LEGALIZED PRIMARIES.

Governor Jarvis Interviewed.

Knowing that Governor Jarvis takes an interest in public and party matters, and that he does not hesitate to make known his opinions we called on him today for an interview and asked him this question:

We see the party papers are discussing legalized primaries, and that you are reported to have said that you favored them. Do you favor them and what effect do you think they would have upon the future of the Democratic party?

Governor Jarvis said: I am strongly in favor of Legalized Primaries in which the Democratic people can make their own nominations from the highest office to be chosen to the lowest. I believe in the rule of the people in party management as well as in Government administration. When the people make their nominations they stand by their work. We had an illustration of this last year. The nominations in the great campaign of '98 were as a rule the work of the people and I attribute our sweeping victory largely to this fact. I know of no better way to insure the continued success of the Democratic party than for it to keep close to the people. I do not charge that our party organization had adopted machine methods prior to our defeat in '94 or that there is any danger of it in the future, but I do say that with legalized primaries machine method are impossible.

The Democratic party is preparing to go before the people on a proposition to amend the Constitution. With it there ought to go also an assurance that a law has been passed by that party which absolutely gives the white people the control of the party proposing this amendment. I believe it will give strength to the amendment and the party proposing it. The fact that years ago there was a bitter canvass in South Carolina in these primary elections ought not to be taken as an argument with us against them. We have no such conditions in this State as they had there. Then too, it should be noted that although they had that bitterness the Democracy never lost the State.

In expressing these views I do not forget the fact that many able, earnest Democrats—men who are just as good as I am—do not favor these primaries. It is an honest difference of opinion.

Needs Conversion.

The editor of a Western exchange says he believes in the Christian religion, he loves sacred music and has the highest respect and admiration for the true believer and consistent church member, but when he hears a man who owes him three years' subscription split his lungs singing "Jesus paid it all," etc., he feels like forgetting himself for the time being and going over with a club and giving the delinquent a receipt in full.

The Alabama House of Representatives, without a dissenting vote, adopted a resolution that the national flag be hoisted over every schoolhouse in the State and be kept floating there forever. A few years ago such a resolution would have been almost unanimously defeated.

STATE NEWS.

More than one thousand bills have so far been introduced in the Legislature at this session.

The wife of Representative C. W. Davis, of Hyde county, died in Raleigh Wednesday. She was sick only a day or two.

The State Treasurer has paid out \$110,856.00 to date for pensions for the year. There is a little over \$9,000 remaining to be paid.

The Atlantic Hotel property at Morehead City was sold at auction Wednesday. Mr. E. B. Barbee, of Raleigh, was the purchaser at \$12,000.

Col. J. S. Carr, of Durham, who recently sold his interest in Blackwell Durham Tobacco Company, but for the time being continued as its President, has now entirely severed his connection with the company.

The Messenger says that Springhope has decided to have electric lights and arrangements for putting in the plant will be pushed as rapidly as possible. That is good for a town only eleven years old.

A few days ago a merchant of this place had some sawdust hauled and scattered on one of our muddy sidewalks, and for doing this he was arrested and convicted of violating a town ordinance.—Pittsboro Record.

Last Sunday afternoon a snake crawled out from under the church at Big Falls over the snow a distance of about 25 or 30 yards to a drain, and was returning when discovered by Mr. C. E. Lovett and killed. This is a pretty good snake story, considering the condition of the weather, but Mr. James Ezell, than whom there is no more truthful man in the country, vouches for it.—Graham Gleaner, 2nd.

Last Friday afternoon a negro who had bought an express money order from the agent at Rennert, went to him and said he wanted his jug of whiskey. The agent told him that there was no jug there for him. The negro told him that he had sent the money order for whiskey and he had to have it or his money back. Of course the agent refused to refund the money when the negro picked up an ink stand and threw it at him. He then went out and picked up a coupling pin and came back in the depot and advanced on the agent. The agent drew his pistol and shot the negro, killing him instantly. The agent, Mr. Dickson, came down the next morning and gave himself up to Sheriff McLeod. The coroner's jury rendered a verdict of justifiable homicide, and exonerated Dickson.—Lumberton Robesonian.

Almost a Fire

There came near being a fire, Thursday afternoon, at the residence of Mrs. V. H. Whichard, on Third street. In one room a mattress and some unused quilts and other articles had been stored away. Smoke was seen coming through the door of this room, and upon investigation it was found that the quilts, and so forth, were on fire. A blaze was leaping up and had caught a window sash, also burned the window curtain, but a few buckets of water stopped it. How the fire started is a mystery. It is fortunate that it occurred in the day time and was discovered so soon. The fire was extinguished by Mrs. Whichard and her daughter, Mrs. Kenedy, and two colored men who heard them and ran into their aid.

Another Birthday Passed.

Our esteemed contemporary, the Greenville REFLECTOR, has entered upon its eighteenth volume. This is one of the best local papers in Eastern Carolina and we congratulate brother Whichard upon his success. The REFLECTOR has done 17 years of hard work for the upbuilding of Greenville, and to its struggles are due the success and wonderful advancement that the dear old town of Greenville has made.—Springhope Messenger.

the fellow who can beat the editor ten to one getting out a paper. We want to see what kind of a sheet he will issue from the press. The trouble with such characters is that they cannot attend to their own business, and therefore they know all about that of other people."

Patti Is Good to Her New Husband.

Mme. Patti has settled \$15,000 a year absolutely on Baron Cederstrom, whose own private income is only \$750 a year. The diva made this settlement entirely of her own motion, and presented the deeds to her fiance as her wedding gift the day before the wedding.

The Baron was taken completely by surprise. Her fervid adoration of her handsome, distinguished and young husband is the best testimony to her marvelous preservation of the attributes of youth. He seems equally infatuated about her, and shows great tact in treating her precisely as though there were no disparity of age between them.—London cable to the New York World.

A Porto Rican Shave.

The Porto Ricans, who are all, from their highest to the lowest, great dandies in their way, make soap out of coconut oil and homemade lye. And a fine soap it is, smooth and fragrant. This coconut oil soap is used for shaving. When a man wishes to have a shave in the morning, he starts out with his coconut shell cup and his donkey tail brush and bottle. It is never any trouble to find an empty bottle in Porto Rico, Cuba, Jamaica or almost any of the larger West India islands, even in remote spots in the mountains. At least 20 generations of thirsty people have lived there and thrown away the bottles.

The man carries no mirror. He is too poor to own such a luxury. Not one house in 20 in Porto Rico has even the very cheapest looking glass. But generally rich nature provides the mirror as well as the soap. The man goes to some convenient pool in the mountain stream where the water is quite still. There is his mirror. He breaks his bottle on a stone and deftly picks out a sharp piece of suitable size. Then he lathers his face profusely and begins to scrape away with his piece of glass, which in his hands works as well as the best steel razor. A cut, or even a slight scratch, is extremely rare as a result of this al fresco form of shaving.—Chicago Times-Herald.

Rheumacide cures rheumatism by neutralizing the acids in the blood and driving them out of the system. It is a permanent, positive, constitutional cure.

CATARRH OF STOMACH.

A PLEASANT, SIMPLE, BUT SAFE AND EFFECTUAL CURE FOR IT.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure of this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston the safest and best treatment is to use after each meal a tablet, composed of Diatase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booher of 2710 Dearborn St., Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book mailed free, on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores.

Experience is a Good Teacher.

Salisbury, N. C., Dec. 4, '98
From my own experience I have found Mrs. Joe Person's Remedy the best medicine known for building up the health in general. The greatest remedy in the world for dyspepsia, eczema, aches and pains and breaking up colds. Nine years ago I suffered with a chronic cold, which resulted in a bronchial affection and repeated serious troubles of the throat which were alarming. I was affected with something like croup and again laryngitis. I tried Mrs. Joe Person's Remedy, and am free of all those troubles and have been ever since and feel confident the Remedy has made the cure. I have kept it in my family for years and have always found it invaluable for old and young. The extraordinary effect of this grand remedy is sure to be realized by all who give it a fair test.
Sincerely,
MRS. M. E. RAMSAY.

History of the Spanish War

Over 1,200 Pages and 500 Valuable Illustrations.

Three Beautiful Volumes in Half Morocco.

See special offer at bottom of this advertisement.

This Magnificent Edition for only ONE DOLLAR DOWN.

To the readers of this paper we make the following proposition to become members of the Review of Reviews History Club, and obtain the three volumes of

Our War in Two Hemispheres,

By ALBERT SHAW,

Editor of the "American Monthly Review of Reviews" and author of "Municipal Government in Great Britain," etc., and a number of prominent contributors.

EVERY American teacher possessing a library, and many that do not possess one, will be interested in the announcement of the history of the late war with Spain, now published by the REVIEW OF REVIEWS COMPANY. Much of the narrative was written by Dr. Albert Shaw during the actual fighting of the summer. This has been revised and amplified by him in the light of the official reports and documents, which have only become available after hostilities ceased. A free quotation from the critical Congressional debates and other public utterances at crucial periods aids in making this work what it is, the standard reference history of this decisive and successful struggle. But it is much more than a lively and comprehensive narrative. It goes back to the years of struggle in Cuba which prepared the way for the war; it discusses energetically all problems which confronted the United States after the war as to the Philippines, Cuba, and Porto Rico; and as a whole it forms a broadly conceived picture of the year which has seen America brought face to face with new world duties.

The important special and technical matters of the war period, generally dismissed by the historian with only slight and often insufficient discussion, are fully and authentically dealt with in contributed chapters, written by men who had unusual opportunities for studying their subjects. Thus, the lessons which the war has for us as to the relative efficiency of rifles and machine guns are in a carefully written chapter by Lieut. John H. Parker, of the United States army; the military movements of the Santiago and Porto Rican campaigns are analyzed by the editor of the *Army and Navy Journal*; the battle with Cervera is described by the novelist, Winston Churchill, who is a graduate of the United States Naval Academy; the actual condition of Cuba before the war and the facts which caused the war are described by eye-witnesses, Murat Halstead and Stephen Bonsai.

The illustration of the book is especially valuable in the hundreds of portraits, pictures of the navies, photographed scenes of the war, and the entertaining cartoons reproduced from the Spanish, French, German, and English papers, as well as from the American.

How to obtain the handsome edition by a payment of only ONE DOLLAR DOWN.

The three beautifully bound large octavo volumes and a year's subscription to the AMERICAN MONTHLY REVIEW OF REVIEWS can be obtained by any of the readers of this paper by joining the Review of Reviews Club and paying one dollar. The volumes will be sent as soon as ready to the reader, and the purchase will be completed by the payment of the one dollar per month for twelve months. The first volume will be ready early in December. The subscription to the magazine which goes with the offer can be dated from any month.

Caesar's creek, on the Florida coast, was named after a famous old pirate called Black Caesar, whose profession added to the risks of marine insurance. After the pirates the Florida wreckers came, of whom H. A. Willoughby, in his "Across the Everglades," tells this story:

A large steamer was stranded on the reef not far from Cape Florida. No sooner had she struck than the news spread rapidly along the shore. The people for 20 miles around gathered on the beach opposite the stranded steamer. Among them were a number of Indians from the Everglades, who chanced to be down there and knew what a "wreck" meant to the wreckers.

The steamer, loaded with an assorted cargo, began to break up, and barrels, cases and boxes drifted gradually ashore. There were cases of wine, boxes of soap, cases of bottles of wine and iron and a hundred other articles. The Indians seized upon the wine and soon were in a condition that allowed the white men to secure the more valuable prizes.

The squaws exact a benanza in a case of vaseline. They thought it a new variety of the white man's frying fat and, starting a fire, fried pancakes in it. What a dish—pancakes a la Seminole!

Messages by Vibration.
Curiously enough, the fact appears, according to a recent traveler among the Indians of Catuquinarn, between the rivers Embrya and Embyrasu, that those people have long employed a wireless telephony, but rather after the order of unwritten science.

It is made by digging a hole in the ground inside a house and laying the bottom with coarse sand, well piled. On this is laid a wooden drum or hollow cylinder of wood, half filled with fine sand and layers of broken wood, bone and powdered mica—the upper part of the cylinder, which is empty, rising above the floor of the hut and closed first by leather, then by wood, and lastly by india rubber. Outside, the cylinder is packed round with fragments of wood, leather and resins, and covered with hard rubber at the level of the soil.

To use this peculiar apparatus the drum is struck by a wooden hammer, and the vibration is evidently transmitted through the soil. The answer is heard in the drum, which acts as a resonator, and messages are thus sent over 1,500 yards from house to house.

Politics, Indeed.
"There is a rather crusty old gentleman attending my church," says a Detroit clergyman, "and his absence for several weeks led me to call upon him. He is not a communicant, and I am afraid at times that he is slightly skeptical. He is very pronounced in his political views, and as conversational material ran rather short I sought to interest him by asking, 'How's politics?' 'How's politics?' he repeated without a change of countenance. 'How's politics?' That's a pretty question for you to ask when you know that I haven't heard you preach for the last seven Sundays."—Exchange.

The Story of a Letter.
The National Advertiser tells a story of an old bachelor who bought a pair of socks and found attached to one of them a slip of paper with these words: "I am a young lady of 20 and would like to correspond with a bachelor with a view to matrimony." Name and address were given. The bachelor wrote, and in a few days got this letter: "Mamma was married 20 years ago. The merchant you bought those socks from evidently did not advertise or he would have sold them long ago. Mamma handed me your letter and said possibly I might suit you. I am 18 years old."

For Insomnia.
A curious remedy for sleeplessness is used by the inhabitants of the Samoan islands. They confine a snake in a hollow bamboo, and the hissing sound emitted by the reptile is said to quickly induce slumber.

WINE OF CARDUI
FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McELREE'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefitted by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

This has been a tough day on the printers. Handling type in freezing weather is cold work.

No tobacco gets in since the bad weather came and the warehousemen have time on their hands.
