Feather-Weight Coats and Vests.

Soft Negligee Shirt.

Gauze Underwear.

Straw Hats.

The above suggestions thrown out. We will help you to keep cool. Our stock is complete, prices right and you are welcome to examine if you are not ready to buy.

We think we know your tastes and wants—have been with you long enough.

No other merchant shows the line we do.

C. T. MUMFORD.

ENOUGH TAXES ALREADY.

WHICHARD, N. C., July 14th, 1897.
EDITOR REFLECTOR:—We are called upon to vote away some more of the people's money. Our taxes are as high as the laws of the State will permit, and my advice to all is vote for law taxes and better laws. We have too many money hunters, too many offices and too many bad men filling them. I want to see a change for the better.

It is time for the people to look and see what they are doing. They have been promised much and received nothing. It is time to get together and work for the poor tax payers.

There are some who have voted the best State and county government that ever existed, and now want the people to vote the money out of their own pockets.

We are poor, and never can prosper so long as the people are under the rule of bad men and bad laws. It is time the people were opening their eyes and seeing where we are drifting to.

W. M.

Picnic at Barrett's.

Farmville township never stood halt way at anything the good people of that section turn their hands to, and when it comes to having a picnic they know how to make a success of it. The Barrett neighborhood is a famous place for picnics, and the annual gathering on Wednesday showed what a crowd can be brought together on such an occasion.

The crowd began arriving by 9 o'clock and did not stop until several hundred were present, several counties having representatives there. Greenville folks know it is a good place to go and they were out in large numbers.

There were lots of pretty girls, music and a good dinner, things quite necessary to making a picnic really enjoyable. Sometime after dinner the crowd was called together around the platform to hear a speech. Mr. H. W. Whedbee arose and in a very choice words introduced Mr. G. B. King, referring to him as the silver tongued orator of the east. Mr. King entertained the assembly handsomely in a half hour's speech that was a gem of oratory and eloquence. At the close of the speech Prof. W. H. Ragsdale stepped forward and in behalf of the people of the community presented Mr. King with a bouquet. The presentation remarks and acceptance were beautifully and happily expressed.

The crowd lingered around enjoying themselves until late in the afternoon, and a lawn party followed at night.

Ready for the Opening.

It is only two weeks to the opening of the tobacco market for the coming season, and things are already assuming a busy shape about the warehouse. All four of them will be ready for business on the first day and they are going to see that the reputation of the Greenville market for high prices is sustained. The corps of buyers will be largely increased and the new season promises to be a lively one. The Greenville market has clever ware, housemen and clever buyers and they are going to make it to the interest of the farmers to sell their crop here.

Improving.

Crops through the country have shown a wonderful improvement in the past week. However, it is still rather dry in most sections. A large portion of the crops have been laid by.

The colored base ball club went to Tarboro to play a game with a club from Rocky Mount.

Base Ball.

St. Louis, July 13—Lively hitting when it was most needed gave the Baltimores the third game of the series with the Browns this afternoon. St. Louis hit Hoffer pretty freely, Cross and Grady making home runs with the bases empty. Score: St. Louis, 5; Baltimore, 10.

Cleveland, July 13—Lewis was a trifle wild today, while Cuppy, after the first inning, pitched a fine game. Errors by Boston at critical moments helped to swell the score of the Indians. A fine one hand catch by Collins and the all around good work of Childs and Wallace were the features. Score. Cleveland, 8; Boston, 5.

Chicago, July 13—Battery errors saved the Brooklyn from a shut-out today. They could do but little with Callahan's pitching, while Kennedy proved easy and was batted all over the field. McCormick and G. Smith carried off the fielding honors by remarkably clever work at short. Score. Chicago, 11; Brooklyn, 4.

Pittsburg, July 13—Pittsburg redeemed herself today by good snappy playing. Washington's errors were costly in every case. The feature was Brodie's killing Wrigley's run at the plate after taking Tucker's long fly in centre. Score. Pittsburg, 7; Washington, 4.

Cincinnati, July 13—The Giants lost to the Reds in a close and exciting game today. Both teams played snappy ball. The Reds were unable to hit Seymour until the fourth inning, when they touched him up for five singles and a triple, and four runs was the result. Score. Cincinnati, 5; New York, 4.

Louisville, July 13—Two games were played this afternoon. The first game was very interesting but Louisville's errors were fatal. Evans was knocked out of the box in the first inning of the second game. The batting of Delahanty in both games was a feature. Score. Louisville, 3; Philadelphia, 4.

Second game—Louisville, 7; Philadelphia, 9.

HOW THE CLUBS STAND.

	Won	Lost	Per Cent
Boston	46	18	719
Cincinnati	42	20	677
Baltimore	42	21	667
New York	38	24	613
Cleveland	35	30	538
Pittsburg	30	34	469
Philadelphia	32	37	464
Brooklyn	30	36	455
Chicago	29	38	433
Louisville	26	37	413
Washington	24	38	381
St. Louis	13	53	197

A Sad Accident.

Raleigh, N. C., July 13—At a sham battle of the Governor's Guard at Pullen park tonight, George N. Banks, a member of the guard, who was taking part in the battle, was shot and killed almost instantly. The bullet struck him almost in the middle of the forehead and ranged downward and lodged in the brain.

It cannot be ascertained who is responsible for the loaded cartridge. It seems that the cartridges were examined very closely before being given out by the captain and first and second lieutenants and, owing to the difference in the weight of a loaded and blank cartridge it is hard to account for the accident. To lend additional mystery to the stray bullet, it is said no loaded cartridges have been given out by the company for over two years.

Take your wheel with you to the Academy grove Friday afternoon. After the meeting there will be a ride. Let as many wheels as possible be in line.

THURSDAY, JULY 15, 1897.

Weekly Crop Bulletin.

The weather during the week ending July 12th, 1897, has generally been very favorable for the growth of crops. Over portions of 17 out of the 95 counties of the State drought has continued, seriously injuring crops, but over the remainder of the State local rains were frequent, with plenty of sunshine and warm, but not excessively hot, weather. Cotton has improved remarkably; some fields are white with blooms; it is bolling well. The chief complaints about corn are its small size and bad stand in the east and lateness in the west portion of the State. Curing bottom tobacco leaves continues. Peanuts blooming and spreading; cantaloupes and water-melons are ripe; grapes are ritting to some extent.

Eastern District.—Drought has continued to prevail in a few counties, especially Pitt, Pender, Robeson, portions of Brunswick, Duplin and Craven, with injury to corn and gardens, but over the larger portion of the district the weather during the week was very fine; warm, with frequent showers, causing all crops to do well. Farmers are up with work; crops clean and growing nicely. Cotton is fine; blooming everywhere; bolling well in south; much has been laid by. Corn improved where showers fell early enough, but early corn cannot be materially improved, and the crop will be short; more rain needed. Tobacco not altogether promising, but making larger growth; lower leaves being cured. Peanuts blooming and spreading fast. Rice looks well; about laid by. Peas, sweet potatoes and melons fine. Cantaloupes and water-melons in market. Fruit generally scarce. Most farmers are done seeding peas, which are green and growing.

An Electric Fishing Reel.

A local genius at Columbus, Ind., is said to have invented an electric fish line reel which is highly successful from one point of view and very destructive from another. As described in a dispatch to "The Journal," there is inclosed in the fishing line a small wire which is attached to a battery near the fisherman or executioner and connecting at the other end with the hook. When the machine is in action the moment the fish touches the hook it receives a shock that kills it. It is said that eighty pounds of fish were killed with the machine in an experimental trial of a few hours.

The inventor seems to be ingeniously diabolical. As a means of killing fish, it may have all the merit claimed for it, but it is enough to make old Izaak Walton turn over in his grave, if there is enough of him left to turn, or rise to indignantly protest. A machine that destroys every element of sport and gives the person who manipulates it every possible advantage over the fish has nothing to recommend it except its capacity for killing fish. In this respect it is quite as unsportsmanlike as dynamite, and only less barbarous in that it kills one fish at a time instead of scores. It is

somewhat remarkable that this infernal machine should have made its appearance at the home of the state fish commissioner. Mr. Sweeney has been doing good in the way of putting a stop to the unlawful catching and killing of fish and if the law can be made to cover this new machine he will doubtless apply it.

"How Do You Do?"

The ordinary polite inquiry, "How do you do?" calls for nothing but a conventionally polite response; but if a man is past "the allotted age," and a philosopher besides, it may elicit a reply full of meaning and worthy of record.

When John Quincy Adams was eighty years old he met in the streets of Boston an old friend who shook his trembling hand and said:

"Good morning and how is John Quincy Adams today?"

"Thank you," was the ex-president's answer, "John Quincy Adams himself is well, sir; quite well, I thank you. But the house in which he lives at present is becoming dilapidated. It is tottering upon its foundation. Time and the seasons have nearly destroyed it. Its roof is pretty well worn out. Its walls are much shattered, and it trembles with every wind. The old

sement is becoming almost uninhabitable, and I think John Quincy Adams will have to move out of it soon; but he himself is quite well, sir; quite well."

With that the venerable sixth president of the United States moved on with the aid of his staff.

It was not long after that he had his second and fatal stroke of paralysis in the capital at Washington.

"This is the last of earth," he said. "I am content."—Youth's Companion.

Found After 34 Years.

At the second battle of Brandy Station, Va., in June, 1863, Cennally T. Litchfield, of this place, the gallant commander of Company D, First Virginia Regiment of Cavalry, received a pistol-shot wound in the face, from which he has suffered ever since and which has been remarkable in many respects.

The ball was a 44 calibre, conical, and entered the nostril below the bridge of the nose on the right side, and striking the cheek bone, glanced upward and inward and disappeared from sight and from reach of the surgeon's probe. The conclusion of the surgeon was that Captain Litchfield had either swallowed the ball or that it had gone out through his open mouth. In both conjectures he was mistaken.

For many years Captain Litchfield has suffered greatly from what he supposed to be catarrh, and he resorted to the use of many special remedies, besides trying faithfully and long the boiling processes of the Arkansas Hot Springs. From all these costly experiments he only received temporary relief. He lost the sight of one eye and bore the dismal prospect like a hero, until several nights ago, in an attempt to relieve himself of the distressing accumulations in his nostrils, the long lost pistol ball dropped into his mouth, and now the old soldier looks as if he had taken a new lease of life.—Abingdon, Va., Citizen.

Terrible Railway Disaster.

COPENHAGEN, July 12.—A terrible railway disaster took place about midnight at Gjentofote. The express from Belsingoer ran into a passenger train standing at the station, wrecked eight carriages, killed forty persons, and injured eighty-four others. Most of the victims are of the nrtesian class. The dead and injured have been conveyed in ambulance trains to this city.

It appears that the collision was due to an error made by the engineer in reading the signal, and by the failure of a brake to act.

When bilious or costive, eat a Cascaret, candy cathartic, cure constipation.

Seven Thoughts.

More flies are caught with honey than vinegar.

If you would not be known to do a thing, never do it.

It may be said that yesterday suggests, to-morrow promises, but to-day accomplishes.

It is difficult to say who does the most mischief, enemies with the worst intentions or friends with the best.

There is a great struggle between vanity and patience when we have to meet a person who admires us but who bores us.

Beware of prejudices. A man's mind is like a rat trap; prejudices creep in easily, but it is doubtful if they ever get out again.

A good and wise man may at times be angry with the world, and also grieved at it; but no man can ever be long discontented with the world if he does his duty in it.—New York Weekly.

Some Strange Counties.

There are some strange corners in this old State. For instance one county, Pamlico, has neither railroad, lawyer nor doctor. Dare county does not contain a single farm, and it is claimed that every house in it may be reached by boat. A prominent Baptist minister tells the Charlotte correspondent of the Atlanta Constitution that he was some days ago in a county town in the mountain section in which there has never been a barber shop, railroad or livery stable.

A Thought a Day.

Never meet trouble half way; let it do all the walking.

The better one is, the more goodness one sees in other people.

Say as little as possible about that of which you know nothing.

People who live only for themselves are engaged in a very small way of business.—N. Y. Weekly.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, acts gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cures headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. pay 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

NO CURE—NO PAY.

That is the way all druggists sell GROVES TASTELESS CHILL TONIC for Chills, Fever and all forms of Malaria. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c.

LUMBER.

WE HAVE ESTABLISHED A Lumber Yard at Greenville with W. R. PARKER as Manager. Orders for Lumber, Rough or Dressed can be left with him.

HINES BROS. LUMBER CO.

W. H. BARNARD

Little Girl Killed by a Horse.

A little daughter of Robert Stone, aged about 9 or 10 years, was killed by her father's horse a few days ago in the Rock Creek section of Wilkes county. It seems that the child had been in the habit of going to the pasture where the horse grazed and catching it. When she went after it, the horse refused to let her put the bridle on, and whirled around and kicked her, one foot landing on her side and the other on her head. Her parents witnessed the accident, but before they reached her side she was dead. Winston Sentinel.

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

Objected to Typewritten Letters.

It is told that a young farmer of western Burke wrote to the State Board of Agriculture for information regarding some part of his farm work and the board replied by a typewritten letter. This made the young farmer mad, he taking the typewritten letter as an insinuation that he could not read "pen and ink writing." He immediately sent the letter back to the department, with a message to them not to send him any more "printed letters;" that he could "read writing" yet. —Morganton Herald.

A Bean in His Ear for 20 Years.

F. B. Benbow, Esq., who has been suffering for some time with his ear, was greatly relieved last week by having a bean extracted from it. This bean was put in his ear by himself about twenty years ago, but he was unable to get it out until recently.

There are seventeen quinine factories in the world. Some of the bitter stuff comes from Chili and most of it goes to the chilly. Yet the shakers have never embarked in this branch of industry.

In private watch your thoughts, in the family your temper, in company your tongue.

Heavy Turkish Fire.

I must draw attention to that feature of the Turkish tactics which stamped the war of 1877 with a character of its own, a feature evident in all sections in which I took part, in none more than in the one under discussion. I refer to the quick fire of the Turkish infantry, of such power, duration and effect as had never before been dreamed of. General Todleben wrote later, "Such a shower of lead as that with which the Turks hail our troops has never before been employed as a mode of warfare by any European army." It was more instinct, experience, silent consent and confidence in their weapons than training or formulated rules which induced the Turkish foot soldiers to adopt this mode of fighting. I had witnessed quick fire drill in Widdin, but I venture to say that it was not until after the first battle that the officers became really conscious of the terrific power of long sustained quick fire.

Our orders were briefly as follows: "As soon as you know or suppose the enemy to be within range of your rifles cover the space presumably occupied by him or presumably to be traversed by him with quick fire, independent of distance, duration, difficulty of aim, probability of hitting and consumption of cartridges." The awful effect upon the opponent of this rule, if carried out as literally and as much en masse as it was by the Turks, is apparent in the Russian losses, and in the fact that throughout the Plevna campaign the Russian attacks, with few and unimportant exceptions, collapsed, numerical superiority notwithstanding. —A. V. Herbert.

Keeping Constantly at it Brings Success

TRAIN AND BOAT SCHEDULES.

Passenger and mail train going North, arrives 8:52 A. M. Going South, arrives 6:57 P. M.
Steamer Tar River arrives from Washington Monday, Wednesday and Friday leaves for Washington Tuesday, Thursday and Saturday

WEATHER BULLETIN.

Fair tonight and Thursday, warmer Thursday.

WHAT THERE IS.

Much or Little to Tell—You Find it Here.

Fine nights for sleeping.

Sea serpents are scarce this summer.

Services in the Baptist church tonight

Some fish stories carry very little weight.

The slow race horse is a thing of the passed.

Vermont Butter on ice at M. L. Starkey's.

New Mullets, Cream Cheese and Butter at S. M. Schultz.

Several loads of new tobacco came in to the warehouses this morning.

The roosters got in a crowing humor early last night and raised a racket all over town.

We are closing out all Ice Cream Freezers at cost. Now is your chance. **BAKER & HART.**

Just received a new supply of Lion's Coffee—15 cents a pound. **J. S. TUNSTALL.**

There is no sale for fruit jars this season. Fruit is so scarce that very little will be had for putting up.

Tobacco crops made so far are very successful. Several farmers have brought fine samples to town to exhibit.

An annex for a drying room is being built to the Hooker & Bernard prize house. It will be equipped with steam fixtures.

We will continue selling milk at 5 cents a quart, but hereafter our wagon will make only one delivery on Sunday. **JAMES AND WILEY BROWN, Props. Elmwood Dairy.**

All members of Tar River Lodge, No. 93, K. of P. are requested to be present at the meeting Friday night, without fail.

Have your laundry ready for Wednesday morning's shipment. My customers are always pleased.

C. B. WHICHARD,
Agt. Wilmington Steam Laundry.

The Oxide Roof Paint Co., J. L. Lawrence, Prop., of Petersburg, Va., are in the city stopping at the King House. They come highly recommended and would like to give estimates on work, as their paint is a leader. Leak work a specialty.

New Voice on the Wire.

Miss Julia Foley, operator at the telephone office, has gone to Littleton to take a vacation of two weeks. Subscribers to the exchange will miss her prompt and familiar "hello" in response to calls. Miss Julia is a most efficient, courteous and obliging operator, and the vacation she is taking is well earned. Her sister, Miss Annie Foley, is filling the place during her absence.

They Go Wherever the Signboard Points.

J. A. Higgs, of Raleigh, is in town.

There is a time in the affairs of every man when he should gird up his loins and hustle, and secure bargains. Such a time is the present. Time is limited on my stock which is going dirt cheap. Take advantage of this or suffer the pang of paying higher prices somewhere else. All lines of goods go at reduced prices. A clover field for the people. See us, and see us quick.
