Base Ball.

Pittsburg, July 22.—The 5,500 people at the ball park today saw a prize fight, an umpire rotten egged and two good games all for one price of admission. In the third inning of the first Sheridan gave a batsman his base on balls, and when he went out behind the pitcher's box to watch second, Hawley said something to him and Sheridan struck Pink a blow on the cheek. Hawley retaliated and with two well aimed blows knocked Sheridan down and out. Hawley was put out of the game and Hastings substituted. In the second game Hawley was put in to pitch and Jennings, the third man up, was given first on what Sheridan called an illegal delivery. This set the crowd wild and in a few minutes a shower of ill smelling eggs fell around the umpire, and he had to stop the game until Captain Donovan could come in from the field and restore order. Both games were well played. Score. Pittsburg, 1; Baltimore, 9.

Second game—Pittsburg, 4; Baltimore, 3.

St. Louis, July 22.—The Browns put up a slow game on the bases and in the field today. The Senators assumed an early lead, but the home team made great bid for the game in the last inning. They had scored four runs and had a man on second when the last batter retired. Score. St. Louis, 8; Washington, 9.

Chicago, July 22.—Today's game was an even thing and a pitcher's battle for six innings, each side scored once on errors. The Colts won out in the seventh on a bunching of two singles, followed by Everett's long hit for four bases. Score. Chicago, 4; New York, 3.

Cleveland, July 22.—The Indians had good batting streaks in the first and seventh innings, while the Phillies were only able to hit Wilson in the second. That about tells the story of today's game. The visitors contributed to the defeat by their fielding. Score. Cleveland, 6; Philadelphia, 4.

Cincinnati, July 22.—When the Brooklynns went to the bat in the ninth inning the score stood 7 to 3 in favor of the Reds. An error, four singles and two doubles gave the visitors six runs and the game, the Reds going out in one, two, three order in their half of the inning. Score. Cincinnati, 7; Brooklyn, 9.

Louisville, July 22.—The Colonels quit after the fourth inning today and the Bostons fattened their batting averages considerably. Miller was substituted for Dowling in the seventh inning. Score. Louisville, 2; Boston, 17.

ORIGINAL OBSERVATIONS.

We hope the coal miners will strike in vein.

There has been no reduction in the wages of sin.

There is no statue of limitation to the law of love.

More people are overcome by vanity than by summer heat.

It is the green countryman who makes the fat faro bank.

Women ornament their dresses behind because they like to have nice things said about them when their backs are turned.

Boys have been ruined because they had to stay at home and turn the grindstone, when they should have been allowed to go fishing.

Ladies bathing suits are of lighter material this year than usual. We understand that cancelled two cent stamps are utilized to a great extent.

What this country is yearning for is a sort of cholera epidemic which will have sense enough to confine its attention to the gold bug, high tariff politicians.

There is more or less talk about holding the next World's Fair. We know nothing about the next world's fair, but we do know that Sunday night is a splendid time to hold this world's fair.

The weather is now too hot for church going people. The same congregation which sits delighted through a two and half hours of a five act comedy can't possibly endure more than twenty minutes of sermon and a three minute prayer.—Orange, Va., Observer.

Hic Jacet.

On Thursday last a handsome monument was erected over his grave to mark the last resting place of the late John H. Blount, formerly of Hertford, but later of Greenville. A simple inscription, stating his name, date and place of birth and date of death is the only record of his life that is graven on the stone, but it is enough. Sculptured words neither add to nor detract from the fame of one who has crossed the narrow confines of mortal life. His friends remember him as he was to them, and standing with bowed heads, beside his earthly tomb the reck not of marble and chiseled phrase, but, in silent contemplation and reflection, find a sufficient epitaph in the fact that "he was and he is not." Standing thus beside the grave of Mr. Blount, on Friday last, were W. M. Bond, of Edenton and and the editor of the Southerner, both his friends from the days of boyhood to the time when the "pale horse" overtook him in the prime of life and vigor of his powers. The associations of a life time required no prompting to form a theme for reverie, and a sermon could be preached from the expression of Mr. Bond as, turning to leave the grave he remarked, with tender and reverent inflection, "poor old Blount, to think that you are here?"—Tarboro Southerner.

SATURDAY, JULY 24, 1897.

The State Railroad Commission which went to Round Knob to hold a meeting to consider railroad valuation and telegraph rates, decided to increase the valuation of railroad property in the State by \$3,000,000, and to reduce telegraph rates from 25 to 15 cents.

WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, July 23d, 1897.

The Senators who opposed the tariff bill began their kicking several weeks too late. Had they not allowed themselves to be tricked in the Senate they might have had everything that they kicked too late for, and might even have succeeded in defeating the bill. When cotton ties, cotton bagging and burlaps were put on the free list, and the duty on white pine lumber was reduced to \$1, the trust-bound Senators did it merely to keep the opposition quiet and with no intention of allowing them to remain. Had the kicking been done at that stage of the game it would have been easy to have secured pledges that would have insured those items being let alone in conference. To kick on the conference report could accomplish nothing, unless backed by votes enough to reject the report, because the report had to be accepted or rejected as a whole.

The new tariff will do more for the democrats than any idle kicking on the floor of the Senate could do.

The fight against the confirmation of T. V. Powderly to be Commissioner General of Immigration has become so warm that Mr. McKinley has requested republican Senators not to have a vote taken upon the nomination until the regular session of Congress. The labor leaders who are fighting confirmation say they have pledges from a sufficient number of Senators to make the rejection certain, if the vote were taken now, and Mr. McKinley regards rejection as so probable that he has promised to give the place to another man. He wants Powderly to hold it during the recess of Congress, in payment of campaign obligations.

Senator Tillman was a very mad man when Czar Reed made the House committee on Rules refuse his request for a special order for the House to vote upon his Dispensary bill, already passed by the Senate, at this session. Representative Elliott, of S. C., opposed the granting of Senator Tillman's request.

According to an expert business man, the following is the tax that will be paid to the sugar, tobacco, and leather trusts, on account of the new republican tariff: An average of 50 cents

more for each pair of shoes; from 25 cents to \$1 more for every leather satchel or trunk; from 15 to 25 per cent advance in price of belts, straps, harness and other leather goods, 1/2 to 1 cent a pound more for sugar, and a general advance in prices and deterioration in quality of all candies and preserves; and advance of 50 cents a box on imported cigars and a general lowering of quality in all grades of cigarettes.

Some of Speaker Reed's admirers are very sore because they accepted that little fairy story about the House conferees standing out for a sugar schedule that would operate against the trust, and played sugar stock to fall. Its tremulous use, which is now history, caught them for large amounts.

Although Senator Wolcott, Mr. Stevenson and Gen. Paine may not know it they are, unless all indications are at fault, being used as tools by the single standard gold men. While they suppose themselves in Europe for the purpose of making friends for international bimetalism it looks as though they were there merely to help the single standard gold men retain their grip on the United States. It will be remembered that these gentlemen were instructed before their departure for Europe that all their negotiations must be conducted through or in conjunction with the U. S. Ambassador. Therein lies the whole plot. The U. S. Ambassadors to Great Britain, France and Germany are each as strong advocates of the single gold standard as Secretary Gage is. They had privately made known the situation in the U. S. to the governments to which they are accredited before the arrival of the silver commission—that unless the single gold standard countries came to the rescue the silver men would elect a majority of the next House, the Senate already having a silver majority, and be in a position to pass a free coinage bill. Nothing more substantial was asked than those governments should agree to the holding of an international conference next year, and now the announcement has been made that one will be held next fall. The date will be specially arranged so that the Congressional elections will take place before it is known that the conference is a failure as it is certain to be. The conference is relied upon to keep those republicans who believe in the possibility of international bimetalism in the party traces. It is quite a nice scheme, but its success depends upon the willingness of many voters to allow themselves to be hoodwinked into the belief that the international monetary conference will do something.

A Mother's Prayer.

A correspondent of the London Echo has written this testimony: Many a night, as I remember lying quietly in the little upper chamber before sleep came on, there would be a gentle footstep on the stair, the door would noiselessly open, and in a moment the well-known form, softly

gliding through the darkness, would appear at my bedside. First there would be a few pleasant inquiries of affection, which gradually deepened into words of counsel. Then kneeling, her head close to mine, her most earnest hopes and desires would flow forth in prayer. How largely a mother can wish for her boy! Her tears bespoke the earnestness of her desire. I seem to feel them yet where sometimes they fell on my face. Rising, with a good night kiss, she was gone. The prayers often passed out of thought in slumber, and came not to mind again for years, but they were not lost. They were safely kept in some secret place of memory, for they reappear with a beauty brighter than ever. I willingly believe that they were an invisible bond with heaven that secretly preserved me while I moved carelessly amid numberless temptations and walked the brink of crime.

Fifty Years Ago and Now.

The rush to the gold fields of Alaska comes just fifty years after the gold discoveries of California. It is gratifying to note that the news from the new diggings indicates an improvement in frontier life in the past fifty years.

The early history of California is replete with an interest which the country can well afford to dispense with. The "bad man" abounded to such an extent that the vigilance committee was a necessity. All reports from the scene of the mining excitement in Alaska declares that it is as peaceful and orderly as Oklahoma City of Hoboken.

This was what we had a right to expect. The turbulent conditions of old San Francisco were the reflex of a general turbulence — of times when every great city was more or less liable to riots and outbreaks of the mob spirit. Fifty years ago in almost any large city an election meant more or less rioting, and even a fire was usually accompanied by a fight.

The domain of law has been extended in this country in fifty years. Shall we have to wait fifty years more before abolishing lynching and the private vengeance of the wronged husband?—New York World.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act, gently and positively on kidneys, liver and bowels, cleansing the entire systems dispel colds, cures headache, fever, habitual constipation and biliousness Please buy and try a box of C. C. C. pay 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

If people would only take into consideration the fact that the amount paid, each season, for damages to wagons and other vehicles from bad roads, would go very far towards the expense of building gravel, or other roads that would be permanently good, they might more easily be induced to engage in the enterprise. And in addition to these damages the injury to teams and the interruption of business by bad roads are also worthy of careful consideration. A little serious reflection will convince any reasonable man that good roads are the cheapest —Orange Va. Observer.

It is Dangerous.

People take great risk in getting on and off the trains while they are in motion. By this hazardous practice accidents frequently occur and lives are sometimes lost. The REFLECTOR reporter in his rounds visits the depot here twice a day, and it is rare that he goes there without seeing somebody jump on or off a moving train. Fortunately no accident has occurred here from this dangerous practice, but it will be almost a wonder if the practice continues without one. People who engage in this had better stop it before there is some sad example to warn them against.

Base Ball.

A right interesting game of base ball was played here Friday afternoon between colored clubs of Greenville and Newbern. Up to the seventh inning the game was very close, when the visiting team seemed to get rattled and lose their grip on the ball, so that the home team wound them up in a score of 12 to 7.
