JORDAN FACTORY.

Well Equipped Tobacco Plant.

The large building between the Farmers and railroad erected by Mr. R. A. Tyson to be used as a tobacco stemmery by M. P. Jordan & Co., (on the site where their former factory was burned) has been completed and operations began Monday.

The building is 90x130 feet three stories, and is finely equipped for carrying on the leaf tobacco business. The rooms are large and convenient and furnished with such modern fixtures and appliances as are suited for rapid work. The factory employs 225 hands, 170 of these being in the stemming department. The plant has the capacity of handling 25,000 pounds of tobacco per day.

Mr. Julian C. Jordan does the buying for the firm, Mr. J. H. Adams has general charge of the factory and Mr. C. S. James manages the stemmery. Everything is conducted well and moves along with the regularity of clock-work. The firm and their factory are a great help to the Greenville market.

North Carolina.

The good people of North Carolina are wont of late to do tall boasting of the development of the cotton manufacturing industry of the State, which is something worth boasting of without doubt; but they do not write and say enough about the remarkable growth of our tobacco interests.

In the past few years North Carolina has risen to be the largest tobacco manufacturing State in the South and the third largest in the United States. In the production of smoking tobacco she leads all others; in chewing tobacco, she is surpassed by only two States.

North Carolina's tobacco crop has become in the last decade to be next in size to that of Kentucky the leading State of the Union.

Tobacco has an almost brilliant record as a town builder. North Carolina is making fine industrial progress, and the weed more than anything else has contributed to the advancement of the State.—Southern Tobacco Journal.

The Advance of Time.

The age of man, we are told, is three-score years and ten. From 25 to 40, if the health be good, no material alteration is observed. From thence to 50 the change is greater. Fifty-five to 60 the alteration startles; still we are not bowed down. In the earliest periods of our life the body strengthens and keeps up the mind; in the later stages of it the reverse takes place, and the mind keeps up the body; a formidable duty this and keenly felt by both. Such is time's progress.—Scottish American.

The President has decided to place Major General Elwell S. Otis in command of the department of the lakes to succeed General Wheeler, who will retire from active service on the 10th of the month.

Dies From Poison.

Dr. S. J. Love, who lived near Long's store, in Union County, died yesterday afternoon at 3 o'clock of arsenic poisoning. His brother and sister and his mother, Mrs. Thomas Love, and five men whose names could not be ascertained last night, are suffering from the effects of the same arsenic poisoning, which was administered last Friday afternoon at 1 o'clock.

The particulars of the tragedy were telephoned to The Observer last night by Dr. A. J. Austin, of Oak Grove, Union county. He stated that last Friday Mr. and Mrs. Thomas Love, whose residence is in Stanly county—just across the river from Long's store—had their wheat threshed, and, following the usual custom, entertained at dinner all the men engaged at the threshing.

Mr. and Mrs. Love, Dr. Love, who lived with his parents, and his brother and sister, dined with the large party of threshers. The meal was the ordinary bountiful repast for such an occasion. Within 15 minutes after it had been eaten Dr. Love became violently ill suffering with intense nausea. His mother, sister and brother and five of the threshers also became sick with the same symptoms. suffering greatly the latter were not taken to their homes; and have since been pronounced out of danger.

It is evident that Dr. Love swallowed a larger quantity of poison than and of the other sufferers; and his condition was alarming from the first. His nausea was not relieved until twenty-four hours after he became sick, and by this time he was so completely exhausted that he never rallied—sinking gradually until the end. The condition of his brother and sister has improved and Dr. Austin is sure that they will be well again. Their mother, Mrs. Thos. Love, continues dangerously ill and her recovery is doubtful. Mr. Thomas Love was unaffected by the poison.

When questioned as to the method of poisoning Dr. Austin said that there were every indication that arsenic, in some form, had been put in one of the dishes served at the dinner, but when or by whom the deadly drug was placed in the food is a mystery. It was understood that the meal was prepared by several members of the family, assisted by some neighbors who were guests for the day. The symptoms of every sufferer, and especially the symptoms of Dr. Love, said Dr. Austin, tended to prove beyond question that arsenic was the poison used, but to make sure as to this point, it is expected that Dr. Love's stomach will be sent to a chemist for analysis.

The entire neighborhood, said Dr. Austin, is greatly excited over the sad occurrence and the popular impression is that some person, or persons, put the arsenic in the food with murderous intent. It is believed that the legal authorities will at once make a searching investigation in the matter.

The death of Dr. Love is much deplored. He was only 35 years of age, but he had built up a large and lucrative practice and had the respect and confidence of all who knew him.—Charlotte Observer.

The Profits of a Wheat Crop.

Messrs. M. L. Brown & Bro. have just finished threshing their crop of 1426 measured bushels. By weight this crop weighs 14844 bushels. This wheat was raised on fifty-eight acres of land, drill measure. The wheat is thoroughly clean of cockle, cheat, oats or trash of any kind. The cost was as follows: Plowing land \$90, harrow-

ing \$17.50, drilling \$26.25, value of seed at \$1.00 per bushel \$80.25, harvesting wheat \$55, hauling wheat from field \$30, hauling wheat to mill \$15, for threshing and sacking \$71.30. This foots up \$367.80. This is a cost of \$6.34 per acre. The value of 14844 bushels wheat at 75 cents per bushel is \$1,113.37. The Messrs. Browns say the straw and chaff is worth \$300 to them. Add this to value of wheat and you have \$1,413.37, less the total cost of \$367.80, leaves them the nice sum of \$1,045.57. This is a profit of \$18.03 per acre, or we might say \$1,000, allowing the \$45.57 for wear and tear of machinery and taxes. There was not a pound of fertilizers used.—Concord Tribune.

Congressional Apportionment Under the New Census.

When Congress takes up the question of reapportionment of Representatives it will be brought face to face with the problem of increasing the number of Representatives or of the ratio of representation. Already the House has 357 members and is an unwieldy body. The basis of representation is at present one member for 173,000 constituents. Should this ratio be maintained there will be added to the membership of the next House about fifty-six members, making the total membership 413. Aside from the difficulty of doing business in a body of such proportions, there will be the greatest difficulty in seating fifty-six more members in the present chamber. There is room for a handful more than now sit in the chamber, but it will be impossible to add fifty seats, with desks, without taking up all the space and leaving no room for passage behind the railing. As each member is entitled to \$5,000 a year salary, \$1,200 for a clerk, \$250 for stationery and his mileage, the addition of fifty-six members would increase the expenses of the House about \$350,000 per annum, to say nothing of the additional cost of carrying their franked matter in the mails.

On the other hand, to increase the ratio of representation to 200,000, which would leave the membership about 366, or almost the present figures, might endanger the representation of some States in the House and would certainly shift the lines of some Congress districts so as in many cases to throw two members of the present House in the same district. It has always been the custom to fix the ratio of representation so as not to reduce the representation of any State. Another serious question in connection with the House is the reducing of the representation of those Southern States which have disfranchised the negroes. The census returns will show the number of male inhabitants of a voting age, and comparison with the election returns will form the basis for an estimate of the number of voters disfranchised.—Washington Cor. Springfield Republican.

There have been sold at Raleigh since March 1st, by one railway ticket agent, 500 tickets to negroes going to other states to live, not including negroes going away to live temporarily. The majority of the negroes who have thus gone permanently, have made their home in Massachusetts.

Wm. and Laura Howard, of Baltimore, recovered damages of \$20,000 against a railroad company for damages to Mrs. Howard. They are now having an apimated mill in court to decide which shall have the money.—Wilmington Star.

Assignment at New Bern.

New Bern, N. C., Sept. 4.—R. S. Neal, contractor and mill owner, has assigned. He is well known in this section and has large contracts including the building of the bridges across Neuse and Trent rivers at New Bern and the two new warehouses here for the Atlantic & North Carolina Railroad. The assignment was made to O. H. Guion and John Dunn. His liabilities are between \$25,000 and \$30,000. The assets are a saw mill near Morehead City and timberlands. These are secured by deeds made last Monday to Geo. S. Riggs & Co., of Norfolk, Va., who have claims against Neal for \$8,000. The balance of liabilities are mainly due here to merchants, feed men and mill supply firms, varying from small sums up to \$2,000, which is the largest single amount. The reason of failure seems to be from stocking up at high prices and poor business methods.

Chin Tan Sun, who lives in California, is said to be the wealthiest Chinaman in the United States. He came to the Golden Gate in the steerage of a steamer, the penniless son of a poor farmer in the Sun Ning province of China. He started as cock, but, being very enterprising, rapidly became wealthy. at present he employs several hundred white people in his factories and canning establishments, owns city real estate and big cattle ranches, runs a Chinese lottery and several merchandise stores in San Francisco, and is in the real estate business in Hong Kong. Chin Tan Sun gives a share of the credit for his success to his white wife, to whom he is said to be devoted.

Hoge Irvine brought a party of negro stemmers from Danville, Va. to work in his stemmery. After paying their way here he was very much chagrined to find that 14 of them had skipped. He went over to Greenville in search of his stemming tourists and returned last night with eight of them, as happy as distillery hogs and in nowise ashamed of seeking to leave him in the hole. Hoge is wrathful, and says he will get the others.—Kinston Free Press.

Reflections of a Bachelor.

Nearness separates people a lot oftener than distance does:

The hardest work a man ever has is to have no woman to work for him.

When you are trying to make a woman love you the best way to tire her out is to quit.

No woman knows how to hurt the man she hates half as well as she does to hurt the man she loves.

When there is only a little bit of room on a street car seat, a man will sit on the edge and wriggle back carefully; a woman always backs in till she touches before she lets herself down.—New York Press.

A man may be said to have reached a ripe age when he begins to fall off.

It's strange that when a man is engaged in ticklish business he doesn't feel like laughing.

 Greenville, N. C.

Gentlemen:
 We wish to thank you for your order of a complete carload of our Stoves and Ranges. The "Great White Enamel Line" is evidently in favor with the Greenville people and if the demand increases, as it has in the past, we may expect to send you a train load in the near future.

A good cook is the best judge of a stove or range and we must believe that from the intelligence shown in selecting their cooking and heating apparatus, the housewives of Pitt County know that Buck's Stoves and Ranges are best for every purpose, and we believe that they cannot be fooled into buying "Cheap John" goods that have only the recommendation of cheap first cost.

Don't forget to impress upon your customers that our 5 year and 15 year guarantee is made in good faith and you may back it with your own reputation. Wishing you an abundant fall and winter trade, we remain, Yours truly,
 BUCK STOVE & RANGE CO.

Horse shoeing by a first-class white workman, at W. O. Barnhill's shop on Dickinson avenue.

Remember the ladies will sell ice cream on the Court House square Friday night. Everybody invited.

If you want to talk to the people the columns of THE REFLECTOR is the place for you to have your say. Folks read this paper.

Mr. M. O. Blount, of Bethel, who was here today, tells us that the school at Bethel opened Monday with about ninety pupils.

Leave your laundry at J. S. Tunstall's store. Best work guaranteed. FRANK SKINNER. Agt. Wilmington Steam Laundry.

You get better prices for your tobacco when you do not flood the market. Keep the buyers anxious for it and you will see the difference.

The ladies of the Episcopal church will sell ice cream on the Court House square on Friday evening from 8 to 11 o'clock. The Osceola Band will furnish music for them.

Mrs. M. D. Higgs now has her millinery store in the Harrington building next door to J. W. Bryan's drug store and opposite C. T. Munford. All the ladies are invited to call at her new place.

Watch out for the return of Mrs. M. D. Higgs from the north with her fall stock of millinery. Her new goods in her new store (next to Bryan's drug store and opposite C. T. Munford) will be an attraction worth seeing.

The extra baggage coach that has for some time been attached to the passenger train is not now on. Whether this is an indication that travel is falling off and there is consequently less baggage, we are not prepared to say.

Store Broken Into.

Wednesday night some one broke into the store of Patrick & Greene on Five Points, by removing a pane of glass from the transome over the rear door. The robbers went up on the scaffold of the hotel which is being built adjoining the store and took out the glass, putting it in a barrel. The money drawers were torn open but finding no money they were left on the counter. Nothing but a gold watch can be missed.

Mr. Patrick got Mr. W. C. Hines and went there with his blood hounds, but as there was no way of ascertaining which way the party ascended the scaffold the dogs could not track the burglar.

Cyclone Coming.

Advices by wire this afternoon say it is reported a cyclone is traveling northward from Florida, though its course is not given. It is well enough for everybody to keep on the lookout and be on the safeguard against damage.

Mr. R. E. Lee Dead.

Wednesday night at 11 o'clock, at the home of his mother, Mrs. S. D. Lee, in South Greenville, Mr. Robert E. Lee passed peacefully from earth. Mr. Lee had been an invalid for several months, and to him death was a happy relief from suffering. His home was in Wilson, but since losing his health he spent most of his time here with his mother and two brothers, Messrs. W. T. and V. J. Lee.

Deceased was an exemplary young man, a member of the Baptist church, and lived an upright life. Besides the relatives mentioned above he leaves a wife and three children.

The remains will be taken to Wilson on the train Friday for burial there.

Bargains at Bethel.

Blount & Brothers the large Bethel merchants have secured Miss Dollie C. Richmond, of Baltimore, to conduct their millinery department this season. She spent several days in Baltimore selecting the latest and best styles, and they have the finest stock of millinery ever brought to this section of the State. Blount & Brother are also offering reductions for two weeks of 20 to 30 per cent. on their splendid stock of dry goods.

Married.

Wednesday, Sept. 5th, at 5 o'clock, P. M., at the home of Mr. C. W. Exum, in South Greenville, Mr. D. G. Taylor, of Lenoir county and Miss Bettie Cherry, of Pitt county, were married, Rev. Mr. Sumrell performing the ceremony. The couple left on the evening train for Kinston.

It doesn't take a burglar to break into song.
