## LOOK AFTER HEALTH OF THE CHILDREN

### VACATION THE TIME FOR THIS.

#### Superintendent Smith Gives Timely Advice To Parents.

The graded schools of the town of Greenville will open, as usual, the latter part of September. It is now about eight weeks till the date of the beginning of the term. I wish to urge upon the attention of parents the importance of getting their children ready for school before the opening of the next session. There is quite a number of children who need medical and dental attention, and it is this phase of preparation to which I would like to call special attention at this time.

Last year we had a good deal to say about adenoids. A number of people had their children treated, and the difference in general health, and especially in alertness and increased power to manage school work, was very marked. Adenoids seriously impair the health of children, make them dullards in school in nine cases out of ten, and lay the foundation for serious throat and lung troubles. If your child snores much, does not breathe freely through the nose, or keeps his mouth open a good deal, have your physician, or a specialist, to make examination. Many children have had cases of adenoids and their parents do not know it. Last year I think several parents were surprised when we told them that their children's throats were affected, and that it looked as if adenoids were the cause of the trouble.

Another source of trouble in school is weak eyes. I know it is not always possible to have these defects remedied in vacation but much can be done for relief. We have in school a good number of children whose eyes need attention, and it is much easier to treat them during vacation than during the school term when more or less reading and study is unavoidable.

Vacation is a good time to have teeth attended to, also. Never a week passes that from one to a half dozen children lose time from school on account of teeth. The teeth should be examined by a dentist at least once a year, and vacation is the best time to have examination of school children's teeth.

Another disease which prevails in the school is hook worm. I know that some people are disposed to treat this subject with a jest. But the fact remains that there is a number of children in Greenville, as well as practically every section of the South, who are affected with a disease which reputable and reliable physicians call hook worm. Last spring one of the physicians in the employ of the State Department of Health visited our schools, and I took him through the grades. He told me that he was positive that he saw a good number of children who were suffering from hook worm disease. Twenty-five or thirty of the parents of school children had examination and treatment of their children last year, and in every case the change in disposition, in brightness, in alertness, in ability to do school work successfully, and the general toning up of health was most remarkable.

There are yet numerous cases of hook worm among the school children, and in many cases the parents do not even suspect it, I fear. Examination costs nothing, and whether parents credit or discredit what is said of the disease, the fact remains that if a child has it his childish helplessness entitles him to attention and treatment. If a child is pale, delicate, rather stupid, not growing normally, does not learn well, and is indifferent generally, an examination might reveal a surprise.

Few of the towns in North Carolina make vaccination one of the conditions of entrance into the public schools. The importance of vaccination is so well understood that I do not deem it necessary for me to say more about it than that it is always an important safe-guard, both to the individual and to the public generally. In the larger towns and cities, no person is admitted to the schools who has not been successfully vaccinated within required periods of time.

I urge parents not to overlook the matter of having their children ready for school when it opens. Vacation is by far the best time to have dental work and medical attention for school

## MEETING IN CHARLOTTE

### In the Interest of the "Back Home" Movement.

Charlotte, N. C., July 21.—A meeting of all boards of trade and commercial organizations in North Carolina will be invited by The Greater Charlotte Club to meet in this city September 12th, for the purpose of specially urging the "Back Home" movement to all former residents of North Carolina. The editors of newspapers and other progressive men of the State will be invited, together with officials of the State Department of Agriculture and the governor of the State.

The results of the "Back Home" movement which was inaugurated last year in Tennessee have shown that many thousands of Southern people now in the West and Northwest are responding to the "Back Home" call; and that an even greater number who went West from the North and Middle West in quest of cheap, good land, are attracted to the South by the fact of the return movement of its own people. At the Charlotte meeting steps will be taken to ascertain the names and addresses of all who ever left North Carolina, and to put literature into their hands which they will be proud to show other people.

The secretary of the "Back Home" Association, W. D. Roberts will be present at the meeting here and tell how the movement was started and has grown until it has come into national prominence.

## ATTEND SCHOOL WITH MOTHER.

### Another Man Who Saw His Father Married.

A number of men were gathered in front of the hotel in Bethel when one of them remarked, "I can say something that no man in the crowd can match." Asked to state his claim, he added, "My mother and myself were school mates."

"I can beat that," put in another. "The first marriage I ever saw performed was that of my father."

Both of these claims seemed to stump the others, and explanations were asked for. The first speaker said "My father died when I was a boy. My mother afterward decided to go to school and attended the same school to which I went." The second said, "My mother died when I was small. Later my father married again and I attended the wedding, the first one I ever saw."

Rather remarkable but both true statements.

## Thunderstorm in New York.

By Wire to The Reflector.  
New York, July 21.—A violent thunderstorm here this morning did damage. A dozen buildings were struck by lightning, including the Catholic church of the Guardian Angel.

## Eight Dead From Cholera.

By Wire to The Reflector.  
New York, July 21.—The total deaths from cholera here numbers eight. A new problem, that of housing and feeding the thousands at quarantine, confronts the authorities now.

## General Strike Voted On.

By Wire to The Reflector.  
Butte, Mont., July 21.—The Western Federation of Miners proposition to call a general strike in the United States and Canada while the McNamara brothers are on trial in Los Angeles, was defeated by a vote of 172 to 124.

children. Our term is short, and we need the children at school as regularly as we can get them. No child can do much in school who is not well. Nor will he ever amount to much elsewhere. This is an age of health and sanitation. People are realizing more and more each year the utter futility of hoping to educate a diseased child. It simply cannot be done. And they are also realizing that it is useless to hope to make an economic factor out of a person whose health has been neglected in childhood.

Please do not neglect your child's health, and do not forget to have him sound and well by the opening of school, if such lies within your power.

H. B. SMITH,  
Superintendent of Schools.

## HIGH COST OF LIVING NO MYTH.

### Wholesale Prices Last Year 4 Per Cent. Higher Than 1909.

The high cost of living is no myth. An investigation by the bureau of labor of prices of 257 commodities during 1910 shows that wholesale prices in that year were 4 per cent. higher than in 1909 and 1.6 per cent. above the average of 1907, which was the year of highest prices since 1890. In view of the Canadian reciprocity discussion an interesting item in the bureau report shows that the wholesale price of farm products was 7.5 per cent. higher in 1910 than in 1909.

Wholesale prices in 1910 were 19.1 per cent. higher than in 1900; 46.7 per cent. higher than 1897, which was the year of lowest prices between 1890 and 1910; 16.6 per cent. higher than 1890 and 31.6 per cent. higher than the average prices between 1890 and 1899.

The highest prices in this decade were reached in October in 1907, when a general decline began which continued until August, 1908. A rise then set in and there were monthly increases without a break up to March, 1910, when wholesale prices reached the highest point in 20 years. They were then 21.1 per cent. higher than the average of 1900; 49.2 per cent. higher than the yearly average of 1897 and 33.8 per cent. higher than the average price of ten years between 1890 and 1899.

Then followed a slight decline, and from June to December, 1910, prices remained nearly level and at the close of the calendar year 1910 they were still 30 per cent. higher than the ten-year average between 1890 and 1900 and 45.4 per cent. higher than the record year by the low-price year 1897. Of the 257 commodities considered in the investigation, 148 showed an average increase, 26 showed no change and 83 showed decreases.

Prices of lumber and building materials increased 10.7 per cent.; farm products 7.5 per cent.; drugs 4.1 per cent.; foodstuffs 3.2 per cent.; clothing 7.2 per cent., and the miscellaneous group of commodities 5.7 per cent. House furnishings decreased 0.1 per cent. and fuel and light 3 per cent.

Some extraordinary variations were recorded during 1910. Potatoes increased 300 per cent.; eggs 90 per cent.; coffee 60 per cent.; mess beef 35 per cent.

### FAKE INSURANCE

#### Street Boy President At Five Dollars A Week.

Philadelphia, Pa., July 18.—At a hearing here today of three officials of fourteen "mutual fire insurance companies" of this city on the charge of operating fraudulent concerns, a 19-year-old boy testified that he had been picked off the street and made president of two of the concerns and secretary of a third at a total salary of \$5 a week. The witness, Harman S. Robinson, said he was homeless when hired to run errands. He was told he must "dressup" and said that one of the defendants had outfitted him at a clothing store. At the end of the hearing the three officials, David Balaly, Jacob Malschick, and Charles Weinburg, were held under bail for trial.

Robinson testified he knew he had been made president, but thought it was only a matter of form. He said that the janitor of an office building in which the 14 companies were operated from the same room was also made president of one of the concerns. Robinson further testified that he had presided at directors meetings of his companies, but had no idea of what was done.

"I always read a newspaper or went to sleep, Balaly did all the talking," he said.

Earnest K. Mueller, a solicitor employed by two of the concerns which the state insurance department charges were all controlled by the same principals, testified that while he was connected with the concerns new ones were organized with a total "fake" capitalization of \$1,500,000. The names of the alleged subscribers, he said, were taken from the city directory. The office of the concerns were recently raided. The concerns it is alleged, wrote insurance on all parts of the country and it is claimed their total receipts were \$27,000 a month.

### Preacher Helps Capture a Still.

Deputy Marshall Smith and Deputy Collector J. E. Cameron, accompanied by Rev. Mr. Snow, a Mr. Coffee and Chief of Police Wells, of LaGrange, this morning at 1:30 o'clock captured a 50-gallon capacity still, two miles from LaGrange. There were eight fermenters, a barrel of molasses and 50 gallons of beer at the still, which were destroyed. No one was at the still, but paths leading direct to the house of Ralph Kennedy, white, and a negro named Rountree, pointed to them as the operators and they were arrested on suspicion.—Kinston Free Press.

## HAVE AN EYE TO HAY.

The farmers of this section had as well turn their minds to making a supply of hay this season, unless they want to pay something like \$40 a ton and upward for it next winter. According to reports, the hay crop of the Western States is largely a failure, hence what is made out there is going to demand a high price. We are almost ashamed to tell it, but in past seasons hundreds and hundreds of car loads of Western hay have been shipped to Pitt county, and if that thing has to be done the coming season it is going to cut a mighty hole in the cash of the farmers. There is not a farmer of consequence in Pitt county but who can raise on his own farm all the hay he needs, and some to spare. That is the thing he should be careful to do this year.

In an article elsewhere in this paper Superintendent H. B. Smith, of Greenville graded schools, gives timely advice to parents in regard to looking after the health of their children. There is no better time for doing this than during vacation, so that when the children re-enter school every hindrance to their progress will be removed if possible. Parents should carefully read the article referred to.

The immunity of a negro's head from danger by a falling weight has again been established. One was ringing a church bell in Rock Hill, S. C., when the clapper broke loose from the bell and fell forty feet, landing on the negro's head. He was only slightly stunned and suffered no serious injury from the blow. The report does not say if the bell clapper was dented from the compact.

In a speech at Atlantic City, Hon. Champ Clark comes out strong as to the duty of a citizen in the matter of voting. He says it is the Christian duty of every citizen to vote and take part in selecting those who are to administer public affairs, and the so-called good citizen who stays away from the polls and leaves the voting to the hoodlums, is really the bad citizen.

Attorney General Wickersham comes out in advocacy of Federal control of corporations. ## Accused of Stealing.

E. E. Chamberlain, of Clinton, Me., boldly accuses Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs, cuts, corns bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c. at all druggists.

## Dutch Colony for Castle Haynes.

A colony for Dutch settlers of the same sort as have heretofore located at Castle Haynes, in this county, is now being opened by the Carolina Trucking and Development Company. This colony is on the General McRae tract of land south of Watha. The drainage work has been in progress for several weeks. The timber and underbrush are now being removed from the farms to be sold by the Parsons Lumber Company, of Watha. The new colony will probably be named for Dr. Van Eeden. He is pleasantly remembered in Wilmington as a visitor. He is a writer of national prominence here, and in his native country. Mr. Bond is the first settler to arrive and has now been at the colony for several days. A number of others are coming and a good sized colony will likely be established before the end of the year.—Wilmington Dispatch.

## GOOD WORK

Done Daily in Greenville—Many Citizens Tell of It.

Nearly every reader has heard of Doan's Kidney Pills. Their good work in Greenville still continues, and citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than by experience of friends and neighbors. Read this case: Mrs. C. Barnhill, of Greenville, N. C., says, "I have been so greatly helped by Doan's Kidney Pills that I am pleased to recommend them. My back and head ached and I had dizzy spells and pains in my sides. My kidneys did not do their work properly and caused me much suffering. Doan's Kidney Pills, obtained at the John L. Wooten Drug Co., relieved my aches and pains and corrected the trouble with my kidneys. I most cheerfully recommend this preparation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## Manufacturing Criminals.

Judge O. H. Allen made some remarks to the grand jury at his recent session of Durham superior court which are big with significance. "One of the most fruitful sources of crime," declared his honor, "is neglected childhood. A mistake that we are making is in allowing the children of the community to develop into criminals because we neglect them and turn our attention too much to the punishment of crime that is already committed. There is hardly a term of court held anywhere that there are not a number of children up for committing some crime. A little investigation discloses the fact that these children become criminals because of neglect. I want you at this term of court to determine if there are any orphans or neglected children in the county. If you should find such neglected children it is your duty to report the matter to the clerk of court and homes will be found for them."

Scientific criminology has long ago decided that the reformation of criminals, to obtain the best result, must begin early. There will scarcely be dissent from Judge Allen's diagnosis as to the principal source of supply. The rearing of upright men and women is a matter which requires the most painstaking diligence and care, and if these be lacking—whether through the death of parents or their unfitness—it is the easiest and most natural thing in the world for the neglected boys and girls to drift into unsavory environments. From these they get an entirely twisted outlook upon life and its relationships. It is this outlook that makes them criminals, and its correction is an absolutely necessary prerequisite to any permanent reform. Every year that passes over the head of the unfortunate youth serves to fix the erroneous notions deeper in his brain and to make them harder of eradication.

The various orphanages scattered over the state testify to the fact that we have not been entirely unmindful of these things, but Judge Allen's experience that there is scarcely a court docket without its child defendants shows how much yet remains to be done. The training schools which the state maintains—in being and in prospect—will stop the leak a little further down the stream. But the grand juries, if information were furnished them, could strike at the very origin of the matter, and in this we think consists the enormous importance of Judge Allen's suggestion. If North Carolina can devise ways and means to empty her penal institutions within the next generation by the proper training of those who would have occupied them the resulting gain to the Commonwealth will be beyond the power of any mathematician to compute.—Charlotte Observer.

## Thirty Years Together.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Aris, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and its the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. Its the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay fever, croup, quinsy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by all druggists.

## Notice To Property Owners.

Weeds and rank vegetation growing on any lot in the town of Greenville, whether occupied or not, must be cut down and removed. Such being a source of annoyance, menace to health, abiding place for mosquitoes. The state law declares such to be a nuisance, and as such the county superintendent of health will be called on to assist the officers of the town in having the weeds and rank vegetation cut and removed from private and public lots.

This is a notice and warning that you may not be taken by surprise or forced to pay costs and fines unnecessarily.

Respectfully,  
FRANK M. WOOTEN,  
Mayor.

When a man gets a swelled head there is no more in it than there is in a toy balloon.

### Popular Song Writer.

Miss Anita Owen, the gifted composer and writer of "Daisy" songs, has just completed another beautiful ballad entitled "JUST A CHAIN OF DAISIES," which promises to become as popular as any she has heretofore written. Miss Owen was recently interviewed by a New York Herald reporter and the fact became known that she has an income of over \$15,000.00 per year in royalties from her songs, also that she has never been married. The interview also conveyed the idea that if the right man came along she might be induced to consider him from a matrimonial standpoint. Since the publication of this article her publishers are receiving daily from twenty to fifty letters from all over the country—some containing inquiries for her address, and some offers of marriage and photographs of men, young and old, who are willing to share her royalties with her. Her songs all are very sentimental, and she has a following among both men and women to such an extent that the first edition of every new Anita Owen song is quickly exhausted. "JUST A CHAIN OF DAISIES" is probably the most sentimental of the series and ends with this

### REFRAIN

Just a chain of daisies,  
I have tied for you,  
And little secret  
I have tied there, too.  
You have guessed, I love you;  
If you doubt me, though,  
Ask the daisies—they will tell you so.

### Your Christian Duty.

From Speaker Champ Clark's Address before Christian Endeavor Convention at Atlantic City.

"There is no room in the United States for a pessimist or idler. Any man who misses two general elections should, be disfranchised. Our forebears did not fight so we could sit at home. They wanted us to have our say at elections. That's what the scrap was about. If I had one prayer that was sure to be answered it would be that every citizen should acquire sufficient education to read his own ballot and cast it as an American citizen should.

"Hoodlums run nine tenths of our elections, and the hoodlum who goes out and votes is a better man than the citizen who fails to cast his ballot. It is the duty of every Christian citizen to take a hand in politics. These fine-haired citizens who say they are too busy to enter politics are bad citizens. The great question before the American republic is the question of good citizenship. I don't believe the United States is going to the dogs, no matter whether a Republican or a Democrat heads the next administration. I believe the party in the power will work for the perpetuity of the American republic and amelioration of the condition of the people and the betterment of society.

"The world in general is growing better and particularly our part of the country. My opinion is that we will soon divide a scheme that will give labor the benefit of its toil and keep riches from a few greedy souls. Signs point that the change is in sight and the employer will soon share his profits with his workmen."

### Will Remodel Edgecombe Court House

The bid of J. D. Grandy, Charlotte \$26,730, to remodel and repair the court house has been accepted and as soon as the bond \$10,000 for the performance of the contract is made the contract will be signed. This will be only a matter of days, and Chairman Wilson acting on the information furnished by the contractor, or has notified all occupants of the county building to "get out" by the first day of August that work may begin and the contractor have the time asked for to complete his job in seven months.—Tarboro Southern.

### To The Federal Court.

Deputy Marshall J. A. Potter went to the convict camps Thursday and got Ed. Mills, colored, who was finishing a sentence on the roads for selling liquor. He brought him here before U. S. Commissioner King under a Federal capias. In default of \$300 bond he was committed to jail to await the Federal court at New Bern next October to answer to the charge of retailing.

### Special Prices.

In our "Bargain Column" Pulley & Bowen call attention to special prices they are making to close out men's and ladies' low shoes and ladies' tailor-made coat suits. The prices quoted are real bargains and you should take advantage of them.

### Dry In Bethel and Carolina.

While the recent rains have been more or less general over the county, around Bethel and in portions of Carolina township the crops are yet rather dry.

### A King Who Left Home.

Set the world to talking, but Paul Mathulka, of Buffalo, N. Y., says he always keeps at home the king of laxatives—Dr. King's New Life Pills—and that they're a blessing to all his family. Cure constipation, headache, indigestion, dyspepsia. Only 25 cents at all druggists.

### The War Is Over.

### THE FARMERS

#### Should Plant Legumes Between Corn Rows For Hogs.

It is not too early to plan for catch crops in the corn, and to follow oats and wheat with which to fatten the hogs and make hay this fall. If all the corn land can not be put into peas or soy beans, make an effort to plant such of it, at least, as is, or can be fenced, for the hogs. The corn fields of the South offer almost unlimited possibilities for hog production. Corn and soy beans make an ideal hog food, and counting the two crops, what part of this country can produce more feed on an acre during one season than a crop of corn and soy beans will furnish?

For fattening the hogs, we would rely on soy beans, peanuts and corn. These are not only our best hog feeds, but either of the legumes may be grown on the same land on which the corn is produced without materially lessening the yield of corn. With the peanuts it may be necessary to give greater space between the corn rows than is best for the largest production of corn, but corn rows 6 feet apart with the stalks 12 inches apart in the rows will give practically the same number of stalks on the land as 4-foot rows with the stalks 18 inches in the row. Or 6-foot rows with the stalks 18 inches apart will give practically the same number of stalks on an acre as 4-foot rows and the stalks 27 inches apart in the row.—Raleigh Progressive Farmer.

### Droughts.

Speaking of the deficiency in rainfall in June our attention has been called to the following records of "dry spells" published in an exchange in 1903:

In the summer of 1621 twenty-three days without rain.

In 1630 forty-one days without rain.

In 1657, seventy-five days without rain.

In 1647 forty-five rainless days in succession.

In 1688, a drought of eighty-one days.

In 1697, sixty-two days without a drop or rain.

In 1705, forty days of dryness.

In 1715, forty-six rainless days.

In 1718, sixty-one days without rain.

In 1720, ninety-two days without rain.

In 1741, a seventy-five days' drought.

In 1749 a terrible drought lasting one hundred and eight days.

In 1762, there was no rain from May 1st to September 1st, one hundred and twenty-three days and very little to sustain life came from the ground that year and many people sent to England for hay and grain.

### Oh, The Idea!

Drivers of ice wagons in Washington are what the negro calls "big-gety." Certain customers complained of the small piece of ice given them, which so increased the dispensers of the commodity that they have been refusing to serve such people. So loud are the protestations that the city officials are going after them with tongs—not ice tongs, but in such a way as to cause trouble. The idea of the ice man giving short weight! Who ever heard of such a thing?—Greensboro Record.

### The Unexpected.

Joseph Kinward, of Tarrytown, N. Y., was in a swing painting the water tower there late Saturday when the rope broke. He dropped 150 feet, struck a guard wire, turned a complete somersault and landed on his feet. He smiled and said: "I did not expect to come down this way, but I'm all right."

### Notice.

We wish to announce that our land is posted and to warn people not to hunt on it. We have stock in the grounds and have had several cattle shot, supposed to have been shot by stray bullets fired by people shooting at marks. Unless this shooting on our property is stopped, we shall have to indict all persons we can catch on it carrying or using fire arms.

### Attack Like Tigers.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Cal. "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at all druggists.

### Loyal To North Carolina.

Washington, July 20.—Senator Dixon, of Montana, Republican and Senator Martin, of Virginia, Democrat, brought their Civil war history and encyclopedia to the senate today to settle the question of whether Virginia or North Carolina troops figured more prominently in Pickett's charge at Gettysburg. Senator Dixon was born in North Carolina. He asserted in the senate Tuesday that histories were all wrong about the charge of Pickett's "Virginians," that there were more North Carolinians in the famous charge.
