

UNITED STATES SUPREME COURT

Will Convene Monday for the 1911-12 Term

AFTER FOUR MONTH'S VACATION

Docket is crowded with cases and is larger than a year ago—A number of important matters to be considered at this term.

WASHINGTON, D. C., Oct. 7.—After a four months' vacation the Supreme court of the United States will convene Monday for the term of 1911-12. The docket is crowded with 781 cases, as compared with 696 cases a year ago at this time. No case of anything like equal importance with the Standard Oil and Tobacco dissolution suits is on the docket, but there are a number of important and interesting matters that will come before the court for adjudication.

The court is expected to take up first of all the numerous cases involving the activity of state railroad commissions. There are more than fifty cases of this kind to be decided. As all of them are correlated, it is probable the court will hear them as nearly together as possible. There are thirty-six rate cases from Missouri alone, three from Minnesota, including that decided by Judge Sanborn, which agitated the governors' conference at Spring Lake recently, and several from Oklahoma and Kentucky. The opinions of the supreme tribunal in these cases probably will fix definitely the constitutional limits of state railroad commissions and circumscribe the powers they may exercise in the way of fixing the rates of common carriers in intrastate traffic.

Several important cases have come over from the Interstate Commerce Commission. The government questions the right of railroads to make concessions to elevators, holding that it is rebating. The St. Louis Terminal Company, owning the bridges over the Mississippi river, is being brought to the bar on the question of its being a monopoly in restraint of trade. Another issue that will be fought out early in the term is whether the stockyards in the large cities are common carriers within the meaning of the interstate commerce laws. A case against the Baltimore and Ohio Southwestern road is expected to lead to a decision as to whether a railroad may transport sheep through a state into another state when the state through which the sheep pass is under quarantine.

The battle for the initiative and referendum, the foundation stone of the Oregon primary system, will be fought before the court early in November. In view of the fact that numerous states already have followed the example of Oregon in adopting the initiative and referendum and others are preparing to do so, the decision in this case will have far-reaching consequences. The matter comes to the Supreme court as an appeal in a suit brought by the Pacific States Telephone and Telegraph Company against the state of Oregon to test the constitutionality of the initiative and referendum law.

Among the most important cases on the docket are several that were held over from last term. Included in the last are the cases involving the validity of the indictment of Charles F. Munday and others, growing out of the so-called Stracy coal-land claims in Alaska, and of the indictment of James A. Patten and others on charges of violating the Sherman anti-trust law in "cornering" the cotton market. The review of the trial of Frederick A. Hyde and others on charges of land frauds on the Pacific coast will constitute another important case.

The court also will hear arguments in the Oklahoma land fraud cases, which are four in number and are typical of 301 suits brought by the government in invalidate 30,000 or more conveyances by Indians, of titles to real estate, which the government claims were fraudulent conveyances.

Labor has one important case from Louisiana in which an employer is being prosecuted for permitting a laborer to work more than eight hours in one day. Also of importance to the labor world is the case to test the constitutionality of the

PROCEEDINGS OF THE BOARD OF ALDERMEN

Warrants to be Issued For Delinquent Taxpayers.

THEIR REGULAR MONTHLY MEETING

Alderman J. E. Nobles Resigns and Mr. W. J. Hardee Succeeds Him—Petition to Hold Bazaar in City Hall Denied.

The board of aldermen met in regular monthly session Thursday night, the mayor and seven members of the board being present.

Rev. C. M. Rock and Mr. D. D. Overton appeared before the board in regard to conditions in West Greenville in respect to lights and sewerage. The matter was referred to a committee consisting of aldermen Ficklen, Tyson and Edwards.

Mr. D. M. Clark appeared in regard to a street through the Sugg property and this was referred to the street committee.

The committee reported the culvert on Fifth street adjoining the Training school grounds had been extended, and that some street work had been done.

A petition was read from the Ladies' Aid Society of the Methodist church, asking for the use of the city hall in which to hold a bazaar, and on motion the request was denied.

The old stock watering trough on Dickinson avenue near the Atlantic Coast Line was ordered to be replaced with a new one.

A communication from the Civic League asked the co-operation of the aldermen in keeping the town clean and in a sanitary condition. The board expressed its willingness to do this and instructed the mayor to reply to the communication to that effect.

The tax collector was instructed to procure warrants for vagrancy against all delinquent tax payers who are not at work.

Alderman J. E. Nobles, of the first ward, tendered his resignation as a member of the board to take effect at this meeting. A motion was passed asking him to withdraw his resignation, and upon his declining to do so the resignation was accepted with regrets of the board. Mr. W. J. Hardee was placed in nomination to succeed Dr. Nobles, and unanimously elected.

The resignation of Dr. Nobles also made vacant the office of mayor-pro-tem, and Alderman B. F. Tyson was elected to fill that vacancy.

The officers made their reports for the past month and bills approved by the finance committee were allowed.

Third Millinery Display.

Such demand has been made on C. T. Munford's millinery and ladies' suit department this season, that he has decided to have a third general display of these goods, and Monday, 9th, has been selected as the date. All the ladies are invited to visit his store that day. Among his splendid display will be many new styles not shown before. His milliners are busy day and night on latest designs for his trade. Be sure to call Monday.

federal employers' liability act of 1908.

The court has been asked to interpret a treaty between the United States and Italy. The case in question involves the right of an Italian consul to take charge of the estate of an Italian subject dying in this country—California—contrary to local laws.

Not the least of the problems before the Supreme court is the necessity of relieving the congestion which threatens to clog the administration of justice if measures are not taken by congress for its relief. As before stated, there are now more than 700 cases on the docket, with the probability that fully 300 additional cases will be filed before the end of the term. The average number of cases that can be decided by the court in a year is about 400, and this is somewhat high. It is apparent, therefore, that the court is two years behind in its work, and will inevitably fall back still further if its labors are not lightened.

PITT'S NEW JAIL IS SECURE

The Reflector's Article Friday Was Misleading

A COMPLETE AND SAFE PRISON

Constructed on Modern Lines and Provided With Every Convenience—No Possibility of Prisoners Cutting Out—Still the Corridor Windows Need a Guard.

The article in The Reflector Friday in regard to the attempt of prisoners to cut out of the new jail was in some respects misleading and calculated to make a wrong impression, as facts found later have proven. The information that came to us, and on which the article was based, had no wrong intention on the part of the informant, but the manner of expressing it, that "some prisoners came near cutting out of jail," created the impression that the occurrence was of more consequence than it really was. The two incorrect statements in the article were that the attempt of the prisoners was nearly successful, and that the fastenings of a cell had been cut nearly in two.

The editor, in company with Messrs. J. L. Wooten and J. G. Moye, two of the building committee, and Sheriff S. I. Dudley went through the jail this morning to make a complete investigation. The fact is true as stated that files had been handed through the window to prisoners by parties on the outside. (And the main purpose of the previous article was that such as this might be prevented by the placing of a wall or proper protection so that persons outside could not communicate with prisoners.) It was also found that the prisoners had used these files, but it was on the fastening to the outside window of the exercising corridor and not on the cell. It was also found that the cutting the prisoners had done was insignificant, not exceeding a sixteenth of an inch, and they had worn out two files on this much cutting in several hours' work. As it would require cutting through many inches of the hardest kind of steel to get out of the jail, which would require weeks of cutting and tools almost without number, the impossibility of making an escape by this means is clearly shown.

The jail is constructed of material that is practically impregnable to any kind of tool, and the arrangement of the cells is such as will keep the prisoners in absolute safety. It is only when the prisoners are in the exercising corridor which they are permitted to use in the day time that they can even get near an outside window. There are peep holes through which the officer can, unobserved by the prisoners, see all the cells and corridors and note just what the prisoners are doing at any time. There is also an automatic arrangement by which the cells can be opened or closed and locked without the officer coming in contact with the prisoners or even going in the apartment they occupy.

All of the cells have perfect sanitary arrangement with convenient lavatories and baths. It does not look like any jail could be more perfect. At the same time The Reflector still holds the opinion that means should be provided to prevent any outside communication with the prisoners. It does not appear that a wall around the jail is needed, but the windows of the exercising corridors should have some means to prevent access to them by persons outside.

REVIVAL CONTINUES AT CHRISTIAN CHURCH

THE AUDIENCE INCREASES.

Subject Friday Night, "The Missing Word of the Bible."

A still larger crowd assembled at the Christian church last night to hear Evangelist H. C. Boblitt discourse on "The Missing Word of the Bible." The song service was excellent, being led by the evangelist himself, as he is proficient in that line. A most beautiful and appropriate solo was rendered by Miss Vernessa Smith. The text of the sermon was Matt: 28:19. The evangelist explained that the missing word of the Bible is "immerse," inasmuch as the scholars who translated the Bible into the King James version were all clergymen of the church of England, and were required to make the King James version conform as nearly as possible with the Bishop's Bible; hence when the Greek term "baptizo" was reached, which according to the seventy best standard Greek lexicons is translated "to immerse," "to dip," or "to plunge" instead of translating it, they transliterated it, thus anglicizing the Greek term "baptizo" into "baptize." The speaker said that he had been reared under stong Pedo-Baptist influence, his father having served in the ministry for forty-two years, and that he had attended Ohio University to prepare for ministry in another church that practiced sprinkling and upon a certain occasion in preparing for a religious debate, he had argued himself into the position which he now holds with reference to baptism. He then took the translation of the word "baptizo," given by standard Greek lexicons already referred to, and after translations as accepted and practiced in various churches, and applying the test of substitution of translated meanings to various Scriptural passages containing the term "baptizo," made it to appear that the term "to immerse" is the only rational substitute expression. Mr. Boblitt then entered a lengthy discussion, showing the difference between word law and positive Divine law. The laws against stealing, false witness, and adultery are moral laws because they have to do with things that are wrong in themselves. But the command to Abraham to sacrifice Isaac, and the Israelites to sprinkle blood of the passover lamb, and to look at the brazer serpent in the wilderness to live, are instances of positive Divine commands, that are not concerned with things that are either right or wrong in themselves. The speaker then declared that baptism is a positive Divine command, which is quite as binding, upon those who can know and understand, for eternal life as any moral law. The sermon closed with an earnest exhortation to obey the commands of God, that His promises may be enjoyed.

There will be no services this evening, as Mr. Boblitt has gone to be with his important work at Rocky Mount, but will return for the Sunday evening service at 7:45 o'clock, when his subject is "Golgotha."

Tomorrow will mark a bright day in this revival, which as is already evident means more to the town at large than to the particular local congregation under whose direction it is held, thus it is expected that a very general interest will be manifested tomorrow, and much good accomplished. There is arrangement for special music, and a cordial invitation is extended every one to attend.

REAL ESTATE SHOW IN GOTHAM.

The Largest Exposition of its Kind Ever Held in America.

NEW YORK, Oct. 7.—Including as it does the varied list of exhibits which made up the two previous shows of the kind given here, together with a new section devoted to apartment houses and building materials, the third Real Estate and Ideal Homes Show, which opened in Madison Square Garden this afternoon, is the largest and most comprehensive exposition of its kind ever held in America. The display embraces every type of building from the bungalow to the skyscraping apartments, illustrated models, photographs and drawings, as well as samples of every building material which enters into their construction. Equipment, decorations and furnishings are shown also.

FORECAST OF THE WEEK'S NEWS

Several Matters That Are of National Interest to Come Up

PRESIDENT STILL IN THE WEST

Anniversary of Chicago Fire to be Observed as "Fire Prevention Day"—A Number of Important Meetings Scheduled for the Week—Supreme Court Will Meet.

WASHINGTON, D. C., Oct. 7.—President Taft will spend the first three days of the week in the state of Washington, speaking in Tacoma, Everett, Seattle and other leading cities of that commonwealth. Wednesday night will find him at Portland, Oregon, where he will speak at a banquet of the Commercial club and remain in the city until the following morning, when he will go to Salem. From the Oregon capital he will travel southward into California, arriving at San Francisco Friday and taking the next day in the ceremonies of breaking ground for the Panama exposition.

The governors of a number of states have designated Monday, the anniversary of the great Chicago fire, for the first observance of "Fire Prevention Day," when the people are requested to clean up their premises and take other steps to reduce the danger from fire, with a view to lessening the appalling waste or property and resources.

The Supreme court of the United States will meet Monday to begin the fall term. The docket hasn't anything nearly as important as the Standard Oil and Tobacco dissolution suits, but there are a number of important matters that will come before the court for settlement. Cases involving the intricate questions of interstate traffic are among the most important on the list.

Early in the week there will be a large gathering of notables in Atlanta for the dedication of a monument erected in that city to commemorate the "peace mission" of the famous Gate City Guards, who toured the northern states shortly after the close of the war to promote fraternal feeling between the North and the South.

The senate committee appointed to investigate the election of Senator sessions Monday in Chicago.

The International Dairy Show, which is expected to be the greatest exposition of dairy cattle and dairy products and machinery ever held in the world, will open in Milwaukee Tuesday and continue for ten days.

Wednesday is the day set for the beginning of the trial in Los Angeles of the McNamara brothers, officials of the structural iron workers' union, who are accused of murder in connection with the destruction of the Los Angeles Times a year ago.

At a special election Tuesday the voters of California will decide the fate of several proposed amendments to the state constitution. Most interesting centers in the proposed granting of suffrage to women. Another of the amendments provides for the initiative, referendum and recall.

Hugh K. Robinson, the aviator, is scheduled to start from Minneapolis on an aeroplane flight down the course of the Mississippi river to New Orleans, a distance of 1917 miles.

The end of the week will see the gathering in Baltimore of eminent prelates and laymen of the Roman Catholic church in America to take part in the celebration of Cardinal Gibbons' jubilee. The celebration will begin with religious services Sunday and continue through the greater part of the week.

Important among the conventions of the week will be the annual meetings of Grain Dealers' National Association in Omaha, the Lakes-to-the-Gulf Deep Waterways Association in Chicago, the National Association of Railway Commissioners in Washington, the Southern Commercial Secretaries' Association in Memphis, the National Association of Life Underwriters in Chicago, the American Prison Association in Omaha, and the National Guard Association of the United States in Buffalo.

Mrs. J. G. Moye returned this afternoon from Baltimore. Mr. N. W. Outlaw left his afternoon for Kinston.

QUESTION FOR ALDERMEN.

Are Sidewalks For Bicycles Or Pedestrians?

Editor Reflector:

What about this bicycle sidewalk riding nuisance? All are not athletes to do fancy stunts to escape being run over. Must women and children give up the sidewalks, too? If the town don't protect us, we must protect ourselves. An example made of some of our "good" citizens might do some good. Also some kids.

As for me, I shall hold the town responsible for whatever may result from the neglect to enforce the bicycle law. Two narrow escapes in one day, seems the limit.

TIME STORES NEEDED.

Greenville has numerous needs, and The Reflector from time to time calls attention to them in the hope that somebody able to do so will see the need and supply it. This time we are going to speak of a need in the mercantile line, one that holds out a splendid opportunity for those who invest in it to receive remunerative returns. Greenville needs more merchants who do what is called a time business, that is those who supply farmers and tenants through the spring and summer and collect their accounts when the crops are harvested in the fall. There is a large amount of business done each year on this plan, and the number of merchants doing that business at present is not sufficient to meet the demand. Greenville is in the center of a large farming section and because the town cannot supply all the time trade of this territory much of it goes to other towns, when it would come here if the need could be supplied. There is a splendid opening here for one or more large time mercantile establishments, and those who come to engage in it will find it an easy matter to secure a large trade.

Why should the government take such interest in the prevention of disease, and get license and receive revenue from the whiskey traffic which is a greater curse to health and destroys more people annually than any disease? By wiping out the manufacture and sale of intoxicating liquors, more lives would be saved, more manhood preserved, more poverty and disease prevented than by any other agency.

If the order of the board of aldermen of Greenville is put in effect that warrants for vagrancy be issued against delinquent tax payers who are doing nothing, some folks had better lookout and get busy.

The government is now after the coal trust, and if the same experience follows as with sugar it may give an excuse for an increase in the price of fuel.

Automobiles have declined in price, but they are yet too high for the ordinary purse without mortgaging the home.

Grapes are about all gone, but frost will soon put the flavor on the persimmon and take the pucker out of it.

Somebody wanted to know if The Reflector had a hammer. Sure it has and that hammer hits the nail on the head oftener than it misses.

HOOKWORM DISPENSARIES.

Selma Ellis, a Columbus County Boy, Takes New Lease on Life.

Selma Ellis, a Columbus county boy, sixteen years old, who lives near Fair Bluff, was brought in the state and county dispensary July 25th on a stretcher. He was unable to sit up or walk. He had been in declining health for six years, unable to work or to go to school. He weighed only sixty pounds and had an enormous ulcer on his left leg.

A microscopic examination verified the belief that he was a victim of the severest type of hookworm infection. Treatment was begun by Dr. Prigden, but as he had to move his hospital, Dr. C. W. Stiles, scientific secretary of the hookworm commission, was prevailed to complete the treatment at the Marine hospital in Wilmington.

Selma made a splendid recovery, can walk or run, and is now at his home in good health. He gained 19 pounds, now weighing 79 pounds, and the quality of his blood has increased from 14 per cent to 60 per cent of normal. He is an enthusiastic worker in the hookworm crusade, but is only one of the thousands who are finding restored health and pleasure as a result of the campaign.

Seventeen of the eastern counties of the state have provided for these dispensaries.

Montenegrin Ruler 70 Years Old.

CETTINJE, Montenegro, Oct. 7.—The people of Montenegro held great rejoicings today in celebration of the seventieth birthday anniversary of their beloved king. Born October 7, 1841, in the little village of Neugush, which for 400 years had been the abode of his family, Nicholas Petrovitch ascended the throne of the Vladikas in 1860, as Prince Nicholas I. A year ago last August, on the fiftieth anniversary of his accession, Montenegro was proclaimed a kingdom and the ruler took the title of king.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Your Breakfast Room Made Comfortable With Fuel Supplied the Night Before

Cole's Hot Blast Heater maintains a continuous fire—also a steady even heat. It will hold fire from Saturday night until Monday morning (48 hours) without attention. It will hold fire over night with less coal than any other stove.

Open the drafts in the morning and the rooms are quickly heated with the fuel put in the night before. No other stove does this.

Burns Soft Coal, Slack, Siftings, Hard Coal or Lignite. One ton of either kind of fuel goes further and gives you more comfort than two tons, using any other kind or make of stove.

Your attention is called to the unparalleled statement made by the manufacturer of

Cole's Hot Blast Heating Stove

"For several years we have authorized our Agents to sell Cole's Original Hot Blast Heater on the guarantee as follows:

- "1—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.
- "2—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with the same size fire pot.
- "3—That the rooms can be heated from one to two hours each morning with the soft coal or hard coal put in the stove the evening before.
- "4—That the stove will hold fire with soft coal from Saturday night until Monday morning.

- "5—A uniform heat day and night, with soft coal, hard coal or lignite.
 - "6—That every stove will remain absolutely air-tight as long as used.
 - "7—That the feed-door is and will remain smoke and dust-proof.
 - "8—That the Anti-Puffing Draft will prevent puffing.
 - "All we ask is that the stove shall be operated according to directions and connected with a good flue.
- "(Signed) COLE MANUFACTURING CO., Not Inc."
(Makers of the Original Patented Hot Blast Stove.)

This remarkable guarantee from the makers of this stove should be of interest to you if you contemplate buying a heating stove.

Years of use has proven that no heater—at twice the price—equals it for radiating heat, for holding fire, requiring so little attention, never giving trouble, and cutting down your coal bill one-third to one-half.

Come in and examine Cole's Original Hot Blast which is now imitated by nearly every other stove manufacturer. Price \$12.00 and upward, according to size.

No other Heater Nearly as Good.

Moye's Pharmacy Gets New Medicine.

A New Remedy Called Digestit Found to Be Sure Relief for Indigestion and Stomach Disorders.

It Digests Food That Stomachs Cannot

A Limited Supply of Full Size Packages Will Be Supplied Without Cost to Prove Its Wonderful Merit

Moye's Pharmacy as well as all other first-class pharmacies throughout the country have been supplied with the new remedy for stomach disorders—called DIGESTIT.

This new medicine has been found to be sure relief for the distressing symptoms of indigestion and dyspepsia. It will digest food in a remarkably short time.

Special arrangements have been made with the makers of this new

remedy whereby they propose to prove its wonderful merit—A limited number of full size packages will be supplied without cost by Moye's Pharmacy that you may test it in your own case.

These packages will be given to the first ones calling, so if you are a victim of indigestion do not miss this opportunity to get relief, or if you are one of the many who enjoys a hearty meal, but do not indulge too freely fearing the after effects—that full un-

comfortable feeling, heartburn, belching or sour stomach, you surely will try this remarkable relief. Two or three tablets immediately after eating or when suffering will relieve almost instantly.

Digestit is a harmless medicine absolutely free from any dangerous or habit-forming drugs—it digests food in a natural way and tones the digestive organs to a healthful condition. It aids assimilation thereby giving nutrition to the famished body.

"Magnifique! C'est le Café de notre cher Paris!"

("Magnificent! It is the coffee of our beloved Paris!")

It is interesting to hear the comments of the French visitors from Paris as they drink, for the first time, the famous coffee of the old French Market in New Orleans. Austrians from Vienna also go into raptures over it. Because only in Paris or Vienna can be found the equal of this world-renowned coffee. It is richly aromatic, delightfully fragrant; so different from ordinary American blends.

For over a hundred years

French Market Coffee

could be had nowhere in America but at the French Market. But NOW you all may serve it daily at your own table. For the old French blend is perpetuated by

The Same Unique Hygienic Roasting Process

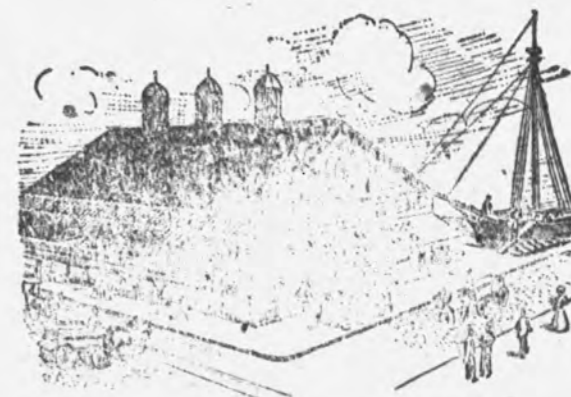

and French Market Coffee is now delivered everywhere in hermetically-sealed tins.

"There is only one real old French Market flavor"—only one coffee with a history.

Get it from your grocer—today

French Market Coffee is blended, roasted and packed only by the

NOTICE

To The Water and Light Customers.

At a regular meeting of the Water and Light Commission, held October 3rd, the following motion was made and carried:

"Moved that all counter sales not exceeding \$5.00 must be cash. Fixtures, motors, fans and other portable appliances, one-third cash, with installment note for balance."

Wiring, when done for anyone other than the owner of the property, shall be cash."

The term "counter sales" refers to lamps, fuse plugs, small repairs and anything that is usually sold from the office.

We have been obliged to adopt this policy with regard to our wiring and supply department to avoid keeping a considerable amount of money tied up in small accounts for long periods. The above rules will be in force on and after October 10, 1911.
