GREENVILLE GRADED SCHOOLS.

Next Session Will Begin Wednesday, Sept. 22.

Editor Reflector.

I wish to state though the columns of your paper that the next session of the Greenville graded school will, by order of the Board of Trustees, open on Wednesday, Sept. 22nd. At this season of the year there is always a number of people who are anxious to know the date of the opening so that they may plan the remainder of the vacation season, and I take this means of making known the date.

As yet, I am unable to announce the names of the teachers for the coming year, but I hope to be able to do so in a short time. There were but few resignations, hence there will be only a small number of changes in the corps of teachers.

It is with much satisfaction of those of us who are managing the department of music to be able to announce that Miss Gaston will be with us again. Judging from the large number of inquiries made of me, Miss Gaston's patrons and pupils were exceedingly anxious for her return to Greenville this fall. It is our purpose to maintain the same high standard in the course in music that we have heretofore maintained, and to improve it in every way we can.

STATE NEWS.

Happenings of Interest in North Carolina.

Charlotte, N. C., July 29.—While attempting to cross Shoak creek in a remote section of Yancey county last night on a footlog, Mrs. Winnie Smith, 22 years old, fell to the stream and was drowned. Mrs. Smith was a bride of a few weeks and a belle of the mountain county.

Lumberton, July 29.—The planing mill, dry kiln and a large quantity of lumber of the Carolina Lumber Company, located in the southern part of the town, were totally destroyed by fire early this morning. The origin of the fire is unknown. The loss is \$6,000; insurance \$2,000.

Lenoir, July 28.—The news reached here tonight of the death by drowning at Mortimer of two popular young women of that village, Miss Nannie Bailey and Miss Jetz. The tragedy occurred late this afternoon in the pond adjacent to the mill of the Ritter Lumber Company at that place. The bodies were recovered shortly afterward.

Mr. Ira D. Alderman, of Taylor's Bridge township, sent us last week a sample of honey that he had kept sealed up for 25 years, having kept put in a honey tumbler on the 18 of June, 1884. The first winter after it was put up the honey sugared, but it melted the following summer and has not sugared since. It was very light and clear, but with age it darkened until it is now about the color of dark molasses. We can't say that age improves its taste; indeed we prefer it fresh. Mr. Alderman is very successful in bee culture, and has this year taken 75 gallons from seven colonies of bees.—Sampson Democrat.

ABOUT SOME OLD PEOPLE.

Wilson, N. C., July 28th, 1909.

Friend Whichard:

In a communication of some months ago to The Reflector, I referred to the remarkable instance of longevity in Pitt county in old times, and gave Massenberg, as the name of the man who attained the great age of one hundred and twenty-two years.

But my friend, Mr. John Tyson, who was here today, says that Idellberg instead of Massenberg may be the name of the man. And of course the matter being in doubt I yield to him, not the story itself, which I remember very well.

Mr. Tyson also says it is believed in his neighborhood that Idellberg married a Miss Blount at some time of his life, and died and was buried on the creek as stated, and there are several tombstones as well as unmarked graves near at hand. Then the name of Blount often appears in the county from the earliest colonial days, and this may ultimately furnish a further clue to the life of the centenarian. But should it be otherwise, posterity owes him at least a name, in consideration of his great age and possible usefulness in the days of his pilgrimage.

Had Dr. Dick Williams lived, who was familiar with the history of the county from the earliest period, he would have examined the matter thoroughly, but he is now dead. And Mr. John Tyson, who is an active business man, is the only person I have found in Pitt county who is actually interested in Uncle Daniel and old facts. And I mention this as a compliment to Mr. Tyson.

A. B. Ellington & Co.

The board of directors of the Farmers Consolidated Tobacco Company met here today to arrange final details of the business for the coming season.

Cause of Her Birth.

A maid had just come over from Ireland, and a Brooklyn woman engaged her. A bell rang in the girl's room, and the morning after her arrival her mistress rang the bell to get her up. But the maid did not get up, though the bell rang and rang. Finally, therefore, the mistress herself rose, and, slipping on a dressing gown, she hastened to the new servant's room. There, wide awake, the maid lay, laughing at the top of her lungs.

"What on earth are you laughing at, Norah?" said the mistress.

"Faith, mum," Norah answered, "O'm laughin' at that bell. As sure as Oi live Oi haven't touched it, an'—jest see—it's waggin'!"—Putnam's.

When to Cut Flowers.

The best time to cut flowers is early in the morning, while the dew is upon them, or else during the evening. As soon as cut the stems should be placed in water, even if in a temporary way, if not convenient to arrange them at once in their proper positions.

When the flowers have to be packed early in the morning to be sent a long distance they must be cut extra early for what is better, cut the previous evening and placed in water all night in a cool place which can be kept close. In this way they absorb all the water it is possible for them to do, being consequently fresher when unpacked.—Gardener's

WEEDS-TAXES, &C.

Contributed.

Other towns may boast of things great and over the weeds of their streets elate. But Greenville, not jealous of their pride, is well up with them full tide. And when it comes to weeds and things! Why there is where her bell, she rings. In no other streets can there be found, varieties so great as in this town. The "Jimson's" smell is wide and loud; the Fennel rears its head high and proud; The Vermifuge grows large and fair, and the "Hog" weed, too, gets right there; the Blackheart, Stink weed, Bug tree, Vine weed, Plantain, Sting weed, Nettles too; and all in a medley too thick for wading through. Hundreds more grow large, stately and tall, while thousands grow low, thick and small.

Countless grasses greatly increase this aggregation, also the habitation's trials and sore vexation.

Those who ride follow the old-beaten way, follow a trail from which they dare not stray, for in those wilds, countless dangers lurk, though in the confines of many a kirk. Those who walk must needs take care for Sunday clothes and the like badly fare. The man just goes "slip slop" along; cuss words oft adorning his song. The maid just jumps, skips and hops, with skirts oft showing hosiery and shoe tops. And those who rubber find it bad too, for weeds and grass hide many things from view.

By dews and rains are things made worse, while bugs, frogs, &c., their songs rehearse, where reptiles and "varmints" in number galore, make many sigh for the lands of yore. And when the moon denies its light, then darkness revels in its delight, for town lights are few and far between, and in the distance only seen. So betwixt the weeds, grass neglect and things, a useless tale of woe the poor man sings. But the poor man? "Him?" No question he "axes," for unto him cometh death? and sure taxes.

FRIDAY, JULY 30, 1909.

Latham tried to follow Blieriot and fell in the channel.

The contest has about narrowed down to Jerome and Thaw.

In these days the housekeepers get busy putting up pickles and preserves.

The tariff conferees have agreed and the country will soon see how the vote pans out.

We imagine that the speakers on both sides will fight shy of tariff argument in the next campaign.

President Taft is on the side of the women and is insisting on the lowest tariff possible on gloves and hosiery.

If a stranger comes this way prospecting, look after him and show him the advantages of casting his lot with Greenville.

Everybody should feel interested in making the opening of the East Carolina Teachers Training School, Oct 5th, a large one.

Somebody has suggested that our people get flying machines to use in Greenville the next time a big rain floods the streets. That's the thing.

You do not have to boast to boost. The simple facts are good enough to tell about Greenville, and when these are made known people take notice.

Harvie Jordan says the cotton crop this year will be a million and a half bales short of what it was last year. If his prediction comes true, and conditions point that way, the present crop should bring a good price.

Another problem before the Board of Aldermen is putting Fifth street from Cotanch to the training school in good condition. It will be a big job, but one that should be done by the time the school opens if possible.

The cotton crop report issued by the National Ginners' Association gives the general average at 71.7. North Carolina comes just a little above the average, but put down at 73. The condition of the crop in Pitt county is below the State average.

Medically sane all the time, but mentally insane for a few minutes when he wanted to kill a man. This is Thaw's version of his condition. If he worked the insanity dodge to escape punishment for his crime, he ought to be considered insane enough to hold in confinement.

Already people are coming to Greenville prospecting with a view of locating here in order to give their daughters the advan-

tages of the East Carolina Teachers Training School. Greenville wants this kind of people—those of families who will locate here and become a part of the town.

"Substitutes" are poor things. The man who was paid to sub. for another man during the war was seldom a success. Substitutes for liquor are far worse. Since the advent of prohibition thousands of so-called "soft drinks" have been put on the market. Many of them are no doubt harmful. The other day some of these drinks were investigated by the government. The chemist in charge must have known what he was about, for the first thing he did was not to go into an analysis; instead, he took some cloths and with thirty five different samples he immersed these cloths into these drinks, with the result that they were beautifully dyed—equal to any dye ever made for the purpose. Think of a person filling his stomach with such stuff. It is a wonder half the population is not dead already.—Greensboro Record.

The Wilmington Star says: "Another think that makes us glad we live in North Carolina is that we don't have to stand for anything like the Tucker-Mann wrangle that characterizes the Democratic primary campaign now stirring up the natives in Virginia." Which may be true right at present, but that fight in this State last year was about as bad as the present one in Virginia. We don't believe the Virginians excel the North Carolinians in anything, not even in "mud-slinging."—New Bern Sun.

Our brethren who go long distances to church and have once a month preaching expect and should have discourses of from 30 to 45 minutes. But when the same audience hears the same man 12 or 15 times every month, it requires no Solomon to see the wisdom of brevity, especially in the hot season. The 20 minute talk is more popular and effective than the 50 minute sermon.—Biblical Recorder.

A New Back for an Old One. How it can be Done in Greenville.

The back aches at times with a dull, indescribable feeling, making you wary and restless; piercing pains shoot across the region of the kidneys, and again the pains are so lame to stop is agony. No use to rub or apply a plaster to the back in this condition. You can not reach the cause. Exchange the bad back for a new and stronger one. Greenville residents would do well to profit by the following example

Thomas Moseley, 109 East St., Kinston N. C., says: "Several months ago I had a severe attack of kidney trouble, at which time Doan's Kidney Pills proved their merit. My back ached severely, I had pains through my hips and felt generally miserable. I heard so much in favor of Doan's Kidney Pills that I procured a box and used them according to directions. They soon dispelled the aches and pains and improved my health in every way. I have no hesitation in recommending Doan's Kidney Pills."

Singer Talks

The Difference in Sewing Machines

It is a mistaken idea that sewing machines are pretty much alike, when as a matter of fact there is a vast difference

There is but one machine that sews better than any other—and that one is the Singer.

This is because the Singer idea is distinctive—every year shows improvement in that idea.

This is because the Singer factories are not only equipped with tools and machinery better calculated to make good sewing machines than any other, but this equipment is unique and not to be found elsewhere.

This is because a half century has been devoted to training and specializing men, each to do one thing best in sewing machine construction. The Singer's superiority—its lifetime-lasting value—does not appear on the surface.

One machine does sew better than any other—and that one is the Singer.
