GALA DAY AT GRIMESLAND. Masonic Installation and Picnic a Great Success.

Thursday was a day long to be remembered by all who were present at Grimesland. It was the occasion of the installation of officers of Grimesland Lodge No. 475, A. F. & A. M., and a picnic in celebration of St. John's Day. Visiting Masons were present from Greenville, Washington, Vanceboro and other lodges to participate in the installation ceremonies.

The Masons first assembled in their hall and after transacting preliminary business marched to the Descale church where the installation exercises took place in public. There were nearly a hundred Masons in the procession. Past Master Seth Bridgeman, of Washington, conducted the installation and was assisted by Past Master W. M. King, of Greenville.

The following officers were installed:
A. I. Roach, W. M.
Ferne Powell, S. W.
W. E. Proctor, J. W.
J. O. Proctor, Treas.
H. H. Davis, Sec.
J. J. Elks, J. D.
W. H. Galloway, S. D.
C. M. Jones and J. M. Ward, Stewards.
C. E. Boyd, Tiler.

After the exercises were completed, J. Bryan Grimes in a beautiful introductory presented the orator of the day, F. C. Harding, of Greenville. For nearly three quarters of an hour Mr. Harding addressed the large assembly, and all present pronounced it the most eloquent, interesting and instructive Masonic address to which they had ever listened. It was a real gem and reflected credit upon both the speaker and the fraternity.

The crowd was then invited to the grove near by to partake of dinner. Here immense tables had been spread and they were fairly loaded with good things. Fully six hundred people gathered around this feast and there was enough for all with an abundance to spare. Thirty-four roast pigs were served, with other things in equal abundance.

In the afternoon the Masons again assembled in their hall for work, while the young people spent the remainder of the day in such amusements as best suited their pleasure.

Everything in connection with the occasion was admirably managed and the order was perfect. The Masons and citizens of Grimesland and vicinity deserve much praise for the success and pleasure attending the celebration.

The REFLECTOR was glad to notice a great many improvements going on about the village. Grimesland has some enterprising people.

Peculiar Accident.

V. J. Lee met with a peculiar accident Thursday. He and David Jarvis were throwing a ball to each other and as Mr. Lee threw the ball he in some way so twisted his arm as to break it between the elbow and shoulder.

Base Ball.

Washington, June 23.—Heavy hitting again won the day for Washington but while the Senators batted well, several errors were made in the field. Mercer kept the hits well scattered. Score. Washington 12; Philadelphia 2.

Brooklyn, June 23.—Young Lewis allowed the Brooklyn but three hits today, while the Bostons knocked Daub all over the lot. This best tells the tale of the home team's downfall and at the same time explains why the Bean Eaters are once more leading for the pennant. Score. Brooklyn 2; Boston 13.

Pittsburg, June 23.—Today's game was won in the eleventh inning when two were out, by Brodie making a scratch hit, scoring Smith. Score. Pittsburg 6; Chicago 5.

Cleveland, June 23.—Powell pitched his first game for the Cleverlands today and held the Louisvilles down to three hits, two of the scratch order. Clingman ran into a house going after a foul and was painfully injured. The game was called to allow the Cleverlands to catch a train. Score. Cleveland 18; Louisville 1.

Cincinnati, June 23.—The Reds made it three straights today by defeating the Browns in a fast game. Both teams played snappy ball. Score. Cincinnati 5; St. Louis 1.

Baltimore, June 23.—The Champions today lost the last of the present series to the Giants in a loosely played game. Pond took the box in the sixth and proved more effective than his predecessor. Manager Hanlon today signed George Blackburn, of Dallas, Texas, as an addition to the pitching department. Score. Baltimore 4; New York 9.

Our People at Morehead.

Greenville continues to win laurels at Morehead. Wednesday night a charming musical was given in Assembly Hall, two of Greenville's sweet singers being participants. Mrs. J. B. Cherry sang "A Lullaby" to a piano accompaniment by Miss Hobgood, of Oxford and Mrs. T. E. Croker sang "Angel Serenade" with violin obligato by Prof. Brockman, of Greensboro.

The same night Dr. Kilgo, President of Trinity College, delivered a stirring and eloquent address on "Christian Education." The evening was one of the most delightful since the Assembly met.

Banks With Large Deposits.

A recent issue of the American Banker furnishes a list of the banks of the United States which have \$5,000,000 deposits or over. They number seventy one. Their combined deposits amount to \$884,000,000. With one exception the first twenty banks in the list are New York banks. Boston doesn't appear before No. 34. The largest Boston bank has \$9,150,000 in deposits, the largest Philadelphia bank \$11,500,000, the largest St. Louis bank \$10,000,000, the largest San Francisco bank \$10,600,000. The first bank in the list is the National City Bank of New York, with \$42,000,000 in deposits; the second, the National Park Bank, with \$37,500,000; the third, the First National of Chicago, Lyman Gage's Bank, \$32,572,000. The next seventeen are New York banks, with deposits ranging down to \$11,500,000.

A Year's Supply of Stamps.

WASHINGTON, June 21.—Assistant Secretary Vanderlip today advised the director of the Bureau of Engraving and Printing of the probable requirements of the Postoffice Department for stamps during the fiscal year, ending June 30, 1898. These estimates, based upon the number used in previous years, are as follows:

Ordinary stamps, 3,444,167,000; newspaper and periodical stamps, 6,462,000; postage due stamps, 21,168,000. Of the ordinary stamps two and a half billions are of the 2 cent denomination, and five millions are of the 10 cent special delivery series. As compared with the requirements of the present year, these estimates are an increase of about 295,000,000 in the number of ordinary stamps; an increase of 770,000 in the special delivery; and 962,000 in the newspaper and periodicals, and a decrease of 832,000 in the postage due series.

We Undertake Too Much.

"Thou can't best regulate the world by minding thine own little part of it" was well said. Many a man tries to develop the world too much, and neglects developing himself and as Bill Morgan said some time ago about his State, the great State of Kansas, "We have been occupied with constructing systems of finance, when we should have been digging ditches. We have expended our wind when we should have been setting up wind mills. We have conquered, in our minds, Canada, England and Spain when we should have been battling with the cocklebur and the Canadian thistle.

Some farmers never seem to think saving manure in summer; and yet with proper care as much can be saved during summer months as during those of winter. Suppose you think somewhat further along this line. Perhaps it wouldn't be unprofitable. We have noticed lack of attention to this among many North Carolina farmers.—Progressive Farmer.

It Wasn't Love.

"That Miss Sanderson has no emotions. I never saw such an absolute freedom from feminine agitation. She has a heart of stone."

"Have you tested it?"

"Several times. She refused me with icy chilliness. At length I met her on the open plateau at the summit of Pike's Peak. I drew her aside. The others thought I was pointing out the scenery. I wasn't. I was telling my love. Perhaps I excelled myself in eloquence. She really seemed moved. Her lips were slightly parted. Her breath came in short gasps. 'Ah!' I said ecstatically, 'you do pity me! Your heart is beating quicker?' 'Yes,' she said, 'Your breath comes fast, your heart beats strong, your voice trembles,' I cried; 'surely this is love!' 'No,' she said and turned away, 'It's just the altitude!' I shan't try it again."—Cleveland Plain Dealer.

A Mule Chews Tobacco and Spits.

James Rodden, who lives in Scotch-Irish township, this county, has a mule which "chaws terbacco" and spits like a man. His muleship will not allow anyone but his owner to plow him and when the plowman stops to take a chew the mule knows it and turns his head. And, mule like, he won't budge a step until he has been given a chew.

The gentleman who informed the Sun of this human-like mule, is a church member and is a man of veracity. He would not believe the story himself until he had given the mule a piece of tobacco and seen him chew it and spit.—Salisbury Sun.

The Ideal Man.

The man with honest heart, with sincere purpose, whose word is his bond, who will pay his debts, whose promises are never broken, whose religion is carried with him into his every day life. Be he poor, uncouth, ignorant, unlearned, low born, unnoticed by the gaudy throng, not admitted into the gay crowds, it matters not, such is the ideal man. He is to be sought and honored and emulated. His virtue is a pattern; his deeds are noble; his conversation is an inspiration. His life is a sweet song; his character a sunbeam; his every act a priceless jewel. We repeat, such is the ideal man.—Salisbury Sun.

Last year the value of the pearls harvested in Lower California was alone \$350,000. In addition, 5,000 tons of shells were exported, which were valued at \$1,250,000 more. Pearl fishing is the entire occupation of the natives, and La Paz, the headquarters, a city of the peninsula, with about 2,000 inhabitants, is solely dependent upon the industry. The business is one of chance, and the pursuit is a fascinating one to the natives, who are born gamblers. Every oyster does not contain its pearl, and only at intervals and rare ones at that, is a really valuable pearl discovered. The largest one ever found was about three quarters of an inch in diameter, and was sold in Paris to the Emperor of Austria for \$10,000.

The Richmond Times thinks that the difference of a few hundred dollars in one's income ought not to make one miserable. That depends. With most men it means actual distress. It means some new clothes for the children or none, the guano bill paid or not paid, taxes met or not met, interest satisfied or not, so it means quiet of soul or unrest. A beggar boy met us on the street the other day and asked for a nickel. It would have been mockery to have asked him, what difference it would make with him whether he received the few pennies or not when we know that it meant the difference between a loaf and no loaf, hunger or a satisfying meal.—Durham Sun.

Many a poor man in North Carolina who is just as honest as any member of the last Legislature, but on account of hard times can't pay his poll tax, never dreamed that he was voting for a set of Legislators, who would be so cruel and so heartless as to pass a law to put him in jail if he did not pay his poll or property tax by a certain date. They did this and it is today the law of the land. None are excused. It is tax or the jail.—Lexington Dispatch.

Greatest of All Physicians.

Discoverer of Paine's Celery Compound to whom Thousands Owe Their Life and Happiness.

"Excepting its handful of magnificent statesmen and its military heroes," says the most recent writer upon America, "the people owe more to Dartmouth's physician-teacher than to any one man."

"In every walk of life, among the highest official orders at Washington, in the homes of the best people in the large cities, among the every day folk of the country, families in extraordinary circumstances, families that live from hand to mouth and could not, if they wished, afford the services of any but an ordinary physician—everywhere I have met people to whom Paine's Celery Compound has been a blessing."

The story of the life-work of this giant among men has been often told and is familiar to most readers. The likeness above is probably the best portrait of him yet printed.

It was the world-famed discovery by Prof. Phelps of an infallible cure for those fearful ills that result from an impaired nervous system and impure blood which has endeared the great doctor to the world, and made his life an era in the practice of medicine.

Prof. Phelps was born in Connecticut and graduated in medicine at Yale.

His unusual talent soon brought him reputation and prominence among his professional brethren. First he was elected to the professorship of anatomy and surgery in the Vermont University. Next he was appointed lecturer on materia medica and medical botany in Dartmouth College. The next year he was chosen professor of the chair then vacated by Prof. Robby, and occupied the chair, the most important one in the country, at the time when he first formulated his most remarkable prescription.

In view of the overwhelming testimony to the value of Paine's Celery Compound that has recently appeared from men and women of national reputation, the picture of Prof. Phelps is particularly interesting.

The fact is, Paine's Celery Compound is not a patent medicine; it is not a sarsaparilla; it is not a mercurial; it is not an ordinary nerve-tonic; it is as far beyond them all as the diamond is superior to cheap glass.

It makes people well. It is the one true specific recognized and prescribed today by eminent practitioners for diseases arising from a debilitated nervous system. Prof. Phelps gave to his profession a positive cure for sleeplessness

wasting strength, dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. For all such complaints Paine's Celery Compound has succeeded again and again where everything else has failed.

No remedy was ever so highly recommended, because none ever accomplished so much.

Today Paine's Celery Compound stands without competition for feeding exhausted nerves and building up the strength of the body. It cures radically and permanently. The nervous prostration and general debility from which thousands of women suffer so long that it finally gets to be second nature with them—all this suffering and despondency can be very soon removed by properly feeding the nerves, and replacing the unhealthy blood by a fresher, more highly vitalized fluid. A healthy increase in appetite and a corresponding gain in weight and good spirits follow the use of Paine's Celery Compound.

Paine's Celery Compound is the most remarkable medical achievement of this last half of the nineteenth century.

NO TELEPHONE IN HEAVEN.

"Now I can wait on baby," the smiling merchant said,
As he stopped and softly toyed with the golden, curly head.
"I want oo to tall up mamma," came the answer full and free,
"Wif yo' telephone an' ast her when she is tumming back to me.

"Tell her I's so lonesome 'at I don't know what to do;
An' papa cries so mu.h I dess he must be lonesome, too.
Tell her to tum to baby, 'tause night I dit so 'fraid,
With nobody dere to tiss me when the light begins to fade.
"All fro de day I wants her, for my dolly's dot so tored
Fum the awful punchin' Buddy gave it wif his little sword;
An' ain't nobody to fix it since mamma went away,
An' poor 'ittle lonesome dolly's ditty, thinner every day."

"My child," the merchant murmured, as he stroked the anxious brow,
"There's no telephone connection where your mother lives at now."
"Ain't no telephone in Leaven?" and tears sprang to her eyes;
"I fout dat God had ever'fing wif him up in the skies."
