TAILORS CAN GIVE THEM

They don't cost too much. They are ready to put on without a wrinkle. You

have seen the browns, olives, green mixtures, plaids--the swell colorings of the

of the season--we've got them here plenty as pie at a fair. We show the best.

## Base Ball.

St. Louis, May 12--The Browns lost both games today by one run and the winning run in each game was made on a hit by Delahanty. In the first contest, with the score a tie, Delahanty hit to centre. Dowd tried to catch the ball on a fly, but it was too low and went through him, and the batter made the circuit. In the second game Delahanty's single scored the winning run in the final inning. One of the games played today was yesterday's postponed contest. Score. St. Louis, 2; Philadelphia, 3.

Second game--St. Louis, 4; Philadelphia, 5.

Washington, May 12--Today was get away day at National Park, and Baltimore left the field with the trophies of victory. But in marching off they barely missed recapture by the Senators, who, after retreating for eight innings, suddenly turned on the enemy and gave them a skirmish that brought into play all of the artillery and foot soldiery and made it the hottest mix up seen at the park this season. To use a somewhat familiar expression, it was a heart breaking finish, and just a little bit of luck would have pushed the Senators across the line as winners. Score. Washington, 4; Baltimore, 5.

Chicago, May 12--Callahan's excellent work put life into the whole Chicago team today. In the second inning the nifty pitcher retired three of the visitors with the bases full. Score Chicago, 8; Cincinnati, 1.

Pittsburg, May 12--Boston made it two straight today by hitting Tannehill at the right time. Pittsburg's two errors also helped them. Score. Pittsburg, 1; Boston, 3.

Cleveland, Ohio, May 12--Remarkable generalship on the part of Kennedy won the game for Brooklyn today. For questioning one of Umpire O'Day's decisions Captain Griffin was fined \$25 and put out of the game. The decision was robbery at best. Score. Cleveland, 3; Brooklyn, 5.

Louisville, Ky., May 12--Game postponed on account of rain.

## For Ocracoke.

The steamer Virginia Dare will make two trips a week to Ocracoke during the summer. She will leave here Saturday nights and return Sunday nights, and leave Wednesday mornings and return Thursdays. This will give ample transportation from this point, and will be of great advantage to Ocracoke. The Virginia Dare is a safe boat and comfortable, with a polite crew.--Washington Progress.

## The Meeting.

Notwithstanding the threatening weather there was a large attendance at the Presbyterian church last night. Rev. B. H. Melton preached a fine sermon on "Excuses" in which he pointed out many of the excuses people will offer for not becoming Christians.

A feature of last night's service was the singing of "Why Stand Ye Here Idle?" as a quartette by Mrs. T. E. Hooker, soprano; Miss Annie Foley, alto; Prof. F. F. Dawson, tenor; and Mr. W. J. Matthews, bass. This was the most delightful song that has been rendered during the meeting.

The ordinance of baptism will be administered at 10:30 o'clock Saturday morning.

The meeting will probably close Saturday night with a praise and thanksgiving service. At this service a free will offering will be taken for the mission work.

At a meeting this morning plans were completed for the purchase of a lot upon which to build a house of worship. The lot purchased is on Dickinson avenue, the corner lot of the Leggett property. A church will be organized at an early day and the soliciting of funds to build the house put in progress. The denomination will appreciate any assistance given them in this work.

## Married.

On Wednesday afternoon, at 4 o'clock, at the home of the bridesfather, Mr. Seth Tyson, in Farmville township, Mr. T. E. Barrow, of Greene County, and Miss Lucy Tyson were married by Rev. L. J. Holden.

The attendants were K. R. Tunstall with Miss Ala Tyson, James Darden and Miss Ellen Tyson, P. S. B. Harper and Miss Bettie Darden, Edward Sugg and Miss Cornelia Jones, Staten Sugg and Miss Estelle Tyson, M. D. Lassiter and Miss Laura Sugg, F. M. Davis and Miss Carrie Loftin.

After the wedding supper was served the bridal party left for the home of the groom.

The couple received many very handsome presents.

Mr. Barrow is a very prosperous young farmer of Greene county, and his bride is one of Pitt's most charming young women.

## Safe Kitten.

Just before leaving his store Thursday night Mr. D. W. Hardee closed and locked his safe as usual. When he returned to the store this morning he heard an unusual noise about the safe and going nearer detected the mewling of a kitten. He at once opened the safe when the kitten jumped out, apparently glad to be liberated from prison. The kitten had spent the night inside the safe.

The Galveston News, which has been figuring on it, says the South has since the war paid in pensions to Northern pensioners \$1,000,000,000, and is still paying at the rate of \$60,000,000 a year. That's one of the reasons why the pensions have been piled on so. If the North had to pay them the amount paid would be much smaller.

## A DREAM OF ISRAEL.

The new Jewish scheme known as Zionism, has reached the shores of America. Last week a meeting was held in New York in favor of the movement and a great deal of interest was aroused among orthodox Hebrews. The object of the Zionist propaganda, which was originated in Vienna by Dr. Herzl, is to encourage the Jews of all the world to restore Israel in Palestine and to establish there a Jewish government. It is an old, an abiding, and deeply rooted idea in Judaism. We might say that it has slumbered ever since the fall of Jerusalem, but for the circumstance that every Sabbath there are prayers for its realization in the orthodox synagogues of every country, including the United States. Its revival at this time is largely due to the labors of Dr. Herzl.

He has traveled extensively in Europe as its advocate; he has formed organizations for its advancement; he has secured for it the favor of the Sultan of Turkey, under whose suzerainty he desires that the Jewish State shall be established, he has received encouragement from several other European monarchs; and the amount of support he has obtained from Jews of distinction is so large that it has been determined to hold a Zionist convention at Munich next August, at which delegates from all parts of the world are expected to be present.

The reform Jewish party in this country is wholly opposed to the movement. It does not believe that the Biblical prophecies of the return of the scattered Jewish people to Palestine are to be literally interpreted; or that any considerable number of Jews could be induced to forsake those countries in which they enjoy their rights; or that a Jewish State deserving of respect, capable of self defence, and possessing the means of prosperity could be set up at this time in Palestine.

It is the dream of Dr. Herzl that Jews will be drawn to Palestine, not only from the countries in which they are subject to disabilities, but also from the whole earth. We shall soon learn the measure of his influence upon the Jews in the United States: probably it will not be very great.—Raleigh Tribune.

There are some phases of our free school system in North Carolina that have not been studied carefully, or at least have not been discussed by the papers. No man of intelligence can afford to feel even indifferent to the cause of education, for it is necessarily the hope of our land; but the glittering generalities with which some enthusiasts speak and write on the matter of free schools are not quite so glittering when they are brought down face to face with the men through whose hands and from whose sweat the money comes to run the free schools.

We have thought much over the school system in North Carolina, and have never given expression before; but we believe that the free school money for this State ought to come from the poll tax and not from property tax.—Scotland Neck Commonwealth.

## LITTLE FEET.

Two little feet so small that both may nestle  
In one caressing hand;  
Two tender feet upon the untrod border  
Of life's mysterious land;  
Those rose-white feet along the doubtful future  
Must bear a woman's load;  
Alas! since woman has the heaviest burden  
And walks the hardest road.  
Love, for awhile, will make the path before them  
All dainty, smooth, and fair,  
Will cut away the brambles, letting only  
The roses bloom there;  
But when the mother's watchful eyes are shrouded  
Away from the sight of men,  
And these dear little feet are left without her guiding,  
Who shall direct them then?  
Will they go stumbling blindly in the darkness  
Of sorrow's tearful shades?  
Or find the upland slopes of peace and beauty,  
Whose sunlight never fades?  
Oh, who may reach the future? For this sweetheart small  
We want all blessing, sweet,  
And pray that He who feeds the crying ravens  
Will guide the baby's feet.

## Weekly Crop Bulletin.

The week ending Monday, May 10th was not favorable for the growth of crops. The weather was entirely too cool and windy. The temperature was below the normal, notwithstanding the bright sunshine which prevailed most of the week. The cool weather has retarded growth of crops and sprouting of seeds considerably. The week was quite dry, light showers occurring at scattered points only on May 5th in the central and western districts. Farm work has been brought up to date now about everywhere. The stands of corn and cotton are not generally good. Everything needs warmth and moisture.

## EASTERN DISTRICT.

After the fine rains at the end of the preceding week cooler weather set in, with brisk northerly winds, unfavorable for the growth of crops. There was plenty of sunshine and the latter part of the week was warmer. Light showers occurred at two or three places Wednesday and Thursday. The week was fine for work. The weather has been too cool for cotton, causing it to come up slowly and look poorly; some may have to be replanted. Chopping cotton has commenced. Corn is being plowed first time; stand not good; cut worms are doing some damage. Considerable tobacco was transplanted first of week and many peanuts planted. Potato bugs are damaging potatoes in some places. Rice is about all planted and is coming up finely. Wild berries will apparently be plentiful. Shipment of strawberries has commenced in northern portion of this district.

## A Healthy Old Set.

The following items from a North Carolina exchange, are interesting:

"Mr. Rufe Gaskins, who is 105 years old, caught cold yesterday while plowing in his field. 'Uncle' Rufe hopes to be out in a few days."

"Mrs. Nancy Spartlin, who is ninety-seven, while driving home the cows yesterday happened to the misfortune of spraining her ankle. Nothing serious, however."

"Mr. and Mrs. William Jenkins celebrated the sixtieth anniversary of their wedding on Wednesday last. Mr. Jenkins is ninety, and Mrs. Jenkins is eighty-two. Among the presents was a bicycle for Mr. Jenkins, who is a great lover of the wheel."

Great old State—that North Carolina. People there have to emigrate when they want to die.—Atlanta Constitution.

## NOT ENOUGH WATER DRUNK.

"After studying the matter for some years I am convinced," says a physician, "that people do not drink enough of water. I think that a great majority of the cures effected by drinking the waters of the fashionable and unfashionable medicinal springs in various parts of the country would have resulted if the same amount of plain, wholesome, everyday water was drunk by them. People rush to these springs, and while there drink from 8 to 20 large glasses of their waters in a day. Whether there are any medicinal virtues in the waters, this washing out does them good on account of the extra washing out they give themselves, and it is water instead of the constituency of the same that does the work. The same people, if at their homes, would pass many and many a day without drinking one glass of water. It is my opinion that it is the water that is needed. I am not a hydropath, or a believer in the theory that water taken internally and externally will cure everything. At the same time, I am satisfied that if people generally drank from four to six glasses of water every day they would have less reason to complain, and suffer loss from many ailments that now effect them than they now do."—Washington Star.

The Longevity of Woman.

A report from the office of the registrar general of England shows that there are more female than male centenarians. Out of 1,000,000 people, 215 women reach the age of 100 years, while only 82 men round out to the century. Now, the great conundrum which is proposed is, "Why is it so?" According to the popular superstitions it takes much longer for a woman to reach even the age of 50 than it takes for a man to reach that age. If this is true it makes the showing all the more remarkable. It has even been asserted that the average life of the married man is longer than the average life of the single man. The fact, however, is denied by the end man of the minstrels who says that the life of the married man is not really longer, but only seems so.

So far, there is no satisfactory explanation of the original proposition why more women live to be 100. Some say it is because women are less addicted to tobacco and strong drink; others say that it is because it is more healthy to spend money than it is to earn it, and so on. It may be many of the men who would live to be 100 are killed at an early age in casualties which women are not exposed. It may be that tight lacing is a life preserver, and it may be not a fact, after all. Possibly the English registrar may be mistaken. The situation is replete with possibilities.—Baltimore Sun.

Evidence accumulates that the war in Cuba is causing untold suffering as well as death to non-combatants, and also a lamentable destruction of property. Three American correspondents who have just returned to this country and who have been working on different lines, agree in their declarations that the island is nowhere pacified; that Weyler and his officers do not object to prolonging the war, because of the opportunities it affords for lining their pockets with gold and hastening their promotion in the army; that the Spanish capture hospitals and butcher wounded men in their beds, and that unwelcome horrors are of frequent occurrence. Testimony of this character, from men of repute and without prejudice can only strengthen the feeling of sympathy for the patriots who are struggling to free Cuba.—Raleigh Tribune.

In and about New York they have begun to put schoolhouse playgrounds on the top of the structures, land having become so valuable. At least one school building in New York city and one in East Newark are so provided, the total space being greater than could be afforded on the ground level. High iron fences furnish protection at the edge of the roof, and these "grounds" are provided with tennis courts, football gridirons and other adjuncts of outdoor amusements. The Newark school's roof is a veritable garden, being furnished with plants and flowers, incandescent lights and all appurtenances of a theatrical roof garden.

The Atlanta Journal's special correspondent at the Southern Baptist convention writing from Wilmington, says: "From Greensboro to Wilmington the country reminds one strongly of Florida, with its scrub oak, sandy soil and hanging moss. The scenery is picturesque. Notwithstanding the flatness of the landscape, everything looks green and fresh. The sweet scented honeysuckle grows all along the track, and here and there the lilac trees are in full bloom, and the air heavy with their perfume."

When we notice how many and what beautiful forms of beneficence are abroad in the land we cannot doubt that the world is really growing better. While there is yet a pretty constant struggle between labor and capital it must be admitted that there is an undercurrent of interest in the masses that did not always exist, and many, very many, things are being done for the betterment of their condition. These movements in the interest of the less fortunate must be evidences of man's upward trend, and the outlook is hopeful, to say the least of it.—Durham Sun.

Mrs. Annie Bond, of Lumberton, who has been visiting the family of W. S. Leggett, returned home today.

C. D. Rountree and W. L. Brown returned Thursday evening from the meeting of the Grand Lodge of Odd Fellows at Charlotte.

The rain Thursday evening gave a nice season for the farmers and garden- ers.

Mr. Henry Morris, of Tarboro, who has been sick sometime, died Thursday evening.

While attending the Odd Fellows an- niversary Tuesday night, May 4th, some one exchanged hats with a friend. Who ever it may be please report at this of- fice, with a stiff hat, marked Paragon inside, No. 63.

It is a statement which we have made over and over again, but so firmly do we believe it that we make it once more: The habit of profane swearing is the most inexcusable evil and sin that otherwise decent men are guilty of. The man who blatantly utters unguarded oaths and talks profanity regardless of the presence of stragders or those upon whose ears he knows his profanity grates, is guilty of a breach of politeness that is inexcusa- ble in a gentleman; and the degree of flagrantcy of the breach of politeness may be measured according to his in- telligence. A few men do not know any better, but most men do. Those who do not know better a e pretty low down in the scale and should be "pitied rather than censured.—Scotland Neck Commonwealth.
