A Real Friend.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant of Merry Oaks, N. C. "After I had tried many doctors and medicines to no avail one of my friends persuaded me to try Kodol. It gave immediate relief. I can eat almost anything I want now and my digestion is good. I cheerfully recommend Kodol." Don't try to cure stomach trouble by dieting. That only further weakens the system. You need wholesome, strengthening food. Kodol enables you to assimilate what you eat by digesting it without the stomach's aid. John L. Wooten.

Getting in Shape.

J. F. King, who recently opened in the new livery stables on the corner of Fifth and Cotanch streets, (King's corner, he calls it) is fitting up in shape for a first class livery. He has just purchased a nice surry, and says he has on the way one of the handsomest victorias ever seen in Greenville.

But One Law for Man and for Woman.

There cannot be one righteous law for men and another for women. A woman is under no more obligations to be moral and pure and chaste than a man, and a woman who has been betrayed is as good a bride as her betrayer deserves and oftentimes a much better one.

I am satisfied that many young men go wrong and become utterly immoral and profligate until they are ruined beyond redemption because a proud mother, untrue to her own womanhood, sustains her boy in counting the woman he has betrayed as a creature unfit for wifehood with him.

If the young man who falls into immorality was held strictly and justly to the same standard as the young woman, many boys and young men would be saved from moral disaster.

The place for such training is in the home and the time while boys are growing up. The boy that gets out of his knee breeches without honoring womanhood, and feeling himself under bonds to champion the weak rather than to make game of it and prey upon it, is on the road to ruin.—By Rev. Louis Albert Banks, of New York.

WASHINGTON LETTER.

From Our Regular Correspondent

WASHINGTON, D. C. June 16.

The inquiry into the connection of the Sugar Trust with the agitation in favor of Cuban reciprocity, which was instituted by Senator Teller's resolution, has produced extensive and, to the republicans, alarming results: Mr. F. B. Thurber, of New York, who had several times been called before the Committee on relations with Cuba, finally made his appearance and from him was elicited the statement that Mr. Havemeyer, president of the American Sugar Refining Company, had contributed \$2,500 to a fund used by Mr. Thurber "to educate American sentiment in favor of reciprocity" and that General Wood, acting for the Cuban government, had contributed to the same fund the sum of \$6,880. General Wood was obliged to admit the payment saying that he had made it in accordance with the wishes of the Secretary of War and Mr. Havemeyer has made no denial.

On Thursday the Senate will vote on the Nicaraguan Canal bill, the consensus of opinion being that the Spooner resolution will be adopted. But two appropriation bills remain to be considered in the Senate and they will be disposed of with comparatively little debate so that the Senate will be face to face with the Cuban dilemma and some action will have to be taken. The President still insists that if adjournment is taken without action on the Cuban matter he will call Congress in special session. All day Friday the Senate spent in secret session, the supporters of the President endeavoring to secure confirmation of the nomination of General Crozier as Chief of Ordinance, but without avail, and the session adjourned without action. On Saturday Senator Atkins introduced a resolution prohibiting for the annexation of Cuba as a stake.

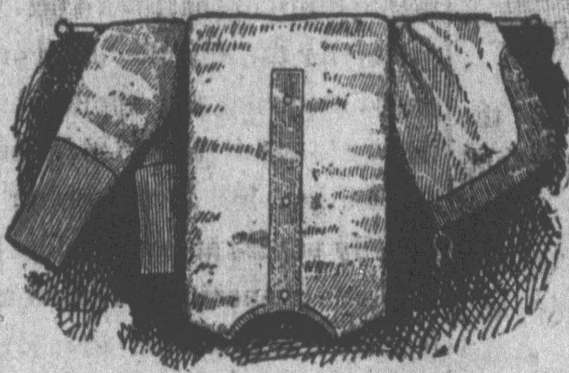

The House of Representatives has shown unusual industry during the past week and a number of important measures have been disposed of. After passing the bill for the protection of the President last Monday, the Lacey bill was taken up and defeated. The Pacific Cable bill, introduced and advocated by Mr. Corliss of Michigan, was defeated and on Friday the Hausbrough Newlands irrigation bill was passed. As this bill had already passed the Senate and as such amendments as were indicated to be essential by the President were adopted, there is reason to believe that the Secretary of the Interior will soon be in a position to commence an extensive system of irrigation in the arid West.

Funeral.

The funeral of Mrs. S. A. Charlotte took place this afternoon at 4 o'clock. Services were conducted in the Methodist church and at the grave by Rev. H. M. Eure. The pall bearers were Messrs. Wiley Brown, D. D. Haskett, J. R. Moye, C. T. Munford, L. H. Pender and W. B. Wilson.

THE PIE AND ICE CREAM CONTEST.

The Philadelphia Record, the New Orleans Times Democrat and the Charlotte Observer are engaged in a very deep and spirited discussion on the merits of pie and ice cream, occasioned by a recent debate, by students of Butler College, Indiana, in which the question, "Resolved that pie is of greater service to mankind than ice cream," was discussed, the young men of the college having the affirmative, and, the young ladies, with a predilection "always for ice cream, opposing them, as was to be expected, and the very unfair and inexplicable decision of the judges in favor of ice cream.

While not wishing to be intrusive at all by entering uninvited into this table talk, we would like to say that we think the verdict pronounced by these three able and observant papers is correct and just in every way.

It is not difficult to understand why the judges above mentioned should have rendered a verdict so at variance with the law and the evidence, but that they were wrong is fully established now. So a word in favor of pie—just any kind of pie. The Charlotte Observer notes the prevalence of three kinds in Rowan county—the kivered, the unkivered, and the barred. But Rowan is not the only county favored by such variety—every county with which we are acquainted has all three. But to the defense of pie. The very name itself is enough to inspire one to great undertakings. Ice cream, Pshaw! It isn't in it when compared with pie. Pleasant enough on a warm summer day, but its joys are as transient as the rainbow's beauty and as for its staying qualities, they are simply not in it.

But pie—the good old fashioned pies that our mothers made—what is there more toothsome, more to be hungered after and more substantial. It could not be otherwise than a builder of a sturdy civilization—such as that boasted of by the Anglo-Saxon race. Ice cream is but the result of this civilization, though indicative of nothing more than a desire to grasp at a fleeting joy soon gone.

Give us the pie. It will stay with us.

The brown crusted pie, the rich fruited pie, The old fashioned pie that rests in the cupboard.

GIVE TOWNS THE BENEFIT TOO.

The Ministers' Association of Durham has presented to the aldermanic board of that town a petition asking for the adoption of an ordinance requiring each applicant for license to sell liquors to make such application by advertisement in the city papers at least 30 days before time of opening. This request is made on the ground that it is fair for the residents of a community to have time to file a protest against a barroom if there should be any who object. It is said the law will pass easily.

This appears to be just. The applicant for license makes known his desire to the proper authorities, without even consulting any to whom he will be neighbor, no matter how objectionable it may be, and if he show proof of a good character (!) he is granted the privilege to deal out his filth. And it is only fair that those who will be made door neighbors of the saloon should have a right to protest against its being foisted upon them against their will, and without their consent. A merchant running a nice dry goods or dress goods store, and catering to the best trade of the town, and especially of the ladies, would not feel very friendly to the opening of a filthy barroom next door to him, the result of which would be the crowds of vagabond loafers who congregate around saloons, and the filling of his store with the stench of the sickening odors that usually arise from such places.

Such a law already exists as to all applicants who sell liquor at places other than in incorporated towns, and we do not see why the towns also should not have the benefit of it.

Bishop Spaulding, of Illinois, says if the women of the land were better three-fourths of the sin and depravity that curse present day life would disappear. That may be. Spring Fever.

Spring fever is another name for biliousness. It is more serious than most people think. Atorpid liver and inactive bowels mean a poisoned system. If neglected, serious illness may follow such symptoms. DeWitt's Little Early Risers remove all danger by stimulating the liver, opening the bowels and cleansing the system of impurities. Safe pills. Never gripe. "I have taken DeWitt's Little Early Risers for torpid liver every spring for years," writes R. M. Everly, Moundsville, W. Va. "They do me more good than anything I have ever tried." For North Carolina: Fair tonight and Wednesday.

Masonic Picnic.

Greenville Lodge No. 284, A. F. & A. M. will have a public installation of officers and picnic on Thursday, 26th inst. Invitations have been extended to all neighboring Masonic lodges, and also the Pythian and Odd Fellows lodges of Greenville. Judge Francis D. Winston will be the orator of the day. The exercises and picnic will be held in the Academy grove.

Masonic Temple.

Mr. Chas. O. Hook, of the firm of Hook & Sawyer, architects, of Charlotte, was here Saturday to submit plans to the building committee for the temple to be erected by Greenville Masonic Lodge. At the meeting of the lodge Monday night the plan submitted by Mr. Hook was approved and accepted. The building will be a beautiful one and an ornament to the town. It is expected that work on the temple will begin soon and have it completed by next February.

The Farmer is Happy.

The farmer is happy. From all over the South for weeks the cry has gone up for rain and at last it has been heeded and in a generous manner. A Saturday report had it that copious rains "within the next few days" will mean one of the greatest crops the South has ever produced. If the present rains are general, and the weather man predicted they would be, then we can understand why the farmer is happy.—Charlotte Observer.

Six barrels of crude oil will make as much steam as a ton of coal. Texas fuel oil, costing from fifty to sixty cents per barrel, can be brought seaports of the Atlantic coast in quantity practically unlimited. It is only a question of supplying tank steamships and receiving tanks, and presto! the problem of fuel supply might be speedily worked out without regard to coal freight rates or coal miners' strikes.—Philadelphia Record.

BREAK INTO THE HOMES OF THE PEOPLE BY ADVERTISING IN THE REFLECTOR

A REFLECTOR advertisement will walk into the homes every day and will let your wants be known to the people.

A REFLECTOR advertisement will bring customers for your goods, find tenants for your house, find employment or employees, in fact fill any reasonable want you may have.

THE REFLECTOR goes into the homes of the people and is read for what it carries them, hence the place to tell your wants is in THE REFLECTOR.

The cost of an advertisement in THE REFLECTOR is the easiest part.
