Base Ball.

Cleveland, July 14—Klobedanz began the game by giving three bases on balls without a strike and the Indians batted him out of the box in the fifth inning, scoring nine runs after two men were out. Wallace sent a homer to deep centre, which came with the bases full and brought in the last four runs in this inning. This was the feature of the game. Stivett replaced Klobedanz after the fourth and did much better. Score. Cleveland, 18; Boston, 12.

Chicago, July 14—Two very rank errors followed by a streak of hard hitting gave Brooklyn enough runs in the sixth to win the last game of the series. Griffin's and Anson's batting, and the latter's first base play were the features. Score. Chicago, 7; Brooklyn, 15.

Louisville, July 14—The Phillies won the last game of the series from the Colonels today, batting Evans hard. Dechanty again fattened his batting average. Score. Louisville, 5; Philadelphia, 10.

Pittsburg, July 14—Washington did and Pittsburg did not hit the ball, and that tells the story. G. J. Jener was relieved by Hughey in the middle of the third inning after five runs had been scored, the result of seven hits and three bases on balls. Score. Pittsburg, 1; Washington, 15.

Cincinnati, July 14—The New Yorks made their last appearance of the season today and had everything their own way for the first three innings. Dwyer was hit hard, ten hits being made off his delivery. In the fourth Dammann went to pieces and the Giants could do nothing with him. The Reds hit Meekin hard after the fourth inning. Burke was sent to the bench by Umpire O'Day for interfering with a play at third base. Score. Cincinnati, 11; New York, 6.

Sentenced to be Eaten by Alligators and the Sentence Executed.

An Indian named Tiger Cat eloped with a chief's wife here the other day. The entire tribe pursued him and captured the couple. They were tried by council and sentenced to be eaten by alligators.

The two were bound to stakes near the water's edge. A dog was tied between them to attract the attention of the alligators. For an entire day they were exposed to the sun. In the evening a number of saurians emerged from the water and devoured the dog. They then literally pulled the man and woman to pieces. Their shrieks of agony were frightful.—Fort Lauderdale, Fla., Dispatch.

Fish Do Swim.

Jake Higgs says eating fish will certainly make a body swim. He was one of those fellows who could not swim a lick, but says that during the past week at Ocracoke he ate fish three times a day, and between meals, and first thing he knew he could swim like a duck.

CONTRACT SIGNED

For a Steam Fire Engine—Now Let Water be Provided.

The Board of Councilmen held a special meeting Thursday night to consider a proposition from the La France Steam Fire Engine Co., of Elmira, N. Y., for furnishing a steam engine for the town. The Councilmen accepted the proposition, signed the necessary papers which have been forwarded to the company. Under the contract the engine is to be delivered here by the 15th of September. This verifies the prediction recently made by the REFLECTOR that Greenville would soon have a steam fire engine.

Now that the engine is contracted for the Council should go to work at once and have additional cisterns built so there will be an ample water supply. These should be ready by the time the engine arrives. Without water the engine will not be of much service.

STATE NEWS.

An incendiary set fire to a lot of wheat stacked in the field of Fred Alexander, in Wilkes county, and 27 stacks were burned. The loss was over 500 bushels.

In Charlotte on Wednesday two white boys had a quarrel when one stabbed the other with a 5-inch awl, killing him almost instantly. The murderer is only 10 years old.

Mr. N. D. Sullivan, of Walkertown, is a farmer as well as a tobacco manufacturer. Last fall he sowed 16 bushels of wheat on 22 acres of land, and recently threshed out 510 bushels as a result.—Winston Journal.

About August 1st Greensboro will have another daily paper. It will be called "The Evening Telegram," and will be published by a stock company. C. P. Sapp, of Kentucky, will be the editor.

The Raleigh News and Observer says it is a street rumor there that upon his return from Shanghai, China, where he is consul general, Capt. Thos. R. Jernigan will revive the Raleigh Tribune and conduct it as a gold Democrat paper.

In Charlotte a white boy shot and killed a negro, on Saturday night, while the negro was trying to hit him with a rock. On Wednesday a band of negroes went to the mill where the white boy worked with the intention of lynching him, but the police drove them away.

JUST FOR FUN.

Rollin Stone Nomoss—"De water in dat well tastes as if it had fish in it." Thirsty Thingumbob—"Well, dere's a sucker in de pump."

"De gall dat tells her lovah sweet things," says Brother Watkins, "cffin means de opposite, De bee makes honey! but, golly! how et kin sting!"

One of the primary laws of Nature is that you can't take something from nothing. And yet the conceit has been taken out of many a young man fresh from college.

"The Siamese twins were not the only people stuck on themselves," says the Manayunk Philosopher. "The farmers who are successful with their cabbages often get big heads."

Muggins—"Why did you give up your situation?" Buggins—"Well, you see I was working for a florist, and he treated me so seedy I thought I'd leave and branch out for myself."

Artificial Eggs.

Every now and then one finds in the newspapers something about artificial eggs. It has been said that they are manufactured in Chicago and various other places. But no one can be found who ever saw an artificial egg or who had ever seen a man who had seen them. Most people have considered them as purely imaginary, but now comes the Pittsburg Post with the assertion that an egg factory is to be started at Beaver Falls, Pa., with machinery which will cost a hundred and fifty thousand dollars. We are not told what the eggs are to be made of or whether they will be good eggs, but only that the shells, after being emptied, can be utilized in india-rubber shoe factories, and that eggs will be so cheap that hens will be driven out of the business. For most persons the hen egg which has not been too long disassociated from the parent, is good enough, especially if it is a guinea hen egg. In England plovers' eggs are considered a dainty, and every bird that is so unfortunate as to lay an egg resembling that of a plover is robbed to make an English holiday. It would be well, for the protection of birds, for some one to start a factory in England for the manufacture of plovers' eggs. This would be a public service. When we speak of artificial eggs it will be understood that eggs are meant which can be eaten, and not the fraudulent china eggs designed to fool hens into laying when they don't want to.—Baltimore Sun.

The Pistol Was Some Good.

Several colored men were fooling with a pistol in a house in "Lilly Row," south Camden, Saturday night. Theodore Archer had it, and Vincent Jones said:
"Dat pistol ain't no good."
"Tain't, eh? Betcher it's got er load in," replied Archer.
"Ah, come off! Here's a shot; shoot me!"
Jones held up his arms as he stepped off a pace or two. Archer leveled the revolver and pulled the trigger. He was right about the load. Jones cried: "Fon de Lawd's sake!" and dropped. Cooper Hospital surgeons dug a big bullet out of his leg yesterday.
Archer was arrested, but as Jones said it was all a joke he will probably be released.—Philadelphia Record.

Held a Cornet Note 125 Seconds.

In the presence of 10,000 people, at an open air concert in Prospect Park, Brooklyn, Sunday afternoon, Bandmaster Mygrant, of the Thirteenth Regiment Band, held a cornet note for 125 seconds. The trill was played on the second space of the staff F sharp. A part from the wonderful length, the note was a marvel of sweetness.
A bicycle artist has figured it down to a cent, and finds that it costs just \$30.31 to build an up to date \$100 wheel.

Negroes Have Voice in White Schools

In the campaign of 1892 and 1896 we heard a great deal about the unwillingness of the Democratic party to let the people rule. On many a stump it was said: "Why, they won't even let you vote for school committeemen. They are appointed by court house rings."

Well, Democratic rule has been succeeded by the rule of Republicans and their allies. Do the new powers let "the people vote for school committeemen?" Are they not named by a few political bosses wherever Fusionists have control? And, worse than that, do they not ram down the throats of the people negro committeemen to manage white schools and select teachers for white children? Worse still, do they not appoint negro committeemen in townships in which the negroes are few in number and in which no negro committeeman could be elected by a popular vote?

If the Democrats did not let the people vote for school committeemen, they appointed the fittest men to manage the schools. They did not put the bottom rail on top by giving negroes a voice in selecting teachers for white schools. They did not make political merchandise of the education of the children.—Raleigh News and Observer.

Judges and Registrars.

The Orange County Observer says that Chapter 378, Laws of 1897, reads as follows:
"That at all future elections registrars and judges of elections shall receive one dollar per day for each day of actual service as required by law, and the person required to carry the returns and ballot boxes to the clerks of the Superior courts, except the precinct in which the county seat is located, shall be allowed one dollar per day and five cents per mile one way for his services; that the allowance of one cent per name for registration of voters is hereby repealed and the compensation herein allowed is in lieu thereof."
Section 3 of the above act provides "that this act shall only apply to the counties of Stokes, Graham, Cherokee, Vance, Rowan, Bladen, Davidson, Davie, Wake, Cleveland, Gaston, Mecklenburg, Dare, Granville, Beaufort, Surry, Lenoir, Warren, Montgomery, Cumberland, Pasquotank, Camden, Washington, Alamance, Buncombe, Northampton, Halifax and Hertford."

Proposed Colony of Widows.

Mrs. Hattie N. Remis, of this place, owns a large tract of land in northwestern Nebraska, which she says she intends to give to twelve deserving widows of Northwestern farmers. In return she will require them to cultivate it without male assistance. She says that she will start them out with all the machinery they need, a sufficient number of cattle, horses, swine and poultry to serve as a nestegg, and money enough to last them until the first harvest can be disposed of. She admits that the climate is dry, but she proposes to instruct her wards in the operation of the Campbell system of soil culture, by which method experiments have proved that the rainfall of the section is sufficient to insure bountiful crops. The nearest the women will be allowed to come to dealing with men is to sell their crops to them. If Mrs. Remis should learn that a farm hand of the male persuasion has been employed about the premises the farm will revert to her. Any member of the community who marries will also forfeit her title to a share of the property.—Arabia, Neb., Dispatch to Chicago Record.

In the building of locomotives, bicycles and all forms of electrical machinery the manufacturers of the United States have distanced competitors and commanded the first place in neutral markets.

Three Fourths of the Sun's Face Will be Obscured Thursday Morning, July 29.

Our people will have an opportunity of observing an eclipse of the sun on Thursday morning, July 29th, on which date, shortly before 8 o'clock in the morning, the earth will enter the moon's shadow. It will be 10:30 before the eclipse is finally over. Three fourths of the sun's disc will be obscured—a larger obscured segment than has been observed in any eclipse for many years.—Wilmington Star.

At a recent sale of curios in Brussels one of Victor Hugo's straw hats sold for \$340, and a goose quill with which he wrote "Napoleon the Little" brought \$720. It was fastened to a sheet of paper on which was written the following: "I beg M. Victor Hugo to certify that it was with this pen that he wrote 'Napoleon le Petit.'" (Signed) Camille Barru. "It was." (Signed) Victor Hugo.

In London, Paris, Berlin and Vienna a large number of Chinese have arrived recently for the purpose of studying medicine. They have been dispatched to Europe for the purpose by the express orders of the young Emperor, who has come to the conclusion that Western medicine is superior to Chinese remedies.

The list of casualties by the seashore would be considerably lessened and the tax upon brave bystanders and life guards much diminished if a few "don'ts" should be kept in mind by the huge floating population which disports itself during the summer months along the beaches of the Atlantic. Bathers should study themselves, at least, as carefully as they do the bills of fare at the hotels; and neither after too hearty eating nor after heavy drinking should one risk a dip. The man with a constitutional weakness need not keep out of the briny bath; but all such should measure their strength and deny themselves alike the strain and fatigue of "fancy" swimming or of a too prolonged stay in the water. Bathing in the salt water is a decidedly beneficial and enjoyable exercise; but a prolonged dalliance with the breakers may bring disaster which ought not to be chargeable upon the helpful surf.—Philadelphia Record.

In cases where there is ground for believing that a customer will bear watching, the credit man's investigations are very thorough. He inquires as to the private affairs of the buyer in question, finds out as nearly as possible the amount of his income and how his money is invested and keeps an eye as well upon the way in which he lives and spends. With every precaution, however, there are many losses, and it is the business of the annual convention of credit men to discover better ways each year of protecting mercantile interests.—New York Tribune.
