#### Not a Good Picture.

Literature of the approaching meeting of the Teachers Assembly at Morehead is being broadly distributed over the State. One page of a pamphlet sent out contains what purports to be a photograph of our townsman, Prof. W. H. Ragsdale, who is President 'of the Assembly. To those who don't know him the photograph may pass as all right, but those who do know him well can see at a glance how his good looks are spoiled in that picture. All the same, the

Professor will make the best presiding officer the Assembly has ever had, as those who attend the coming meeting will find out.

Is not that National Peace Jubilee the government has set to be held in Washington, the latter part of this month, a misnomer or a burlesque? We fail to see where the peace comes in when thousands of our soldiers are still fighting in the Philippines and Cuba is just on the verge of a revolt against the authority of the United States in that Island. Peace (?) Jubilee! It is enough to make a body smile.

#### The Merchant Who Knows How to Advertise.

These are times of enterprise, of intense rivalries and of contentions among men. It would, therefore, be surprising if in the business world, where firm resolution and decisive action are essential, the merchant should not be constantly on the alert to adopt the best methods for the advancement of his affairs. It has been finely said that "emulation is a handsome passion; it is enterprising, but just withal." And it may be said in this connection that the tradesman who should not endeavor to emulate and also to surpass competitors whose sysand profitable would find himself in the rear. The methods of the worthy of emulation; for he knows how to sell his goods because he knows how to advertise them .-Philadelphia Record.

Take Interest in Matters. We want every tax paying voter in Greenville to read the article on another page headed "Ignorance in Tax Paying." People are often heard complaining about the faxes they have to pay, while they show no interest whatever in who is selected to conduct the government of the town and to levy the taxes. An election will be held in Greenville on the first Monday in June to select a Board of Aldermen who will have control of the town and levy the taxes that you have to pay. Now the time to show your interest is in the selection of the right men for Aldermen when your ward at Colored Odd Fellows Hall on

#### TETTER ON THE HANDS.

For several years I was a sufferer from Tetter on my hands. It would come in little watery pimples and the itching was almost more than I could stand. The skin was tender and the itching would swell so I could hardly bend my fingers. Sometimes my hands would become perfectly raw from scratching or breaking of the pimples. When I was in this condition I tried one half dozen bottles of Mrs. Joe Person's Remedy and some Wash in 1884, and by the time I took it my hands were cured, and I am now well of the trouble. It has since broken out a little at times, but not enough to inconvenience me or make me try more medicine. I am now well. MRS. M. E. KING. Burlington, N. C., May 27, 1896. The audience was again pleased last night with the performance of the Emma Warren Company. The acting of the company is very clever. Tonight they will give "Michael Strogoff," a six act Russian drama that is full of interest.

Higgs & Taft are going to present a handsome Junior Buck Range to the little girl who cuts the most of advertisement. See what it says, girls, and go to work for the prize. You can ask your parents and friends to give you their copies of THE REFLECTOR, or you can buy extra copies of the paper, and all the Buck trade marks you get will count.
