### New White Goods Welcome.

Color is eliminated from the card today. White goods first in store displays as they will be in your thoughts, we trust. Ten years ago—yes, four or five years, even—who would have dreamed of the beauty to be brought out in fabric art without a touch from rainbow tints? Pure white, but so varied have been the dreams of designers, so cleverly have loom wizards wrought, that there is hardly a limit to variety. White has only been thought of as a repellent for summer's heat. The sheerest effects have been sought, but now however white fabrics—cheviots madras and piques are brought out in rich style assortment. White has overstepped the limits of summer months and hereafter will be an all the year round factor.

**WHITE PIQUES** in a large variety of the up-to-date styles and designs in Imported Piques that are worth your while to inspect at 12½, 15, 20 and 25c.

**WHITE LAWNS** in Lace Striped and Hemmed Stitched Pattern at 10, 12½, 15, 18, 20, 25, 35, 40 and 50c. Such a line has never before been your pleasure to see in Greenville at the above price.

**WHITE DIMITIES** in all of the newest designs and weaves, dots, stripes and lace stripes, at 8½, 10, 12½, 15, 18, 20, 22½, 25 and 30c.

**WHITE MADRAS** in Crepe De Chine designs with Satin stripes that will retain its luster after it is laundered at 30 and 35c.

#### WHITE INDIA LAWNS.

1000 yards India Lawn that can't be matched at 8c, our white goods sale price 5c.

500 yards India Lawn that was a bargain at 10c, in this sale at 8½c.

500 yards India Lawn that we have offered at a value at 12½c go in this sale 10c.

250 yards India Lawn that was sold for 15c for 12½c.

250 yards India Lawn that you can't find any to match them at 20c, go in this sale at 15c; the 25c kind at 20c; the 30c kind at 22½c. You can't afford to let them go unnoticed as it will be your loss and your friends gain. This sale can't possibly last over 5 days at the longest.

#### The Jamestown Exposition Company Elects Vice Presidents.

Norfolk, April 16.—The incorporators of the Jamestown Exposition Company held their first meeting here today and perfected a partial organization by the selection of the following named officers: First vice president, Nathaniel Beaman, Norfolk; second vice president, G. F. Adams, Newport News; third vice president, T. W. Wood, Portsmouth; fourth vice president, S. Gordon Cummings, Hampton; fifth vice president, E. M. Tilley, of Berkley. The election of a president and director general of the company was deferred until Governor Montague shall have appointed the special commissioners to represent the State. The name of General Fitzhugh Lee is being urged from many sections, though the general thus far declines to say whether the use of his name is authorized. The incorporators assert that they have abundant assurance that the exposition will prove a success far beyond the expectations of the most sanguine.

#### Things That Make the Housekeepers Groan.

In discussing the subject of housekeeping and the cost of living in this city, a prominent hotel man said last night:

"Few people realize how tremendously the cost of living has advanced within the last three years. A very short while ago, we bought choice steak for ten cents per pound; today we pay fifteen. Hens sold for fifteen cents apiece, but now are quickly taken at thirty-five and forty cents apiece. Butter is scarce at fifteen and twenty cents per pound. And all vegetables find ready sale at good prices."

The gentleman thus speaking was asked for his opinion as to the cause of the high prices and he replied:

"I do not know. Up North, they blame the high price of beef upon the trust, but in the face of the fact that everything else is correspondingly as high, it does not seem that those lodging this complaint have exactly made out their case. There is one thing it ought to teach us, however, and it is this: That we have a great country down here, and we ought to produce those foodstuffs that can be so easily produced here and that will turn loose among our farmers so much money and such splendid profits."—Charlotte Observer.

#### Five Girl Babies at a Birth.

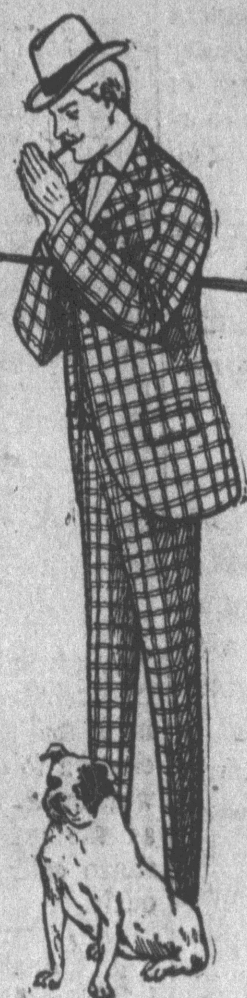

Farmer Isaiah Rhodes came to Poughkeepsie today to sell hoop poles, and told his friends about a startling increase in his daughter's family. The mother, Viola McGowan, wife of a farmer, Tuckers Coroner, 28 years old, has been married about seven years.

"Yesterday," said Rhodes, "Dr. Birchall, of Clintondale, was sent for and before he left my daughter's home five little girls had been added to the family. Mother and children are doing well." Rhodes is the father of 16 children himself.—Philadelphia Record.

Experience is the tollgate on the road to success.

## SPRING SUIT STYLES

Any particularly nice thing to wear that you want you will find right here. There will be just the correct number of buttons on your coat—just the right roll to the lapels—just the correct curve on your trousers.

They will be just the right width and shape. It will be a hard matter for you to find fault with your Spring Suit if you get it here, for we believe that our suits are just right in every way—as well as being just right in price.

Not a link is missing in our chain of Attractive Suits.

FRIDAY, APRIL 18, 1902.

The Multicaulis Mulberry and Silk Culture.

There is nothing better for feeding silk worms than the leaves of the Chinese or "multicaulis" mulberry. Wherever this tree grows it should be diligently propagated and planted as a hedge around a rich dry yard or along the farm boundary, away from the road. Dusty leaves are not suitable for silk worms. The mulberry must have a rich and dry soil!

The chance sprouts may be planted out at once, or the very long roots of old mulberry trees can be cut into lengths of about six inches and planted in a furrow 4 to 6 inches deep; nearly every piece will grow. Cuttings of the two-year old wood will also grow if made ten inches long and planted so deep that only one eye remains above ground. Keep the cuttings and plants moist and free from weeds.

The "multicaulis" mulberry produces no seed in this State as we have only the male plant. Seed of the white mulberry—morus alba can be bought of most of the larger seedsmen in New York and Philadelphia and may be sown up to May 15. One ounce of good seed will produce about 5000 plants which if grown in rich garden soil will be fit to set out when one year old. Cover the seed one inch deep. Soak 48 hours before sowing. Set rooted plants in a row 4 to 9 feet apart to form a hedge. Cultivate clean and make the ground rich with barnyard or fowl house manure. When the hedge is 3 years old staple 2 or 3 strands of wire to the main stems and you have a good fence as well as useful silk producing hedge.—Gerald McCarthy.

Good Plowing.

Too much cannot be said about the importance of good plowing. It is hard to get it done but without it good crops cannot be made. The ground should be broken well and deep so as to pulverize the soil and make it in condition to grow crops readily. In many cases the second plowing would do as much or more good than the first. To use a cutaway harrow would do probably in place of the second plowing. Don't be guilty of shallow, scratching plowing. Careless plowers let their plows slip over or around the hard places. I know a man who rented a farm and turned the plow over to his boy who was frequently seen plowing with one hand and holding a "breath-harp" to his mouth with the other. He was surprised that he lost money farming but other people were not surprised.—Smithfield Herald.

### BRITTLE FINGER NAILS.

A professional manicure says that the brittleness of finger nails noticeable in winter comes from extreme cold. The temperature affects the nails of some persons more than those of others, but almost any nails are more difficult to care for in winter than in summer. It is possible sometimes to relieve this brittleness by rubbing almond oil thoroughly into the nails and finger ends at night, after which a pair of old gloves should be drawn on over the hands, says the New York Post. Persons whose nails show great brittleness in cold weather should be very careful not to leave the hands uncovered out of doors for a moment and should also take the precaution to draw on a loose glove if working at the fire for any purpose, as the extremes of dry heat and sharp cold injure some nails seriously.

### Analyzing the Freaks.

The freaks in the Barnum show were recently examined, analyzed and discussed by the most learned scientists of France while on exhibition in Paris. They decided that the mottled woman owes her peculiarity to unequal distribution of pigment in the skin and to an army of moles. They found that the man who can break limestone with his head is enabled to do so by an oedematous state of skin, by the thickness of his hair and by the water lying between skin and skull. "Progressive muscular atrophy" was the cause they assigned for the "specialty" of the man mummy. The India rubber man, the albino who can throw his spine out of joint at will and the human leech also came in for grave medical consideration.

### A Royal Roast.

King Alexander of Serbia is a degenerate, and his brief career is disgusting. "He looks," says William E. Curtis in the Chicago Record-Herald, "as if he had escaped from an asylum for the depraved, but is by no means feeble of mind or body. On the contrary, he has a vigorous constitution and on two or three occasions has shown a nerve and power of command which would do credit to a great general. Unfortunately he has inherited some of the depravity of his father, the late King Milan, who was probably the worst ruler Europe has seen for a generation, but at the same time the son possesses a physical and moral courage that Milan never displayed."

We meet many women shoppers in the buy ways of life.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS: Baltimore, Md., March 30, 1902. Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

One treatment does not interfere with your usual occupation. YOU CAN CURE YOURSELF AT HOME at a nominal cost. INTERNATIONAL HOPKINS, 536 LA SALLE AVE., CHICAGO, ILL.

### Progress in Korea.

The Korean emperor rides a bicycle, the palace of Seoul is lighted by electricity and furnished with elevators, and the public officials got away with public moneys last year to the amount of a couple of million yen. This led the Korean prime minister to adopt a very singular plan to stop the leaks of the treasury. The official whose embezzlement foots up to more than 2,000 yen shall suffer the penalty of death. This makes the little thieves very active.—New Haven Register.

### Keene's Manner.

James R. Keene is very emphatic in his likes and dislikes of men. To a friend he is always most genial, but his glance freezes the man he does not like on his first approach and often before he has a chance to utter a word. His estimate of those he does not like is unique—the laconic explanation. "Pugh!" Whenever Mr. Keene's associates hear him give vent to that expression they know well what it means—there is no hope for that man if Mr. Keene can in any way thwart him.

### A Blood Stained Deck.

M. Diraison, a lieutenant in the French navy, who wrote a book entitled "Les Maritimes," for which he was cashiered, is being kept busy fighting duels with people referred to in it. He fought his fourth duel recently with a son of the Russian consul at Toulon. M. Diraison was wounded slightly in the arm. As soon as he shall have recovered he will begin a fresh series of duels with naval officers. So far he has been wounded twice and has wounded two adversaries.

### Smothered in Gold.

Joseph Micoulas, a gold refiner, was at work in a Paris laboratory recently when he was seized with a fainting spell, and his head fell forward into a basin of gold dust, which penetrated his nostrils and eventually suffocated him. This is the first death of the kind ever recorded in Paris.

### Love as an Antidote.

Love as an antidote seems to have been very effective in the case of the Wisconsin woman who sued a man for \$5,000 damages because she lost thirty pounds of flesh when he married another woman. A fat woman with a sickle-lover may be greatly benefited.—St. Louis Post-Dispatch.

### Not Sensitive.

Parke—I make a point of always telling my wife the truth about myself.

Lane—I suppose she is a woman who isn't easily shocked.

#### STATE NEWS.

##### Happenings In North Carolina.

The railroad from Washington to Plymouth has been completed and trains have begun a regular schedule.

In the strawberry section there is a prospect of a large crop this season. Shipments will begin in earnest next week.

After all there is a great deal of sentiment in the opposition to the whipping post. It is contended that it is brutalizing, degrading and hardens a culprit to even more desperate deeds of wrong doings. This is true to some extent, but take the man who brutally beats his wife. Could anything degrade him or lower him? Does he not deserve ten times what he gives her? The truth is what is needed is education and with the right kind there is not much need of a whipping post, but take a supremely ignorant person and he cares very little about the degrading effect of a lashing. It is the hurting that he dreads and right here is where the efficacy of the treatment comes in. A restoration of the old custom for any offence would not be a good thing, but there are crimes where nothing else fits so well—wife beating, failure to provide for one's family and kindred crimes. Delaware uses the lash on wife beaters and Maryland has a like law and it has been found so wholesome that all the sentiment in the country has no effect on it. Women are wont to discount on the brutality of it, but let their husbands lambast them good and strong and all such sentiment will disappear.—Greensboro Record.

It seems strange how readily a girl who has been reared in the lap of luxury can adapt herself to the lap of a poor young man.

### A Decline in Saloon Patronage.

A strong temperance lesson is taught by the experience of the Union Pacific railroad, which made a rule a few weeks ago that no man who frequented saloons, while either on or off duty, could remain in its service. A sudden decline in saloon patronage is now reported all along the Union Pacific lines, and at Cheyenne, Wy., a centre of railroad labor, twenty five drinking places are said to have gone out of business within two weeks.

### Wasted Opportunities.

Many a business man who has doubled or more than doubled his trade by advertising has deplored the doubt and timidity which prevented him from doing systematic newspaper advertising so long. He sees that he might have achieved his success years before had he only had the confidence and courage to invest in newspaper space. —Philadelphia Record.
