### Gladstone Dead — Bismark III— Exchange of Prisoners Arranged—France is Furnishing Supplies to Spain—Naval Battle Expected—Government Still Holding News.

**Bismark III.**  
By Cable to Reflector.  
Berlin, May 19—Bismark is ill. His physician has been summoned from Baden.

**American Condolence**  
By Cable to Reflector.  
London, May 19—U. S. Ambassador Hay telegraphed condolence to Herbert Gladstone in fitting language. Condolences were also received from President McKinley through Ambassador Hay.

**Exchange of Prisoners**  
By Telegraph to Reflector.  
Washington, May 19—The State department is notified by the British Consul at Havana that arrangements have been completed for the exchange of two Spanish prisoners for the two newspaper correspondents imprisoned in Havana. Spaniards are to be sent from Key West and a Spanish boat come out to meet them and make the exchange.

**France Helping Spain.**  
By Telegraph to Reflector.  
New York, May 19—Colon dispatches say the newspapers there report the Spanish fleet cruising near Costa Rican coast. It is also reported that the French steamer De Lesseps, which sailed from Colon yesterday, has ammunition and other supplies for the Spanish fleet.

**Aid for Dewey**  
By Telegraph Reflector  
Washington, May, 19—The War department is informed that the first division of the Philippines expedition with 3,000 men leave San Francisco tomorrow under command of Gen. Otis. Second division under Gen. Merritt starts as soon as necessary arrangements are completed. Department is also advised that the fifth Maryland regiment starts for Chikmauga this afternoon.

**Prices Advancing**  
By Telegraph to Reflector.  
New York, May 19—Foodstuffs are rising in price, flour advanced three dollars per barrel, fresh meats two to four cents per pound, other things in proportion except butter and eggs, which are lower.

**Bombarding Santiago**  
By Cable to Reflector.  
Havana, May 19—Three American warships yesterday bombarded Morro Castle at Santiago doing only slight damage. No details received here.

**After the Spaniards**  
By Telegraph to Reflector.  
Washington, May 19—Navy and State departments used the cables freely yesterday trying to locate the Spanish fleet, but all information as to success or failure is withheld. Probabilities are that Schley, Watson and Sampson have formed junction. Monitors will be stationed off Havana and Schley and Sampson will go gunning for the Spanish fleet if it has not been already located. It is believed the navy department has a good idea of the whereabouts of the fleet but refuses to give out any information. The Government expects to hear of a naval battle before the end of the week.

**Lee Reedy to Go**  
By Telegraph to Reflector.  
Washington, May, 19—Gen. Lee is at the War department today closing up minor matters. With two exceptions Lee has chosen the members of his staff from the regular army. He expects to leave for Tampa tonight or tomorrow.

**Sigsbee in Hard Luck Again.**  
By Telegraph to Reflector.  
Jacksonville, May 19—Fire was discovered yesterday in the coal bunkers of the cruiser St. Paul. The fire was quite serious and burned for several hours before being put out. Several of the crew were prostrated with heat. The cause was spontaneous combustion.

**Big Fire**  
By Cable to Reflector.  
Constantinople, May 19—A great fire is raging in the Stamboul quarter of the city. One hundred houses have already been destroyed. Loss of life not known.

**Gladstone Dead**  
By Cable to Reflector.  
London, May 19—Hon. Wm. E. Gladstone passed away peacefully at 5 o'clock this morning. He was unconscious for two days prior to his death. Members of his family were with him to the end. His death caused the deepest grief throughout the country and bells are tolling everywhere. London is in mourning with flags lowered and black draperies displayed.

In the House of Commons this afternoon Balfour announced Gladstone's death and moved that the House adjourn. Said he would tomorrow move an address to the Queen praying her to grant the honor of a public funeral if not inconsistent with his wishes or his family, and also praying Her Majesty to give directions for the erection of a public monument in his honor.

It is thought the interment may be in Westminster, unless Gladstone gave directions otherwise, in which event he will be honored in a measure not granted since the time of Peel and Pitt.

London papers praise Gladstone's life, character and public services.

**Tramped Back**  
Manassas Fortes, one of the boys who went to Raleigh with the Pitt County Rifles, returned home today. He made the trip on foot, leaving Raleigh Monday morning. Manassas says another of the boys was on the way with him, but as he got a chance to ride two miles it put him that much ahead. He reports hard times and poor fare at the camp.

THURSDAY, MAY 19, 1898.

The second regiment camp at Raleigh has been named Daniel Russell in honor of the Governor. That name will lay mighty heavy on the stomachs of some of the boys.

At the Populist convention in Raleigh one member rose and waved a national flag, but the body was so unsympathetic that there was not a single cheer. The waver of the flag ought to have known that the convention was composed of pie-triots, not patriots.

## A Possible New Deal of Nations.

Naturally the world is yet ringing with the echoes of the speech at Birmingham, last Friday night of the Right Hon. Sir Joseph Chamberlain, the British Secretary of State for the Colonies, in which he openly advocated an alliance of the United States and Great Britain. It is not doubted that Mr. Chamberlain was put forward to make this speech, in order to feel the pulse of the United States and the world, and attention is the more closely fixed upon it by reason of the later information that three of the powers had united in a note, which was sent to Great Britain, demanding that the United States withdraw from the Philippines or fight the remainder of the world, upon which proposition Great Britain placed a prompt and effective veto. It is not surprising to learn that Mr. Chamberlain's speech has aroused Madrid and that Spain will make it the subject of a note to be addressed to the continental powers.

A good deal of ridicule was cast a few weeks ago, by a part of the American press, upon a considerably-discussed suggestion that the present war was not unlikely to result in a lining up of the nations of the earth upon a basis of race and religion, the Anglo-Saxon powers on one side, the the nations of the Latin race on the other. It looks now, however, as if it were very rapidly coming to that. The events of the past two weeks have indicated clearly enough where the sympathies of Europe are in the war which is now waging, and with equal clearness, what turn British sympathy has taken. Mr. Chamberlain's speech puts in bold terms and bring us face to face with a subject which was, a few weeks ago, but dimly hinted at as a speculative proposition, but which there are now reasonable grounds for belief may ere long become a reality.—Charlotte Observer.

## Sulphur in The Shoes.

Many years ago Casey Young, member of congress from Memphis, Tenn., told me that he had many others escaped from yellow fever, which had been prevailing to a terrible extent in Memphis, by simply wearing powdered sulphur in their shoes. In one instance he had a large number of gentlemen in his offices and advised them in regard to this matter, and every man who acted upon his advice escaped the fever, while quite a number of them who did not, had it.

When the grip was attacking almost every family in Boston a few years ago, I sent an officer to the Byam match factory, who reported that out of the large number of persons employed there not one had been attacked by the grip. I distinctly remembered reading some years ago that all persons working in the Italian sulphur mines escaped the malaria that prevailed all about them. I remember also, in a book written by an eminent German physician, translated into English, his assertion that persons observing the ordinary rules of health, and wearing sulphur constantly in their shoes were completely protected from cholera. I have also had at different times evidence given me that the wearing of sulphur in the shoes has in various cases cured persons afflicted with rheumatism.

It may be that the old New England custom of our forefathers and foremothers, giving to their children every spring brimstone and molasses, was not without a good foundation, and the effect of a few doses, as many of us know, is sufficiently powerful to blacken the silver pieces carried in one's pockets, so that car conductors and others sometimes hesitate to receive them. I think, in view of the present epidemic in the South, which may increase it is well to send out this information widely through channels where it will be likely to attract public attention.—Boston Standard.

## Let Your Neighbor and His Business Alone.

Do you want to see your neighbor prosperous? Why? Because when he is prosperous you have a chance to make some money out of him. You can make no money out of a man who cannot earn enough to feed and clothe himself. Then strike from his business, whatever it may be, every "regulating" shackle that loads him down with doubt, uncertainty, confusion and expense. Every blow you strike the chains around his ankles you also hit those on your own feet. The more you have left.—Atlanta Dictator.

## Facts About the Philippines

Nearly 2,000 islands in the group.  
Total area, 115,600 square miles; total population about 9,000,000.  
Largest island, Luzon, bigger, more populous and more fertile than Cuba.  
Foreign commerce principally at Manila; nearly \$40,000,000 annually.  
Overtaxed and oppressed by Spain people do not try to develop resources.  
Manila, about the size of Boston, sixty years old before Pilgrim fathers reached Plymouth.  
Virgin forests overburned with valuable timber.  
Eight million dollars' worth of hemp, \$6,000,000 worth of sugar and \$2,000,000 worth of tobacco exported every year.  
Mineral resources—gold, copper, iron and coal.  
Natives are thrifty; women engage in trade with success.  
Climate salubrious, and at most seasons of the year enjoyable.  
Living cheap; plenty of work to do.

## The English Language

Imagine yourself a foreigner striving to master the construction of the English language. Perhaps you may be gazing at a number of vessels on the water, and exclaim, "See what a flock of ships!" You are at once told that a flock of ships is called a fleet, and that a fleet of sheep is called a flock. It might also be added for your future guidance that a flock of girls is called a bevy, while a bevy of wolves is called a pack; yet a pack of thieves is called a gang, and a gang of angels is called a host; but a host of porpoises is called a shoal, and a shoal of buffaloes is called a herd. Still, a herd of children is called a troop, but a troop of partridges is called a covey; a covey of beauties is called a galaxy, while a galaxy of ruffians is called a horde; further, a horde of rubbish is called a heap, yet a heap of oxen is called a drove; a drove of blackguards is called a mob, but a mob of whales is called a school, a school of worshipers is called a congregation, while a congregation of engineers is called a corps; a corps of robbers is called a band, though a band of locusts is called a swarm, and a swarm of people is called a crowd; a crowd of pictures is called a collection; but a collection of money is called a hoard, and a hoard of people is called a company; a company of ministers, however, is called an assembly, an assembly of soldiers is called a muster. "Stop, stop!" methinks I hear you cry. "I cannot remember half of it."

## Democratic Rule for good Government. and Mrs. Joe Persons Remedy for the Blood.

### So Tired, So Tired, Chronic Dyspepsia

For ten years I had been a sufferer from chronic dyspepsia, which was pronounced incurable. I was completely run down and in the summer season was not able to do anything and spend a great part of the time lying down. I could not touch meat of any kind, or any solid food whatever, as I could not digest it at all and had to live on crackers and light diet. I was very nervous, would have severe nervous spells, and could not get any natural sleep. I was so restless. I suffered all the time from chronic dysentery, which kept me weakened down. That was my condition, when I determined, as a last resort to try Mrs. Person's Remedy. I had tried so many treatments and so many patent medicines without benefit, that I had no faith in anything and had almost made up my mind not to try another thing, when Mrs. Pearson came to my house last April and induced me to try her Remedy. I bought half a dozen bottles. Felt no relief whatever until I was on the fourth bottle, when I knew I was getting better. I became strong, got so I could sleep well and there was no necessity for me to lie down in the day time. I took twenty two bottles before I stopped. My digestion is now perfect, and I can eat meat, vegetables and anything else I want, and as much as I want. When I commence the Remedy I weighed 98 pounds, now I weigh 115 pounds. Dysentery perfectly cured, and it is all owing to Mrs. Joe Person's Remedy. It is everything claimed for it.

### Sup'n Wrong 'o Dat Clock.

Louis McGowan, an old colored man here in whose word everybody has confidence, tells THE REFLECTOR of the peculiar doings of a clock that is causing some alarm among the colored people. He says that Luke Smith, a colored man who died here about ten years ago, had an old clock that had not worked in a long time. Just as Luke was passing away the clock struck "one" the incident arousing the superstition of all the colored folks who were present at the time.

After Luke's burial his family kept the clock, it finally falling to the possession of his daughter, Sudie. No special attention was given to the old clock and it was knocked about the house until most of the works inside were lost. On the first day of this month Sudie was taken sick, when much to the surprise of the family what was left of the old clock began vigorously ticking and has kept it up ever since. The woman is now very sick and the colored folks are considerably alarmed over her condition and the constant ticking of the old clock.

R. S. Cohn, of Norfolk, and Messrs. Cheney, Barrett and Fowler, of New Jersey, all officers of the Roanoke Railroad and Lumber Company, spent Wednesday here and went out to the Camp at Pinetown. Three of the gentlemen were accompanied by their wives.

### AROUND THE CAMP.

2nd Regiment Headquarters—  
Raleigh, N. C., May 18, '98.

#### EDITOR REFLECTOR:

The second regiment is filling at the rate of two companies a day. Capt. Smith is sure of enough men to fill our company to the required number tomorrow. Our men earnestly hope so.

Gherkin and Brown left our company and joined the Tarboro company. Ed. Greene and Peal, of Bethel, left the Tarboro company and joined us. Baker, of Snow Hill, Levi Randolph, Manassas Forbes and Amos Joyner left us and went home, or some other old place, nobody knows where.

You ought to hear some of the jokes these boys get off on each other.

So far the Pitt Rifles have not had a man in the guard house. In fact our boys are very well behaved.

Nearly every day the companies of the first regiment are getting boxes filled with good things to eat from home. Tarboro has not been forgotten by the people of that town, nor has any company of the second regiment except the Pitt Rifles. But we know as soon as we are mustered in the old folks at home are going to give us a send off.

The Shriners, a Masonic order, were out parading the streets this evening. Some of them rode mules and two of the animals unburdened themselves dropping their loads about the centre of Fayetteville street.

The Populists have just been in session here. Some of them came out to see us.

Ed. Flanagan turned up yesterday and the boys were glad to see him. Paul Hosier joined us today and brought two or three more with him. He is the same old Paul.

Last night we went down to meet twenty-three men from Wilkesboro, and we have about fifteen new men beside them, enough to be examined today. Then the second regiment band will be attached to our company. Thus you see we will have men to lend.

While down town last night a few went to the Populist convention. Skinner spoke, abusing the Democrats, and was opposed to fusion with them. When the test came as to which was the stronger with the convention Butler downed Skinner bad. Dr. Exum opposed all fusion but said "God bless the Republican party."

Could tell you more but will wait 'till next time.
