Deranged From Fear of Smallpox.

Register of Deeds Lindsay received a message this afternoon from Kernersville requesting him to telephone to Dr. W. P. Dicks at Walkerton to come to Kernersville to see his sister, Mrs. Mattie Kerner who had become deranged.

Mrs. Kerner has for the past several days been attending her nephew, Charlie Kerner, who has the smallpox. It seems that as she is a frail woman, the strain was too much for her and she broke down and could not restrain her feelings.

Mrs. Kerner is a very estimable woman and all will extend sympathy in this sad experience.—Winston Journal.

Think Of It.

It is only six weeks to spring. Think of that and throw all your tears of a long blizzard winter to the March winds; get out your last season's straw hat and linen duster; laugh at the wood sellers who want fancy prices for small loads of combustible material, and prepare for a long, hot summer.—Weldon News.

A woman loves to be liked; a man likes to be loved.

STATE NEWS.

Happenings in North Carolina.

A severe outbreak of smallpox is reported in Yancey county.

S. B. Walters, of New Bern, while out hunting ducks fell dead in his boat.

Gov. Aycock has re-appointed B. S. Royster to be Adjutant General of the State Guard.

Hon. Dan Hugh McLean, of Harnett, will probably succeed Judge S. B. Adams as secretary and treasurer of the North Carolina Railroad.

Two boat loads of fish, mostly trout, were brought to this market yesterday and sold for \$225 just as they arrived in city boats.—New Bern Journal.

The Addington dry kilns at Wharton station, on the Washington branch of the Coast Line, were burned Wednesday evening. The loss is \$10,000 to \$15,000.

The first pardon issued by Gov. Aycock was to Oscar Smith, of Stokes county, who was serving a two years sentence on the roads for assault with deadly weapon.

A few days ago a colored woman about 25 years of age living a few miles from town, went on a visit to her sister, Rev. W. M. Smith's wife, and carried with her two children, the youngest about 2 years old. After spending a day with her sister, she slipped away and left the children, and at last accounts nothing had been heard from her.—Durham Banner.

A Novel Courtship.

A certain young man in town, who for some time has been trying to ask a certain young lady the all important question, but who always found that the words stuck in his throat whenever he attempted to acquaint the fair object of his best affections as to the peculiar sensations at his heart called love, hit upon a novel idea and asked her how she would like to see their name in print with a hyphen between them. The wedding cards will soon be issued.—Weldon News.

Joseph Cotten last evening gave a german to Misses McCabe, of Baltimore, and Miss Skinner, of Greenville, and also to the members of the Wah-Ree club.—Tarboro Southerner.

BILLS READY.

Will Be Sent To General Assembly.

The Board of Aldermen met at the office of Jarvis & Blow, Thursday night, to hear read the bills prepared to be submitted to the General Assembly asking that Greenville be allowed to vote on the proposition of issuing \$75,000 of 5 per cent 30-year bonds for public improvements and graded schools.

There are two bills, one providing for the issuing of the bonds and the other for the graded schools. Elections on both are asked to be held on the first Monday in April, the voting to be in two boxes, one for bonds, the other for schools. In the event that both measures are carried at the election, \$5,000 of the funds derived from the bonds will be devoted to erecting and equipping buildings for the graded school, and \$70,000 to establishing water works, electric lights, street sewerage and drainage and market house facilities. If the schools should be defeated and the bonds carried, the whole \$75,000 will be devoted to the improvements.

After hearing the bills read the Board approved them and instructed that they be forwarded to our Senators and Representatives with the request that they be introduced in the General Assembly as early as possible. THE REFLECTOR will publish the full text of the bills after they have been passed by the General Assembly.

We believe that every voter interested in the progress of Greenville should be in favor of both measures and vote for them.

Father Time's Own Clock.

"The transmitting clock at the Naval Observatory, at Washington, is the absolute monarch of American time-keepers," writes Evander McIver Sweet in the February Ladies' Home Journal. "Every day in the year except Sunday, by one pendulum-stroke it speaks directly and instantaneously to every city and considerable town between the peaks of the Rockies and the pines of Maine, saying to them that on the seventy-fifth meridian it is now high noon to the fraction of a second. A duplicate mechanism, stationed at the Branch Naval Observatory on Mare Island, performs a similar service for the people of the Pacific slope. And by this one clock at the National capital (together with its duplicate on the Pacific), is set nearly every timepiece in the United States and Cuba, most of those in Mexico and many on the border of Canada. A number of clocks—from three to three thousand—in nearly every city and large town are wired together into a local family, and, by means of a switch-key at the telegraph office, are put into direct contact with the parent clock at the National capital. So that the instant the electric touch is given from Washington every clock in the circuit—whether it be at Boston, Minneapolis or New Orleans—begins a new day in perfect accord with its mechanical deity."

A woman never sees a new freckle in the looking-glass that she doesn't wonder why it is that the Lord lets there be so much in justice in the world.

Now somebody claims that pepper, as well as salt, is a great curative agent. Mustard has always been considered so. By and by all that is necessary in case of disease, will be to have recourse to the cruet stand.—Durham Sun.

Money in Cotton Seed.

The farmers of Mecklenburg county are making a good deal of money out of the sale of cotton seed and are coming to a full realization of the marketable value of an article that only a few years ago was considered as only so much waste material. The seed from a bale of cotton is now worth \$8.50. Placing the cotton crop on a basis of 10,000,000 bales, any good mathematician, who has a pencil and a long slip of paper can figure out the profit that will come to the planters by the sale of cotton seed alone.—Charlotte Observer.

There are some women who are fools enough to try to kiss a man when he has got the toothache.

MUNFORD'S BIG NEW STORE.

Well may the good people of Greenville and surrounding country be thankful and proud of their Big Store and the wonderful bargains that come from that great institution. For the third time this season has the buyer been north, picking and scouring the New York, Boston and Philadelphia markets and quickly snapped up all the "Juley Plums." This was securing a leading manufacturer's fall shipment of fine clothing for men and boys intended for a clothier in Galveston, Tex., but which was countermanded on account of the flood. The result is, we can offer mens and boys highest grade clothing at just one-half the old time clothier's price. They will be ready and placed on the tables

We leave it to you if there is not a snap, vim or go, about this business not perceptible in any other business in Greenville. It is no secret. Or will you trade with a live, hustling, progressive concern that is working like a Trojan and making your dollar buy two dollars worth. We have doubled the business since we are in our new building already, and now want to triple it.
