A HANDSOME STORE.

Would Be a Credit to a City.

Two strangers stood talking together on Evans street.

Said one: I never saw a town come out like Greenville has in the last few months. But a short while ago right along here was a nest of old frame buildings that were unsightly and dangerous. Now you will not find a better looking business street in any town than this.

And just look at that splendid two story building across the street there. That house would do credit to a place ten times as large as Greenville. There is not a handsomer store in the State. Whose is it? Why, C. T. Munford is the owner and he is getting ready to move in and occupy it. Talk about enterprise, you find a manifestation of it right there that speaks for itself.

He came to Greenville nearly fourteen years ago and began business in a small way, and he has pushed onward and upward until now he is surpassed by none. His store has always been a providing place for the people, and he has always dealt honestly with everyone hence his success.

Take a big stock of goods to fill that store? Of course it will. That is just what it was built for, to carry the largest stock of any house in Eastern North Carolina. But you just wait until he gets in and gets straight, and if C. T. Munford's store don't astonish you then I am no prophet.

Vines House Closed.

Mr. C. C. Vines has closed the Vines House hotel which he has been keeping in the Hoell building, on Third street, since the fire last May. He has moved his family to the Higgs house on Dickinson avenue.

Allen--Corbitt.

Wednesday afternoon at 6:15 o'clock at the home of Mr. G. A. Corbitt, father of the bride, near Greenville, Mr. J. S. Allen and Miss Mary A. Corbitt were married, Rev. H. B. Tucker officiating. Immediately after the ceremony they left for the home of the groom.

Oyster House.

Some people have moved here from Carteret county to open an oyster house. They will keep a boat running from the sound so as to keep a fresh supply of the bivalves here all the time.

THURSDAY, NOVEMBER, 16, 1899.

It is proposed to place the statue of the late Miss Frances E. Willard in Statuary Hall in this city. The arrangements are in charge of a commission appointed by Governor Tanner of Illinois.

The Agricultural reports show great satisfaction with the governments experiments with tea raising in South Carolina and tobacco raising on the frost bitten orange orchards of Florida. The latter is equal to Cuba's best production.

The War Department has received a sensational report from the headquarters of General Shafter, full of the severest criticism of the methods of the officers in charge of the sick soldiers who returned from the Philippines October 10.

Postmaster General Smith, has sent a notice to postmasters asking them to, in some feasible way, call the attention of their patrons to the necessity of putting the names of the Company, Regiment, etc. on the mail addressed to soldiers at Manila. Hundreds of letters lie undelivered on this account.

Secretary Wilson of the Department of Agriculture has caused two agents of the plant importation bureau to be sent to Porto Rico to look over that island and to make a report of agricultural conditions to be found there, together with suggestions for improvements in the agricultural methods followed by the Porto Ricans.

Argument before the United States Supreme Court was begun Nov. 8, in the test case brought to fix the responsibility in the matter of the payment of war revenue taxes upon packages sent by express. The Merchants' Association, of New York, are standing the expense of bringing the suit. It is against the Adams Express Co., and quite an array of counsel are on both sides. No matter how the case is decided, there is nothing to prevent the Express Companies from increasing their rates to meet the war tax, just as telegraph companies have done all along, should the case be decided against the express people.

On Nov. 8, there was issued by the Clerk of the Supreme Court of the District of Columbia, a license authorizing George Dewey to wed Mildred M. Hazen. The application was made by Lieutenant Harry H. Caldwell, Admiral Dewey's Secretary. The information furnished the clerk set forth that Admiral Dewey is sixty-one years of age, and his bride-elect forty-three; that both are citizens of the United States, and that in the case of each party there was one former marriage.

The Liberty of Congress has just been enriched by a gift from Gen. William B. Franklin, of Hartford, Conn., of a rare and perfect copy of Capt. John Smith's History of Virginia. Some idea of the value of the book may be gained from the knowledge that copies sold in the past twenty years have brought as high as eighteen hundred dollars. Gen. Franklin became possessed of the book through the Duke d' Orleans, who, along with Gen. Franklin, served on the staff of Gen. McClellan during the civil war.

German papers discuss and copiously comment on the late news that the firm of Bruhm's Soeline of Gera, one of the largest textile manufacturing concerns in Germany, is now about to establish a factory and branch house in the United States. One of the firm's partners, Henry Bruhm, is now in this country, to carry out this purpose. It is confidently expected that this enterprise will be as successful as those of the firms of Stohr & Co. (worsted yarn spinners), who recently established a branch factory in Passaic, New Jersey, George Hirsh of Gera, and Arnold of Greiz, who also have factories at Passaic. The straits in which certain German industries have been placed by the partial shutting off of the American market, owing to the workings of the tariff, have necessitated this new departure.

Consul Atwell, of Roubaix, in a report to the State Department, under date of Oct. 7, 1899, makes this statement concerning Dr. Mendel's treatment of tubercular diseases: "In 1888, Bechag conceived the idea of injecting a few drops of oil of peppermint into the larynx. The liquid found its way into the tracheal duct and produced a sedative effect. After considerable experimenting by a number of eminent physicians, the following solution was decided upon essence of thyme, five grams; essence of eucalyptus, five grams; essence of cinnamon, five grams; sterilized olive oil, 100 cubic centimeters; iodiform, five grams; bromoform, five one-hundredths grams. In treating certain cases, the proportions may be doubled or even trebled. The tracheal injection should be practiced daily, and for this purpose a long curved syringe should be used."

Some men think a great deal of themselves, and yet they are thoughtless. A fellow shouldn't imagine he has the world at his feet simply because a porous plaster happens to get stuck on him.

The Damage Was \$200,000.

The North Carolina section of the climate and crop service of the Weather Bureau, which was issued yesterday, gives the following summary of the damage resulting from the recent hurricane which swept through the State:

"The wind reached a maximum velocity of 76 miles from the northeast at Kitty Hawk, but only 43 from the southeast at Wilmington. The damage in the interior consisted chiefly in the uprooting of trees, destruction of fences and frail structures, with minor injury to ungathered crops. From all accounts there appears to have been only one life lost, but the damage to property was very great, a conservative estimate placing the loss at over \$200,000.

"One steamer, the Catherine Whiting, was wrecked (loss \$28,000) and ten other vessels, mostly small schooners, were destroyed or driven ashore and badly damaged. At Fort Caswell (mouth of Cape Fear) government property was much damaged; tide reached 5 feet above high-water mark. At Southport the tide was very high; dwelling houses and stores were damaged; the quarantine station lost its wharves. Some vessels were driven ashore (loss \$12,000). Wilmington reported the highest tide since 1893, and the river came over the wharves and flooded Water and Nutt streets; the damage to property at wharves was considerable. At Wrightsville the tide was 8 feet above high-water mark; over twenty cottages and club houses were destroyed and the remainder injured (loss \$25,000). A trestle on the Wilmington Seacoast Railway was washed away (loss \$50,000). At Carolina Beach most of the cottages were destroyed (loss \$8,000). Along the Cape Fear river wharves at various plantations, fishermen's huts, and domestic animals were swept away; rice fields were flooded, and in some cases rice ready for threshing was destroyed. Morehead City, Beaufort and New Bern suffered much damage. The heaviest loss at New Bern was caused in the dock warehouses at the foot of Craven street; cellars and wharves were flooded, many tons of salt, flour, sugar and lime being destroyed, and after the storm the river was full of floating cotton, lumber, logs and fire wood (loss \$40,000).

"Minor damage at many other points would aggregate a considerable sum."—Raleigh Post, 15th.

It is said that an eccentric undertaker in California advertises that "children will receive as careful attention as grown people," and as a catch phrase he uses, "You'll be glad you're dead if I bury you," which seems a questionable compliment. This, however, is not much worse than the New York doctor who advertises, "Come to me before life is extinct." Another instance of modern advertising is the following placard which is hung outside of the entrance to a Methodist church in Northern Iowa every Sunday night during the regular services: "Souls saved while you wait—step in."—Ad Sense.

He should be familiar with the tone of every advertiser in the town where he lives, and with as many outsiders as he has time and chance to study. The most successful men in any line of work are those who know best their own special ropes.—The Wheel.

Estelle Hall, the two-year-old daughter of Dr. Hall, of Prospect Hill, is believed to be the only person in these parts who has six living grandmothers and four living grandfathers—two grandmothers, two great-grandmothers, and two great-great-grandmothers; two grandfathers and two great-grandfathers. That is something that not many children can boast of. All of her living ancestors are enjoying good health.—Roxboro Cor. Durham Sun.
