The truth is that Congressman Benton McMillen ought to have succeeded old man Isham G. Harris in the Senate, but fiddling Bob Taylor has an eye to the main chance, and if he had put Mc-Millen in the Senate until the Legislature meets it would have given the Congressman too great an advantage when the time came for election by the Legislature. McMillen is a plodding fellow, never brilliant, cranky on some things, but dead set in his convictions and an honest man. By all odds the fittest man Tendessee can furnish to succeed the vigorous Harris-unless it be ex-Congressman Patterson, but he is a turned down gold bug and not in it any more. The fiddling lennessee statesman in the Governor's chair was doubtless scheming for his own future when he appointed Mr. Turley. We hope McMillen will beat him out when the Legislature meets to elect .-- Charlotte Observer.

Several small, long white worms were observed in the water after the ice had melted. It seems unreasonable that they should come out of the ice, but such was the fact.
