Mayor's Court.

Mayor Moye has had three cases before him during the past week as follows:

Henry Cox, drunk and disorderly conduct, guilty, fined one penny and cost, amounting to \$2.21.

James A. Sutton, drunk and disorderly conduct, guilty, fined one dollar and cost, amounting to \$2.95.

John Pryor, drunk and disorderly conduct, guilty, fined one penny and cost, amounting to \$2.21.

Stole a Rooster.

Mr. S. M. Schultz had a very large rooster in which he took much pride. But he has not got that rooster now. Saturday night somebody visited his premises and regarding quantity above quality singled out the big fowl and made way with him.

Bound Over to Court.

Justice of the Peace W. H. Long had Ernest Pierce before him this morning charged with an assault upon Wylie Dunn. F. G. James appeared for the defendant and Col. I. A. Sugg for the prosecution.

It seems that Pierce and Dunn got into a dispute Saturday evening while going from Greenville to their home, a few miles over the river, which resulted in a fight in which Dunn received five cuts with a knife. None of the cuts are likely to prove fatal. Dr. Joyner attended him that night. He was unable to be at the trial on account of weakness from loss of blood.

Pierce was bound over to September court, and placed under a one hundred dollar bond.

Meeting in Baptist Church.

Rev. J. E. Hutson, of Richmond arrived Saturday night to conduct the series of services in the Baptist church beginning Sunday. There was a large congregation at both the morning and evening service to hear him. This is the fourth time he has held a meeting here and he expressed his pleasure at being with us again. He is a plain gospel preacher and the people always hear him gladly.

MONDAY, MAY 21, 1900.

The American Grocer says the winter wheat crop of 1900 is estimated at 393,458,000 bushels, an increase over 1899, of nearly 100,000,000 bushels. Such a crop as that will be followed by a fall in the price of flour.

Pitt county Democracy did a good day's work in getting out the ticket nominated by the county convention Saturday. THE REFLECTOR raises this ticket to its masthead along with our excellent State ticket, and it will float there until we elect them on the first Thursday in August.

The county is to be congratulated upon having such a ticket. They are all good men and will lead the party to a splendid victory.

Everybody who has any gold coin hid away in old stockings, or any lying around loose, would confer a favor by dropping a line to Secretary Gage, who is particular anxious to know what has become of that \$400,000,000 in gold coin that can't be accounted for.—Wilmington Star.

Down in Georgia the negroes seem to try themselves. But the other day a brilliant young man was shot and killed by a negro in a street car. Both are now in their graves. Since then, in Atlanta, drunken negroes boarded a street car and became outrageously profane and obscene in language and cursed out gentlemen riding with his wife. The Journal says that the white men in the car ejected the offending negroes. One of the latter drew his knife and made a murderous lunge at a white man. Another threatened to shoot. After the negroes were put off they stoned the car, breaking one of the glass windows and wounding a passenger. Four were arrested. Two are now undergoing punishment, and two are in jail awaiting trial for other and even more serious offences. Rowdies should be cleared up promptly. The Journal says:

"The regulation requiring separate seats for white and colored passengers to be set apart in street cars should be strictly and impartially enforced, and all rowdism, whether from white or colored passengers, should be promptly suppressed and the offenders properly punished.

"Ladies and children must be protected on street cars as well as elsewhere."

Georgia is cursed with a great many bad negroes.—Wilmington Messenger.

The Prosperity of the South.

Col. Jas. E. Tate, a well known capitalist and manufacturer of this city and world-wide traveler; a cousin of Admiral Schley and a nephew of the late Governor and member of Congress, William Schley, of Georgia, speaking of the South, which he had recently visited, stated that no section of the United States was in a more prosperous condition or had a brighter future before it than the Southern States. This has been brought about largely by the present price of cotton and what the next crop will sell for. He says North Carolina is the most prosperous and progressive State in the South, caused mainly by the many cotton factories built there in the past ten years with home capital. South Carolina is also becoming quite prosperous and is building many new cotton factories. Alabama and Tennessee are coming to the front rapidly caused principally by their valuable products of coal and iron. He knows of no better section than the South for industrious white immigration to seek for homes and to engage in farming, merchandising, manufacturing, mining, etc., or for capitalists to seek investments. The climate is agreeable all the year round; a healthy country. Good land at from \$5 to \$10 an acre. The cotton factories of the South have been paying for years dividends of from 10 per cent. up to as high as 100 per cent. annually. He thinks that with diversified farming, manufacturing and mining, and with an industrious white immigration encouraged in settling in the South, that in 20 years from now that it would be the most prosperous and richest section of the United States.—Baltimore Herald.

The Proposed Trust Amendment.

The proposition to amend the Federal Constitution so as to enable Congress to deal more effectively with the Trusts, which has been favorably reported from the House Judiciary Committee, is so obviously a campaigning move to cover the flank of the Republican party during the coming Presidential contest that it will fail to make a serious impression upon the public mind. The task of amending the Constitution is one of the greatest practical difficulty, and requires years of effort. The tendency toward the enlargement of Federal power is viewed with alarm by the great majority of people. The fact that Congress has steadily refused to exercise the power which it already possesses to deal with the Trusts in itself furnishes a reason to doubt the propriety of further grants of power.

It is safe to say that nothing will come of the proposed amendment after it shall have done its duty as a campaign expedient. It will be quickly laid on the shelf alongside of "reciprocity," "international bimetalism" and other like toys with which scheming political adventurers have sought to throw dust in the eyes of voters.—Philadelphia Record.

In Chicago the other day a street car conductor stopped a funeral procession in order to administer a thrashing to the driver of the hearse. The driver had persistently refused to turn out of the tracks to allow the car to pass, and, upon being invited by the conductor to visit the car barn in order to take a "licking" at some future time when both parties to the dispute should be at leisure, he proposed to settle the matter at once. He climbed down from the hearse, was knocked out in the first round, and the blockade was lifted.

ORIGINAL OBSERVATIONS

Made by the Orange Va. Observer.

It's a wonder the chronic kicker doesn't get himself out of joint.

The man who is always growling is evidently on his way to the dogs.

The drouth will not hurt the crop of dead beats

Loafing is a hard business to learn—it takes all of your time.

Many people who marry for better or worse are mostly worsted.

Cloves are not strong enough to kill the "breath of suspicion."

Some of your friends throw you bouquets whose flowers have no fragrance.

Many a man is afraid of a bee sting who never feels the sting of conscience.

Every heart is a cemetery in which are buried some of our brightest hopes.

The average man is now regarded as "second class male matter" by the woman suffragists.

"Every man is the architect of his own fortune," which accounts for so many failures.

"Man wants but little here below," the statement causes mirth; it might have been in earlier times, but now he wants the earth.

Advertising Makes Business Grow.

A man who should plant vegetable or flower seeds and expect them to germinate and the plants to flourish and reach maturity without any further attention would have his trouble for his pains. A man who should start a business venture and expect it to become successful without the aid of publicity would also waste his time and cash. A business needs advertising quite as much as plants need air and sunshine and freedom from choking weeds.—Philadelphia Record.

Money Under Horse's Skin.

We notice in one of our Northern exchanges that a quarter of a dollar and a dime has been found in a horse's shoulder and that there is a great deal of discussion as to how that money got into the horse's flesh. Dr. J. B. Ashcraft says that he has cut more than one piece of silver from horses' shoulders and that the money is put under the skin by superstitious fools who believe that it is a cure for shrinkage of the muscles of the shoulder. The Yankees have gone us one better, for in the country no one has ever been known to put more than a dime under the skin of a horse's shoulder.—Monroe Enquirer.

There is nothing damages the reputation of a store more than to be forced to tell customers you are "out" of articles asked for. It indicates careless supervision of stock, an indifference to a perfect service, besides being a source of trouble and annoyance to patrons. A memorandum book should be kept upon which every clerk should be required to enter all goods that are getting low in stock.—American Grocer.

The Federal Government has just awarded a contract to the Massachusetts firm for 10,000 white marble headstones at \$1.28 each. These stones are to be used to mark the graves of United States soldiers and marines, and will be distributed upon application of Grand Army posts, or of relatives of those who lie in unmarked graves, upon application to the War Department.

A sharp New York woman made a great business deal last week by securing the title to a house worth \$7000 or \$8000 for \$1700. She owned a lot at One-hundred-and-sixtieth street and Washington avenue, Harlem, and learning that a large, handsome brick house a block away had been condemned to make way for municipal improvements, she purchased the structure for \$200. Then she contracted with a house mover to move the building to her lot for \$1500. The contractor says that he can move the house to its new site with practically no damage.

While Mrs. R. J. Cobb was horseback riding, Friday afternoon, the animal shied and she jumped off to the ground and was slightly hurt.

One of the Best.

At the meeting of the Southern Cotton Spinners' association in Charlotte, N. C., last week, it was mentioned in one of the speeches that "the crowning glory of cotton factories of the south is that they make the women of the rural districts wage-earners and self-supporting, and enable them to care for and support their aged and infirm parents in the decline of life." There are a number of good sides to the growth of the cotton industry in the South but this is certainly one of the best of them.—Baltimore News.

Putting Down Sidewalks.

The town is having the sidewalk in front of L. Hooker's bar paved with brick. As soon as this is completed they will have the sidewalk in front of the Bernard property on Evans street paved.

The property owners were notified by the Aldermen to have this work done, but upon their failure to do so the town has taken it in hand and will charge the cost of putting down the pavements to the owners of the property.

IT WILL PAY YOU TO INVESTIGATE the new policies of the Bankers. The Life, Limited Payment Life and Endowment policies contain all the up-to-date features, many of which are original.

Good Things.

Did you ever look for the "good things" in your life insurance policy? Unless it was in the Bankers Life Insurance Company of the City of New York, you probably found side issues labelled "Grace" "Incontestability," "Loans," and the like, made prominent as "good things." Of course we have these features, too, for the "Bankers" is nothing if not progressive; but—

Did you ever see a policy with which the Company keeps an Individual Account?

Or one in which all earnings are guaranteed to the policy-holder?

Or one which guaranteed both reserve and surplus if surrendered?

Or one which gives all withdrawable surplus at death, in addition to face of policy?

Or one, in fact, which treats the policy-holder with absolute equity, confiscating no portion of the net premiums, and allowing a policy-holder to control his own money at all times, as far as is consistent with a conservative system which embraces the best points of banking and insurance?

If you have never seen any of these "good things," investigate the new policies of the Bankers Life Insurance Company of the City of New York.

Who are its officers and directors? Among them are many of the best known men in New York financial circles.

The Company's record has been unequalled for economical management, safe investments, equitable dealings with its policy-holders and low cost of Insurance Protection.

Happy Pastor.

Rev J. N. Booth, pastor of the Baptist church, was full of smiles and happiness Sunday. He said it had been charged that nothing can make him good looking, but he was willing for his appearance to stand as a refutation of that charge.
