Doctors Users of Opium.

The sensation of the second session of the annual meeting of the New York State Medical Association in the Academy of Medicine today was a paper on "Morphine Among Physicians," by Dr. T. D. Crothers, of Hartford, Conn., who has for nine years made the subject a special study.

"In following up this subject for nine years," he said, "I have studied all practitioners within my reach. Out of 3,244 physicians, I found 681 of them, or 21 per cent. of them using morphine secretly. It can be estimated that 6 per cent. of all the physicians in the country have the morpine habit secretly, while in some parts of the country the proportion is not begun until the physician has passed the age of 30. The most common method is, of course, by the hypodermic needle, but many physicians take opium in the tincture. In either case the result is about the same.

"The morphine physician is generally meditative in manner, but, with all his meditation, finds his memory is leaving him. He has moods, one time talkative, at another silent. Occasionally he will make clear diagnoses and perform difficult operations, but more often he will fail completely. The end is often insanity or suicide. The increase in the number of inmates in our asylums who are physicians is astonishing and alarming. I have known physicians give up alcoholic liquors for morphine, but never morphine for anything.

"Worry, overwork, shock, irregularity of life and living all contribute to the habit. There is something fascinating in the instant relief had from the needle after a hard day's work.

"The physician may conceal the habit for a time, but soon neglects his duty, personal respect, and childish vanity takes its place. He

will indorse wild schemes, and has wonderful experiences, according to his own account.

"He is apt to experiment wildly in his practice—in fact, no patient is safe in the hands of a morphine-taking physician. The medical morphinist is dangerous to himself and others. A physician who regularly prescribes morphine for the relief of pain is generally a morphine taker himself. This rule seldom fails."

In conclusion, Dr. Crothers said there was no cure for the habit. Many tried to stop it, but generally failed. The only remedy was its prevention. "Never use morphine with a needle on yourself under any circumstances," concludes Dr. Crothers. "And never use morphine any way except with the advice of a brother physician you can trust."

Dr. Wiggin cited the case of a certain medical society of 57 members, of whom 12 were morphine fiends. One deliberately acquired the habit to test an infallible cure which he had discovered but which proved inefficacious.—Special from New York to Philadelphia Record, 25th.

TUESDAY, OCTOBER, 31, 1899.

Editor J. P. Caldwell, of the Charlotte Observer, recently returned from a trip to Europe, and in Sunday editions of his paper has been giving notes of his travels. From his last notes we take the following paragraph which makes interesting reading, as so much has been said in this country of late years about government ownership of things. The paragraph says:

As we all know the telegraph lines in Great Britain, as well as in other countries on this side, are run in connection with the postal service. In calculating the cost of a message, the address and signature are counted and all charged for—nothing going free, as in the United States. Messages to points in England are paid for at the rate of 6d.—12 cents—for 12 words, with 1 cent for each additional word. The charge on a message of ten words in the text and ten words in the address and signature is 20 cents. In the United States only the text of ten words is counted, and the cost is 25 cents; so taking all the facts into consideration government ownership is not so cheap as some think. Then, too, there are sometimes big deficits to make up from the Treasury.

WASHINGTON LETTER.

From Our Regular Correspondent.

WASHINGTON, D. C., Oct. 30, '99.

That Mr. McKinley has become somewhat alarmed by the harsh criticism of Gen. Otis, by the press of the country, regardless of party, is shown by the semi-official announcement that Gens. Lawton and McArthur, who are said to be slated for the vacancies in the regular army, made by the retirement of Brigadier General Shafter, and the death of Brigadier General Gray V. Henry, who was buried today at Arlington, with military honors, are to have practically independent commands in the coming campaign on the island of Luzon. That is to say, they are to carry out the general plan of campaign as arranged by Gen. Otis, but are to be left independent as to the movements of their respective commands while in the field, and free to do as they may think best, without having to first get the consent of Gen. Otis.

The administration is bending every effort towards counteracting the adverse sentiment against its Philippine policy, which it realizes is increasing. The Philippine Commission, which met in Washington, today, has been ordered to hurry a preliminary report in favor of the administration policy, so it can be put before the public at once. Members of the Commission present are Admiral Dewey, Col. Denby, Prof. Schurman and Prof. Worcester. The meetings are held with closed doors.

Gen. Fitz Lee is in Washington

on his way home from Cuba, on leave of absence. His position in the army keeps his mouth closed as to conditions in Cuba, but he tells his friends privately that there is an awful mix-up on the island, and his manner indicates that he could tell some interesting things if he were at liberty to do so.

John Sherman has been talking again, and what he said made it evident that the old man had neither lost interest in Ohio politics nor the faculty of properly sizing up the situation in that state. Mr. Sherman predicts republican defeat because of the opposition of the German voters to the foreign policy of the administration, of which he said: "It cannot be sustained in morals and is in contravention to the American declaration of Independence, and the teachings of the brave men who signed that instrument," and of the republican opposition to a continuation of Hanna's leadership. Mr. Sherman didn't say that he would be glad of republican defeat in Ohio, or that resentment of his own treatment by the Hanna-McKinley clique was responsible for the attitude of any of the republican voters, but there are some things that are fully understood without being said.

At the last meeting of the Washington branch of the Anti-imperialist League, Gen. Wm. Birney, a life-long republican said: "Imperialism respects no law. To it the Congress is nothing, the Commander-in-Chief of the army everything. It disregards constitution and statutes and transfers all power to the Executive. The writ of habeas corpus does not exist in the imperial colonies. The prisons of Cuba, Porto Rico and the Philippines are vocal with the cries of men who cannot be heard beyond the walls. Imperialism knows no limit, except the caprice of the Emperor. It has the sword, it will seize the purse. Nay, it has already defied the limitations imposed by Congress; it has expended two hundred millions where only 80 were appropriated. It has, without authority of law, transported immense bodies of troops to the other side of the globe. It has built up an immense patronage in its control of military appointments. It has used this patronage for political purposes. Its influence is used to discredit all the fundamental doctrines of American institutions." Another republican—Capt. O'Farrell—said: "We hear a good deal about the trade with the Philippines. It takes from a thousand to thirteen hundred dollars a day to coal each transport on the Pacific ocean between San Francisco and Manila. This coal is imported from Cardiff, Wales. The beef supplied to our troops and the potatoes and vegetables come from Australia. Many of the uniforms worn by our officers and men, in the Philippines, are now manufactured in Hong-Kong, while the cost of our army and navy amounts to \$650,000 a day. And the appropriation made by Congress for twelve months has been expended or wasted in five months. What a prospect for the American tax-payer and working-man!"

Inquisitive persons are asking if Mr. McKinley's coachman is considered to be in the classified service? The reason for the question is that Mr. McKinley, having for some reason, tired of his old coachman, had him given a place in the Pension Bureau and then hired a new one. Both men are negroes. Men who have passed the civil service examination, with high percentages, are unable to get place, but Mr. McKinley's coachman can get on the pay roll without any trouble.

The call of Boss Hanna's Committee for contributions from the

employees of the government in Washington, for use in Ohio, is panning out big. The failure of the administration and of the civil service Commission to make any effective move against the employes contributing, frightened the clerk's and they are putting up their money more freely than was ever done in a state campaign since there was a law against political assesment of government employes, believing that their positions depend upon their contributing.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE "NECESSARY" MAGAZINE

The best-informed men and women in the world use the AMERICAN MONTHLY REVIEW OF REVIEWS to keep well informed, and call it the "necessary" and "indispensable" magazine. In the busy rush of to-day ambitious men and women must know about the important questions of the month, and not only this, they want to know about them at the right time. When the whole country is puzzled over the gigantic combination of trusts, a well-informed article is printed in the AMERICAN MONTHLY, giving the facts, and its editor discusses the theory; when the Dreyfus affair is in everyone's mouth, the best story of Dreyfus and the great case comes out in this magazine.

Every month, in "The Progress of the World," Dr. Albert Shaw gives a comprehensive picture of the world's history during the previous thirty days. In the departments, the valuable articles and books that have been published during the past month are reviewed and quoted from, so that the readers of the AMERICAN MONTHLY can get the gist of them. In every issue nearly a hundred pictures are printed, including the portraits of the men and women who are making the history of the month.

To be thoroughly well informed helps any man or woman in his or her work. A subscription to the AMERICAN MONTHLY REVIEW OF REVIEWS represents an investment for the best kind of profit, as well as entertainment. One subscriber has just written: "Count me a life subscriber, and when you send me a number beyond the limit of my subscription and secure no renewal from me, consider it a notice of my death."

Price 25 cents per number, \$2.50 a year.

A Money-Making Medium.
To the merchant who advertises regularly, a popular and reliable newspaper is certainly a money-making medium. Of course, no sensible tradesman will imagine that one advertisement, or ten of them, will bring dollars by the bushel to his cash drawer. But breezy and instructive business notices, if they appear daily in a good newspaper, constitute a mighty element in the successful establishment and maintenance of profitable patronage. There is assuredly no magic power in advertising; it cannot accomplish the impossible. But there can be no question as to its value in increasing a merchant's business.—Philadelphia Record.

Colonel Bluegrass, of Kentucky—"What is your opinion of this new liquid air, sah?" Judge Julep—"I can't say that I have given it very much consideration, sah; but it strikes me that anything liquid must be in the line of improvement."
