Greenville's Thanksgiving.

Greenville, as usual, observed Thanksgiving Day with almost an entire suspension of business. The day was pleasant and seemed to be enjoyed by all. Not a few folks went hunting, and others spent the day among friends or as best suited themselves.

At 11 o'clock Rev. J. N. Booth held services in the Baptist church, the subject of his sermon being "The Source of Our Blessings." At the close of the sermon a collection was taken for the Thomasville Orphanage amounting to \$16.66.

At night services were held in the Methodist church at which interesting talks were made by Mr. J. L. Fleming and Rev. N. M. Watson. The former spoke on the closing and new century, and the latter spoke of our country as being the greatest and best in the world. A most delightful part of the programme was a solo by Mrs. W. H. Grimes. A collection was taken for the Twentieth Century Fund amounting to \$29.25.

State Reform School.

The letter below is in reply to a series of questions sent by Mrs. C. E. Craven to the Supt. of the Industrial Reform School at Lansing, Mich.

This school has been in operation forty-five years, and the letter below deserves our careful perusal.

Lansing, Mich., Aug. 1, 1900.
 Mrs. C. E. Craven,
 Corres. Sec. N. C. W. C. T. U,
 Concord, North Carolina.

DEAR MADAM:—

In answer to yours of July 28th I would rather say that it is impossible to give very much information in detail regarding an Institution of this kind in one letter. However, I will try to answer your questions. I will first give you a little history of this Institution. It was established in 1855. We have about 650 boys at present. We have about 500 out on leave of absence all over the State. Our boys are received between the ages of 10 and 16 to remain until 17 unless sooner released. We keep them two years, when if they have fair homes, we send them home on leave of absence conditioned on their good behavior until the expiration of their term of commitment. The Board is the releasing power having authority to release, by leave of absence or discharge any inmate at any time. Our boys are taught trades as follows.—Carpentering, shoemaking, baking, tailoring, printing, engineering painting and farming. We have 260 acres of land. We ought to have an acre of land to a boy. We have at present \$60,000 a year appropriated by the Legislature for running expenses. It costs about \$112 per year per capita. With a smaller Institution the cost would be a little more capita. We have 50 employers, and 12 school rooms. Our boys are in school 4 1/2 hours each day and 4 1/2 alternation. Our Institution is partially on the engated system but largely on the family system. Nearly all our boys live in cottages 50 in a family. These families are presided over by a gentleman and his wife, his wife being the teacher and the gentleman having charge of some other department. We work all the way from 10 to 200 boys on the farm through the summer, raising all the vegetables used in the Institution. We use 5 barrels of flour every day for baking and bake every morning. It takes 12 bushel of potatoes for a meal. We do not manufacture any thing in the Institution that brings in any revenue. We do not believe in it. All our time and attention is given to training the boys in such a way as to benefit them in after life. We plan on having our boys self-supporting when they leave

the school, or nearly so according to their ability. The boys who are out on leave of absence are doing well. I do not just know what percentage of our boys become self-supporting citizens but it is estimated that about 90 percent, of them do well. It is the opinion of the people of Michigan that this Institution is most assuredly a paying institution, as one of our governors remarked several years ago that if it cost a per capita of \$5,000 and the Institution only saved one boy, if that happened to be his boy, he should think it paid. This institution was built formerly for a House of Correction but the bolts, bars and walls have all been removed and it is now a very fine Institution conducted on the open system. I have been connected with the school for 27 years. Have been superintendent 7 years to-day and the boys are having a special holiday on account of its being my 7th anniversary. Nearly all of our boys are quite low in their grades when coming to the school. I would say in regard to the limit of age that 18 years, in my opinion is preferable to 17 and I presume our law will be changed in that respect. We average something over 300 commitments a year. We raise from 7,000 to 8,000 dollars worth of produce on our farm each year. I will send you under separate cover one of our last reports which is nearly two years old, and one of the papers which we publish in our printing office. Hoping this will be satisfactory to you, I remain,

Very respectfully,
 J. E. ST. JOHN, SUPT.

Means To Crush It.

Greensboro, N. C.—It is said that the American Tobacco company has declared war on another independent manufacturing concern—the Wells Whitehead Cigarette company, of Wilson. The method of warfare is the same usually waged by this corporation against independent concerns. The dealer who handles Carolina Brights, manufactured by the Wells-White head company, is to have the American Tobacco company's goods offered him at a reduced price, while the consumer is to be given a 20 per cent. rebate on the trust's cigarettes. Circulars have been distributed in Greensboro by agents of the American Tobacco company offering to give free a box of either Duke of Durham, Cross Cut or Columbia cigarettes for the fronts of five boxes of either of these brands. The circulars wind up with this caution: "Don't throw your empty cigarette boxes away, as they have a value of one cent each."

Several agents of the American Tobacco company are now in North Carolina interviewing the jobbers and dealers and holding out inducements to them to handle the trust goods exclusively. The trust has decided to take this course to crush competition on account of the popular favor attained by the independent concern's cigarettes.

Good Manners At Home.

Practical jokes are rarely indulged in by persons of nice perceptions, and teasing passes the bounds of good taste when it ceases to be a matter of pure fun on all sides. Inquisitiveness is always bad form. "Whom is your letter from?" "What makes your eyes so red?" are interferences with one's rightful privacy. A closed door should be respected and give assurance of seclusion.

One who is disloyal as to repeat to any outsider, however intimate, anything to the discredit of the family deserves to forfeit all family rights and privileges.

There are no terms strong enough to condemn the vanity of parents who will allow a daughter's charms, prospects and advantages to be advertised in the public prints.

Society requires that whatever their private relations husband and wife face the world as a unit, harmonious and with interests identical.

One thing good form imperatively demands that by no mischance, no loss of self-control, shall family discords be revealed to strangers, children or servants.

An uncontrolled voice is always unmannerly and undignified.

A readiness to give up in little things is the most tactful appeal possible for a return of courtesy at other times when the matter may be of importance to us.

Personalities that are made to do duty as family jokes are never funny to strangers.—Mrs. Burton Kingsland in the December Ladies' Home Journal.

Every man in the east, who cultivated this kind will average from 2 to 5 per cent more than any other kind. Mr. Sam Mumford, at Ayden, says that his Orinoco will bring fifty dollars more per acre than any other kind grown on same land. Martin county people are growing Orinoco and coining money. Engineer and Advertiser.

A wise engineer doesn't expect his engine to pull more than a given capacity. A wise driver limits the amount of the load he puts on his wagon. A wise merchant knows advertising will do its full share of the work in making business, but beyond that limit the advertising is powerless. Don't overload the advertisement, or expect it to do too much.—Advertising world.

Boy Shot.

Two colored boys living on Mr. B. F. Patrick's place, just south of town, were fooling with a pistol Thanksgiving Day. The thing "went off," as usual, and one boy received a ball in the right brow that penetrated back into the brain. The boy was brought to Dr. Laughinghouse and the ball probed for, but it had gone too deep to be found. The boy walked back home after the wound was dressed.

White Man Arrested

On Thursday a white man named Charles Edwards was arrested under suspicion of being the party who robbed the store of Dixon & Hooks at Winterville. We hear that some of the stolen goods were found in his possession and identified, and that afterwards he made a confession of the robbery. He was kept in jail here last night and was taken to Winterville today for preliminary trial.

Almost a Fire.

Wednesday afternoon fire was discovered in the lint cotton near the press in the Greene & Hooker ginnery on Fifth street. It is thought a match was in the seed cotton and as it went through the gin it was ignited, the draught through the conveyor taking the fire on with the lint to the press. Fortunately the plant is well equipped for protection against fire and in a few minutes it was put out, the only damage being to some of the cotton.
