BASE BALL.

Games Played and Standing of Clubs.

New York, August 16—New York and Philadelphia played an uninteresting game here this afternoon. Taylor was will, but those of the Giants who had on their batting clothes managed to hit his delivery whenever they wished. The errors on both sides were costly. McCreery's double to Warner was the feature. Score. New York, 7; Philadelphia, 2.

Baltimore, August 16—The Orioles today defeated the Brooklyn in a one sided game. Kennedy held the Champions down to two hits during the first four innings. In the fifth a succession of well placed hits netted the home team five runs. In the next inning the visitors became demoralized and for the remainder of the game there was no contest. Score. Baltimore, 14; Brooklyn, 5.

Pittsburg, August 16—Pittsburg and Louisville made a grand struggle for seventh place today with all the odds in favor of the visitors until the eighth inning when, with two men out, the home team made four hits netting seven bases and three runs. Score. Pittsburg, 3; Louisville, 2.

Boston, August 16—The Boston won the first game of the series with Washington today in wet and threatening weather. It was a pitchers' battle throughout and both had excellent support. Nichol's speed was terrific and he struck out eight men. Up to the last inning but two Washington men got as far as third base. McJames was at his best, and his command was superb, and Tommy Tucker for the first time since 1889, appeared in a uniform not that of the Boston club, and played first base for the visitors in his usual style. There were many individual plays of exceptional character. Score. Boston, 5; Washington, 2.

JUST FOR FUN.

A shell game—rowing.

The oyster will soon be getting back into the stew.

The bald headed man is usually a gentleman of polish.

"You can't make a game of me," exclaimed the sparrow as he dodged the reed bird hunter.

Harduppe—"What time is it?"
Bjones—"Isn't you watch going?"
Harduppe—"Not exactly; it's gone."

Blobbs—"Gotrox looks awfully shabby of late." Slobbs—"Yes, his daughter has just become engaged to a foreign nobleman."

Tommy—"Pop, what is a cyclometer?" Tommy's Pop—"A cyclometer, my boy, is something that the bicycle idiot puts on his wheel so that he may know when he is tired."

A Frankford man thought he heard some one hurrying down the alley the other night, but when he looked out of the window he didn't see anything running but the hydrant.

WORK THAT COUNTS.

No Man Does More to Advance Greenville.

The Greenville tobacco market and the tobacco growing territory adjacent thereto, are better known abroad than any other tobacco section of Eastern North Carolina. This due largely to the splendid work done by Mr. O. L. Joyner through the columns of the REFLECTOR in the interest of this section. In scanning our exchanges we notice that the prominent tobacco journals throughout the country copy Mr. Joyner's articles and comment freely thereon. His reports on crop conditions are always conservative and are recognized authority by the trade. His every energy is exerted in behalf of his section and his work has its effect as is evidenced by the growing interest in the Greenville market.

Let's Have the Library.

Let no one forget the meeting at Harding & Harding's office, Thursday night, looking to the establishment of a library and reading room here. Greenville has long enough been without an institution of this character and should embrace the present opportunity to secure one. It should require no argument to convince any one of the needs of a good public reading room.

Splendid Paper.

Today's issue of the Kinston Free Press was an illustrated 10-page paper, containing 63 illustrations of prominent people and buildings and columns of interesting matter setting forth the advantages of the town and community. Editor Herbert shows creditable enterprise in issuing such an excellent number of his paper and it will do Kinston vast good.

A Boy Killed.

The little son of Mr. James Davis, who is superintendant at Tilghman's mill near Grimesland, while playing beneath the machinery Saturday last, became caught in the pulleys and was killed. He was a bright little fellow and our sympathy is extended to the bereaved parents.—Washington Messenger.

Talk on the Chataqua.

At the prayer meeting service in the Baptist church Thursday night Prof. W. H. Ragsdale will talk on the recent Sunday School Chataqua at Red Springs, its work and his impressions of it. All who are interested in Sunday School work should hear this talk.

New Paper.

The North Carolina Journal of Education is the name of a new publication at Greensboro, edited by Profs. P. P. Claxton and L. D. Howell. It is issued monthly at 50 cents a year. As the name implies it is published in the interest of education. The initial number is a good one.

State Fair.

The REFLECTOR is in receipt of the premium list of the next State fair to be held in Raleigh Oct. 18th to 23rd. The premiums offered aggregate \$5,000.

Another Conviction.

The negro Brodie, charged with rape on a young lady at Henderson, was convicted in Vance Superior Court and sentenced to be hung September 1st.

The first ripe scuppernon grapes will soon be in evidence.

FRANK WILSON.

We are determined that all—

Summer - Goods

must go and we will sacrifice them to make a clean sweep. No reasonable price refused, we must get rid of them to make room for our

If you want bargains that are bargains don't miss this chance.

H. M. HARDEE.

The Augusta Chronicle says the Fitzgerald colonists seem to have caught on to watermelon culture all right. They shipped melon from Fitzgerald to Wm J. Bryan weighing over eighty pounds. They likewise labled it "For the next President of the United States."

Some of the Blessings of Fusion.

The Treasury has been emptied so that the special appropriations made by the Legislature cannot be paid.

A gold bug Senator was elected by men whom their own party leaders say were bribed with promises of office.

A large number of negro magistrates and constables have been elected in eastern counties. Negroes have been appointed on school committees and vested with full authority to visit and oversee the public schools of the whites.

Halifax county, under fusion control, is bankrupt and the treasury has ceased to pay county orders.

The Legislature has empowered the Government to appoint aldermen in the several towns and cities of the State, thus scandalously violating every principle of home rule.

A fusion justice of the peace in Cabarrus county has been convicted of compounding a felony.

A member of the board of county commissioners of Warren county has fled from justice, under a charge of seduction.

The chairman of the board of county commissioners of Vance county has been bound over to court on an indictment for corruption in office.

Gentlemen, how do you like fusion rule as far as you've tried it?—Hickory Times.

Grapes Gone to Fusing

R. B. Proctor has a very large scuppernon grape vine at his residence, and this year it promises a very prolific yield. The scuppernons are coming in bunches, from eight to fifteen in a bunch, when this grape usually grows very scattering. Near this vine is growing a very prolific Concord grape and from present appearances it looks as if the scuppernon and the Concord has fused and are about to produce a new variety of grapes. If that be the case we suggest they be called the scupperconcs, or the Conncong.—Durham Sun.

One As Sensible As the Other

People laugh at cranks who suggest the faith cure as a cure for disease. But they don't laugh at the fellows who suggest tariff taxation as a remedy for business depression, and a booster of prosperity. One is about as sensible and reasonable as the other.—Wilmington Messenger.

Forty three streets in New York have been torn up by contractors, ostensibly to be repaved, but really, it is said, to furnish work for laborers whose votes are to be controlled at the election this fall.

A new directory just out in Charlotte gives that bustling city a population of 26,154 souls, all told.
