PLACE FOR THE MEN.

It has been for more than five years the dream, I hope soon to be realized, of one of the members of the Patient Circle of The King's Daughters that the Circle should take for its specific work the establishing of a reading room or club room for the men of Greenville. It is sadly true that Greenville abounds in open saloons, and has practically no place of social gathering for her young men, especially those who have no homes. In the name and for the sake of our common humanity, I do ask that the different Orders among our brothers, and all the good people of the town co-operate with us in this work.

Kinston has its circulating library and reading room with fourteen hundred volumes. In the name of the Master help us do something of the kind for our town.

Sincerely and earnestly,
ONE OF THE KING'S DAUGHTERS.

Mrs. T. J. Jarvis and Mrs. J. B. Cherry have been appointed to confer with the men of the town to see what assistance they will render, and they will gladly meet committees from the different lodges at any time they may appoint. Cordially "I. H. N."

MRS. J. B. CHERRY,
Secretary of the Circle.

The Bonds.

The town authorities have printed, and are mailing to prospective bidders and others interested, circulars giving full particulars of the sale of bonds to be made on the 28th of June under the act passed by the last Legislature.

Thanks From The King's Daughters.

We wish to express our appreciation and gratitude to all who kindly rendered us service in any way during our convention. Especially do we wish to return our sincere thanks to the courtesy extended to us from THE REFLECTOR, also to Mr. Burch, who printed our badges. The Osceola Band, who so kindly gave us their services, and made us all merry with such strains of sweet melody. The choir and others who assisted us with the music. The Methodists for the use of their church. The Odd Fellows for the kind offer of their hall. Mr. Shelburn, who generously gave us ice. Also to the sexton, Mr. Daniel, and little page, Charlie Horne, to whom we are greatly indebted for faithful service. And to all the good people of the town who in any way lent a helping hand to our work, we beg to make our grateful acknowledgement.

"THE PATIENT CIRCLE."

An Effect of Advertising.

An instance of the influence of advertising is mentioned by Dr. Walsh, a New York physician, in an article on sarsaparilla. He states that for many years before 1850 nobody had used sarsaparilla for any purpose; but about that time a firm began advertising it in the newspaper as a medicine. Since then millions of gallons have been consumed every year, and an enormous sum is annually expended in its manufacture.—Philadelphia Record.

THURSDAY, MAY 9, 1901.

A farmer's wife, writing to The American Agriculturist, says that it has been her good fortune to take summer boarders for the past seventeen years, and she sums up her experiences thus: "I have had boarders of all ages, from the baby with its nurse to the aged grandmother, but my favorites are maiden ladies and school teachers. They are most always contented."

As there is said to be a surplus of doctors in this country, it may be well to note that there is a vacancy in the medical staff of the Sultan of Turkey owing to a sudden death. The favorite physician was engaged in giving massage treatment to his royal patient, and inadvertently pinched a sensitive muscle. His turbaned Highness drew a gun and shot the masseur dead. Any American doctor who may apply for the vacant place should practice the quick strangle hold.

SHOW OF LIVE STOCK.

BIG EXHIBIT FOR THE PAN-AMERICAN AT BUFFALO.

Horse Show a Prominent Feature. Model Dairy Building on the Grounds—Accommodations For 25,000 Animals—Great Display of Agricultural Products.

The exhibit of live stock at the Pan-American Exposition at Buffalo the coming summer will include all varieties and breeds of domestic animals. Arrangements have been made to accommodate 25,000 animals on the grounds. Liberal prizes in all classes will be offered.

A fashionable horse show will be a prominent feature of the display and will include harness horses, saddlers, jumpers, etc. This exhibition will be fashioned on the lines of the Madison Square Garden show and will be held at the Stadium.

A model exhibition dairy, composed of all breeds of milk cows, will be in operation during the six months of the Exposition.

A great display of the varied agricultural products from the various states, provinces and countries of the Western Hemisphere will be made in the Agricultural building, covering two acres.

Awards for all meritorious exhibits will be made direct to individual exhibitors.

The closing of the Nineteenth century has witnessed marvelous strides in the improvement of methods in the dairy world. Formerly the whole business was conducted largely by "rule of thumb." Instead of a vocation requiring a certain apprenticeship it is fast becoming an exact science, in which chemistry and bacteriology play no insignificant part. The increasing interest and attendance at the various dairy schools throughout the United States and Canada, the existence of great co-operative and commercial organizations for the manufacture and sale of dairy products, is an undisputed testimony to the achievements of modern science. In this great industry the government has appropriated vast sums of money to help the dairyman in his work, and this is indicative of its importance as a factor of the great food problem of the world.

The territorial lines of the dairy belt have long since been annihilated. A few states and provinces in the east no longer enjoy the exclusive distinction of being in the dairy sections. In the Dairy building at the Exposition space has already been asked for by Maine and California, Manitoba and Texas. The supposed disadvantages of soil, water, climate and food in portions of North America have largely been eliminated by the skillful dairyman, and today splendid representatives of dairy animals are found wherever the wholesomeness and nutritive value of milk products are known.

Few people have any adequate conception of the present magnitude of the dairy industry. In the United States and Canada there is one dairy cow to every four persons, or 20,000,000 cows. The annual milk production is estimated at \$550,000,000. Add to this the value of dairy cows, \$650,000,000, and we have \$1,200,000,000. To this add the investments in dairy appliances, and we reach a grand total of \$2,000,000,000 invested in this great industry in the United States and Canada. The great countries to the south of us, Central and South America, are eager for American dairy products, and with more people from these countries visiting the Exposition in 1901 than have visited the United States and Canada in the past half century the great commercial opportunity to exhibitors of Dairy Products and Supplies needs no further comment.

A large, beautiful building located near the Agricultural building will be devoted exclusively to Dairy Products and Dairy Apparatus.

All the milk products will be exhibited in glass cases properly refrigerated for the purpose of maintaining as far as possible the texture and quality of the products on exhibition. Exhibitors whose products form a portion of their state or provincial displays will not be charged for exhibit space, but individual exhibitors will be charged \$1.50 per square foot for space occupied.

The exhibit of Dairy Appliances will embody all the recent inventions and improvements made in this industry, including sterilizers, pasteurizers, separators, coolers, churns, etc.

Electric power will be furnished in the building should exhibitors desire to demonstrate the work of their machines for the benefit of the visitors.

The exhibit in the Dairy division will be a selective one and in point of attractiveness, interest and utility will surpass anything ever before attempted.

A Model Dairy, composed of representatives of all the breeds, will be in operation during the entire Exposition for the purpose of determining as far as possible the cost of production and the adaptability of certain breeds to special lines of dairy work. These several divisions are in charge of Mr. F. A. Converse.

There was not enough backwardness about spring to keep back the potato bug. He is in evidence as usual.

The highest praise has been given me by those to whom I have sold the Standard Sewing Machine. S. M. SCHULTZ.

L. M. Savage has opened a grocery store in the new building just fitted up by Higgs Bros. near the depot.

MERIT WILL TELL. This is shown by the steady increase in my business. I make shipments to the Wilmington Steam Laundry every Wednesday morning and return Saturday night. Best work guaranteed. I have this day bought out the laundry that was left on hand in the Chinese laundry. Observations.

The desire to please is as normal as the honor of displeasing the other sex.

In the great game men lose their heads, women their hearts; the first are only hurt temporarily.

Cupidity makes many marriages and stupidity many divorces.

To rebuke tellingly, spare the adjectives and be careful to make your manner impressive.

Rare is a blushing maiden, but youth who blushes is an anachronism.

Paper Hanging.

I am prepared to fill orders for Wall Paper and can hang it if desired. Full line of samples from best designers to select from. I am also prepared to do Brick Laying, Plastering and Kalsomining on short notice. Orders for wall paper left at the store of Mrs. M. D. Higgs will receive prompt attention.
