## Ricks & Wilkinson

This is Greenville's

Fastest Growing Store.

### WHY?

BECAUSE no other store Anywhere is so diligent in the interests of the buying public to which it looks for support.

BECAUSE nothing but absolutely reliable merchandise is admitted here at any price--that point is of vital import.

BECAUSE the prices we ask are the lowest known to the merchandise world for goods of the quality we sell.

BECAUSE every sale that we make is backed by an absolute personal guarantee of satisfaction to the smallest detail.

BECAUSE every thing is done to promote your personal comfort while shopping, and to fulfill the most exacting requirements.

And so we might continue to name reason after reason almost without end. No really careful buyer will pass the offers we make without investigating them. Look at this double column full of Economy opportunities for this week:

FRIDAY, MAY 30, 1902.

The result of the ward primaries Thursday night was a decided victory for the progressive sentiment of the town. The sole issue discussed was improvements and anti-improvements, and that the improvement side won means progress for the town.

More than a year ago the town voted for an issue of bonds to put in improvements, but when these bonds were about to be sold certain citizens applied for an injunction to stop the sale, which has for the time checked the improvements. The matter was taken into court, and for some cause unknown to the people it is still held up in the Supreme court, that tribunal having failed to hand down a decision.

In the meantime those citizens opposed to the issue of bonds have still been active. In this campaign for Alderman they undertook to get a ticket nominated in each ward that would decline to take any further action toward issuing the bonds and putting in the improvements, even if the Supreme court should dissolve the injunction. Their failure in this, only one of their candidates getting a nomination, is significant, and shows that the greater portion of the people of the town want improvements.

As a nomination is equivalent to election the result of the primaries shows that the affairs of the town will be governed by an excellent Board of Aldermen the next year. If the Supreme court will now render a decision untieing their hands the improvements contemplated will soon be started and Greenville will enter a career of progress never before seen in the town.

Mr. A. J. Howard, of Swan Quarter, who is in town, tells us the farmers in his section are ploughing up their corn on account of the bugs and will plant again later on. He says another pest is injuring the crops in Hyde. About five years ago in the lower part of the county there appeared a number of large rats, differing from any species heretofore seen in the county, but resembling the common wharf rat. They are much larger than the common rat, some of them reaching the size of a squirrel. Now these rats are appearing all over the county in countless numbers. They burrow in the ground all over the fields and destroy all the grain planted before it comes up. The farmers hunt them with dogs and by the dogs following their burrows in the ground they dig them out and kill a great many. — Washington Messenger.

While engaged in the tan bark business in the mountains near Dan River on May 6th, Mr. W. H. Cody shot and killed the largest American or bald eagle ever seen in this part of the country. It measured seven feet and five inches from tip to tip of wing, and weighed 22½ lbs.

Mr. Cody shot the mammoth bird on the wing while it was carrying off a fat, two month's old lamb. It was thought by some that this eagle was 200 years old or more, as a small Indian arrow point was found imbedded in his breast. This incident may throw some light on the age attained by the American eagle.—Mt. Airy News.

The bean crop thus far has been profitable, and the yield as a whole is above the average. The weather has also been favorable to the crop and they have been shipped this season in very good order.—

There is only one jail bird in the Duplin County Inn, kept by the splendid sheriff, Lou Middleton.

This boarder is from the southern part of the county, and the charge against him is shooting at a passenger train.—Duplin Journal.

Mr. J. H. Carson yesterday received a diploma from the officials of the Paris Exposition certifying to the excellent quality of gold ore sent to the exposition from the Rudisill mines just west of this city. Mr. Carson is proud of the diploma.—Friday afternoon Kelly Reid, a colored brickmason, instead of putting a brick in its proper place put it, with considerable force, upon the head of another negro named William Eggerson. He was fined \$5 and costs in the recorder's court.—Charlotte Observer.

Lewis Lewark the boy wonder of Currituck was here one day last week. Lewark is only seventeen years old and yet his weight exceeds 600 pounds. His shoes would make two pair for any mammoth-footed Patagonian. His clothes are all home-made and the making thereof must be a mighty task for the fat boy's industrious little mother. The father and mother of the boy are ordinary looking people when it comes to size, and for this reason we cannot lay his over-abundance of avoirdupois to heredity. Lewis is rather sensitive and not until a few days ago was he persuaded to go upon an exhibition tour and will be one of the attractions here at the surfmen's meeting.—Elizabeth City Tat Heel.

# MISS SARAH FINLEY,

Vice-President of the Palmetto Club, Memphis, Tenn.

WINE OF CARDUI is a thoroughly scientific and modern remedy, meeting the needs of the modern woman in the modern way—without the torture of an operation. Wine of Cardui has cured them in the privacy of their homes and it has found a place in the hearts of American women that no other medicine has found. In their gratitude over 10,000 American women have written letters commending Wine of Cardui. Wine of Cardui meets their wants as no other medicine does. It sustains the young girl at the shock of her entrance to womanhood. Women who take Wine of Cardui have little discomfort during pregnancy and little pain at childbirth. When the change of life appears they enter a happy, healthy old age. Every month it comes to the rescue to assist Nature in throwing the impurities from the body.

Miss Sarah Finley, of Memphis, Tenn., vice-president of the Palmetto Club of that city, speaks for herself and many friends when she bestows the

Miss Sarah Finley.

following praise on Wine of Cardui:

"Among the numerous medicines placed before suffering women for their relief none can touch McElree's Wine of Cardui. It towers above them all as a reliable female remedy. It simply drives pain and disease away and restores health in an incredibly short period. I have taken great interest in this medicine for the past two years, since it brought health and strength to me. I have also recommended it to a number of my friends and they who have used it speak of it in the highest terms and I feel that it is praise well bestowed."

If you are suffering from female weakness Wine of Cardui is the medicine you need.

You can have health the same as Miss Finley if you will take the Wine of Cardui treatment. If you need advice further than the complete directions given on the bottle, address The Ladies Advisory Department, Chattanooga Med. Co., Chattanooga, Tenn.

### Facts About Martinique.

Island has an area of 183 square miles.

Fort de France is the capital.

Population is, approximately, 192,500. There are 12,000 whites. Others are negroes or of mixed racial types.

St. Pierre was the largest and most important city commercially, having a population of about 26,000

Principal products of the island are sugar, coffee, cocoa, tobacco, cotton and rum.

Imports for 1896 aggregated about \$5,721,000 and exports were \$5,358,000.

In the same year the United States sent to the island goods worth \$1,502,332. This country takes almost nothing from Martinique, but our products, chiefly food stuff, are necessary to it.

Annual revenues of the island aggregate \$1,342,000. Of this sum one fourth is spent for educational purposes.

Martinique is a favored colony of France, having been settled by colonists from that country in 1665.

Island was taken by England in 1794 and held till 1816, when France again secured possession of it.

Mount Pelee, the volcanic eruption of which destroyed St Pierre, is 4,450 feet high. It is often in obscurity because of the dense clouds of smoke that have enveloped its summit.

Balsams from the Northern Wood are in Fyry-Balsam, the certain cure for coughs.

### Heredit.

There can be no doubt that what is known as heredit has much to do with the success or failure of human life. The illustration drawn from the family named Jukes, in contrast with that of Jonathan Edwards, is most striking—so striking, indeed, that it is difficult to believe the statements concerning the two. Of the Jukes family, it is said on good authority, that, beginning with "a good-for-nothing fellow," in 1720, twelve hundred descendants have been traced, all having been paupers, criminals, imbecile, insane and licentious. Only twenty of them ever learned a trade, and ten of these learned it in the penitentiary. They cost the public over \$1,250,000. The family of Jonathan Edwards began with the godly preacher and pastor in 1703. Fifteen hundred of his descendants have been studied, and among them not one has been an imbecile, or a pauper, only one has been insane, and but six have been criminals. On the other hand, 283 were college graduates, 13 were college presidents, among them two Dwrights and one Woolsey, the three greatest presidents Yale has ever had. In law and medicine, in railroad-ing and mining, in army and navy in literature and statesmanship, the family has been at the front. Other instances of similar facts have been pointed out, and the facts can be accounted for only on the theory that heredit has much to do with it. Many might say, all to do with it.—Journal and Messenger.
