WAR IN CHINA.

The Americans Suffer Terribly.

Tien-Tsin, July 13, via Che Fu, July 15, and Shanghai, July 16 — At 2 o'clock this afternoon 2,000 of the allied troops were attempting to storm the wall of the city. The attack began at daylight. Its success is doubtful. The Chinese on the walls are estimated conservatively at 20,000. They are pouring a terrific hail of artillery, rifle and machine gun fire upon the attackers. The Americans, Japanese, British and French troops are attacking from the West and the Russians from the East. The Americans suffered terribly. As the Associated Press representative left the field, the chief surgeon of the Fifth Infantry said a conservative estimate was that 25 per cent of the Americans were hit. Colonel Liscum is reported to have been mortally wounded as he was walking in front of the troops. Major Egan and Captains Buckmilles, Wilcox and Noyes are among the wounded. The marine losses include Captain Davis, killed, and Butler, Leonard and several others wounded. Officers declared that it was hotter than Santiago.

When the correspondent left the Americans were lying in the plain between the wall and river under an enfilading fire and direct fire. It was difficult for them to advance or retire. The correspondent counted 300 wounded men of all nationalities.

No More Doubt About It.

Washington, July 16.—Without exception, today, the foreign representatives in Washington accepted as certain that the foreign legations and ministers at Peking have been wiped out. At the same time there is not a word confirmatory from any of the foreign officers and the conclusion is based on the accumulating unofficial data that the slaughter occurred about July 6 or 7. Even among the high Chinese officials hope has been about given up, but they maintain that there is no official information and that they are as much in the dark as others.

Broke Out.

Noah Hardy and George Taylor, two negroes who were tried before Mayor Moye for fighting and put to work on the streets to pay the cost, broke out of the guard house Monday night.

Both were confined in the same cell and escaped by prizing up some planks in the floor and cutting a hole with a knife. The negroes have not been seen since they broke out.

Taylor was arrested once before for disorderly conduct and ran away before he had worked out all the cost in the case, but came back a day or two before his last arrest.

If the proposed Amendment to the Constitution is unconstitutional, why is it that Butler and Pritchard are fighting it so hard? Why not leave it for the courts to decide?

How's this?—Dr. Cox says that at Mr. J. W. Garris's about a year ago a bottle of milk which they had suspended in the well to keep cool dropped to the bottom. Last week the well was cleaned out and the milk was found to be nice and sweet, but soured and turned to clabber in about one hour after being removed.

People Read "Ads."

The advertiser of today does not have to resort to wiles to lure the people into reading his announcements. While serving his own interest, he confers a favor on them by the information he has to give. They read his advertisement as they do anything which tells them something which they want to know.—Philadelphia Record.

Bright Outlook.

The speakings that the county candidates are having at night in various parts of the county are well attended, and good work is being done both for the ticket and the amendment. They have appointments two or three nights every week, and those who go out hear some good speeches.

Fine Apples.

Today Mr. C. M. Ross brought THE REFLECTOR some of the finest apples we have seen this season. His father, the late Elder Alfred Ross, whom everybody called "Uncle Alfred," used to as regularly as the summer come around bring us some of his apples that he called "June sweetenings," and it took our mind back to his visits when his son came in and said "Here are some of father's June sweetenings."

The Chinese may worship graven images, but just at present they are far from being idle.

The coal dealer usually makes enough in winter to have an ice time during the summer months.
