A woman in a Pennsylvania town the other night saved her house from being robbed by detecting a very peculiar odor in the room. Getting out of bed to investigate she stepped upon the back of a burly negro who was crawling from under it. She yelled and the scared darkey lit out grabbing a watch to time himself as he ran.—Wilmington Star.

An Important Day.

Thursday of next week, the second day of August, will be the most important to the people of the Commonwealth of any other secular day occurring in a generation.

On that day the people will vote for the adoption of an amendment to the Constitution which has been aptly described as disfranchising the ignorant and unfit negro as a voter, and enfranchising the white citizen, thus securing for all time to come peace, contentment and prosperity within the State.

On that day the good people will elect Charles B. Aycock, of Wayne, and his associates to fill the various offices of the State government for which they have been named respectively, which will insure intelligent, honest, clean administration of the State's affairs in every department.

On that day the people will choose a General Assembly to be composed of the best citizenship of State, representing ably and honestly, every class and interest, which will assure just laws, protecting the rights of every citizen and every interest with absolute impartiality and equality of justice.

On that day the people will elect, what is of the fullest importance to them, because nearer to them, the men who are to administer their county affairs for the next two years—commissioners, sheriff, register, etc.

These are all to be voted for and elected on Thursday, the 2nd day of August—tomorrow week. Let every good citizen make sure, by his vote there can be no uncertainty in the result.—Raleigh Post 25

The pecan crop of Texas promises to be the largest known in many years. Last year's crop was a small one, caused principally by the floods in the Brazos Valley, but this year the trees are loaded with nuts. The price is better than usual, owing to the fact that there is no surplus from last year, and that the demand for the nut steadily grows. St. Louis is the great market for the Texas nuts, and thence they are distributed all over the world, London, Paris and Naples taking large quantities of them. They are used almost altogether in the confectionery trade.

Unprecedented Offer.

Everybody knows that the subscription price of The Ladies Home Journal is \$1 a year, and the price of the Saturday Evening Post is \$2.50 a year, making \$3.50 for both. For a limited time you can get them both a year for just \$2, a little more than half price. If you are already a subscriber for the Journal you can have the Post for \$1. Hand your order to D. J. Whichard or J. B. Harding and it will have prompt attention. Take advantage of this offer before it is withdrawn.

As to the Amendment.

The South has not produced a Jackson, a Jefferson, or a Calhoun since reconstruction days. They could not grow in our political atmosphere at this time. They discussed issues; they appealed to a people whose judgment and intellect were not kept in subjection by the presence of a race problem. The enfranchisement of a race just emerged from slavery has made political slaves of many of their former masters. Many good people believe that the amendment will by making the State's ratio of voting population 8 whites to 1 negro render negro rule impossible in any county, remove the negro from politics, give greater liberty to our people and benefit whites and blacks alike. To charge that they are actuated only by desire for office or by undemocratic ideas is as futile as it is unjust.

The charge that the educational qualifications means an aristocracy does not seem to be better grounded. But if it be an aristocracy, then it is one that practically all white boys of ordinary intelligence and industry can enter—a fact that ought to stimulate interest in our schools and elevate our citizenship.

Nor do we believe that there is danger of the elimination of the grandfather clause, leaving in force an educational test for whites and blacks alike.—Progressive Farmer.
