TOWN ELECTION.

Result of Monday's Vote.

The town election passed off quietly on Monday. In the Second, Third and Fourth wards there was no opposition to the Democratic nominees and the voting was all one way.

In the First and Fifth wards where the colored people have a majority of the voters the Democrats deemed it useless to make a nomination, but learning the colored people of the Fifth ward would not nominate a candidate the Democrats put up a man and the colored people voted for him. So the voting was all one way in that ward also.

The First ward was the only one that got up a contest at all. The colored people made no nomination over there, but they divided in two factions and each faction selected a white man to vote for. One of them voted for R. B. Jarvis for Alderman and the other for E. M. McGowan for Councilman. The vote in the different wards was as follows:

FIRST WARD.

R. B. Jarvis, 26.

E. M. McGowan, 44.

SECOND WARD.

J. L. Wooten 34, J. B. White 34.

THIRD WARD.

B. E. Parham 54, H. A. White 54.

FOURTH WARD.

W. R. Parker 69, J. N. Hart 68.

FIFTH WARD.

N. H. Whitfield 37.

The First and Fifth wards elect one Alderman each, and the other three wards elect two each, making the Board consist of eight Aldermen.

St. John's Day Celebration.

As usual, the Masons of North Carolina will celebrate St. John's Day, June 24th, 1899, on the grounds of the Oxford Orphan Asylum. Exercises in memory of the late J. H. Mills, founder of the institution, will be held on this day, and memorial addresses will be delivered by Gen. W. R. Cox, of Washington, D. C., and Dr. J. D. Huffman, of Henderson, N. C.

All are invited to be present. Take this opportunity to visit the Oxford Orphan Asylum, see the work it is doing, hear the children sing and be present at these exercises.

Special rates on all railroads to Oxford from points in North Carolina.

To all Whom it May Concern.

The tax listers and assessors are now in session and those who do not wish to be returned on the delinquent list had better list their taxes immediately, there is much work to be done by the listers and assessors beside listing, and it cannot be done until after the taxes are given in. Town people should all list within the next ten days. The county commissioners are determined not to show any favors to delinquents.

TAX LISTERS & ASSESSORS.

Some people would like to know if Greenville is in a stock law territory. If so what is the matter with the law that stock is allowed to run at large.

EVERYTHING WHITE.

Not a Colored Man on the Board

For the first time in, lo, these many years, Greenville has an entire white Board of Aldermen. Even back in former Democratic days there were two wards in which lived a majority of colored voters, and these each elected one of their number on the Board, but being in the minority they had no voice in shaping the affairs of the town.

When the fusion regime got control of the State by the aid of the negro vote, they showed their spite against the white man and their utter disregard for good government, by placing a number of towns under negro control. Greenville was one of these unfortunate towns. Her charter was amended and the wards so districted that the negroes were given two thirds majority of the Board and they had absolute control of the town, bringing about such a state of affairs that helped to arouse the sentiment which almost swept the fusion gang out of existence in the last campaign.

One of the early acts of the last Legislature was to relieve this state affairs and Greenville was given a new charter under which white men were again placed in control of the town. The first election under this new charter was held Monday, and though two of the wards yet have a majority of colored voters, enabling them to elect one of their own number if desired, they seemed to realize from past experience that the control of white men is better even for them, so they voted for white Aldermen in their wards. And now the entire Board of Aldermen is composed of white men.

OVER THE COUNTRY.

In an altercation over a young woman, at North Fork, Va., William Jennings killed John Adams with an old army musket.

Between 400 and 500 men in the five large sewer pipe plants at East Liverpool, O., are out on strike for higher wages.

John H. Henderson, accountant of the Union Bank, at Ottawa, Can., who disappeared Monday last, is reported by the inspector of the bank to have absconded with \$25,000.

A mob of 200 men gathered around the jail at Cedartown, Ga., and demanded Grant Bell, a negro, to lynch him for assaulting Mrs. J. C. Lumpkin, a widowed white woman, but dispersed.

TUESDAY, JUNE 6, 1899.

Whether considered as a tight-rope walker, a diner on tin cans or a furnisher of lymphatic fluid for lengthening human life, Mr. Goat is certainly an interesting citizen. The last story about one of the tribe is that he went into a colored church in Robeson county and ate up the Bible and five hymn books. Whether his meal was interrupted or he exhausted the supply of hymn books is not stated.—Charlotte Observer.

And down here we have a goat that has run mad. So Mr. Goat continues to keep up his end of the procession.

An Answered Prayer or a Whopper.

Mr. Thomas, of Adams' creek, who kept a fine hog in a pen near his residence, went out Tuesday morning to care for his pet pig, and on going to the pen, found that a bear had been there during the night and carried the pig away. Mr. Thomas, to give expression to his feelings at the loss of his pig, bowed himself down in a very earnest way and prayed that the bear might be choked to death by the bones of the pig.

This afternoon Mr. Thomas had occasion to visit a thick wood a short distance from his home, and to his great delight found bruin stretched out on the ground, dead, and on making an examination, found that he had attempted to swallow a hock bone, which became entangled in his throat and choked him to death.

Although Mr. Thomas regretted the loss of his fine pet hog, he felt that he had been amply repaid by the answer of his prayer.—Newbern Journal.

Big Profits of Cotton Mills.

A Greenville dispatch says that in the last year Piedmont Cotton Mill has earned \$200,000, Pelzer \$285,000, Clifton \$270,000 and Pacolet \$230,000, a total of nearly \$1,000,000 profits for four mills. The earnings of the big mills around Spartanburg are said to have ranged from 20 to 35 per cent. on the capital stock. The banks there are congested with dividend money. Small wonder that the piedmont section prospers when it gets such returns from its factories.—Columbia State.

WASHINGTON LETTER.

From Our Regular Correspondent.

Washington, D. C., June 5, 1899
Mr. McKinley has given the country another exhibition of a lightning change of mind. After allowing those who talked with him during several days to get the impression that he was about to call for volunteers for the Philippines, he suddenly changed his mind and announced that the Cabinet had decided not to call for volunteers, but to replace the volunteers now in the Philippines, with regulars, and to authorize Gen. Otis to enlist natives. It is believed that the principal factor in bringing about this lightning change, was a cablegram from Prof. Schurman, president of the Philippine Commission, containing a fairy story announcing the early surrender of Aguinaldo. Similar fairy stories by the same author were the basis of the hope of early peace indulged in by the Administration, some weeks ago. The rainy season, which lasts three months, is on in the Philippines, making it impossible for Gen. Otis to worry Aguinaldo much for that length of time. That's why no early surrender is at all probable.

Hon. A. J. Warner, President of the Bimetallic League is in Washington. He said of the probable democratic platform of next year: "The democratic party will stand by the Chicago platform. The money plank will be made as full and as strong as if there were no other issues. I would be in favor also of making a declaration against trusts, as if that were the only issue; and the same with our declaration against imperialism and the Philippine war. Neither question can be said to obscure or take precedence of the other, but all combine to make an issue that I believe the people will support."

Whatever may be the defects in other branches of the government service, and they are numerous enough everybody knows, Commissioner Duell, of the United States Patent Office, is conducting that office with more satisfaction to inventors, patent lawyers, and everybody doing business therewith than has been done for a long time. He has the business so nearly to date, that C. A. Snow & Co., Washington's most successful firm of patent lawyers, make the positive announcement that they can secure patents for inventors in from four to ten weeks.

Representative Gordon, of Ohio, who is visiting Washington, talks interestingly of the political situation in his state. He said: "Whoever thinks the republicans are invincible in Ohio, this year, will be badly fooled. There never was a time when the party was so badly split by factional dissensions, as now, and if the democrats are awake to their opportunity, they will beat Senator Hanna's candidate for Governor. I have no idea who will be named as the democratic candidate, but we have plenty of good material to draw from. Ohio is naturally republican, but the people do not take kindly to political bosses, and they are going to show their resentment at the polls this year."

In Austria, a process for making artificial cotton out of the fibre of the fir tree has been discovered, and reported to the State Department, by the United States Consul at Reichenberg. He quotes a description of the process, concluding as follows: "Artificial cotton can be produced so cheaply that the genuine article can hardly compete with it, and one cannot say that it is a sham, for it is composed, exactly as the natural cotton, of pure cellulose." The Consul says him-

self: "In a country such as this, where forests of fir trees abound and are made perennial, by constant replanting as the large trees are cut down, and where all the cotton used in the numerous factories must be brought from far India and the United States, such a device should be profitable." This is decidedly interesting but it need not alarm cotton growers until it is known to have been put into practical use. It may be like the chemical process by which real diamonds can be made, which works all right, but the made diamond costs more than the natural diamond of the same size sells for, which renders the process useless to the commercial world.

The friends of Representative Sherman, of New York, are claiming that he was buncoed by the Henderson-Sherman Speakership combine, into which he entered a short time ago, and there appears to be foundation for the claim. The combine has already made Henderson the only Western candidate for Speaker and given him an apparent walk-over for the Speakership. It is estimated that it was formed to do that very thing, and that the administration was a party to it, having decided that Sherman's friendship for Reed, and Reed's influence over him, made him undesirable speakership timber. There may, of course, be a slip up in the program, but it is the general impression in Washington that Henderson already has the Speakership clinched, and predictions are freely made that Sherman will find it advisable to withdraw in Henderson's favor, long before Congress meets, in order to get Payne's place, at the head of the Ways and Means Committee, which carries with it the floor leadership of the party. The withdrawal of Hopkins in favor of Henderson, is believed to have been the work of Joe Cannon, who wants his old old place at the head of the Committee on Appropriations, and has probably been promised it, although some say that Hopkins is after the Ways and Means Committee for himself.

The Raleigh Post reports Loge Harris as having said in the meeting of the board of agriculture, Friday, when it was developed that in the two years that he has enjoyed membership on that board he has drawn the neat little sum of \$3,500 for one "service" and another, that "every cent that I have received came legitimately and my only regret is that I didn't get more in that way. The records are open and speak for themselves. I have no apology for what I have done." Then so much the worse for Loge. He ought at least to have the grace to be ashamed.—Charlotte Observer.

Decrease in Cotton Acreage.

There has certainly been a very material decrease in the cotton acreage of North Carolina, and reports to the same effect come from other States in the cotton belt. The world, however, is not yet convinced that the crop will be a small one, and claims of acreage reduction are not having any appreciable effect on the cotton market.

A letter from New York says: "While many private reports indicating conditions not entirely satisfactory have been received, the general disposition to complaints which come to hand from the cotton belt at this season of the year, and consequently for the present at least the reiterated claims of acreage reduction, complaints of damage from various causes, etc., fail to arouse any fresh speculative interest in the staple or to impart to prices an impetus in an upward direction."

Rheumacide is a thorough, permanent, constitutional cure for rheumatism. The acids in the blood which cause the disease are thoroughly eradicated. Is also the best blood purifier, laxative and tonic.

98.

The above figures tell a remarkable story; they represent almost exactly the per centage of cures made by

RHEUMACIDE

the wonderful new constitutional cure for RHEUMATISM. The other two per cent. were not curable, or failed to take medicine according to directions. Thousands have been cured. In view of the fact that many physicians think that rheumatism is incurable, and that most remedies fail, it must be true that RHEUMACIDE is the greatest medical discovery of the age. Particulars and testimonials of many well known people sent free to all applicants.

WINE OF CARDUI

For Mothers!

The discomforts and dangers of child-birth can be almost entirely avoided. Wine of Cardui relieves expectant mothers. It gives toneto the genital organs, and puts them in condition to do their work perfectly. That makes pregnancy less painful, shortens labor and hastens recovery after child-birth. It helps a woman bear strong healthy children.

McELREE'S Wine of Cardui

has also brought happiness to thousands of homes barren for years. A few doses often brings joy to loving hearts that long for a darling baby. No woman should neglect to try it for this trouble. It cures nine cases out of ten. All druggists sell Wine of Cardui. \$1.00 per bottle.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. LOUISA HALE, of Jefferson, Ga., says: "When I first took Wine of Cardui we had been married three years, but could not have any children. Nine months later I had a fine girl baby."

MOST FAMOUS VOLCANO

Mount Vesuvius Is Very Uncertain and Has Always Been So.

WATCHED CONSTANTLY.

It Has Buried Great Cities, Killed Many Thousands and Ruined Vast Districts.

Eight Miles From Naples—Thirty Miles in Circumference at Its Base—The Height Varies After Eruptions But Its Average Is About Four Thousand Feet—Has Two Distinct Parts.

Vesuvius is the most celebrated volcano in the world—and there are 350 active great volcanoes. It is most uncertain and has been since the earliest times.

Since 1841 it has been under constant observation by scientists, who have been able to predict eruptions but unable to foretell the extent of the eruptions.

Vesuvius is eight miles from Naples, whose bay it overlooks, at the eastern extremity of a chain extending to the Island of Ischia. It is believed that the whole Gulf of Naples was once an immense crater, the northern end of a great rent in the earth's crust, Aetna being the southern end and Stromboli about the middle.

At its base Vesuvius is thirty miles in circumference. Its height varies after its eruptions, but the average is about 4,000 feet. Its great crater is some 2,000 feet in diameter and about 500 feet deep.

It consists of two distinct parts. The north side is a lofty, semi-circular cliff, called Monte Somma, which has a pre-historic crater. It is separated from the active volcano by a deep valley several hundred feet wide.

Vesuvius burst forth in mighty fury on December 16, 1631, suddenly and unexpectedly. It continued until February, 1632.

One of the very grand eruptions occurred in 1779. High stones were projected several thousand feet into the air in a cloud of white vapor, with large masses of molten rock.

The outbreak which began in October, 1822, lasting nearly a month, rupturing the top of the cone and making a crater three miles in circumference and 1,000 feet deep. From that time Vesuvius has never been wholly quiet.

In 1841 Ferdinand II. established an observatory on the volcano for the purpose of giving warning of probable eruptions. When the eruption of May, 1855, came the people had fled in time. The cone was again rent asunder and the flow of lava continued for twenty-seven days, destroying miles of cultivated fields and many houses.

In 1858 there was another eruption, when lava poured from the orator. But it was slow-moving, progressing only a few inches a day.

The eruption of 1861 was violent for seven hours, and Torre del Greco was overwhelmed for the third time. The intense cold, which rapidly cooled the lava, was of immense advantage in protecting property.

In the middle of November, 1867, a cone seventy feet in diameter, which had been forming in the crater during the preceding two years, poured forth a great amount of lava. Besides the main stream from the great crater, there was a flow from an outside orifice twenty feet in diameter which formed a stream twenty feet wide.

The eruption of 1872 was preceded by slight premonitory symptoms. Molten rocks, lava and ashes gushed forth from the crater. Two fiery torrents rushed down the mountain on either side of the observatory joining at the base with a third stream. In the words of Prof. Palmieri, the volcano "sweated fire."

An Old University.

The oldest university in the world is at Peking. It is called the "School for the Sons of the Empire." Its antiquity is very great, and a granite register, consisting of stone columns 320 in number, contains the names of 60,000 graduates.

To Burn Coke.

Coke can be burned in ordinary fireplaces by means of a new attachment, consisting of a perforated conical, hollow block, to be placed in the grate bottom and connected with exterior draught pipes to supply air to the interior of the mass of burning fuel.

Earrings Not in Favor.

Among the Phoenicians the wearing of earrings was a badge of servitude, the same custom obtaining with the Hebrews. The latter people said when Eve was expelled from paradise her ears were bored as a sign of slavery.

Oysters' Feeding Time.

It has been discovered that oysters feed only at about the turn of tide, and that the habit of opening periodically persists even when they are out of water.

BUCK'S JUNIOR RANGE

Every little girl wants it, and one little girl shall have it. On the 15th of July we will present it to the little girl under fourteen years of age, who cuts out the greatest number of Buck's Trade Marks in the advertisement below and brings them to our store. They must be done up in neat packages and the number and name written plainly on each package. Now girls get your friends to help you, save every Trade Mark and see who can win the prize.

Respectfully,
HIGGS & TAFT.
