

Ricks & Wilkinson

This is Greenville's
Fastest Growing Store.

WHY?

BECAUSE no other store Anywhere is so diligent in the interests of the buying public to which it looks for support.

BECAUSE nothing but absolutely reliable merchandise is admitted here at any price--that point is of vital import.

BECAUSE the prices we ask are the lowest known to the merchandise world for goods of the quality we sell.

BECAUSE every sale that we make is backed by an absolute personal guarantee of satisfaction to the smallest detail.

BECAUSE every thing is done to promote your personal comfort while shopping, and to fulfill the most exacting requirements.

And so we might continue to name reason after reason almost without end. No really careful buyer will pass the offers we make without investigating them. Look at this double column full of Economy opportunities for this week:

White India Linen, White Persian Lawns, White Piques. The prices start at 5½c and by an easy rising scale run up as high as 75c.

French, Austrian and Japanese Fans in all the latest new creations in Crepe paper, Silk Gause and all floral designs 5c, 10c, 15c, 25c, 50c, 75c and \$1.

Zephyr Dimities.

Something entirely new this season, and just as pretty as they are new. We could offer them as a bargain at 12½c, but this week we say 8½c.

American Made Percals.

Full 36 inches wide, new and attractive designs. No better American Percals to be found anywhere. Worth 12½c. This week 8c.

Burham Chaleys.

2,000 yards Chaleys that was never such pretty styles and designs at 10c. This week we say 8c.

National Lawns.

In 15 new and attractive designs such as never was put in anything but 15 and 20c lawns before, in natural linen color with red, blue, green and black stripe and dots. We can't buy any more this season at any price. As long as they last 6c.

MORE ABOUT SCHEDULES.

A View From the Other End of the Line.

It seems that people elsewhere are thinking about better train schedules with Greenville and other points in this section. By Thursday's mail, the same day our article on this subject appeared, THE REFLECTOR received a letter from a gentleman in Raleigh embracing practically the same suggestions. Below we give the points contained in this letter and urge upon our people the necessity of interesting themselves in the matter:

The Southern train now leaves Raleigh about 5:25 A. M., reaching Goldsboro about 7 o'clock.

The A. & N. C. train leaves Goldsboro about 7:40, reaching Kinston about 8:30.

The A. C. L. leaves Kinston now at 7:30, making connection at Parmele.

If the Southern train left Raleigh at 5, reaching Goldsboro at 6:45 or 7, and the A. & N. C. left Goldsboro at 7:15, the A. C. L. could await its arrival at Kinston and give mail and passengers eastern connection.

This would be a saving of almost a day for western people having business in the East and would give all the eastern people the early mails, which they do not now get until night.

The business of those eastern town accommodated by this schedule would be greatly increased.

The tobacco men of that section with dealings in Richmond and other northern points, could reach Goldsboro at night getting into Greenville next morning, saving almost a day.

Passengers can now leave Tarboro, Greenville and other eastern points late in the afternoon and reach Raleigh that night and if the morning schedule as suggested should be adopted, people in Greensboro, Durham, Raleigh, Goldsboro, &c., could visit those eastern towns, spend a day and return home that night. Better schedules are needed,—the people are entitled to that consideration and if the towns most to be benefited by this change would urgently ask it, the railroads would probably make the necessary changes.

Mr. J. C. Moorman Dead.

A telegram received from Baltimore this morning announces that Mr. J. C. Moorman died there last night at John Hopkins hospital. Mr. Moorman had been in declining health for several months, and some weeks ago went to Baltimore for treatment.

Mr. Moorman had lived in Greenville about three years and was prominently connected with the tobacco market here, being one of the proprietors of the Greenville warehouse last season. He was a good man and made a great many friends in this section. He leaves a wife and one child who were with him in Baltimore at the time of his death. They have the sympathy of every one.

We have not learned where his remains will be buried.

We Shall Be Pleased
to See You. You Are
Always Welcome Here

About that Spring Suit. Of course you read the clothing advertisements in the newspapers, and you get in a quandary as to where you will buy the suit. We want all the patronage we possibly can get. We would like it if we had a cinch on all the clothing selling in Greenville. We certainly sell more clothing than any other store in town, and the only reason

we do not sell it all is because all the buyers do not come to see our goods and ascertain the real saving in prices. We are not offering \$18 suits for \$7.50, nor \$15 suits for \$6, and we never advertise any such false inducements. This we do: WE SELL YOU A BETTER SUIT OF CLOTHES FOR \$7.50, \$10, \$12 or \$15 than you can buy anywhere else for the same price.

By comparison you will find this to be true. The same ratio of saving applies on our Boys' and Children's Clothing. You will find our prices on Furnishings much more reasonable than others, while in Hats we save you 50c to \$1. If you investigate, we will add one more customer to our growing trade.

FRIDAY, MAY 16, 1902.

Every report that comes from the West Indies gives a worse account of the disaster wrought by the volcanic eruption. Besides the destruction of St. Pierre on the island of Mortineque, the island of St. Vincent has also suffered greatly, more than 1,500 lives being lost there.

It is an every day thing to hear people speak of how rapidly Greenville grows. It is a fact that the town grows right along, in spite of itself, so to speak. If there was only the spirit of co-operation here that exists in some other towns there is no telling how fast Greenville would go forward. A great need is factories that will give employment to all who come.

Erroneous Idea About Orphanages.

I am persuaded that there is a sickly sentiment in the minds of many good people about an orphanage that has done the cause injury. It has been regarded as a mediant standing on the streets with its hat in its hand, begging for alms. A sort of goody-goody kind of work well enough for women but too small to enlist the interest and claim the sympathy of grown men. Such a notion is wholly generous. At these orphan homes there are excellent schools, manned by competent and cultured teachers, where children are taught as well and as wisely as they are taught in our best graded schools.

Furthermore, the majority of these institutions, without the cost of a penny to the State, are doing their full share in furnishing men and women who will add to the strength and glory of the State. They are in the business of uplifting the citizenship of good old North Carolina and will not say they are doing more and better work than our colleges, but I will say that the business of a college is to develop, but it is the business of an orphanage, under the blessing of God, to redeem!—Archibald Johnson, of Thomasville Orphanage, in Charlotte Observer.

Death of Levi Mewborn, Jr.

Levi A. Mewborn, Jr., aged sixty years, one of the best known men in Lenoir and Greene counties, died at his home near Kinston Tuesday night, after an illness of two months. The deceased leaves four children—one son and three daughters. He was one of the best read men in the State, and a good man who will be greatly missed by his hundreds of warm friends.—Special to Raleigh Post.

Many Couples Married Without Intending to Do So.

The other night at a social party in Yonkers some 200 young persons thought it would be a good joke to go through a mock marriage ceremony. The joke was not successful because in the State of New York there cannot be such a thing as a mock marriage. When two persons in the presence of witnesses, either by way of joke or otherwise, take each other for husband and wife a legal marriage has actually been contracted unless one of the parties is already married. In the latter case a prosecution for bigamy can be maintained against the party. The Yonkers young people who undertook to mock at marriage are simply in a fix. Those who had been intending marriage have the consolation of knowing that they have been merely premature, but those who did not want to be tightly and lawfully wedded will have to go to the courts for relief. Others may take warning from their plight and refrain from toying with the matrimonial buzzsaw.—Troy, N. Y., Budget.

Best and Cheapest.

Of a recently reported advertising test a New York merchant says: "It has been accepted by large business firms everywhere as demonstrating beyond question that newspaper advertising, intelligently employed, is the most valuable and (judged by comparative results) the cheapest medium for reaching the great body of the people."—Philadelphia Record.

Alum Quarry in Forsyth County.

Mr. P. T. Brinkley, a farmer residing six miles west of Winston, has an alum mine or quarry on his farm. He says the find was purely accidental; that in placing some of the rock in the furnace of his tobacco barn, he discovered, when the rock became heated, large quantities of alum oozing out of them. He believes that his find would prove a profitable development.—Winston Sentinel.

Another Exchange.

Rumor says Washington will have another telephone exchange in the near future. Exchanges will also be placed in the towns of New Bern and Greenville. The contract has already been given for the poles.—Washington Messenger.

Collision on the Coast Line.

Yesterday the passenger train on the Atlantic Coast Line due from the south at 1:40 p. m. was delayed an hour on account of a slight collision at Lake Waccamaw. The only damage done was the smashing of the pilots of two engines and slight damage to a few feet of track.

The passenger train went into the siding to let the southbound freight train pass, and by some means the switchman left the switch open so that when the freight train came down and was going to run on by the passenger train, it was turned into the siding and had a head on collision with the passenger train. The passengers were considerably shaken up but no one was hurt.—Wilmington Messenger, 15th.

B. HARDING, N. G.

Rev. Livingstone Johnson, of Raleigh, and Dr. Sykes, one of the professors at Wake Forest College, passed through Thursday evening for Winterville, where they took part in the commencement. The former delivered the sermon last night and the latter the literary address this morning.

It Don't Go Down here.

Mr. W. T. Lee tells us he believes the article we printed from the Gastonia Gazette, a few days ago, about cotton seed meal driving away potato bugs, is a hum-bug. He went out at once after reading the article and sprinkled cotton seed meal on his potato vines, and when he went back to see how the experiment worked, found the bugs eating the meal, or at least looked like they were eating it.

Work Done at A. & M. College. Ready for 500 Students Next September.

The growth of the Agricultural and Mechanical College at Raleigh during the past year has been remarkable; 369 students have been enrolled, representing 6 states and 82 counties. The oldest was 69 years of age, the youngest 16, average 20.

Nearly \$4,000 was earned by students during the year, the largest amount was \$161.95, smallest 15c, average \$16.95. Work done was on farms, dairy, dining room, green-houses, dormitories and lawn. Many students sell shoes, stationery, and clothing; some mend shoes, some are barbers. Work is the rule of the college. Every student must learn to work; must spend at least two hours a day in the carpenter shop, blacksmith shop, lathe shop, machine shop, drawing room, dairy, green house, electric laboratory, or textile building. Nobody is paid for regular work, the pay is for work done outside of study hours.

Besides book studies and practical work in shops, laboratories, etc., the students have many useful societies and clubs, which meet about once a week. Some are the Y. M. C. A. with 50 members. Rural Science Club with 40, Electrical Society with 25, Dramatic club with 14, and the Leazar and Pullen Literary Societies with 250.

The college is now erecting two large new buildings, and by next September will be ready to accommodate 500 students.

Time will tell, but a gossiping woman tells sooner.
