Jeffries and Sharkey.

New York, November, 14.—A match was made in this city today between James J. Jeffries, the champion pugilist, and Tom Sharkey. The terms in the agreement are that the winner shall take the entire purse. The battle will be decided next May before the club offering the largest purse.

If the battle takes place in Nevada it will be to a finish. Bids for the fight will remain open till January 15th. Marquis of Queensberry rules will govern the contest and five ounce gloves will be used.

Each principal deposited \$2,500 to insure his appearance in the ring.

The articles also contained the provision that should Jeffries make a match with either Bob Fitzsimmons or Gus Ruhlin the battle would be decided before the present one. The same conditions prevailed in regard to the match being made between Sharkey and Ruhlin.

Virginia College Burned.

Roanoke, Va., November 14.—The Virginia College, an institution for young ladies, situated just outside the city limits of Roanoke, was totally destroyed by fire at an early hour this morning. Soon after the "rising bell" had been rung, it was discovered that the hallways of the big building were filled with smoke. The young ladies were notified to lose no time in getting out of the building. The word quickly passed around and the young pupils, 150 in number, made their way out, many of them thinly clad and hardly any with anything more than the simplest costumes of the bedroom. There was little confusion and no great excitement. As soon as men reached the scene they cheerfully loaned their overcoats to girls in light costumes. Some of the neighbors meanwhile brought blankets and the girls who had the least clothing went into nearby houses.

The fire started in the boiler room, exactly how it is not known. It made quick work and in less than two hours the buildings were entirely destroyed. The desks from the business office and a few articles of furniture were about all that was saved.

The building was of brick and fitted with all modern conveniences. The loss is \$75,000 with about \$25,000 insurance. The building belonged to Miss Harris and Mrs. Boatwright.

The students will be kept together in Roanoke for a few days until it is decided where the school will resume.

STATE NEWS.

Happenings in North Carolina

Weldon is building a peanut factory.

Secretary of State-elect J. Bryan Grimes has appointed G. W. Norwood, of Wake county, as his private secretary.

Some of the labor union people in Alamance county who have vacated the houses belonging to the cotton mill owners, are now temporarily living in tents furnished by the National Union.

Dr. Thos. D. Ward, who died in Raleigh last week, by his will, bequeaths \$3,000 to St. Mary's Female College and \$7,000 to the University of North Carolina to aid deserving students.

P. M. Pearsall, of Goldsboro, secretary of the State Democratic executive committee, has been tendered the position of private secretary to Governor-elect C. B. Aycock and accepted the same.

Having fastened negro suffrage upon the country—a curse to the people of the South, a danger to the people of the North and an injury to the negroes themselves who were unfitted for the safe or proper exercise of the privilege thrust upon them—the more radical spirits of the Republican party now propose to punish the Southern States which have sought to protect themselves against negro domination by reducing the representation of the South in Congress in proportion to the number of disfranchised blacks. This would be equivalent to an attempt to atone for one crime by committing another. We cannot believe the wiser leaders of the Republican party can be persuaded or driven into the support of such a mistaken policy, which would involve the country in a certain revival of sectionalism.—Philadelphia Record.

In greater New York the new assessment roll of the Tax Commissioners shows an increase over last year in valuation of real estate amounting to \$236,000,000 in round numbers. The totals for real estate have passed the three billion mark, the exact aggregate being \$3,168,557,700. Assessments of personal property, on the other hand, have materially declined, the total for the five boroughs being \$185,574,493 for this year as against \$545,906,565 a twelve month ago. Public franchises granted to corporations are valued for purposes of taxation at \$219,679,351.

Stove Contest Closed.

The contest for the Junior Buck Stove offered by Higgs & Taft to the little girl who got the most coupons out of their advertisement in THE REFLECTOR, closed on the 15th. The contestants have delivered their coupons at the store, and they will be counted and the stove awarded to the winner on next Monday morning at 10 o'clock.

End of Century Club.

The End of the Century Club met Tuesday afternoon with Mrs. T. J. Jarvis. There was present a full attendance.

The discussion during the afternoon related to the adoption of a course of study for the ensuing club year. It was decided to devote the remained of the current year to a retrospect of the nineteenth century along the lines of literature, science and the achievements of woman. After January, the first, the study of the World's Famous Women will be taken up.

The name of Mrs. F. G. James being presented for membership, she was unanimously elected.

The Club then adjourned to partake of dainty refreshments served by the distinguished hostess.

The club now has its full membership of eighteen, and promises to do excellent work for the coming year. The membership of the Club is as follows: Mrs. Arthur, Mrs. Bowen, Mrs. Cotten, Mrs. J. B. Cherry, Mrs. Ficklen, Mrs. J. L. Fleming, Mrs. Grimes, Mrs. Will Harding, Mrs. Fordyce Harding, Mrs. James, Mrs. Jarvis, Mrs. Jordan, Mrs. Richard King, Mrs. Laughinghouse, Mrs. Little, Mrs. Bert Moye, Mrs. M. H. Quinerley, Mrs. Harry Skinner.

Mrs. Quinerley will entertain the Club Tuesday, November, twenty-seventh.

Stage Glints

Baden-Powell of Mafeking is an amateur actor.

Alice Neilson is to have a new opera from the French.

The temperature of the New York theater is now cooled by a liquid air device.

C. B. Lewis (M. Quad) has written his Bowser stories into a short sketch for stage use.

Sol Smith Russell has a double in the senate. His name is Turley, and he is a senator from Tennessee.

The heroine of D'Annunzio's "La Princess Georges," a role in which Duse has scored a hit, is an armless woman.

When Sarah Bernhardt and Coqueline come to America next season, they will appear in "L'Aiglon," "La Tosea," "Cyrone de Bergerac" and "Hamlet."

In New York the sale of intoxicants in any theater or in any part of the building accessible from a theater without going outside is forbidden in plain terms.

The Barnum-Bailey circus exploited itself in Hamburg by paying the street railway companies \$50,000 to stop all their cars during the five hours of a parade.

The Hope is in the Masses.

The platforms of both great parties are formulated on what will win the approbation of the people. The sovereignty of a party does not lie in its leaders but in its members and the members' decide party policy. Education along political lines is the only effective means of acquiring party success. The only hope of the Democratic party is to educate the American voters on its policies and show them that they are for the best interest of the people. It is better to "reorganize" from the voters up than from the leaders down.—Gastonia News.

FRIDAY, NOVEMBER 16, 1900.

Why not give politics a rest now and wait a good long time before beginning the next campaign. The people need a rest.

Senator Pritchard is trying to work up a scheme to prevent Hon. F. M. Simmons from taking his seat in the United States Senate. And Pritchard is going to tackle a bigger thing than he is aware of.

At the election last week McKinley carried 28 States with 292 electoral votes, and Bryan carried 12 States with 155 electoral votes, McKinley's majority in the popular vote was about 625,000.

McKinley carried this year six States that Bryan carried in 1896, and they are Kansas, Nebraska, South Dakota, Utah, Washington and Wyoming. McKinley carried this year all of the Eastern, Middle, Northwestern and Pacific coast States, except Colorado, Idaho, Montana and Nevada, which together have only 13 electoral votes. He also carried the border States of Maryland, Delaware and West Virginia.

The new House of Representatives will have 252 Republicans and 125 Democrats.—Pittsboro Record.

For the past few years the most odious epithet, in the opinion of many persons, that has been hurled at a political opponent was that "he is a gold bug." The use of such an epithet was considered sufficient to consign the victim to the lowest depth of infamy, and to brand him as an enemy to his country and to his fellowmen. And this epithet was hurled indiscriminately against all persons who dared to doubt the wisdom of the United States attempting to establish "the free and unlimited coinage of silver at the ratio of 16 to 1 independent of any other country." We predict, however, that hereafter this denunciatory epithet will not be so much used, nor will its victims be so odious as heretofore.—Pittsboro Record.

Wise And Otherwise.

The desire of knowledge, like the thirst for riches increases ever with the acquisition of it.—Sterne.

With beating heart she up and listened. Yes there was the noise again. "Henry," she whispered, "I'm sure there's some one in the dining-room. Get up and see." "No, you don't," replied Henry, sleepily; "you want to sneak over into my place, where it's warm."

One of the best effects of thorough intellectual training is a knowledge of our own capacities.—A Bain.

Bureau of Labor And Printing.

The first chapter of the report of Hon. B. R. Lacy as Commissioner of Labor and Printing, has been compiled and will go into the hands of the State printer today preparatory to presentation to the General Assembly.

The following extract from this chapter of the report will be of interest:

"The following average tables are compiled from 369 blanks filed out by representative farmers from every county in the State. The farmers always respond promptly.

"The returns were received during the period from June 15th to October 1st, which explains difference in selling price of cotton and other products shown in table 2.

Table No 1 shows an increase of 12 per cent, in the value of land in 39 counties, 17 per cent, decrease in three counties and 55 counties report no change. Eighty-four counties report fertility of land maintained and 13 smaller farms, 11 larger, and 12 no change.

"Table No. 2 shows mode of living in 89 counties improved. Seventy counties report cost of living increased: Eighty-seven counties report negro labor unreliable, seven reliable and 3 report no negro labor. Sixty counties report employment regular.

"Table No. 3 shows highest wages paid men \$13.23, lowest \$8.01, Highest wages paid women \$8.01, lowest \$5.20. Wages of children \$4.62. Forty-seven counties report no change.

"Table No. 4 shows 64 counties produce cotton at a cost of \$26.19 per 500-pound bale; 84 counties produce wheat at 61 cents per bushel; 97 counties produce corn at a cost of 41 cents per bushel; 92 counties produce oats at a cost of 28 cents per bushel; 49 counties produce tobacco at a cost of \$5.50 per 100.

"Table No. 5 shows market price of cotton 9 1/2 cents per pound, wheat 85 cents per bushel, corn 66 cents per bushel, oats 42 cents per bushel, tobacco \$7.92 per 100.

"Table No. 6 shows educational conditions good in seven counties, fair in 35, poor in 52, and bad in three. Moral condition good in 29, fair in 58, poor in 9 and bad in one. Financial condition good in 6, fair in 41, poor in 42, and bad in 8.

"The question: "Do you favor a compulsory school law?" was answered by 268 'Yes,' by 81 'No,' and 20 did not answer."

President McKinley at yesterday's Cabinet meeting expressed the hope that every one his present official advisors would remain with him during the next four years, inasmuch as he regarded the result of the recent elections as an indorsement not only of his ideas and policies, but also of those of the administration of every department of the Government. The discernment of the American public must have been very keen, indeed, to have discovered the ideas and policies of an Executive whose views of his "plain duty" on one day have so frequently been changed to the opposite on the morrow! There is no warrant for the interpretation given by President McKinley to the verdict of the American people. Because the conscientious citizens who hold the balance of power voted for him as the only effective way of condemning the principles and vagaries represented by Mr. Bryan, it does not follow that the elections involved a vote of confidence in the "ideas and policies" (whatever may be) of Mr. Bryan's opponent.—Philadelphia Record.

The Stockton Ashore.

Washington, Nov. 14.—The Navy Department has received a dispatch from Annapolis saying that the torpedo boat Stockton has gone ashore on Horn Point Shoals. She struck at 9 o'clock Tuesday night. There is small chance getting her off until the wind changes. The Stockton is one of the new torpedo boats and was about to have her trial trip, the board of inspection being on her.

Is He Alive or Dead?

Fayetteville, N. C., Nov. 14.—The young man Tart who caused the wreck on the Atlantic Coast Line near Hope Mills, has not yet been captured. Geo. Lovett, held as a State witness, is the man to whom Tart confessed the deed.

According to Lovett, Tart said he placed the spike upon the track to see the wheels cut it in two—he had no idea that such fearful results would follow. Horrow stricken at the consequences of his deed he then fled from the spot. Lovett says Tart told him he meant to kill himself. This caused the dragging and dynamiting of the pond near the scene of the deed, it being thought that Tart might have drowned himself therein. But no body was found in the pond.

Tart was reared in Harnett about four miles from Dunn. He went to Hope Mills where he found work about two weeks before the disaster which according to his alleged confession, was the result of his criminal folly.

If we could get a consensus of honest opinions from foreigners we should no doubt be told that our dominant national trait is—bad manners. We probably never shall live down the effect produced by the swaggering, rich "trippers" and shrieking girls who first represented us in Europe. They still are believed to be the true American types. "The American vulgarizes all that he touches" has everywhere passed into an adage.—"An American Mother," in the November Ladies' Home Journal.

A Smile in Each.

Lots of farmers can raise about everything except money.

It isn't always safe to bank on what a bank teller tells you.

A close friend—the stingy Quaker.

A receiving teller—the gossiping woman.

The low-cut ball dress is open to criticism.

It's funny that the gilded youth never shines.

Even the sober railroad conductor can't get along without his punch.

Some men are like cheap posters; a little money causes them to be stuck up.

It's the worldly people who want the earth.

Conceited men and cigars are always puffed up.

Poor coffee shouldn't furnish grounds for divorce.

Some policemen never collar a prisoner without a few cuffs.

No, Maude, dear, shipowners are not always on the lookout for bargain sails.

In the game of life lots of girls would rather win a diamond than a heart.

Fortune's smiles, like those of a woman, are fickle.

A man may be a cross-country rider and still be amiable about it.

Strange as it may seem, it is the very fresh child that is usually spoiled.

Lots of women have more trouble with their servants than with their consciences.

Getting Careless.

Telephone Central requests us to say to all subscribers to the Exchange that they can greatly help to facilitate the business if they will answer more promptly when their bell ring. It seems that some people who have 'phones have become careless about answering rings, thus making it very hard on Central, as the operator there is usually blamed when a person fails to answer promptly. Give this a little thought and everything will go better.

Takes the Business.

E. E. Griffin has bought the J. G. Rawls jewelry business in the Rialto building. Mr. Griffin has had charge of the business ever since Mr. Rawls established it here and has built up a nice trade. He is a practical jeweler, thoroughly understanding the work. His store is being fitted up handsomely and will be an attractive place. His stock will be very much enlarged. We wish him abundant success.

We have taken great care in growing the most improved bright tobacco seed—the White Stem Orinoco, the Broad Leaf Orinoco are the most reliable tobacco ever grown in any section. Every man in the east, who cultivated this kind will average from 2 to 5 per cent more than any other kind. Mr. Sam Mumford, at Ayden, says that his Orinoco will bring fifty dollars more per acre than any other kind grown on same land. Martin county people are growing Orinoco and coining money. You will find these seed for sale at Dr. Wooten's and Dr. Bryan's Drug stores and at some store in each section of the county at 25 cents per package.

Our large business for three weeks convinces us that the secret of success lies in the VOLUME of business. We rather sell \$100 and make \$10 than to sell \$50 and make \$10.

We offer the public our entire stock of goods at one-half the profit we have been asking. We are showing a strong line of Ladies' Jackets at two-thirds of what other merchants get for them.
