## THE LEGISLATURE.

### They Keep Doing Good Work.

Below are some of the bills of general interest introduced Monday.

#### SENATE.

By Senator James, to empower the commissioners of Pitt county levy special tax.

Senator Speight, to provide water works for Tarboro.

By same, to provide an electric light plant for Tarboro.

#### HOUSE.

To amend Chap. 399 Acts 1891, changing the manner of filling vacancies in the board of directors of the Deaf and Dumb institution, so that the board can fill its vacancies, instead of the Governor appointing successors.

For the better government of the county of Greene, appointing four new commissioners of that county, etc., and authorizing them to elect a jailer, etc.

Mr. Foushee presented a resolution calling for the appointment of the committee which should at once proceed to the Senate and at the bar of that body impeach Judge James L. Norwood of the Twelfth judicial district, of high crimes and misdemeanor. The Speaker at once addressed instructions to Messrs. Allen, Foushee and Craig, appointed by him as the committee, and they at once proceeded to the Senate to discharge that duty.

A few moments later the committee returned to the House and reported that they had fulfilled the duty committed to them and that the Senate would take due notice thereof and action thereon in due time.

By Mr. Harrison to prevent the taking of timber from this State to manufacture it.

By Mr. Smith, to require railroads to provide water closets for each sex in all passenger cars of the railroads of this State.

### Iloilo Has Fallen.

Manila, Feb. 14.—8:59 a. m.—The forces under General Miller captured the city of Iloilo Saturday. None of the Americans were injured. The rebels offered only slight resistance, and withdrew after setting fire to the native portion of the town. Few of the insurgents were wounded. Insurgents were given until the evening of the 11th to surrender, but their hostile action brought on an engagement Saturday morning.

### Married.

Mr. John H. Coward, of Greene county, and Miss Estelle Evans, of Ayden, were happily married at the residence of the bride, in Ayden, at one o'clock today. Rev. J. R. Tingle officiating. After receiving the congratulations of their many friends they left for their future home in Greene county.

The peanut crop of the United States for the present year will hardly fall short of 4,000,000 bushels. Most of this crop is grown in North Carolina, Virginia, Tennessee and Georgia, although other States share in making it to some extent. Prior to the war the peanut crop barely aggregated more than 500,000 bushels.

## NEWBERN FAIR.

### All Will Be In Readiness.

Special to Reflector.]

Newbern, N. C. Feb. 14.—Complete change in the weather and snow and ice are disappearing. The indications are that spring-like weather will prevail for the balance of the month. The fair grounds and track for the mid-winter fair will be in perfect condition by the end of this week. All departments are complete and a large number of exhibits are already in.

JOURNAL.

### Trying To Get Up Courage.

Manila, Feb. 13.—Aguinaldo is doing everything in his power to give heart to his disorganized and dispirited soldiers. During the past week he has been personally visiting his troops, seeking to encourage them by magnifying American losses and minimizing those of the Filipinos. He declares that he merely withdrew his army so as to lead the Americans into ambush and annihilate them. Many of his followers, however, in view of the week's events, are dubious about the practicability of wiping out the American army.

Aguinaldo is taking extraordinary precautions to prevent being captured. He has turned the command of his army over to General Luna, and will himself keep out of reach of Americans. Luna is the author of nearly all the bellicose articles which have appeared in insurgent papers. Rebel headquarters have been established at Polo.

The truth concerning the serious defeats the rebels have sustained is just commencing to be whispered in Malolos and other Filipino towns. The leaders first announced that 8,000 Americans were killed, among them Major-General Otis, and that their own losses on Sunday, February 5th, was only 23 killed and wounded.

Ygorotes, the savage tribesmen who were brought from the interior to fight with bows and arrows, have deserted the Tagals and fled to their mountain home.

Malabon has been practically deserted for fear of another bombardment. This afternoon small bodies of insurgents were seen up the line of Dagupau Railway. The Utah battery sent a few shells among them, and they scattered in short order.

The river is already very full and when this snow melts and runs in it may go still higher.

Yesterday snow was being shoveled from the sidewalks. Today it is coming off the roofs.

## News From 51.

### EDITOR REFLECTOR:

Sorry you didn't call on some of the gentlemen for some little information yesterday. If you had 51 would have gladly given you an item. In the first place, wood is scarce. "Set" Exum went off on the snow bound train and Speight is lost. While Jesse is a noble boy, still I don't think he has treated what's left at 51 exactly right. If you should hear from Jesse please report at once so that his many customers may not be uneasy.

G.

A young soldier under General Sheridan said to him, just before a battle, "If I am killed, tell my mother that I kept my promise. Not a drop of strong drink have I tasted." The battle was fought, and the lad lay among the slain. Said Sheridan, "I carried his message to his mother. She replied, 'General, that is more glory for my boy than if he had taken a city.'" When "well done" can truly be said at such a moment, parental pride stands by parental sorrow and puts a staff in its hand. There are higher and holier compensations, but the knowledge of "what death he died" will always be a qualifying element in grief for one loved and lost, either to sweeten memory or to poison it.—Youth's Companion.

### Good Advice to Boys.

You are learning a trade. That is a good thing to have. It is better that gold—always brings a premium. But to bring a premium the trade must be perfect—no silver-plated affair. When you go to learn a trade, do so with a determination to win.

Make up your mind what you will be, and be it. Determine in your own mind to be a good workman. Have pluck and patience. Look out for the interests of your employer; thus will you learn to look out for your own. Do not wait to be told everything—remember. Act as though you wish to learn. If you have an errand to do, start off like a boy with some life.

Look about you. See how the best workman in the shop does, and copy him. Learn to do things well. Whatever is worth doing at all is worth doing well. Never slight your work. Every job you do is a sign. If you have done one in ten minutes, see if you cannot do the next in nine.

Too many boys spoil a lifetime by not having patience. They work at a trade until they see about one-half of its mysteries, and then strike for higher wages.

WEDNESDAY, FEBRUARY 15, 1899

Of the fifty-one applicants before the Supreme Court, last week, for licenses to practice law, only twenty passed.

Hon. John Manning Professor of Law at the University of North Carolina died last Sunday night. He had been sick for a week or two but was not confined to his bed until a few days before his death. The State sustains a great loss in his death. He had been Professor of Law at the University ever since the department was established. He was a man of ability, piety and great energy. He had the confidence of every one who knew him and his death will generally be mourned throughout this and other States.

The war investigating committee's report has been made public. It shows much red tape in the war department—in fact the committee finds there was too much of it. No crookedness any where is found, if it is not disclosed. It intimates very strongly that Secretary Alger failed to grasp the situation. It does not condemn the use of refrigerated beef. Gen. Shafter's conduct of the Santiago Campaign is approved. There are a few criticisms here and there, but in the main the report consists of approbation of the general conduct of the war.

## Five Generations Living.

A Sentinel reporter was given an interesting item this morning. "Aunt" Jennie Martin, an old lady living near East Bend, has seen the fourth generation of her descendants. She is the mother of 12 children, 11 of whom she raised to be men and women, and 8 of whom still survive. There are 57 living grandchildren and 19 dead; 184 great-grandchildren living and 24 among the silent sleepers. The great-great-grandchildren number 19 on earth and one in the better land, making a total of 268 living and 48 that are no more.—Winston Sentinel.

The World publishes a list of thirteen men in New York who are estimated to be worth \$639,000,000 and yet who pay taxes on only \$1,514,000 of personals.

By a vote of 17 to 3 the West Virginia Senate rejected a bill to suppress prize fighting in that State.

## TRINITY NOTES.

The Current Topics Club met Saturday night. The program was as follows: Newell Dwight Hillis and the Prominent Ministers, by Prof. R. L. Flowers; The illustrating of Magazines, by Prof. C. W. Edwards; The condition in Cuba, by Mr. John M. Flowers; and the Poetry of William Watson, by Prof. Mims. The meetings of the Club are largely attended by the students and members of the Faculty.

There has recently been organized a Trinity College Library Association. The object is to create interest in books and culture, and to improve the College Library. The following board of directors was elected by the Faculty: Dr. J. S. Bassett, Supt., W. W. Flowers, Prof. Edwin Mims, Rev. W. L. Grissom, L. W. McMullin and Dr. T. N. Ivey. A circular will be sent out soon in the interest of the Association.

The February Archive is out, and is a very interesting number. President Kilgo lectured before the Epworth League of Edenton St., Church, Raleigh, Saturday evening Feb. 11.

A contemporary sets forth man's inferiority to woman after the following manner: "A man cannot do two things at a time. A woman will broil a steak, and see that the coffee does not boil over, and watch the cat that she does not steal the remnant of meat on the kitchen table, and dress the youngest boy, and set the table, and see to the toast, and stir the oatmeal, and give the orders to the butcher, and she can do it all at once and not half try. Man has done wonders since he came before the public. He has navigated the ocean, he has penetrated the mysteries of the starry heavens, he has harnessed the lightning and made it pull street cars, and light the great cities of the world. But he can't find a spool of red thread in his wife's work basket; he can't discover her pocket in a dress hanging in the closet; he cannot hang out clothes and get them on the line right end up. He cannot hold clothes pins in his mouth while he is doing it either. He cannot be polite to somebody he hates. He would never think of kissing his rival when he met him as a woman will kiss her rival. He can't sit in a rocking chair without banging the rockers into the base boards. He can't put the tidy on the sofa pillow right side out. He cannot sew on a button. In short, he cannot do a hundred things that women do almost instinctively."

In our opinion, the effort made to levy an additional tax upon the railroads in the State is unjust and we hope the Legislature will defeat the bill introduced to that effect. Let the railroads and all other corporations pay their ad valorem taxes on a proper valuation of all the property they have, but no more. Let them have the very same showing and very same treatment that each individual citizen has, and make them come up to that, and no more.—Warrenton Record.

Four hogs were slaughtered on Col. J. S. Carr's farm a few days ago and their weight aggregated 1,805 pounds. One weighed 560, one 520, one 400 and another 325. Occoneechee farm is noted for everything in fine stock and is one of the best in the state if not the very best.—Durham Herald.

## ABSORBED IN WHIST.

### A Game That Cost General Doubleday a Fortune.

Not many years ago a famous whist game was played at Sudbury, Vt., two of the sitters in being General Doubleday and Henry Dater of the well known firm of Dater, Thompson & Co. It was something like 5 or 10 cents a corner; so you see it was easy for a man to lose as much as \$1.90 in an afternoon. Play began after the Sudbury dinner hour, half past 1, and lasted until teatime. The old roosters became so wrapped up in the game that nothing short of an earthquake could have disturbed them. Brokers in New York could do nothing to shake the interest.

The game was played at the time of the historic Hannibal and St. Joe corner, engineered by Kennedy, Hutchinson & Co., in the interest of their client, John Duff of Boston. Doubleday was selling the stock short through Van Schaick & Co., and at a quarter to 2 on the eventful day he received a telegram from his brokers advising him of the situation. The game was stopped just long enough for him to read it and lay it aside. In 20 minutes a second dispatch arrived, was read and cast aside. Doubleday was winning at the rate of 35 cents an hour. What did he care about Hannibal and St. Joe? Later in the afternoon a third summons came from Van Schaick & Co., and at 5 o'clock a fourth. Then Doubleday arose and remarked: "Gentlemen, I have enjoyed the game. My winnings are exactly \$1.65. I must say good afternoon, as it is necessary for me to take the first train for New York." The next morning his brokers informed him that he could settle for \$100,000. At the time the first telegram was sent he could have settled for \$25,000, at the time of the second for \$50,000, the third for \$75,000. He had ample warning, but in the thick of the Sudbury game of whist he believed the rise was only a threatening flurry.—New York Press.

It is not likely that any English speaking people understand so keen and punctilious a devotion to the niceties of language as that which characterizes the French grammarians. We may help ourselves to understand it perhaps by reading a story told of M. Lamany.

One night lately he awoke and sprang out of bed with a wild cry. His wife came running. He was in alarm and despair.

"Why, what is the matter?" she gasped.

"I dreamed," said the professor.

"Oh, I had a horrible, a heartrending dream."

"What was it?"

"I dreamed I was talking, and I distinctly heard myself utter a sentence which had a grammatical error in it."

## PECULIAR POISONS.

GENERATED IN THE HUMAN BODY.

The Result Of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of death (called by scientists Pto-maines), are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay) poisoning the blood, making it thin weak and lacking in red corpuscles; poisoning the brain causing headaches, pain in the eyes.

Bad digestion weakens the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing brights disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuarts Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuarts Dyspepsia Tablets will cure any form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, bright eyes and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuarts Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first. A little book on stomach diseases mailed free. Address Stuart Co., Marshall, Mich.

Rheumacide cures rheumatism by neutralizing the acids in the blood and driving them out of the system. It is a permanent, positive, constitutional cure.

## Experience is a Good Teacher.

Salisbury, N. C., Dec. 4, '98  
From my own experience I have found Mrs. Joe Person's Remedy the best medicine known for building up the health in general. The greatest remedy in the world for dyspepsia, eczema, aches and pains and breaking up colds. Nine years ago I suffered with a chronic cold, which resulted in a bronchial affection and repeated serious troubles of the throat which were alarming. I was affected with something like croup and again laryngitis. I tried Mrs. Joe Person's Remedy, and am free of all those troubles and have been ever since and feel confident the Remedy has made the cure. I have kept it in my family for years and have always found it invaluable for old and young. The extraordinary effect of this grand remedy is sure to be realized by all who give it a fair test.  
Sincerely,  
MRS. M. E. RAMSAY.

## Our War in Two Hemispheres,

By ALBERT SHAW,

Editor of the "American Monthly Review of Reviews" and author of "Municipal Government in Great Britain," etc., and a number of prominent contributors.

EVERY American teacher possessing a library, and many that do not possess one, will be interested in the announcement of the history of the late war with Spain, now published by the REVIEW OF REVIEWS COMPANY. Much of the narrative was written by Dr. Albert Shaw during the actual fighting of the summer. This has been revised and amplified by him in the light of the official reports and documents, which have only become available after hostilities ceased. A free quotation from the critical Congressional debates and other public utterances at crucial periods adds in making this work what it is, the standard reference history of this decisive and successful struggle. But it is much more than a lively and comprehensive narrative. It discusses energetically all problems which confronted the United States after the war as to the Philippines, Cuba, and Porto Rico; and as a whole it forms a broadly conceived picture of the year which has seen America brought face to face with new world duties.

The important special and technical matters of the war period, generally dismissed by the historian with only slight and often insufficient discussion, are fully and authentically dealt with in contributed chapters, written by men who had unusual opportunities for studying their subjects. Thus, the lessons which the war has for us as to the relative efficiency of rifles and machine guns are in a carefully written chapter by Lieut. John H. Parker, of the United States army; the military movements of the Santiago and Porto Rican campaigns are analyzed by the editor of the *Army and Navy Journal*; the battle with Cervera is described by the novelist, Winston Churchill, who is a graduate of the United States Naval Academy; the actual condition of Cuba before the war and the facts which caused the war are described by eye-witnesses, Murat Halstead and Stephen Bonsai.

The illustration of the book is especially valuable in the hundreds of portraits, pictures of the navies, photographed scenes of the war, and the entertaining cartoons reproduced from the Spanish, French, German, and English papers, as well as from the American.

How to obtain the handsome edition by a payment of only ONE DOLLAR DOWN.

The three beautifully bound large octavo volumes and a year's subscription to the AMERICAN MONTHLY REVIEW OF REVIEWS can be obtained by any of the readers of this paper by joining the Review of Reviews Club and paying one dollar. The volumes will be sent as soon as ready to those who remit the sum and the purchase will be completed by the payment of one dollar per month for twelve months. The first volume will be ready early in December. The subscription to the magazine which goes with the offer can be dated from any month.

### FIRST TO GROW ORANGES.

Jesuits Introduced Them Into the Pelican State.

The orange of Louisiana is an exceptionally fine variety of that fruit, and commands a good price in the market. The orange was first introduced into colonial Louisiana by the Jesuits, having been first grown by the members of the society on their grounds, which formerly comprised that part of the city of New Orleans which constitutes the lower part of the first district, down to Common street.

While St. Bernard and Plaquemines parishes are the chief centers of the orange culture of Louisiana, the fruit also grows well in the parishes of Orleans, Jefferson, St. James, St. John Baptist, St. Charles, Assumption, St. Mary, Terrebonne, Lafourche, Vermilion, Cameron, Iberia and Sabine. The orange tree begins to bear at about the seventh year, although it is not reckoned to have reached its full growth until its twelfth or fifteenth year.

The orange culture in Louisiana is probably the most profitable industry of the state under favorable conditions, a full grown tree producing from 3,000 to 5,000 oranges, the fruit on the tree generally selling for \$10 a thousand, and as some of the largest orchards in the state yield as many as 3,000,000 oranges their market value gives a princely income to the owners of the trees. Comparatively a very small acreage of the state is devoted to the growth of oranges—possibly not more than 2,000 acres.

The sweetness, delicacy and juiciness of the Louisiana orange, the best of which are regarded in the markets outside of Louisiana as superior to even the oranges of Cuba, to which island the fruit is indigenous, render the Louisiana oranges highly prized in the north and west of the United States, so much so that the supply is not by any means equal to the demand.—New Orleans Picayune.

### TAYLOURS AND SMYTHS.

They Were the Commonest Trades In the Thirteenth Century.

The manufacture of leather in the thirteenth century seems to have been important, showing that leather jerkins and breeches were commonly worn. We have 19 slynners, 40 barkars, 6 saddlers, 3 cordeweners, 167 souters, (shoemakers) and 8 glovers. The surname feuster is a trade name denoting a maker of pack saddles.

The commonest trades are taylor and smyth, since one lived in almost every village. The taylours number 407, of whom 140 are called by the Latin name of cissor. In addition to 261 smyths, several are specialized. There are two arusmyths, three lokesmyths, three goldsmyths, five fierours (shoing smiths) and six marshalls (farriers).

The wright wrought both in wood and metal. The number catalogued is 186, of whom 81 are called by the Latin name faber (French farro), one of the few cases in which the Latin translation of a trade name has become a common surname. The wrights' trade, like that of the smyths, was specialized. The arkwright made the great arks or chests in which the clothes or meal were stored, and we find a plowwright, a wheelwright, two shippwrights, 11 cartwrights and two glasswrights (glaziers), who were probably concerned with the windows of churches. Glass windows in houses were rare, as is still the case in Sicily or Egypt.

The bakers were few (15), suggesting that families baked their own bread. There are 26 butchers (flesher, bocher or carnifer), whence Labouchere, while the surname potter shows that this trade was in existence. The fishers (45) were opulent, being taxed 12 times as much as laborers.—Notes and Queries.

The quorum which ratified the United States constitution for Pennsylvania was secured by subdution and held behind locked doors.

"Trivial" is derived from the Latin for three ways, and means the petty gossip of the crossroads.

## WINE OF CARDUI

### FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

## McELREE'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefitted by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

I pay cash for Hides, Furs, Eggs and Turkeys.

## OVER THE COUNTRY.

It is stated on good authority that the Pacific Mail Steamship Company has contracted with the Newport News Shipbuilding and Dry Dock Company for two big steamers to ply between San Francisco, Cal., and China. The vessels will be the largest ever built at an American ship yard. The contract price is said to be about \$2,000,000 each.

Commissioner of Internal Revenue Scott, having been elected United States Senator from West Virginia, has resigned, to take effect February 28, and Deputy G. W. Wilson will probably succeed him.

Zinc ore at the Missouri mines is selling at \$45 a ton, the highest point ever reached.

By a collision of the steamer Jamestown and a railroad barge near Norfolk, Va., two acid tank cars were thrown from the barge in the channel, obstructing navigation.

Jacob L. Rogers, president of the Rogers' Locomotive and Machine Works, was knocked down by a Broadway cable car at Wall street, New York, and severely bruised.

Mr. J. J. Cherry found us a copy of THE DAILY REFLECTOR of Jan. 6th, one of the date advertised for.

## SNOW AND ICE.

### Are Colder Than These Items.

Ash Wednesday.  
Lent begins today.  
Sleigh riding continued good today.

Wood has been more plentiful on the streets today.

The thaw has begun and great will be the slush to follow.

The sore arm crew don't take any hand in throwing snow.

The birds are so near starved that they are getting very poor.

A man brought a load of sweet potatoes to town today and people made a rush for him.

Mr. E. R. Aiken slipped down on the snow, Tuesday night, and dislocated his right wrist.

The passenger train was only about an hour late when it passed here going north this morning.

The miniature garden in the window of Wooten's drug store looks sickly from the effects of the freeze.

The schools tried to open this morning but failed, so holiday was declared for the balance of the week.

If our friends would help us edit THE REFLECTOR every day we could give them a much more newsy paper.

The mail train from the north got in about one o'clock this morning, bringing us the first mail since Saturday.

NOTICE.—My dental office will be closed about one month, on account of absence from town taking a post graduate course.

R. L. CARR.

There has been some skating the last few days. Ice was plentiful but snow falling on it had made it so rough that it was poor for skating.

Today one year ago, Feb. 15th, 1898, the battleship Maine was blown up in Havana harbor, and the country has not yet grown quiet from the effects of it.

Mr. Zeb W. Brown, of Greenville, N. C., is spending a few days with his brother, Mr. H. P. Brown, on his return from a pleasure trip South.—Reedsville Weekly.

A man from the country who came to town through the snow, Tuesday, hunted up THE REFLECTOR to pay his subscription. He anticipated our need, and that is the "feeling that makes us wondrous kind."
