### Base Ball.

Brooklyn, July 6—It was not until the ninth inning that the Brooklyn were able to find the whereabouts of Meekin's curve at Eastern park today. Dunn pitched a fairly good game, but was poorly supported. Harivan has been loaned to the Lancaster (Penn.) team by President Byrne. Attendance 5,553. Score. New York, 7; Brooklyn, 5.

Pittsburg, July 6—The game today was errorless on both sides and one of the best seen on the home grounds this season. Both pitchers did good work and kept the hits scattered. The feature was Tannehill's batting and good base running. Attendance 2,000. Score. Pittsburg, 3; Cleveland, 2.

Cincinnati, July 6—The Champions were easily defeated by the Reds today in a slow game. Pond was sent to the slab for Baltimore, but lasted only five innings. Blackburn, who relieved him, was also hit very hard, but finished the game. Attendance 4,000. Score. Cincinnati, 10; Baltimore, 3.

Philadelphia, July 6—Philadelphia was never a serious factor in today's game with Boston. Stivets held the local players down to seven hits and baring a wild throw by Long, his support was faultless. Attendance 2,691. Score. Philadelphia, 2; Boston, 6.

### Points on a Local Newspaper.

There are some of the points which should be made: The prominence and usefulness of the local newspaper in building up a town. Its helpfulness to the churches in disseminating religious information and drawing people to the services. The pride and satisfaction it takes in the progress and growth of the town. Its value as a medium by which a town's advantages may be advertised to the world. Its reliability as a means by which the character and intelligence of town's people may be judged by outsiders. Its freedom from the sensational and demoralizing features which characterize so many daily papers and make them unfit to be read in the family circles. Its influence in local affairs because of its recognized character as a true representative of the people, and finally the ambition of the editor, as a rule, to so conduct his paper that it will enjoy the confidence and respect of the community in which it is published. —Press and Printer.

### A Preacher Fell, But Arose Again.

Quite an incident, without accident, occurred on main street this morning. The esteemed Pastor of the Methodist church was riding down the street on his bicycle, and a passing mule took fright at the wheel. The Pastor gracefully dismounted, and the companion of Baalam went on his way. Thereupon the Pastor mounted his wheel again, but about this time the bike became frightened at the mule, when down came wheel, Pastor and all, but no damage to either. A gentleman passing remarked that even a preacher might fall.

"I may not know much about photography," chuckled the facetious burglar, as he broke into the barber shop, "but I can take mugs with the best of 'em."

"To be a favorite with men," says the Manayunk Philosopher, "a man must be a good talker. When it comes to women, he must be an equally good listener."

Blobbs—"I hear De Tanque is very ill." Slobbs—"I saw him today drinking a whiskey punch through a straw." Blobbs—"Then I guess he will pull through."

THURSDAY, JULY 8, 1897.

Everybody seems to be the same way of thinking about local taxation in this county. No one favoring it. It would be utter folly to raise more money to put into the present management of public schools. Those who favor local taxation under other circumstances could never be induced to vote for it at present. The public schools for the next two years are destined to be a failure. They will continue so as long as they are in politics and are used to further the interests of a few politicians. This is the verdict of the people in these parts in reference to them just now.

Social Gaiety at the Pen

Some time ago the convicts at the penitentiary participated at a well german in the administration building, but on the Fourth they went that one better, as social functions these day give place everywhere to athletics. They had a match game of baseball between the two crack teams of the State prison. The fine catching and pitching were features of the game. The stick work was not so good as usual. Some brilliant catches were made and the score was kept down close enough to make the event a very exciting one.

After this came a very elaborate dinner, complimentary to the day, by Superintendent Smith. This was followed by a minstrel show, for which the convicts have been making very great preparations.

It has not yet been announced what the next social attraction at the penitentiary will be, but whatever it is a great time is anticipated. It is hinted that it will be a watermelon treat, ice cream supper and cake walk. —Raleigh News and Observer.

If this thing goes on the penitentiary will be looked upon by criminals as a place of recreation instead of punishment. Already there are many who attach very little fear to going there.

Prize Pants.

The following composition by a little girl won a prize, a fruit cake, offered by a school miss: "Pants are made for men and men for pants. Womankind was made for man and not for pants. When a man pants for a woman and a woman pants for a man, they are a pair of pants. Such pants do not last. Pants are like molasses, they are thinner in hot weather and thicker in cold. The man in the the moon changes his pants during an eclipse. Do not go to the pantry for pants, you may be mistaken. Men are often mistaken in pants. Such mistakes make breaches of promise. There has been much discussion as to whether pants are singular or plural. Seems to us when men wear pants it is plural and when they don't wear any it is singular. Men get on a tear in their pants and its all right, but when the pants get on a tear its all wrong." —Waxahachie Light.

Weekly Crop Bulletin.

The past week has been extremely warm throughout North Carolina, with maximum temperatures between 90° and 100° on every day and means averaging eight degrees per day above the normal. The weather has also been very dry, but beneficial local showers occurred in portions of the following counties: Eastern district, Brunswick, Chowan, Hyde, Pasquotank, Bertie, Jones, Craven and Tyrrell; central district, Wake, Johnston, Anson, Chatham, Moore, Person, Durham, Franklin and Warren; western district, Mitchell, Transylvania, Henderson, Cabarrus, McDowell, Gaston. In these counties the week has generally been very favorable. In general, however, the heat and drought have considerably injured crops, at least on high and sandy lands; crops are everywhere needing rain. Cotton is doing well, however; it is green and growing rapidly; stand very good; is blooming quite generally; not yet suffering for rain. Corn needs moisture badly; it is small and the effect of the dry heat is to make it sick and tassel too low; it has good color, but is beginning to fire on light lands; chinch bugs still doing some damage. Tobacco seems to be suffering some from drought; some leaves have been cured in the eastern district. Gardens and vegetables are receiving a serious set back by the dry, hot weather in those counties where no local showers occurred. Stand of peanuts is not very good. Many peas have been planted. Melons getting ripe. Threshing wheat continues. Oats all cut in east; some still to be cut in west portion. Rice doing well. Splendid weather for haying. The blackberry season is at its height. Peach crop is very small. All crops are clean and well worked, which enables them to stand the drought much better than they otherwise would.

Trinity College advertises in this issue. No other college in the South has grown so rapidly in the past few years as Trinity. Six years ago it held property valued at forty thousand dollars, and today it holds property valued at four hundred thousand dollars. It is appreciated among the leading colleges of the North as the progressive college of the South. In the faculty the following institutions of learning are represented: Trinity, Wolford, Annapolis, and Wesleyan colleges, and Johns Hopkins, Harvard, Cornell, Leipsic, and Vanderbilt Universities. There are more Doctors of Philosophy in the faculty than in any other college faculty in the State. It is not surprising that the most modern methods of education are followed at Trinity College. During the past year, one hundred and one thousand dollars were added to the endowment. Trinity Park has been greatly improved at the expenditure of thousands of dollars. A new Chair has been added to the School of English, thus making Trinity the leading college of the State for the study of English language and Literature. Trinity is the only male literary college in the State that is located in a city, and it therefore puts its students in touch with wider influences and more leading questions than any other college in the State. It is an education in itself to associate with a wide circle of men. The advantage of attending a college in a city cannot be overestimated. The students are brought in touch with the best cultural life and the most prominent men of the day. The reputation of the students of Trinity for Christian manliness is known far and near, and is the pride of the city of Durham in which the college is located. The Trustees at their recent meeting opened all the classes of the college to women. This means much for the higher education of our women. Buildings will be provided during the summer for the accommodation of women, and everything will be in readiness by the opening of the College in September. Send for a catalogue and album of the College. A wave of Trinity influence is sweeping the State.

When bilious or costive, eat a Cascaret, candy cathartic, cure constipation.

Drowned While Standing Bolt Upright

The body of Henry McBride, colored, who was drowned on Wednesday while in bathing at Britain's shingle mill, on the Northeast river, opposite Hilton, was recovered yesterday morning at 9 o'clock. When the tide went down he was found standing upright with his legs down in the mud. The bottom of the river at that point at high tide is swampy, and when McBride jumped into the water he sank into the mud. This accounts for the fact that he never rose to the surface after leaping into the water. —Wilmington Messenger.

Diphtheria in Chewing Gum.

While attending school at West Chester, Pa., a few days ago a child of Joshua Abel came in contact with a schoolmate who had just been taken ill. The Abel child returned home and divided some chewing gum she had in her mouth among four brothers and sisters. Next day the entire family was stricken with diphtheria and the house is now under quarantine. —Philadelphia Record.

No Wonder the Son Was Surprised. A melodrama was some years since played in a certain theater, the chief actor in which had made himself, from his overbearing conduct, disliked by one and all. In the last scene he was supposed to visit the tombs of his ancestors. In the center of the stage, upon a marble pedestal, stood the statue of his father. A heavy fold of drapery covered the figure. Enter Albert. "Once again," he says, "let me gaze upon those features which in life so often beamed with tenderest affection. Father, thy mourning son now comes to pay thee reverence. Let me remove the veil which from vulgar gaze shields the image of a once dear parent!" The drapery fell aside, and behold the father stood upon his head! The effect cannot be described. It was electric. The shouts of laughter which followed effectively put an end to the scene, which changed to the next as quickly as possible, amid the bravos of the audience, the anger of the manager, and the uncontrollable rage of the actor.

Fluency. "Dobkins seems to be a rather fluent talker." "Fluent? Why, that man prepared a vitascope lecture, but it was a failure because the pictures couldn't keep up with him."—Chicago Record.

A Nice Distinction. "He made his money in wheat, didn't he?" "No—wheat prices"—Chicago Journal.

The Habit of Prejudice. An illustration of how the Texan argues on the question of anti-Jewish prejudice may be seen from what "Gentile" says in the Evening Meteor. In the opening paragraph of his article he remarks: When I was a very immature young man I openly sneered at the Jews, and I find in my maturer years that the habit hangs to the youthful Gentile of the rising generation with no abatement of bitterness and scorn. Is it not time that there was some serious protest made against this detestable anti-Jewish feeling? It is un-Christian, inhuman and un-American; and I, for one, wish to make amends for my former brutality by this vindication of a splendid race. There is not a drop of Jewish blood in my veins, nor am I allied to them in marriage or in any way; I owe no Jew a dollar, nor does any Jew owe me. I speak, therefore, as an absolutely independent man, uninfluenced by any consideration except the desire to help right a great wrong. The prejudice against the Jewish people arises in almost every instance, from the objectionable personality of an individual, and not from the characteristics of the entire race. The mass of Jews are almost invariably judged by the unit. It is outrageously unfair. How would we Gentiles fare, in the estimation of the unprejudiced Man in the Moon, let us say, if we were judged by our criminals, sneaks, crooks? As we ask to be gauged by our noblest characters but in turn cannot turn our eyes above the level of the Dickens type of Jew when we come to consider that people in the abstract, I say it shows an amazing narrowness of mind.

Texas will raise this year over 3,000,000 bales of cotton, the corn crop will be the largest in the history of the State, while the wheat crop, already harvested, is large and is being sold at a profitable price. She Was Limpid. Mrs. Partridge has left behind her many disciples. A Chicago theater manager the other day explained to a group of friends how he had scared his wife by impersonating a burglar. "She always has pretended to be game," he said, "but when she caught sight of me she just gave a scream and fell over, perfectly limpid." "That ought to be clear enough." Fully Formed. "But you are too young," pleaded the anxious mother. "No girl should marry before her mind is fully formed." "Oh," said the gladsome maiden of 18 summers, "my mind has been made up for more than a week."—Cincinnati Enquirer.

"Own a newspaper," is the advice offered by an ad in a printer's journal, which goes on to say that "no type or machinery is necessary."
