indefinitely, with no apparent effort whatever to meet them. This is simple justice to the taxpayers who have to scuffle around mightily to pay the taxes out of which these officers derive profit and then pay no attention to their little bills.—Durham Sun.

Not Dummer.

The Washington Post had the following about a North Carolinian which shows how they do things up in the mountains:

"The man who takes the North Carolina people for a set of dum-mies is apt to be greatly mistaken" said a Congressman, who represents a mountain district of that State, to the Post reporter the other day, "There was a store-keeper in my district who had a mountaineer customer, and this customer wanted credit. 'I can give you a mortgage on my hogs,' said the man. This was agreeable to the merchant and after a deed had been executed for the transfer of the hogs, the mountaineer got a goodly quantity of supplies and went home.

"The bill wasn't paid when it became due, and the shopkeeper went up on the mountain to see his creditor.

"I have come after my hogs," said he.

"Oh, yes," was the reply.

"Well, they are out on the mountain."

"And what kind of hogs are they?"

"Ground hogs," was the reply of the mountaineer, "and if you can catch them you can have them."

Attention Veterans.

Mr. Bryan Tyson, of Carthage, gives a valuable method of destroying moles: "As early in the spring as may be convenient, mix arsenic with corn dough, then make holes into their roads here and there and drop a lump of the mixture, about the size of a marble, then cover with a clod of dirt to exclude the light. Moles can thus soon be exterminated, no matter how many there are. Other poisons may answer well, but I have never tested any but arsenic, which gave all the results that could be desired."

When sweet spring across the hills
Sets the prisoned flow'rets free;
When the babbling of the rills
Joins with song bird's symphony;
Then, it seems to us, we oughter
Turn our thoughts to soda-water.

For the balmy April breeze
Tells the sultry days are nigh
When we linger 'neath the trees,
And our throats are hot and dry,
Then Shelburn's soda fount
Fattens up his bank account.
