#### Proof That It Pays.

It has been estimated that not less than two hundred million dollars is expended every year in the United States for advertising, chiefly in the newspapers. It is also estimated that a hundred years ago not as much as one hundred thousand dollars a year was paid for advertising. Then, and for many years later, merchants and others advertised mainly to help support the local newspapers, and not to promote business. Now nobody advertises in a spirit of charity, but purely as a business proposition. Every advertiser fully expects to get profitable returns from his advertising investment. That the business men of this country expend millions annually for newspaper space is the best kind of proof that newspaper advertising does pay.—Philadelphia Record.

#### Revenue Law.

From the revision of the revenue law that recently passed Congress we take the following that will be of interest to REFLECTOR readers:

Cigars weighing more than 3 pounds per 1,000, reduced from \$3.60 to \$3 per 1,000. Less than 3 pounds per 1,000 reduced from \$1 per pound to 18 cents per 1,000.

Tobacco and snuff, 12 cents per pound, 20 per cent reduction.

Bank checks, 2 cents, repealed. Promissory notes, 2 cents for each \$100, repealed.

Money orders, 2 cents, repealed. Bills of lading for export, 10 cents, repealed.

Express receipts, 1 cent, repealed. Telephone messages, 1 cent, repealed.

Conveyances, 50 cents for each \$500, exempted below \$2,500, above that amount 25 cents for each \$500.

Telegraph messages, 1 cent, repealed.

Lease, 25 cents to \$1, repealed. Mortgage or conveyance in trust, 25 cents for each \$1,500, repealed.

Power of attorney to vote, 10 cents, repealed.

Power of attorney to sell, 25 cents, repealed.

Protest, 25 cents, repealed.

There were changes on many other items where the stamp tax was in force.

#### OUR RALEIGH LETTER

Latest Legislative and other News and Gossip From the State Capitol.

Special Correspondent of Reflector.

Raleigh, March, 4.—One week from today the great impeachment trial of Supreme Court Justices Furches and Douglas will begin. It will consume at least two weeks, and probably more, for the speeches of the great lawyers in the case, on both sides, will occupy several days.

Ex-Gov. Jarvis, Frank I. Osborne, Fabius H. Busbee, B. F. Long, W. D. Bynum, Chas. M. Cook and Lindsay Patterson compose the counsel for the defense. There has been some disarrangement of counsel for the prosecution within the past few days, by the declination of ex-Judge J. H. Merrimon and ex-Attorney General T. F. Davidson, both of Asheville, who announce that they cannot serve in the case. Messrs. J. H. Pou and Chas. M. Busbee, of Raleigh, and W. A. Guthrie, of Durham, are definitely engaged, and it is stated that Hon. C. B. Watson has been asked to assist in the prosecution. At least two other lawyers will be announced later. It is not certain that Mr. Watson will be of counsel, it is added. It is said that Judge Furches himself will give testimony.

Your correspondent will be present, in a reportorial capacity, throughout the trial and will keep you informed of its progress and result. Already there is considerable speculation as to the verdict of the jury of 50 Senators. It requires two thirds, or 34, to convict. There are nine Republican, two Populist and thirty-nine Democratic Senators. Seventeen of these can prevent conviction. If six Democrats vote for acquittal, there can not be a verdict of guilty. Whether any Democrat so votes will depend upon the evidence adduced at the trial. No man can accurately predict the result at this time.

THE TEN CONGRESS DISTRICTS. Not until the close of the past week did the Democratic caucus decide to redistrict the State for the election of Congressmen—and then "by the skin of its teeth", the proposition carrying by only a small majority.

The bill decided on gives the Republicans one district certain, and with three others doubtful to say the least. I am told by a half-dozen Democratic members of the Legislature that three districts will be pretty apt to elect Republican congressmen next year—"if the opposition can find and will nominate able men."

Everybody agrees that the basis figured on (the vote lost November) was more favorable to the Democrats than the party has a right to expect in another year. And yet, even with these figures, the tenth district is Republican by over one thousand, while the eighth's figured out Democratic majority is only 800, the ninth's being 1,300 and the fifth's, 2,000. A prominent fifth district Democrat said to me today that "we will have a hard pull to carry the new 5th district." A Mecklenburg Democrat of wide knowledge and acquaintance said: "We are Republican district, normally, without doubt," meaning the ninth in which Mecklenburg now is.

Here is the population of each new district, together with the estimated Democratic majority in each (except the tenth, which is Republican) according to the Nov. 1900, vote: First district, population, 173,165; Democratic majority 4,688; Second, 172,496, 9,571; Third, 157,704, 3,464; Fourth, 178,061, 4,980; Fifth, 248,928, 2,025; Sixth, 193,001, 4,407; Seventh, 193,098, 2,407; Eighth, 217,504, 800; Ninth, 210,908, 1,212; Tenth, 178,999, 1,047, Republican.

DEFEAT OF WHITE SCHOOLS TAXATION PLANS. A bill was introduced in the Senate last Wednesday to amend the Constitution, Art. IX, Sec. 2, by adding this provision: "But nothing contained herein shall prohibit the people of any race, living in any county, city, town, township or territory, from levying a special tax for educational purposes of that race, if a majority of the qualified voters of that race shall at any election duly held for that purpose, decide to levy said tax, which tax shall be levied upon the property and polls of that race alone."

It the bill passes, the proposed amendment will have to be voted on at the next general election. But a similar bill in the House, which has been sleeping in the committee on Constitutional Amendments for six weeks, was virtually killed a day or two ago by being recommitted, this time to the Judiciary committee. The first committee reported it "without prejudice" which is the polite way of stabbing a bill under the fifth rib.

Some of the "great constitutional lawyers" of the House claimed the bill was in conflict with the Federal Constitution, while others filled equally as full of Blackstone declared it was not. Many of the legislators declared they would "find a way to educate the white children of their counties without being compelled to tax themselves proportionately to educate every little nigger in their communities." But how! That is the question. Attempts at legislature seem to have been a failure.

MONDAY, MARCH 4, 1901.

The 60-days of the session for which legislators are allowed pay-ends next Saturday, but it is not possible that the House will adjourn sine die on that day.

The Senate on Saturday passed a very drastic bill against gambling, in saloons especially. A fine of \$500 or six months imprisonment is provided, and a bar-keeper once convicted of allowing gambling in his place shall never be licensed to sell liquor anywhere in North Carolina again.

Distillery Versus Schools.

The House Committee on Counties, Cities and Towns took refuge in a pretty flimsy sort of technicality yesterday afternoon to prevent incorporation of a school house in Anson county near which a distiller named Henry Hightower has bought land with the intention of putting up a corn juicery.

There are 45 voters in the district asked to be incorporated; all but five of these petition the General Assembly to pass the bill. Every land-owner in the district, except Hightower, signs the petition. A number of young men not quite old enough to vote also sign it.

In the district asked to be incorporated there is neither a still nor a bar-room, but recently Hightower has bought a small tract a quarter of a mile from the school house and announces his intention of setting up his juicery on it. The school house is not only used for school purposes, but divine service is held in it—preaching once a month and Sunday School every Sunday.

Both Hightower and the petitioners were represented before the committee by attorney. Hightower did not deny the facts above set forth by the other side, but he pleaded the statute providing that thirty days notice shall be given that such legislation will be asked. His attorney said no formal publication of such notice was ever made.

The attorney for the other side said that such notice was never published in a newspaper or stuck up on a hand-bill, but that on February 1st, Hightower, the man who was fighting the bill, was notified that the Legislature would be asked to incorporate the school house.

The committee seemed to think this sufficient notice and on that ground reported the bill unfavorably.—Raleigh News & Observer.

UNCLE SAM'S DISPLAY.

Government Exhibit at the Pan-American Exposition.

The United States government has appropriated \$500,000 for an exhibit at the Pan-American Exposition at Buffalo next summer. To view the magnificent buildings and their multitude of treasures alone would be well worth going a long distance. They are much more beautiful than those of the government group at the Columbian Exposition, while the space for exhibition purposes is but little less than was occupied there.

QUADRIGA FOR UNITED STATES GOVERNMENT BUILDING.

The display to be made by the department of agriculture will be of great value and interest to those concerned in the agricultural, horticultural and live stock industries, comprehending as it will all their varied features. The workings of the different bureaus of the department of state will be illustrated by means of blanks, sample letters, circular letters, etc., and much can be learned by the people of the manner of intercourse between the United States and other nations.

Collectors will be especially interested in the government's very complete collection of coins of all nations, a complete set of medals struck by the mint at Philadelphia and a complete series of currency issued by the government. Included in this exhibit will be a model of a lighthouse, fully equipped and in operation; a model of a quarantine station, models of marine hospital operating rooms and a model of a vessel constructed for deep sea sounding.

The exhibits of the war and navy departments will be the largest and most complete ever made at any exposition.

EXPOSITION SCULPTURE.

Pan-American Has the Best Ever Seen at a Show.

In its sculptural adornment, as well as in several other respects, the Pan-American Exposition will far surpass any enterprise of the kind ever held. There are over 125 splendid original groups, and they are to be used around the Court of Fountains, the Esplanade and the Electric Tower. They will symbolize the purposes of the buildings and exhibits and bring out the poetry in what to many may seem exceedingly prosaic things.

After crossing the Triumphal Bridge, which is the grand formal entrance to the main court and is itself to be decorated with splendid statuary, one will see to the right and left, at opposite ends of the Esplanade, the fountains and the sunken gardens in front of the United States Government and Horticulture Buildings respectively.

The Fountain of Man, by Charles Grafly, is the central fountain at the east of the Esplanade, and it is flanked by the Fountain of Prometheus and the Fountain of Hercules. The subjects of other fountains in this group will be the Savage Age, the Despotism Age and the Age of Enlightenment. At the other end of the Esplanade the Fountain of Nature, by George T. Brewster, is the most elaborate sculptural adornment, and the idea of this fountain is amplified in minor ones, such as the Fountain of Kronos, Fountain of Ceres and the groups typifying Mineral Wealth, Animal Wealth, etc. These symbolic ideas will be worked out in beautiful forms in other parts of the main court and in connection with the Electric Tower and other buildings, the whole forming a most complete and harmonious expression of the purposes of a great Exposition, such as the Pan-American.

Old Mutual Benefit.

Senator Pritchard, in his political speech in the Senate Friday, said about North Carolina several things that he ought not to have said, among others this: "The present Legislature has shown a disposition to so legislate as to dishearten rather than to encourage the many industrial enterprises that are being developed throughout our section and without which there is no hope for us in the future." It is true that a good many of the newspapers, and public men of the State have said as much as this, perhaps more, in discussing the pending revenue bill and other subjects before the Legislature, but there is a difference between this and uttering these things in the Senate of the United States, giving to them the weight which is supposed to attach to the words of a Senator. Granting that the Legislature is doing all that Senator Pritchard says it is toward crippling the material progress of the State, is it doing it more harm than he is when he exploits the supposed fact from his place in the Senate?—Charlotte Observer.

**Run Over by a Hand Car.**

On Sunday morning several persons in the neighborhood of the junction of the Beaufort County Lumber Co. railroad, got a hand car and started to go down to Vanceboro on it. A 10-year-old son of Mr. C. A. Tucker was in the party. At a point where the car was going down grade young Tucker fell off on the track and the wheels run across his chest, injuring him severely. The boy is reported in a critical condition today.

A policeman died in Chicago a few days ago who served on the force for twenty-seven years and in all that time made but one arrest. His record as a policeman was as good as it was unique in respect to arrest. His theory was that it was his duty to prevent trouble instead of waiting for trouble to come and then jumping on some one. He carried his theory out, and at the same time set a sensible example for other guardians of the peace.—Wilmington Star.
