Tetter on the Hands.

For several years I was a sufferer from Tetter on my hands. It would come in little waterv pimples, and the itching was almost more than I could stand. The skin was tender and the itching would swell so I could hardly bend my fingers. Sometimes my hands would become ferfectly raw from the scratching or breaking of the pimples. When I was in this condition I tried one-half dozen bottles of Mrs. Joe Person's Remedy and some Wash in 1884, and by the time I took it my hands were cured, and I am now well of the trouble. It has since broken out a little at times, but not enough to inconvenience me or nake me try more medicine. I am now well.

SEVEN SPRINGS

A trip to this delightful place inclines us to write briefly in reference to it. For years and years Seven Springs has been a favorite resort for those who are seeking rest, recuperation, and health and no one has ever returned disappointed when a fair trial has been D. D. Hasket, with a full line given the waters. In January of this year Mr. G. F. Smith of this county, purchased the entire property and took charge of the hotel on the first of February. He at once be ;an to improve the property and make arrangement for the better comfort of the guests. It is only necessary to spend We have opened to sell we have ever been is there as much sinners how sinful it is to do this or to see that each guest has every opthe proprietor, Mr. W. M. The food is prepared in such away as to please the most fastidious. In fact the dining room service including the servants 'Blessed are the merciful for they shall and all, is all that could be asked for and the managment is to be congratulated that in so short a 'time they have beaten because they do not hurry all \$1.00 reached such a state of perfection the time. So thinks your rest and health come and remain but a short time until they begin to show color become invigorated, move with a quick step and tell what these waters are doing for them. The appetite returns at once, sleep becomes sweet, digestion is active and complete and all signs of dispepsia and other troubles disappear and in consequence, the person returns home a staunch friend and Moure, was using kerosene oil to make advocate of Seven Springs.

This is uo overdrawn picture but is true to life and isillustrated almost eyery day by actual observation as you remain at this health resort. Gur own experience and observation there during the past week convince us that it is a duty we owe those who need rest and recreation to say these things. We noticed people from all the surrounding counties present and failed 'o hear anything but commendation both for the management and medicinal value of the waters. The patronage of these springs has been larger this year than ever before and we predict that under its present management it is destined to become not only the most favored resort in the State but in a much wider and more extended territory. Nature has done a great deal for the place and it needs only the energy and push of the present management to make it nn ideal place for those who need its comforts and benefits.

CRUELTY TO ANIMALS.

MR EDITOR:

There were millions and millions of dollars spent, and thousands and thonsands of hearts blasted by grisf, to free a few millions of slaves which if it did make some of their conditions worse was all right I reckon. And at this time we are spending money wrung from poor people and sacrificing precious lives to raise the yoke of tyrany from the necks of another half savage multitude. And yet we have a tyrany right in our midst that is more cruel than any of the above which is cruelty to dumb hearts. Nearly Killed by a Bull.

Mr. Elisha Stancil, an aged and well-known farmer living six or seven miles west from Monroe, came near losing his life last Saturday. He was attacked by a huge bull which he had iust brought on his place, and gored unmercifulty. The animal had him down, rolling him over and over and would have killed him in a short time had some women who were on the place not succeeded in beating the animal off with sticks. Mr. Stancil was seriously hurt in the bowels and bruised more or less all over the body. One horn cut a long gash across the abdomen and penetrated about two inches. Dr. Pemberton was at once called to dress the wounds. He could not state the extent of internal injuries .- Monroe Journal.

WOMEN IN THE SUNDAY-SCHOOL

I canuot understand.

\$90,575,09 They are Infinitely Better Than Men as Teachers of Children. The chief and underlying cause of the Decay of the Sunday-School, is the selection of incapable and incompetent men as superintendents. If men of broader views and keener perceptions were superintendents of our Sunday-schools, the necessity for a few changes in the teachers would at once be apparent, and they would be promptly made," writes Mr. Bok. "One of these changes would be that the masculine element in the active conduct would begin and end with a superintendent, a competent assistant or two, and a systematic librarian. The sooner that our churches realize that women, and women alone, should be the teachers of the young in their schools, the nearer they will come to the ideal condition. The more a woman has to do with a child, the better for the child. And the more sympathetic, tender and well-bred women and the fewer men we have as teachers in our Sunday-schools, the better it will be for the children and the schools. But no woman, occupied In business during the week, should, either of her own volition or under pressure, allow herself to be permitted to act as teacher in a Sunday-school. When a woman is engaged in business for six days of a week her Sunday should be to her a day of rest. Her place in church or school on Sunday should be that of auditor: not of worker. A little higher order of intelligence is vitally necessary in our Sunday-school classes. We demand this of our teachers in our secular schools, and parents have a right to ask it of the Sunday-school. It is not enough that the Sunday-school teacher should be spiritual: she must have intelligence wherewith to apply her

The psalmist said: "In my haste I said all men are liars," but for us to harbor such a thought is to cut as off from the fellowship of our brethren, to look with distrust upon all their actions, and interpret their every act as an intention to do us harm when really no harm is meant.
