Happenings in North Carolina

A High Point man has invented a talking clock. When it strikes it also calls out what the hour is.

Several buildings on Carolina Beach, a popular summer resort below Wilmington, were destroyed by fire Wednesday.

Col. Thos. C. McIlhenny was found dead in his room in the Bonitz hotel at Wilmington Wednesday morning. When discovered it was thought he had been dead twelve hours.

Benj. May, of Kinston, formerly of Pitt county, has sent his cotton gin, that is more than 100 years old, to the State museum at Raleigh. It was the first gin ever used in Pitt county, and belonged to Mr. May's ancestors several generations back.

The Shelby Star says that Mr. Geo. McSwain a good citizen of Cleveland county, 80 years old, has never tasted beef or mutton. During the 60 years he has been keeping house there has never been a peice of beef or mutton on his table. He just never did fancy such things, but eats any other kind of meat.

Hon. John H. Small has again been awake to the interest of his constituents of this district. As a result of his efforts, the U. S. Commissioner of Fish and Fisheries has directed Supt. Worth of the Edenton Fish Culture Station to make plants of shad in Pamlico and Tar rivers, and also in the Pasquotank, Perquimans, Roanoke Scuppernon and Chowan rivers, and also in Albemarle sound. The stocking of these streams in this district should eventually increase the supply of shad in our waters to the benefit of our fishermen and our people. When our waters were stocked by the State some years ago there was a very perceptible increase in the supply of shad after a few years.—Washington Progress.

Even a cheap sport may be rather expensive to his friends.

BETHEL ITEMS

BETHEL, N. C., April, 17 1901.

B. W. Moseley has been spending several days here on business. Miss Bessie Harding spent Friday night with Miss Perlie Edmondson.

O. B. Hawkins, of Everetts, spent Saturday and Sunday in this place.

Miss Daisy Bailey, Riley Bullock and T. W. Whitehurst attended the marriage of Mr. Robt. Whitehurst at Grindool Wednesday morning.

Miss Perlie Edmondson is at present on the sick roll call. We wish her a rapid recovery.

Look out for the fruit agents. They are gathering like caterpillars in apple trees. We think we need less fruit agents and more caterpillar destroyers.

Misses Effie and Mattie Grimes spent Wednesday in Tarboro.

Miss Geneva Gardner, of Greenville, is visiting relatives here.

Rev. J. W. Rose left here Tuesday for Everetts to hold a series of meetings. We wish him strength and health while he is holding his meeting.

Rev. "Uncle" Betts is holding a meeting in Jamesville.

Misses Rella and Lala Rose spent part of Sunday with Miss Perlie Edmondson.

E. L. Mayo, of Conetoe, came down Sunday to see his best girl.

The Sanctified meeting is still in progress at this place: They have been holding the meeting some days.

Dr. R. J. Nelson and wife, of Everette, spent Sunday with Dr. R. J. Grimes and family of this place.

Claudie Roberson, of Gold Point, has entered Prof. Z. D. McWhorter's school. We wish him much success.

Misses Lizzie and Blanche Mayo, of Edgecombe county, spent Saturday night and Sunday with Misses Effie and Mattie Grimes.

Married.

Mr. G. R. Whitehurst, of Kinston, and Miss Hettie Bryan were married yesterday afternoon at the home of the bride's father, Mr. F. J. H. P. Bryan, in Bethel, Pitt county. The newly married couple came to Kinston last night and are living at Mrs. Moore's boarding house.—Kinston Free Press, 18th.

Relic of The War.

The State Museum today received a valuable and highly prized souvenir of the Spanish-American war. It is a six-pound brass shell and in the brass is engraved:

"This six-pound shell was taken from the Spanish cruiser Reina Mercedes, sunk in action by the American fleet off Santiago, July 3, 1898. Presented to the State Museum, Raleigh, N. C., by Hon. John H. Small, M. C., April 25th, 1901."

The shell will be kept in a special glass case.—Raleigh Times.

Baseball.

Today a base ball club of small boys came up on the steamer from Washington to play a game with the Greenville boys. The game was called this afternoon.

FRIDAY, APRIL 19, 1901.

Charlotte must not poke fun at her little neighbors because they have not had so many big visitors at she has entertained this week.

Charlotte is in great luck. This week that city has had as her guests a number of distinguished gentlemen that any city might be proud to have within her borders. Wu Ting Fang, the Chinese Minister to the United States, has been there and made a speech. Other great men who have been there are John D. Rockefeller head of the Standard Oil Co., President Baldwin, of the Long Island Railroad, Dr. Francis Peabody, Rt. Rev. W. C. Doane, Bishop of Albany, Walter Page, editor of Worlds Work, Albert Shaw, editor Review of Reviews, Lyman Abbott, editor The Outlook and several of the president of the large colleges in the north and other prominent men. It goes without saying that the Queen City made a fine impression on these gentlemen and entertained them handsomely. Those interested in education visited other points in the State.

Knitting Mills To Combine.

All of the important knitting goods mills in New York and New England, it is reported, will be in a combine by July 1. At least \$40,000,000 of capital will be represented, it is said.

Thus far 50 concerns have signified their willingness to go into the combine and accept the terms of the agreement which has been sent to all the knitting goods mill owners.

The organization has been conducted by Stern & Rushmore, of No. 40 Wall street, who have been for more than a month arranging the preliminaries.

Charles E. Rushmore to-day said that it was true that the knitting goods mill owners were trying to combine under one management.

"The details," said Mr. Rushmore, "have been practically agreed upon, but the matter has not yet reached a stage where it would be proper to give the public the result of our labors."

"I cannot state when the new company will have charge. The difficulties in the way are not serious."

Col. George W. Cavanagh, of Cohoes, one of the largest mill owners in the country, admits that the mill owners are to combine, and said that it is for the purpose of economy as well as profit, which active competition has destroyed.

THE PAN-AMERICAN.

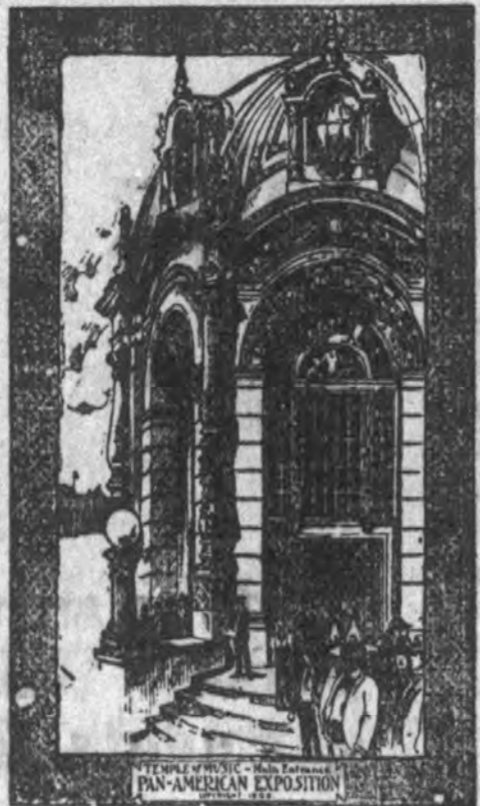

A GLANCE AT THE GREAT ENTERPRISE AND ITS PURPOSES.

True Picture of Nineteenth Century Development Arranged in a Setting of Unsurpassed Beauty and Splendor at Pan-American Exposition.

If one may judge by the presence of thousands of workmen at the grounds of the Pan-American Exposition and the wonderful progress they have made during the last few months, the Exposition will be opened in a condition of completeness upon the 1st of May next.

For the benefit of those who, for any reason, have not been informed concerning the plans and purposes of this vast enterprise I will state that the Exposition grounds are in the northern part of the city of Buffalo and have an area of 330 acres. Buffalo, with its 400,000 population, is preparing the most artistic creation ever produced for the purposes of an exposition. The completed work will cost probably \$10,000,000, exclusive of exhibits.

The landscape upon which the buildings stand includes a part of one of the most beautiful parks in Buffalo or, in

fact, in the world. The Exposition will thus have the setting of trees, lawns and water features, which have cost the city of Buffalo millions of dollars. The main Exposition buildings are some 20 or more in number and are arranged about a system of beautiful courts some 33 acres in extent. The arrangement is such as to permit the most exquisite decorative effects that the best trained artists of the world may be able to produce.

Space will permit only an enumeration of the principal buildings. These are: The Electric Tower, 375 feet high, which is to be the centerpiece of the most brilliant and novel electric illumination ever conceived; the Propylae, or architectural screen, at the northern end of the grounds; the Stadium, for sporting and athletic events; the Agriculture building, Manufactures and Liberal Arts building, Ethnology building, the Government group of three great buildings, the Midway restaurant building, Electricity building, the Machinery and Transportation buildings and Railroad Station, the Temple of Music, Graphic Arts, Horticulture, Mines, Forestry, Dairy, Ordnance, Service and other buildings, the Albright Gallery of Art, costing \$400,000; the New York State building, costing \$175,000, besides the state and foreign buildings and numerous other structures of beautiful and interesting design for a variety of purposes.

The Midway at the Pan-American Exposition alone will cost more than some large expositions. It is estimated the cost of the Midway will be about \$3,000,000, as it will have more than a mile of frontage closely built with the most picturesque structures conceivable and will contain between 30 and 40 entertainment features of most novel and interesting character.

The purposes of the Exposition are not merely to give the people a most magnificent and attractive entertainment, but it will furnish the opportunity for every one to inform himself upon the progress of the nineteenth century. The Exposition is held for the purpose of celebrating the achievements of the western world during a century of unparalleled progress. It is distinctly a western world affair, all the governments of the western hemisphere having been invited to participate in all departments. Official responses have been made by every important government, state and dependency of the western world, and they are preparing to be represented by most creditable exhibits.

The exhibits are classified in the following divisions: Electricity and electrical appliances; fine arts, painting, sculpture and decoration; graphic arts, typography, lithography, steel and copper plate printing, photo mechanical processes, drawing, engraving and bookbinding; liberal arts, education, engineering, public works, constructive architecture, music and drama, sanitation and hygiene; ethnology, archaeology, progress of labor and invention, isolated and collective exhibits; agriculture, agricultural implements; machinery and appliances, foods and their accessories, horticultural, viticulture, agriculture, forestry and forest products, fish, fisheries, fish products and apparatus for fishing; mines and metallurgy, machinery, manufactures, transportation, railways, vessels, vehicles, ordnance, exhibits from the Hawaiian Islands, Porto Rico, Guam, Tutuila and the Philippine Islands.

ture, viticulture, agriculture, forestry and forest products, fish, fisheries, fish products and apparatus for fishing; mines and metallurgy, machinery, manufactures, transportation, railways, vessels, vehicles, ordnance, exhibits from the Hawaiian Islands, Porto Rico, Guam, Tutuila and the Philippine Islands.

The Exposition has the indorsement not only of the state of New York, which appropriated \$300,000, but of the national government, which appropriated \$500,000 for the purpose of being suitably represented upon this great occasion. The Exposition will continue six months and will furnish an opportunity such as rarely comes for the public to take note, at a glance, of the wonderful progress of the western world. It will be like a great university, at which the young and old will become for the time being students of western civilization.

About 12,000 people have subscribed to the stock of the Exposition, and it is a public enterprise in the broadest sense of the term, the aim being to produce a magnificent spectacle to delight the artistic sense of all who attend and to present through the medium of an army of enterprising exhibitors a true picture of nineteenth century development. John C. Milburn, an eminent lawyer of Buffalo, is president, and the director general is William I. Buchanan, who was director of the departments of agriculture, live stock and forestry at the World's Columbian Exposition at Chicago and afterward for six years United States minister to the Argentine Republic.

MARK BENNETT.

Push, Keep at It.

Push is a talent as much as skill in any art. You can commence pushing by imagining yourself as a pusher. Keep yourself before yourself in your mind as a pusher, and such a frame of mind will at length make you push. There is a power in a continual imagination of yourself in any certain character. Imagine that the best belongs to you, and you will find the best coming to you. Imagine the worst see yourself in the poor-house, and the poor house will come to you. Success, like charity must commence at home in the mind. If you are compelled to live at home in a poor room and on poor fare, do so only under protest. Keep your mind on the better room and the better fare. Don't say, "I s'pose I must always take up with this." Say, instead, "I am going to have better things than this." You are creating for yourself strength, not weakness. You are then ever strengthening the inexplicable mental attraction which will bring these things to you.—Ex.

Bank Advertising.

That the bankers will become enterprising advertisers in the newspapers is suggested by the publication of a book on "Practical Bank Advertising." The volume does not present the usual "bank statement" advertisement, but gives specimens of bright and attractive announcements which are calculated to induce newspaper readers to open accounts and save money. It is only a question of time when every business concern will use newspaper space every day.—Philadelphia Record.

Got What He Deserved.

Anderson Boarders, colored who lives near town, gave one of his children a pistol to play with a few days ago. Anderson's wife scented danger and wanted the pistol taken from the child, but Anderson refused to permit this. Presently, as a matter of course, the pistol was discharged and Anderson yelled to beat the band. Clapping his hands on his back he howled, "I'm gone! I'm gone!" The ball had taken effect in Anderson's back but as the weapon was a small, cheap affair, the wound is not considered dangerous and Anderson isn't gone, as he feared.

The opinion is that Anderson got what he deserved. Having given the pistol to the child it is fortunate that it shot him instead of itself or some body else—Statesville Landmark.

A man may put on airs all his life and cut off heirs in his will. It's all very well to be slow but sure, but it doesn't apply to a clock.

While here he purchased a lot and placed orders for material for a large stemmery which he will locate here. His building will be of brick and fitted with the best machinery for handling tobacco. His plant will materially strengthen the Greenville market which is already one of the best in the State.

Smallest Baby Yet.

The smallest baby in the world according to all medical records, was born in this city last Saturday. The mother gave birth to twins and one weighs four pounds while the other weighs only 14 1/2 ounces. Photographer Hayes this morning took the baby's picture. It is perfectly formed and seems to be entirely well. However the physicians say that it will be very difficult to raise such a child. The little youngster is about the size of an ordinary cigar. The parents are respected citizens, living in the suburbs.—Raleigh Times.
