A Statement of 'Comparative Educational Condition in Ten Southern States.

In 1900 the ten states south Potomac and the Ohio and east of the Mississippi, including Louisianna, had 22 per cent of the school population; yet only 6} per cent of the total expenditure of public schools was made in these states, and only 4 1 per cent of the \$538,623,736 of public school property was in these states.

The per capita expenditure for public schools varied from 50 cents in Alabama and 51 cents in North Carolina to \$4.93 in Massachusetts and \$5 30 in Nevada. The average for the whole country was \$2.83; for these ten states only 86 cents. states was less than one-third the average for the whole country and only a little more than one-fifth the average for the North Atlantic and Western states. The average saiary paid teachers for the entire school year varied from \$87 for males and \$78 for females in North Carolina to \$1290 for males and \$496 for females in Massachusetts. 786 The average for the whole country, exclusive of these ten states, was \$455.02 for males and \$312.22 for females; for these ten states \$175 for males and \$250 for females. The average number of days of \$1.33 schooling for each child of school age varied from 22 in North Carolina to 107 in Massachuseits. For \$2. the North Atlantic states it was 87, for the North Central states 82, for the Western states 80, for these be remembered also that only 154,-000 of the 5,615,164 children of school age in these ten states were reported as enrolled in private schools, primary and secondary.

The total school fund of these ten states was only one million dollars more than the school fund of Ohio, and the total value of the

A generation has passed since the close of the war between the states, and business men in the prine of life whose children are now in the schools never heard the 19,000.00 noise of battle or saw a wounded soldier sent to the rear. Baby's Coming

I advise every suffering woman to take Wine of Cardui. While I was going with my other children I was compelled to stay in bed for days at a time, but this time I have taken Wine of Cardui and Thedford's Black-Draught and have Cardui and Thedford's Black-Draught and have been able to do all my housework without any trouble. I am expecting every day to be confined. My husband thinks Wine of Cardui is the best medicine in the world. He takes a dose of Thedford's Black-Draught every night and gives some to the children. He has not lost a day from work this year. He tells his friends about your wonderful medicines and I tell my lady friends to use your Wine of Cardui.

Mrs. GEORGIA LEE.

There are thousands of women who shrink in terror at the thought of the baby's coming. But childbirth is one of the workings of Nature and it was not intended to imply torture and agony to the heroic mothers of the race. The woman who suffers torture during pregnancy and at childbirth has usually, by some indis-

cretion, injured the organs which make her a woman. Neglect of menstrual irregularities leads to ovarian pains, falling of the womb and leucorrhoca, and the period of pregnancy is necessarily distressing under those conditions. Wine of Cardui will regulate the menstrual function perfectly and eventually make the generative organs strong and healthy. Pregnancy and childbirth have no terrors for the woman who takes this pure Wine. A strong healthy womb will bring its precious burden to maturity with little or no pain. A healthy woman need not fear childbirth. Wine of Cardul completely cures all these troubles familiarly known as "female diseases" and equips the sensitive generative organs for pregnancy and childbirth. It will save any mother much pain and suffering. All druggists sell \$1.00 bottles,

As roads are getting better now people will jog along and lose sight of the need of good roads. Yet therefore condemned. It is desirthere is much complaint when they ous to be in good health. A man get bad again.

In making up the special regi ment of the State Guard to act as an escort to Governor Aycock and represent North Carolina at the Charleston exposition, the following companies were selected: First Regiment, companies from Winston, Charlotte, Durham and Concord; Second Regiment, Wilmington, Washington, Clinton and Edenton; Third Regiment, Raieigh, Henderson, Oxford and Burlington. The First Regiment Band, of Asheville, will turnish music.

Any man noticing how to bear against too rigid Chinese exclusion by the Southern cotton ple, will be impressed with the manufacturing interest, which fearful and far reaching evil effects necessarily look to the Orient for of this monster whose tendency is the sale of a great part of their to encourage drunkenness, poverty, goods. One of the strongest points made by the Republicans when the retention of the Philippines was first broached was that it would help keep the "open-door" policy in China in working order and give American manufacturs a basis from which to sell millions of dollars' worth of goods to the Chinese, and yet at the first opportunity they take steps to enact a law not only entirely to exclude these people from our shores, but from islands in their own part of the world, in the work of developing which they have been one of the principal factors. The Chinaman is not a fool when it comes to trade matters, and he will doubtless take measures in retaliation and cause us to have to threaten him. The Republican party evidently wants to maintain the kind of an open-door to China that is used in a rat trap, the open part

DRUNKENNESS.

The following article, culled from the Wilson Times, and written by Elder P. D. Gold, is so timely and so sensible, that we feel constrained to give it to our readers.

While it is proper to praise men for the good they do, yet there is more need of condemning the evil they do. Because evil is contaminating, destructive, and should be is much better able to do what he should do if he is well. But a man with a contagious, loathsome and dangerous disease is such a menace to the community that it behooves the neighborhood to remove or suppress that hurtful disease as much as possible.

The drunkard is not only unfit for anything that is useful to the community, but he is under the control of a corrupt nature that is liable to do many things that are hurtful to the country. F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen: — Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-thy, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain.

When Judges Are Late.

The Superior court judges of North Carolina are fast falling into a custon of recent origin which is as senseless as it is unjust. We refer to the failure of judges to arrive at the points where courts are to be held promptly at the opening hour of court on the first day.

This week Judge Coble is holding court in Winston. He was due in Winston Monday morning but failed to arrive before Tuesday. The loss of an entire day work, a positive injustice to the county, but as Judge Coble cannot be in contempt of his own court the people of Fosyth will have to grin and bear it. We do not single out Judge Coble, for this instance is only an illustration of a frequent occurence.

We say it is unjust to the counties in which courts are held for the judges to delay these courts. Witnesses and jurors are required | to be on hand promptly at the opening hour of court every morning. Should they absent themselves they are in contempt and liable to suffer the payment of a fine or imprisonment This is good and well, for the wheels of justice should not be clogged to suit the convenience of any individual. But the law that governs absentees should apply with equal force to judge, juror and witness .- Salisbury Sun.

The Poll Tax and Voting.

The Constitutional amendment goes into effect this year.

Among its provisions is one requiring the payment of the poll Friday, Mar. 14. tax by the first day of May.

Failure to do this means a forfeiture of the right to vote for that ysar.

There will be an entire new registration this year, and no man can vote unless he registers, and no man can register unless he pays his poll tax by the first day of May.

This payment of poll tax is re quired because heretofore there have been thousands of negroes in North Carolina who vote at every election without ever paying one cent of tax.

This law is on the theory that he who will not help bear the burdens of government should have no hand in 'the administration of its affairs

The Citizen hopes the good people of Western North Carolina will bear in mind this provision of this new section engrafted into our Constitution. To fail to comply with it in this respect would be fatal to the right to vote.

But he who loses that right on this account will have no one to blame but himselt. The law is plain and due notice of it has been given.

The poll tax which is required to be paid by the first day of next May is the tax that was due last September, so that eight months' indulgence is given everybody .-Asheville Gazette.

The Constitutional Amendment provides that no one can vote who fails to pay his poll tax.

Pay your taxes in time to save costs and to save your vote.

O. W. HARRINGTON, Sheriff.

The Democratic County Executive Committee of Chatham county, requested the sheriff of that county to let them look over his books of receipts in order that they may find out what white men in Chatham have not paid their poll tax. Their object was to have all such delinquents notified in person, so that they may pay their poll tax before May 1, and be able to register and vote. This request was refused by the fusion sheriff. - His action created indignation among the white men of Chatham.

Too many school districts and a desire to have a little free school house at every man's door has been low as can be had, the cause of much ignorance all over this country. A good, large district, a good, comfortable house and a first-elass teacher, are all essential. It is a pleasure to note that many of our people are seeing things as they should. Some are yet clinging to their mistaken and rainous conceptions. - Lexington Dispatch.
