FRIDAY, JULY 14, 1899.

In The World of Labor.

The copper-mining industry of New South Wales promises to assume gigantic proportions in the near future.

The clothiers of Lawrence, Mass., will join the closing movement and grant the Wednesday half-holiday to their clerks.

The Phoenix Iron Works Company, of Hartford, Conn., has granted an increase of 25 cents per day to about sixty moulders.

A successful firm of tea merchants in London is composed entirely of women. The blenders, tasters and packers are also women.

About five acres of land in Astoria, N. Y., fronting on the East River, have been sold to capitalists, who will establish a big steel plant there.

In 1880 Germany imported eggs to the value of \$3,500,000. In 1898 the amount was nearly trebled. Russia provided 90 per cent. of them.

In nearly every street in Japanese cities is a public oven, where, for a small fee, housewives may have the dinners and suppers cooked for them.

St. Paul lathers' new scale: Face lathing, 2 1/2 cents per yard; cross back lathing, 5 cents per yard; up and down back lathing, 2 1/2 cents per yard.

Today 50,000 persons and \$50,000,000 are employed in the business of making and distributing newspaper clippings among those whom they concern.

To Heaven on Horseback.

Captain A. L. Minter, member of the house of delegates of Virginia, has been fined \$25 and sent to jail for fifteen days for disturbing a religious meeting. Evangelist D. B. Strouse is holding revival services in a tent in Bedford. Captain Minter rode his horse into the tent and announced that he wanted to be sanctified and that his horse wanted religion, too. The captain is nearly seventy-five years old.

Used a Saw On Him.

We were told Saturday of a difficulty down at Millertown, this county, in which a negro was almost decapitated.

Mr. McAlister, the storekeeper at a distillery, struck a negro in the back of the neck with a saw and the negro's head fell forward on his breast. The neck was almost cut in two, and, of course the wound was a dangerous one, but, we understand, it is thought the injured man will get well.—Salisbury Sun.

ROUND LAP COTTON BALES.

To Satisfy The Demand The Entire Crop Will Eventually Be So Baled.

For once the cotton planter has an ally among the great corporations. For years the cotton tie ring, the bagging combine and the compress people have all lived off the cotton grower. There was no way to fight them and so they grew rich on their enormous profits which the farmers had to pay. Now the American Cotton Company with its Roundlap bale is in the field and it is so revolutionizing the cotton handling business that many of the old expenses are necessarily wiped out. The farmers must inevitably get a large share of this saving, but the old compress people and the bagging and tie trust are raising a great commotion against the American Cotton Company as though they had always been the friends of the farmer. Unfortunately for them they never played the friendly act before and now the farmers doubt the sincerity of their repentance.

The Roundlap bale is the trade mark name given by the American Cotton Company to its round bale to distinguish it from all other bales. The cotton mills of New England and of Europe are eager buyers of this bale because as compared with all other bales it has many advantages covered by broad patents, which greatly lessen the cost of manufacture to the mill. This Roundlap bale eliminates two or three processes in manufacturing and as the cotton mills of the world are willing to pay more for this cotton than any other, it naturally follows that to secure the highest prices all southern cotton must in time be put up in this Roundlap form. Mr. Wm. C. Lovering, one of the most distinguished cotton mill men of New England says:—"I do not hesitate to say that the time is coming when the cotton manufacturers all over the world will insist that their cotton shall be delivered to them in the form of a Roundlap bale."

At The Ticket Window.

"When does the next train that stops at McAllistersville leave here?"

"You'll have to wait four hours."

"I think not."

"Well, maybe you know better than I do, ma'am."

"Yes, sir, and maybe you know better than I do whether I'm expecting to travel on that train myself or whether I am inquiring for a relative that's visiting my house and wanted me to call here and ask about it and save her all the trouble, because she's packing up her things and expects to take that train herself and not me, and she'll have to do the waiting and not me, and maybe you think it's your business to stand behind there and try to instruct people about things they know as well as you do, if not better, but my idea is that you're put there because they couldn't use you in the switching department, and perhaps you'll learn some day to give people civil answers when they ask you civil questions; young man, my opinion is you won't."

(With a gasp.) "Yes ma'am."

Funeral Instead of Wedding.

An hour before the time set for the wedding ceremony, and while she was dressing herself in bridal finery, Miss Mena Donaldson, of Derby, Conn., received a telegram announcing the sudden death of the man who was to become her husband. Casting aside the wedding gown Miss Donaldson robed herself in black and accompanied by relatives, went to mourn over the body of her affianced. He was Herbert Carroll, a prosperous farmer, of Middlebury. While walking along the road near his home Carroll picked up a bottle. After smelling the contents he decided it was Santa Cruz rum. He drank a quantity of the liquid and in a few minutes after died in terrible agony. An examination revealed the fact that the supposed was a compound of alcohol and aconite.

Divers 1,600 Feet Under Water.

This is an age of New inventions and the newest is a medical apparatus for deep sea diving. The inventor is M. Patee del Pazzo, of Venice. The bell is of cast iron and sphere shaped, and is covered with oil cloth three inches thick. It is thus well equipped to resist the enormous water pressure.

The diving globe is constructed to work at a depth of about 1,600 feet—that is, more than a quarter of a mile. At this great depth there is very little light, but provision is made for that.

The men inside the diving bell are permitted to see their surroundings clearly by a powerful electric light placed over a strong lens, through which they look. The light, of course, is worked from the inside.

The tools of the trust pretend to fight what they are pleased to term "criminal trusts." There are no othersoit. All are organized to destroy competition and make a monopoly, and every one is an outlaw. They would be punished if they did not have a mortgage on the government officials—News and Observer.

Dissolution.

The firm of Forbes & Moye, doing a tobacco warehouse business in the Planters' Warehouse, was on the 1st day of July, 1899, dissolved by mutual consent, Ola Forbes purchasing the interest of E. A. Moye in the business. All persons indebted to the firm are requested to make immediate payment to Ola Forbes.

BLOOD TELLS.

YES, it is the index to health. If you have had blood you are likely to learn that you have rheumatism, one of the most horrible diseases to which man kind is heir. If this disease has just begun its work, or if you have been afflicted for years, you should at once take the wonderful new cure.

RHEUMACIDE

Thousands have been cured. The summer season is the best time to take a rheumatic remedy. Nature will then aid the medicine in effecting a permanent constitutional cure. People with bad blood are subject to catarrh, indigestion and many other diseases. To be healthy the blood must be pure. RHEUMACIDE is the Prince of blood purifiers. Sold at Wooten's Drug Store. \$1.

TYPE AND PRESS.

WHO WANTS IT? SPEAK QUICK.

THE REFLECTOR recently purchased two printing office outfits and has a quantity of surplus material that will be sold cheap. There is a cylinder press large enough to print a nine column paper, in splendid condition, and a quantity of Small Pica, Long Primer, Brevier and Nonpariel body type. We can furnish a complete outfit large enough for a six or seven column paper.

Specimens of the body type are shown in this advertisement, the type being taken from the case just as it runs, so it shows for itself how well it prints. This is the Small Pica size of which there is 1 pair of cases.

Then here is a paragraph set from the Long Primer size. We have 4 pairs of these cases. In buying this type you do not get something that is worn out and cast aside, but a good serviceable type, capable of much wear.

Here is something a little smaller, Brevier size. There are 2 pairs of these and it is a bargain for somebody interested in printing. It may not come but once in a lifetime that an opportunity is given for buying type as cheap as we will sell these lots.

Again we have 1 pair of cases of this Non pariel size, a very useful type in any printing office. Cases will be sold with the type of all sizes. Any printer who can use any or all of this type can make us a spot cash offer. While we prefer a customer for a whole outfit, press and type, one case of type will be sold if no more is wanted.

WINE OF CARDUI
FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

WINE OF CARDUI

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefitted by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

BETHEL DEPARTMENT.

CONDUCTED BY C. H. JAMES.

BETHEL, N. C. July 13, '99.

Our town is dry and hot. No whiskey now.

Miss Dola Bryant is assisting Mrs. Mc. G. Bullock in her millinery store.

Our clever little salesman Kelley Davenport will visit his relatives in Edgecomb tomorrow.

Mr. M. O. Blount went to Tarboro today on important business.

Many people in Bethel are sorry to learn that our splendid teacher, Prof. McWhorter expects to leave us this fall.

We are glad to inform the people that the report circulated in Raleigh that our ex-Postmaster, Mr. S. A. Gainer, had fallen short in his office \$500 and had not paid same, is false. Mr. Gainer is one of our best and most honorable men.

The M. E. District conference here passed off very pleasantly. Our people had prepared for many more preachers, and visiting than came.

Dr. L. L. Nash, whom the people of Bethel idolize, began a protracted meeting here last Monday and as usual he has aroused the Christian work here greatly. The Doctor is to leave us tonight, to the regret of everyone, but our pastor will continue the meeting with the assistance of that most excellent gentleman and preacher, Rev. Jas. L. Tyrrell pastor of Conetoe M. E. church. A great Christian work is expected.

JUST FOR FUN.

Familiarity with a judge is pretty sure to breed contempt of Court. Some people think cyclers are cranks just because they make wheels go 'round.

"I can't help feeling out of place here," remarked the young clerk who had just been discharged.

"The best way to tickle a man's vanity," says the Manayunk Philosopher, "is to tell him he hasn't any."

The possession of too many wives is classed as bigamy, but there doesn't seem to be any term for a man's wife being too many for him.

Harduppe—You're a lucky dog. No trouble, no sickness. Why, the doctor's hardly ever out of my house." Wigwag—"Well, you see, I happened to have enough money to pay his bill right off."

Cholly—"I hear you are paying addresses to Miss Bullion. How does her—aw—fathah take your suit? Reggy (sadly)—"I think it was by the—av—coat collah and baggy portion of the trousers lawst night, old fel."

Kinston Beat Greenville Playing Ball.

The third nines of Greenville and Kinston played a match game of ball here Wednesday afternoon. The score was as follows: Kinston 25. Greenville 8.

Greenville was outclassed at every point. The sweet little cherub in right field was about the best player on the Greenville team, though he was not much larger than a large size watch charm, but was a charming little fellow. The Greenville nine were all a clever and gentlemanly set of young men.—Kinston Free Press.

ELASTIC GORING OVER INSTEP.

Original in design. Attractive in appearance and Perfect Fit—Fascinate and Captivate the wearer At First Trial.

Probably no shoes have ever been introduced that have made so many friends in so short a time

A Few

Points

wherein the Julia Marlowe styles differ from other shoes.

They fit like a glove. They never pinch the foot. They are beautiful in design. They fit high or low instep. They yield to every action of the foot. They conform in vital points to the shape of the wearer's foot instead of pressing the foot into the shape of the shoe.
