READY AT LAST

After Months of Preparation our stock of

Men's and Boys' Clothing, Hats and Haberdashery

for the Fall and winter is ready, and we assure you that never in the history of our business have we been able to present such a superb assortment in each department.

It is none too early for a TOP COAT.

Cool mornings and nights make it necessary to have a little protection both for comfort and for the sake of your health. Our prices range from \$8.00 to \$18.00, including the short, boxy styles and the longer and more conservative shapes preferred by many.

We call your especial attention to a superb assortment at the popular price of \$15.00, which includes every fashionable fabric and style.

MEN'S SUITS

Long-wearing, fashionable and perfect-fitting in every detail; the parts which are out of sight are as good as those that can be seen. Our prices range from \$5.00 to \$20.00, but we have a remarkably fine collection which we have marked..... \$15

MATERIAL PROGRESS.

In 1898 we regained control of the legislative department of the government. In 1900 we regained control of the executive department of the government. While the work of redemption will not be complete until the nominees of this convention have been elected and the prestige of the judiciary, lost under Fusion regime, restored, for all practical purposes, with slight exception, the Democratic party for three years last passed has been in control of the affairs of the State and responsible for their administration. The Democratic party and the State are to be congratulated upon the material progress which we have made during these three years of Democratic administration. Never in all our history have so many industrial enterprises been organized and established in the State in the same length of time as during these three years under Democratic control. Never in all our history have so many corporations and business associations been formed and chartered in the same length of time as during the last year under Democratic control. This record is a very gratifying expression and illustrative of the confidence of capital and capitalists, both inside and outside of North Carolina, but in the party now in power in the State, and I know I voice the sentiment of this convention and of the Democratic people of North Carolina when I say that as long as we remain in power in the State we will conduct its affairs so as to merit and receive a continuation of this confidence, not only from our own people, but from those outside of the State, who have capital to invest, or who are seeking homes.—F. M. Simmons at Greensboro.

Disgraceful Legislatures.

Every Legislature in North Carolina that was controlled by the Republicans has been a disgrace to the State. Everybody now admits that the infamous Legislature of 1868 and '69 was a disgrace, and nobody attempts to defend its acts and doings. And the Legislatures of 1895 and 1897 were almost as bad. In proof of this we published two weeks ago what was published in 1897 by the leading Populist papers. Even Senator Butler, in the Caucasian of February 27, 1897, declared that "Up to this date the Legislature is a damnable disgrace to the State."

Do North Carolinians wish any more such Legislatures? It is bad enough to have had one Legislature that was a "damnable disgrace," and surely the white men of North Carolina do not wish to elect another like it.—Catham Record.

Hadley-Forbes.

The following cards have been issued:

Mr. & Mrs. Alfred Forbes request the honor of your presence at the marriage of their daughter Clara Bruce

to Mr. George B. W. Hadley, on Wednesday morning, October the fifteenth, nineteen hundred and two, at half after seven o'clock, St. Paul's Methodist Episcopal Church, Greenville North Carolina.

King-Bynum.

Miss Mary Bynum, of Greene county, and Mr. T. B. King, of Farmville, were united in marriage at the home of the bride's mother Wednesday evening. The ceremony was performed by Rev. D. W. Arnold.

PERSONAL NOTES

Brief Mention of People Met With in the Social World

S. B. Hardee has gone to Baltimore.

J. J. Laughinghouse was here today.

W. M. Hanna has gone to Goldsboro.

Mrs. J. B. Cherry is visiting in Kinston.

Col. I. A. Sugg went to Kinston Wednesday.

George Hadley returned home Wednesday evening.

D. C. Moore and wife went to Tarboro this morning.

Mrs. W. M. Brown returned from Tarboro Wednesday evening.

Hugh Fassiter, of Lizzie, passed through this morning enroute to Richmond.

A. F. Clark, one of Pitt's good tobacco farmers, took the morning train for Durham.

Miss Cornelia Manning, who has been visiting the family of D. C. Moore, returned home today.

Fruits and Cereals.

"It's an ill wind that blows no one good." The exigencies caused by the recent rapacity of a great monopoly have led many families to thoughtfully consider the undesirability of flesh food. Aside from the humanitarian standpoint, healthy longevity cannot be evolved from food the underlying principle of which is death and decay. The possibilities of disease in a flesh diet are enormous. Every element required for the sustenance and growth of the body is found outside the animal kingdom. When men live on a higher plane of thought, they will cease to slaughter in order to exist.

When you consume the nutritious cereals, the luscious fruits, the fattening legumes, the satisfying nuts and all the sun kissed products of the vegetable world, you are missing absolutely nothing conducive to bodily and mental vigor, but are absorbing the vitalizing principles of sunlight, air, life, health, cleanliness, instead of possible disease, decay and death of the slaughter house.

Many a pasty complexion and eruptive skin, many a case of nervous derangement and irascible temper, have been cured by an entire abstinence from meat.—Lillian M. Siegfried in New York Ledger.

Safe Robbed.

Mr. R. A. Nichols had his safe robbed of a drawer and contents Monday night. He had gone to the safe to deposit some money, and, being in a hurry, merely closed the door and turned the bolt, without locking. He locked one box, and left one unlocked. He hurried back to his customers, and had no occasion to go to the safe again until about time to close up, when he found the safe door partially open and the unlocked drawer missing. He is not sure of the exact amount in the drawer, but thinks it was about \$6.

Parkerson-Gwaltney.

At the home of the bride in Whitley, Va., Wednesday morning, Miss Hattie Gwaltney was united in marriage to Mr. C. C. Parkerson, of Greenville.

The bride and groom are expected to arrive by the evening train.

During the past ten years the number of apple trees in North Carolina has increased from 4,250,000 to 6,500,000, and the number of peach trees from 2,150,000 to 2,775,000.

Your Suit Is Ready

WHY NOT TODAY?

Why wouldn't today be a good time for you to drop in and select that Winter Suit that you need? Want something swell? Come, look at our lines. No risk of missing any new fashion if you buy your clothing here, because our styles are ahead even of the fashion plates.

Fashion plates come out early. Our makers see them; then they watch for later developments. The minute anything new turns up it goes into our clothing. So we are never behind one moment. Come in today and choose.

Province of Teaching.

Educators have learned a great deal in late years about teaching, but they have learned no more important truth than this—that teaching is a process of development rather than a matter of stuffing. The purpose of correct teaching is not to stuff a child with information, but rather to train the mind. As some teacher has said, education is dynamic. In training a child we may learn much from nature's way of development. In making crops the endeavor of the farmer is simply to assist nature. He digs about the roots of a plant, nourishes it with fertilizers, makes all the conditions to growth as favorable as he can, and then leaves the rest to nature, and as surely as nature's laws are fixed the plant which is thus treated will grow. The intelligent teacher will follow this plan in teaching the young idea to shoot.—Richmond Times.

The Meeting.

There was good interest at the service in the Baptist church Wednesday night, and three professions at the close of the sermon. Tonight Rev. Mr. Edmundson will preach from John 3:16, "For God so loved the world," etc. Service begins at 8 o'clock.

At the close of the sermon tonight Miss Richardson will sing "Where is Thy Refuge?"

Democratic Speaking.

Hon. Cyrus B. Watson will address the people of Pitt county at Greenville on Monday, October 13th, 1902. Let everybody turn out and hear this distinguished speaker discuss the political questions of the day.

ALEX L. BLOW, Chm. Dem. Ex Com. W. L. BROWN, Sec.

The Pitt Co. Buggy Co. reports a demand for buggies that keeps the factory working on orders. The graceful outlines of these vehicles, coupled with material that the public has learned to depend on, is making the firm many new customers.

Take good care of your horse and vehicle and they will take good care of you.

A CARD.

To the citizens of Greenville:

No doubt most everybody in Greenville has heard of the "Jewelry auction," that is being conducted at W. B. Brown's dry goods store. While there are some that are prejudiced against traveling people conducting auction sales, we wish to inform the public in general that all "auction sales are not fakes." The firm of J. B. Bennett & Co., of Norfolk, Va., for whom this sale is being conducted, is a large and reliable firm of good standing and their reputation is second to none. Any article that has been or will be sold if it is not as represented can be returned to the house and they will gladly make same good. The firm will uphold any guarantee or assertion that I may make. Thanking the many that have patronized this sale, I remain very truly,

DAVE RAUH, auctioneer. of the firm of J. B. Bennett & Co. 158 Church St., Norfolk, Va. Last sale, Friday, October 3rd.

Special Rates.

To Washington and return \$8.00. To New York and return \$18.

It's up to Wilmington's police and fire department. Henderson arrested the circus.

A cyclone struck the town of Monroe, Tuesday evening, and did great damage to buildings. Nollives were lost.

The Atlantic Coast Line has secured a controlling interest in the Louisville & Nashville and will operate it in connection with the great Coast Line system. This is an important addition to the Coast Line.

A careful reading of the News & Observer's reports of the Craig-Pritchard debate so far indicates the following diagnosis of Uncle Jeter's condition; based upon the law of cause and effect: hysteria, anasthesia, abosia, pasaphligia, dizziness, partial paralysis, difficulty in speaking, intense motion, irritability, and general distress, with complications liable to set in at any moment.

James Wilcox, who was convicted of the murder of Miss Nellie Cropsey, at Elizabeth City, and sentenced to be hanged, has been granted a new trial by the Supreme court. The court decided that the demonstration during the progress of the trial prejudiced the prisoner's rights and entitled him to a new

trial. It is probable that the next move of Wilcox's counsel will be to get the case removed to another county for the next trial.

In the disposition of the tobacco crop so far the farmer has exhibited a woeful indifference to one of the greatest influences to which the market is susceptible. As a result he will fail to realize the possible on this crop to the extent of many thousands of dollars for every county in which bright tobacco forms any considerable part of the products. Encouraged at the good prices of the early season, when the demands of other crops made it impossible, with the labor available, to prepare and market more than an occasional barn, he determined, apparently, to market the bulk of his tobacco in a lump as soon as opportunity would permit. And the way he has succeeded in lumping it leaves little doubt that he has employed his time. The delicate shading of quotations that followed was a valuable tip, but it was lost to the man most concerned. He hastened home with energies renewed by the fear of lower prices, to get rid of as much as possible at ruling prices. News of the agreement between the two companies to whose fight he had attributed the cause of better prices than usual did not serve to relieve the situation. His first thought in connection with the British-American Tobacco Co., was of lower prices; his second, of getting the balance of his crop to market as soon as possible. Thus he has acted jointly with every unfavorable influence. It is safe to say that the resulting glut of the market and straining of facilities has done more to depress prices than all other influences combined. A proper distribution of the crop over the season in which the warehouses are open is a matter in the control of the farmer, and here-in lies his greatest hold upon the market.

County Canvass.

The candidates of the Democratic party of Pitt county for the Legislature and the several county offices will address the people at the following times and places, to wit: Ayden, Saturday Oct. 4th. Pactolus, Wednesday Oct. 8th. Gum Swamp, Friday Oct. 10th. Falkland, Saturday Oct. 11th. Beaver Dam at Smith's store, Wednesday Oct. 15th. Burneys, Friday Oct. 17th. Grimesland, Saturday Oct. 18th. The Weather.

THE MISSOURI RIVER.

It is reported that the United States government is going to abandon its efforts to make and keep the Missouri river navigable. The river runs through deep alluvial soil and is constantly gnawing away its banks and shifting its channel. Millions have been spent in an attempt to keep it free from snags, but the erosion of the banks causes great trees to keep falling into it. Acres of land have been swept away and deposited elsewhere. In one place a tract of 1,700 acres was transferred in a single night from Iowa to Nebraska by a change in the course of the river. An island which the government wanted, but of which a squatter held possession, was reduced by the action of the river during the controversy to the three acres where the squatter was "holding the fort." Then the government no longer desired the island, leaving the squatter in full possession. The river immediately began piling up land until the squatter had 130 acres and was worth \$250,000.—New York Tribune.

High Life in Gotham.

The supreme court of New York has decided that it requires an income of \$9,000 for a debutante to maintain fittingly a position in society. The decision was made upon the application of Mrs. Emeline F. Parsons for her daughter, Miss Rosalie Coe Campbell. Miss Campbell is just eighteen and an heiress to a million dollar estate. Her allowance has been \$6,000 a year, but with the coming season, which will witness her formal entry into New York society, will come an increased demand upon her purse. In her petition Miss Campbell's mother—who, by the way, has an income of her own of \$16,000 annually and who knows all the requirements of a position among the Four Hundred—enumerated the various items and their cost, and the judges after studying them carefully decided that her \$9,000 estimate was correct.—Argonaut.

Solid Air is Elastic.

While it is well known that air can be made solid as well as liquid, up to the present comparatively few experiments have been made in this direction.

A scientist recently converted a certain quantity of liquid air into a small solid mass and on examining it found that it was as transparent as clear ice and as elastic as rubber. To test its elasticity he struck it with a hammer, and the latter immediately rebounded.

That solid air may prove to be of commercial value is the opinion of some scientists in Germany, but it is admitted that many more experiments will have to be made before any certainty on this point can be arrived at.

New York and Finance.

Evidence of the growing importance of New York as a financial center is presented in the application recently made to the Stock Exchange for the listing of over 2,000,000 rubles (about \$1,000,000) of state 4 per cent certificates of rentes of the Russian government, with the object of establishing a market here for these securities. The application is regarded in Wall street as another step in the enlargement of the New York market, more especially as little more than the same amount of Russian rentes is listed on the London Stock Exchange.—Dry Goods Economist.

An Inland Seaport.

A writer in the St. Louis Mirror calls attention to Houston, Tex., as a probable inland seaport where it is predicted that one of the great maritime cities of the world will be eventually located. Houston is fifty miles inland as the crow flies. It is reached by Buffalo bayou, which winds its way tortuously for seventy-five miles. The biggest ocean vessels find sufficient water for their purposes to within a very few miles of the Magnolia City, and the government has undertaken to deepen the channel all the way to Houston.

Artificial Marble.

A new process for the manufacture of artificial marble has been patented in Berlin. Asbestos, dyeing materials, shellac and ashes are pounded into a stiff mass and then subjected to high pressure. The product is surprisingly firm and tough, not brittle, is very easily worked by means of tools, can be given a fine polish and in appearance cannot be distinguished from genuine marble.

A Quinine Substitute.

In a memoir presented to the Russian Academy of Medicine Dr. Filotoff of Moscow declared that a preparation of the leaves and stems of common heliotrope, macerated in brandy, can be economically substituted for quinine, having all its advantages without any of its inconveniences.
