FICKLEN-SKINNER.

Two Popular Young People Wed.

St. Paul's Episcopal church was the scene of another most beautiful marriage on Tuesday evening, the contracting parties being Mr. Edwin B. Ficklen and Miss Myra Skinner, two very popular young people of this town.

The church was elaborately decorated for the occasion. There were evergreen wreaths on the walls with festoons of ivy and spruce from each side of the wedding bell suspended in front of the altar. The chancel was covered in white with a bank of greenhouse plants in the rear.

Mrs. A. M. Moore presided at the organ and a bridal chorus was sung by a choir as the families of the bride and groom entered.

The ushers were Dr. Charles Laughinghouse, Dr. Zeno Brown, L. I. Moore and J. W. Wiggins, the pages Charlie Skinner and Benjie Higgs.

As the bride's maids entered they passed in couples up the centre aisle, the groom's men being opposite on the right and left side aisles, the ladies forming a semi-circle in the chancel and the gentlemen forming out in front.

The attendants were as follows: J. L. Little with Miss Bessie Jarvis.

H. W. Whedbee with Miss Mary Thomas, of Tennessee.

Dr. R. L. Carr with Miss Eva Pailin, of Elizabeth City.

J. C. Braswell, of Rocky Mount, with Miss Louise Latham.

H. P. Strause with Miss Sallie Cotten.

Curtis Gary with Miss Fan Skinner, of Hertford.

J. B. Cherry, Jr., with Miss Maud Blow.

R. M. Moye with Miss Sallie Lipscomb.

W. H. Dail, Jr., with Miss Bettie Tyson.

Alex. Gary with Miss Lizzie Miller, of Bedford City, Va.

H. W. Holcomb with Miss Winnie Skinner.

Louis Skinner with Miss May Harvey, of Kinston.

Little Misses Margurite and Ethel Skinner were flower girls and Miss Pat Skinner maid of honor.

The bride entered with her father, Charles Skinner, while the groom came from the vestry room with his brother, J. B. Ficklen, of Richmond, as best man and met the bride in the chancel.

The ceremony was very impressively performed by Rev. N. Harding, of Washington.

After the marriage a reception was held at Hotel Macon which was attended by a large number of people. During the reception the Osceola Band played several airs on the square fronting the hotel.

There was a magnificent display of bridal presents showing the wide popularity of the couple. One table was loaded with China ware, some of the presents being from as far away as Japan. Another large table was covered with articles of silver of almost every imaginable design, still another table bore a display of elegant cut glass, while from the walls hung almost innumerable pictures and articles of lace and fancy work.

Mr. and Mrs. Ficklen will leave tomorrow morning on a bridal tour to Lake George, Michigan and other northern resorts.

NEWSY HAPPENINGS AND BUSINESS NOTES.

WINTERVILLE, June 7, '99.

This is fine weather for killing grass and making brick.

A good many potatoes are being shipped from here this week.

Bring your huckleberries to Winterville, you can get the highest market price for them.

Mr. Hines, an insurance agent, has been in town a day or two talking insurance.

We learn that Mr. Lewis McGohon went fishing the other day with hook and line, for the first time in forty five years.

Misses Annie Stocks and Mimie Cox left Monday night for Jones county where they will spend several weeks with relatives.

If you are in need of some ready cash, just bring a beef, young or old, fat or poor, big or little, down here to A. G. Cox.

Don't forget that B. F. Manning & Co. are headquarters for different kinds of thread for tying tobacco, high grade thread at low grade prices.

Before shipping, potato growers will do well to see F. O. Cox who represents the best Commission Houses in New York, Philadelphia, Washington D. C., and Newark N. J.

TOBACCO FLUES.—From a little experiment which our tobacco flue boys made last week it seems that the tobacco fly is like some folks, (its head is not worth much to it.) They caught one of these flies last Friday about 9 o'clock and cut off its head and noticed to see how long it would live. The head lived over 24 hours and the body until 11 o'clock Monday. Our boys are making good honest flues too so that it will be as hard to knock the life out of our trade as it was out of the fly. A. G. COX MFG. CO.

Returning Board.

The Board of Canvassers met in the Mayor's office at noon Tuesday to canvass the returns of Monday's election. Some question being raised over the returns from the First ward, the Board made a recount of the votes in that ward and found that E. M. McGowan had received 44 votes for Councilman and R. B. Jarvis 26 votes for Alderman. The Board took a recess until 5 o'clock that they might look up the law to be properly guided in their decision of the matter. Upon reassembling the unanimous decision of the Board was to declare E. M. McGowan elected, the intent of the voters being that he should be their representative on the Board of Aldermen even though they inadvertently used the word Councilman on their ballots. Those whose names were previously published as being voted for in the other wards were declared elected.

Insurance Companies Pay Promptly.

In an excellent communication in Sunday's paper Mr. Carey J. Hunter, one of the best insurance men in the State, called attention to the fact that "there is less litigation over life insurance claims than over any business transactions of the same amount." The first-class companies not only have little litigation, but almost always pay the amount of the insurance before it becomes due. Their promptness and readiness sets an example to all other individuals and corporations.

In this connection it is pleasant to note that one by one, as soon as they really understand the Craig law, the insurance companies that have heretofore done business in North Carolina are complying with its provisions. They were deceived at first by a clamor against the law, made for selfish ends. Examination of the law convinces them that there is no way in which they can be injured by the law. It is only those corporations—and they are very few—that wish to carry their cases to Federal courts and force poor litigants to a compromise that are opposed to the spirit of the law. No insurance company ought to hesitate a minute about it and we believe when they fully understand the law all the good ones will comply with its provisions.—Raleigh News and Observer.

Man in an Old Maid's Eyes.

Man is a two-legged animal that chews tobacco and walks on the forked end. Most men are born; we never heard of but one that wasn't and he was made of mud, just for sample.

Man's life is full of disappointment and growls and corn-cob pipes. He goes forth like a lion in the morning and leaves his wood for his wife to chop, and in the evening he sneaketh home with his pants ripped, and raises Cain about hard times. He has la grippe on road-working days, and walks twenty miles to a circus. He will chase a jack-rabbit four miles through the snow and then borrow a horse to ride half a mile to the postoffice.

The democratic board of agriculture has discovered that two members of the old fusion board were paid their salaries unlawfully, and the committee recommends that these gentlemen be notified of the fact and given an opportunity to refund the money. While the books show that the salaries were illegally paid, the idea of giving them an opportunity to refund must have been intended as a joke.—Durham Herald.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

Dewey's Home.

It must be confessed—and it may be confessed without regret—that the project to present Admiral Dewey with a residence has not aroused any lasting public enthusiasm, though the hero of Manila is still, and will remain, the object of the people's unbounded admiration and affection. Perhaps the most appropriate as well as the most popular way in which the admiral might be materially rewarded would be for Congress to formally appropriate a satisfactory amount of the public money as a gift of the whole nation. There would be none of the unpleasant features of solicitation about such a procedure, and the admiral could accept the gift with perfect propriety as coming from all his fellow-citizens.—Philadelphia Record.

Wespeke, a few days ago, of Dewey's being in the enjoyment of a salary of \$6,000 a year. This was his salary as rear admiral; as admiral it is \$13,000 a year—nearly twice that of a United States Supreme Court judge; nearly three times that of a United States Senator. Why should there be any lasting public enthusiasm among ordinary people over a proposition to buy him a residence when not one in 50,000 of his fellow-citizens enjoys the income that he does and when there are so many of them who haven't houses themselves because they are not able to own them? Citizens as individuals should not be asked to contribute for this purpose, and why should Congress be asked to appropriate public money for it? Mr. Dewey is no doubt a nice man, and it is certain that about a year ago he sank a number of Spanish tubs in Manila Bay in great shape, but he has been pretty well paid for that, and there seems to be no good reason why people who are not able to do so should be asked to cough up money to buy him things which he can buy for himself if he wants them.—Charlotte Observer.

The Railway Age predicts that not less than 5,000 miles of new railway will be constructed in the present year at a cost of \$150,000,000, and this amount of new construction means permanent employment for 25,000 men.

And what is specially gratifying in this connection is that the major portion of this work will be done in the South.

DANGER IN SODA.

SERIOUS RESULTS SOMETIMES FOLLOW ITS EXCESSIVE USE.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended as a medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice and one which is fraught with danger; moreover the soda only gives temporary relief and in the end the stomach trouble gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it has accumulated in the intestines, causing death by inflammation or peritonitis.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20-grain lozenges, very pleasant to taste and contain the natural acids, peptones and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in all stomach troubles except cancer of the stomach. All druggists sell Stuart's Dyspepsia Tablets at 50 cents per package.

A little book describing all forms of stomach weakness and their cure mailed free by addressing the F. A. Stuart Co., Marshall, Mich.

THE PLACE NO SINECURE

It is a Rendezvous for Adventurers, Ex-Convicts, Swindlers and Sharpers.

A Firm That Rents Jewels and the Many Risks They Run of Losing Them—Disguises Are Marvelous and Many—Those Who Go There Are Not All Pleasure Seekers.

To be a detective at Monte Carlo is to be all things to everybody at one time. The place is no sinecure. I spent two full seasons at it, and felt an exhaustion when I finished as the veriest roue did who had spent his time in every dishonest game.

My life there was one absolutely behind the scenes. I was not a detective for the gambling house, but for prominent jewellers; a firm who had to watch every jewel of note and value worn in that rendezvous of adventures, ex-convicts, swindlers and sharpers.

The diamond necklace worn by the beauty at supper would be rented from us; I would have to keep ten paces near her during the ball or dinner. Did she dance, I glided about the room; did she have a quiet flirtation in a recessed corner, I was there; did she take supper a deux, I watched every mouthful. Was I afraid she would run away with them? Possibly! But what I did think about was this, that the hand that dangled the monocle was ready for the revolver the instant some man attempted to take the jewels from her throat.

Would she thank me forever for my kindness? Perhaps so; perhaps not!

She was most probably in the scheme. She rented the jewels at a good price. A man—her accomplice—would rob her of them in a dark corner; she was accepting his attentions ostensibly because he was Count Blank. She would report in tears of her loss to the firm; but what could she do? she would ask. Her accomplice would have time to disguise himself and get to Paris, sell the jewels, and finally the two would divide the profits. They might actually be of noble birth.

No one but the detective can imagine how almost next to impossible it is for one to realize to whom one is actually talking. Names are naught; disguises are so marvellous that one could make a dozen friends out of the same man or woman. These disguises are easy to cover the amateur crook at Monaco, while the expert changes his sex as easily as he changes his name. Before I ever went as a private detective I had visited there several times and thought I knew Nice thoroughly. People seemed polite, well-dressed, leisurely. I thought them all pleasure seekers.

The low crook with vulgarities never goes there; the adventuress who is flagrantly immoral remains away. Monte Carlo is the rendezvous of the well-mannered scoundrels of the world—those who have a positive genius for artistic ill-doing. It is none the less depraved because it is behind a charming exterior, and it is a thousand times more deceiving.

In Monaco a detective takes no one's word for anything unless he knows the person. I have dined with a real count and a bogus baron on either side of me and found the latter far more polite, suave and attractive than the former. One is constantly on the trigger, as were. All the detectives develop such keen excitement in the people about them that the game at the table is as child's play to the more interesting game in human life. Every face that appears at the door may be a link in a chain of depravity that the detective is hunting. Each detective is following several clues at one time, for here congregate the world of gentlemen thieves.

Pressure of the Sea.

There are spots in the ocean where the water is five miles deep. If it is true that the pressure of the water on any body in the water is one pound to the square inch for every two feet of the depth, anything at the bottom of one of the "five-mile holes" would have a pressure about it of 13,200 feet to the square inch. There is nothing of human manufacture that would resist such a pressure. That it exists there is no doubt. It is known that the pressure on a well-corked glass bottle at the depth of three hundred feet is so great that the water will force its way through the pores of the glass. It is also said that pieces of wood have been weighted and sunk in the sea to such a depth that the tissues have become so condensed that the wood has lost its buoyancy and would never float again. It could not be even made to burn when dry.

Woman Drawing a War Pension

A pension has been granted to a Turkish soldier known to his comrades as Kleusse Ahmet—that is, Beardless Aret—who, after three years' service in the army, fell ill and, coming under medical treatment, was discovered to be a woman.

The World's Telegraph System.

The length of the world's telegraph system is placed at 4,908,921 miles, exclusive of 180,440 miles of submarine cable, and America has more than half—2,510,548 miles.

Parker Fountain Pen.

We carry a full line of the celebrated
Geo. S. Parker
Fountain Pen

It is a big hit in fountain pen writing, and is distinctive in appearance. Not only does it feed the ink perfectly, but prevents soiled fingers.

The Daily Reflector

Gives the home news every afternoon at the small price of 25 cents a month. Are you a subscriber? If not you ought to be.

There is on exhibition at our store a full nickel plated

BUCK'S JUNIOR RANGE

Every little girl wants it, and one little girl shall have it. On the 15th of July we will present it to the little girl under fourteen years of age, who cuts out the greatest number of Buck's Trade Marks in the advertisement below and brings them to our store. They must be done up in neat packages and the number and name written plainly on each package. Now girls get your friends to help you, save every Trade Mark and see who can win the prize.

CUT THIS OUT.
