Entered at the post office at Greenville, N. C., as second class mail matter.

SATURDAY, OCTOBER 14, 1911.

When the notion takes them, they do some more fighting down in Mexico.

To get Greenville united and the folks with hands joined for progress, is something The Reflector hopes to see come around.

They must have pulled the wires this time, when the United States district court in Ohio rendered a decree against the General Electric company for violating the anti-trust law. The court ordered a dissolution of all subsidiaries to the company.

The Wilmington Dispatch covers a long stretch of history in this issue: "Today 119 years ago this country belonged to a lot of Indians, but now it is owned by a few savages." And it might be added that the savages are more blood-thirsty than the Indians.

W. O. Saunders, editor of the we've forgotten the name of the paper—at Elizabeth City, was convicted in the Federal court there of using the mail for the dissemination of indecent literature. In imposing a fine of \$100 Judge Connor lectured the editor and warned him that to commit the offense again would bring severe punishment, and added "that he hoped that the people of this section would not endure a repetition of this offense against decency."

The ladies of the Civic League are moving to have a "clean up" day for Greenville, and the call which they make setting apart Saturday, 21st, as this day, should meet a response from every citizen of the town. Nothing makes a town look better than to be clean, to say nothing of the better advantages to health that cleanliness brings. Let everybody clean up their trash and rubbish about their premises on the day suggested, and then keep them clean afterward.

We are glad to see the public school teachers of the county again, and extend them a cordial welcome upon the first meeting of their county association for the current school year. Pitt county has a noble band of teachers, both native and adopted, and they show their interest in their work by giving hearty co-operation to the teachers' association for their help and advancement. Heretofore they have made the Pitt County Teachers' Association the best in the state, and we believe they will keep it at the head of the list this year.

The Reflector wants to express its approval of the plan now on foot to change Carolina club from a purely social organization into one for both social and commercial advancement.

## ROYAL BAKING POWDER

*Absolutely Pure*

**Economizes Butter, Flour, Eggs; makes the food more appetizing and wholesome**

The only Baking Powder made from Royal Grape Cream of Tartar

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, Etc. Take Hall's Family Pills for constipation.

Carolina club has done much good in its day, but lately has had no fixed purpose in view and for want of something to do was going backward. What Greenville needs is a live progressive business men's organization that will consider not only the social pleasure of its members, but the commercial and business advancement of the town as well. This proposed re-organization of Carolina club presents an opportunity of unifying the business interests of the town and doing something.

### When Will We Have Good Roads?

For many years now we have been trying our very best to impress upon our readers the fact that good roads pay—that it costs more to haul over bad roads than it does to build good ones. We are glad to feel, too, that our work along this line has not been in vain. Never before has the South had so many good roads built and never before has there been so much real interest in better roads or so just an appreciation of their value. County after county, township after township, have fallen in line, and macadam, gravel, sand-clay, plain earth roads have become more general and of better quality year by year. We are proud to have done even a little to help bring this about, and we are far from being discouraged by the fact that most of our roads are still pretty bad, and that most of our road laws are sadly out of date. We feel sure that the time is rapidly approaching when good roads will be the rule. It will be here just as soon as the farmers fully realize what the present bad roads cost. And every year more and more of them are realizing that the people who have to travel over bad roads pay far more for that privilege than do those who haul over good roads. If you doubt this, it is because you have not looked closely into the matter.—The Progressive Farmer.

### MRS. MCGILL BROKE DOWN Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good. One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more. Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

# Free Treatment for Hookworm Disease

ADULT HOOKWORM, AS IT APPEARS UNDER THE MICROSCOPE.

The State Board of Health, acting with the Commissioners of Pitt County, have arranged to establish temporary dispensaries for diagnosis and **FREE TREATMENT OF HOOKWORM DISEASE.** Those dispensaries will be open between the hours of 9:30 a. m. and 3:30 p. m., at the following places:

**BETHEL, Tuesday, October 24, 31; November 7, 14, 21.**  
**FARMVILLE, Wednesday, October 25; November 1, 8, 15, 22.**  
**GRIMESLAND, Thursday, October 26; November 2, 9, 16, 23.**  
**GRIFTON, Friday, October 20, 27; November 3, 10, 17, 24.**  
**GREENVILLE, Saturday, October 21, 28; November 4, 11, 18, 25.**

Dr. C. F. Strosnider, Hookworm Specialist, will be in charge of the dispensaries, assisted by a trained microscopist. There will be lectures on Hookworm Disease and rural sanitation daily, and you can see the chief cause of ground-itch through the microscope by asking the man in charge. You can get pamphlet on Hookworm Disease, Flies, Malaria and Typhoid Fever, and the Sanitary privy **FREE!** at the dispensary.

## REMEMBER

That if you have had ground-itch or dew poison within the past ten years, you should suspect Hookworm Disease. That we have found that more than half of the people have Hookworm Disease. The satisfaction of knowing that you do not have Hookworm Disease will repay you for the time you invest. To be examined we ask that you bring on your first visit, a small amount of your bowel action in a tin box for microscopical examination. But few people are cured by taking less than three treatments. That we give but one treatment at a time, and that the treatments are taken one week apart.

Visit the dispensaries on the dates named and see for yourself what is being done. It may mean the saving of life, as well as many dollars to yourself or your child. We are interested in the health of your family. Are you? If so, take advantage of this vital opportunity.

Everybody should come. Take advantage of this opportunity while it lasts and see if you have any of these diseases. If you have, medicines will be given you that will bring about a wonderful change in both your feeling and your health. Instead of being a tired, indolent and despondent kind of man you will be changed into one with a bright and active body and mind who goes about his work with a rush and a vim, always finding pleasure in everything. **FREE!** Remember these Medical Dispensaries will be in Pitt County but six weeks. Each one only open one day in the week.

This is a family that became infected with Hookworm Disease, and as a result lost out in the battle with the world and had to ask the County for aid. Treatment will restore them to health and strength in a short time and they will become taxpayers instead of depending on the county to support them. There are many others just as bad in this county and they should seek treatment. They owe it to themselves, their families, their county and State. Those who are not treated continue to carry the infection and give it to others. This is not the kind of liberty a good citizen should want. (Pridgen.)

## A Victim of Hookworm Described His Feelings

### "HIS FEELINGS."

"I feel tired all the time almost, and get tired very easily, and have little or no energy. My spirits are low almost all the time. I feel full after eating. My memory is poor.

"I feel that I am getting weaker. I have a disgust for fatty foods. I prefer being alone rather than to be in company with others. I have no desire even to converse tete-a-tete with the ladies. After taking a walk I feel broken down and tired all over, feel more like lying down than anything else. It tires me very much to stand any length of time. In the morning when getting up I feel tired and broken down also. Under these conditions I am not able to do justice to my work."

(The patient describing his symptoms above is a male, age 19, and weighed 145 pounds. He was raised on a farm, had a ravenous appetite, was restless at night and often dreamed. He had had three or four attacks of ground-itch, one of them lasting eight months.—W. S. R.)

## IT IS ABSOLUTELY FREE

Will not cost you one cent. The dates and places that these Dispensaries will be but for six weeks. Each one open but one day in the week.

Remember that nearly one-half of the people of all ages have this disease. You are probably among the half that have it. Come and find out anyway.

## HOW TO TELL WHEN YOU HAVE HOOKWORM DISEASE

Dr. Strosnider gives Symptoms—Says 55 to 80 per cent. of people under 25 who have ever gone barefooted have this Disease.

Should an individual have a mild case, he would present mild symptoms and no signs, but should he possess a medium or severe case, both the signs and symptoms would be well marked. Hence, the signs and symptoms depend upon the severity of the infection and the individual's power to make and replace the blood lost and destroyed by these blood-sucking parasites.

The first symptoms or sign is ground-itch, toe-itch, cow-itch or dew poison, when the infection is gotten through the skin, or a sore throat, slight bronchitis with cough and paleness, when the infection is gotten via the mouth by eating vegetables grown on polluted soils.

At first the individual complains of a severe itching and burning sensation, then in a few hours the place where the tiny worms entered the skin becomes red, and in about eighteen hours a few watery blisters make their appearance, which soon rupture and leave a raw surface. The foot often becomes swollen in about twenty-four hours. Again watery blisters may not appear, but in their stead a small vine-shaped swelling may be seen gradually extending up side across the bottom or over the top of the foot, the same itching intensely so much so that much sleep is lost as a result of the condition. I have often seen children bury their feet in the hot sand to get relief.

This is one of the most common, most suggestive, and the most constant signs and symptoms of the disease.

A sore throat, slight cough, paleness, loss of appetite for a few days or a chill and fever called a "billious attack", are as a rule, the next symptoms observed. If the infection be severe the individual rapidly becomes pale, weak, loses weight and soon becomes incapacitated for work. This is known as an acute case.

If the individual has ground-itch several times in one summer or is infected for several successive summers, or is not cured from first attack, he is known to have a chronic case, which, as a rule, presents many of the following symptoms:

The skin presents a tallow, tan or pasty appearance; seldom sweats, and in young men the beard is slow in appearing. Often have ulcers on lower extremities. Wounds heal slowly and bleeding is very difficult to arrest on account of hookworm poison destroying the coagulating properties of the blood.

This disease frequently causes dwarfing, both mentally and physically. It is not uncommon to find an undersized boy or girl, man or woman, as a result of this disease. I have observed quite a number of children fifteen years of age, who in both size and mental development appeared to be about ten years of age. An individual suffering with this disease frequently complains with pains in the chest and joint pains in elbows shoulder or knee. They tire out easily, become short of breath on the slightest exertion and suffer with dizziness, nausea, or vomiting at frequent intervals. Men and women often put in the day, but only do from half to three-quarter of a day's work as a result of weakness. Stupidity in appearance and in work, with lack of attention to details and an attitude of indifference frequently attracts the attention of the observer.

Many children either take no part in games at school or if they do, very little enthusiasm is manifested.

In many cases children suffering with medium or severe cases of this disease make poor progress in their school work, many repeat some branches, others repeat the year's work, while others keep up with their work but when night comes they are exhausted and nervous. It is in the latter class of cases that you frequently find young men and women completing their high school work in a nervous breakdown or having to give up their college work in the first or second year on account of poor health.

Palpitation of the heart and indigestion with night terrors are frequently noted.

Appetite may be increased or decreased; abnormal appetite for clay, chalk, paper, lead pencils, wood, bark, salt, coffee grounds, charcoal and thread is frequently observed in medium and severe cases.

Weakness, paleness, nervousness, night blindness and defective eyesight with diseased throats can be explained by the blood becoming thin. That is, instead of our blood containing 90-100 per cent. of red coloring material, this disease frequently reduces the same down to 60 or some times as low as 10 per cent. of the normal. The average cases possess from 40 to 60 per cent. This means, that the man or woman, boy or girl, is only getting from 40 to 60 per cent. of air and nourishment to give them strength and to cause growth and development of the youth. It is our blood which carries nourishment to every part of the body; it is our blood which keeps the disease germs from overpowering our

body; and, it is our blood, our best friend, our fort and army of defense, and our very keynote to health, that the hookworm destroys in one of three ways; first, by holding fast to the inside of our small bowel and sucking blood all the time; second, by a continuous oozing from places where they hold fast or let loose; third, by a poisonous substance being injected into our system which destroys more blood than they use. This disease is on the principle of having a small vessel cut and then take no steps to arrest the blood flow, but with an attitude of indifference allow our heart to gradually pump our very life blood from our body to be replaced by water, and the redness of our cheeks be replaced by pallor.

When you stop to think, and then to realize that from 55 to 80 per cent. of the children and young people under twenty-five years of age who have gone barefooted in the Eastern part of North Carolina, are suffering with this disease, and in hundreds of instances with other diseases as a result of the weakening effects of this disease, it is time for every parent to make a study of the disease, have their children (and themselves if any symptoms present) examined by their family physician or the State Board of Health, and if the disease exists have treatment administered until cured.

Hookworm Disease attacks the youth and weakens their constitution to such an extent as to make them quite receptive to such dreaded diseases as consumption, typhoid fever, pneumonia, appendicitis, diphtheria and scarlet fever.

This is an actual photograph of a case of ground-itch. Note the little worms crawling through the skin. They are fifty times too small to see at this time but are very active. If you have had ground-itch you may have had hookworms. We can also get infected by eating strawberries, fruit or vegetables that are uncooked or unpeeled. Keep the children shod to prevent this infection.

The above cut with the footnotes give a picture of the infection by hookworm. The cause, mode of infection and results. The cuts inserted here tell even a more wonderful story. The cause of this and other infections lies in the use of open closets or no closets at all. Whether you have any "ailments" or not, come to the dispensaries and be examined. It won't cost you anything and you will feel better for it. Build sanitary closets on your premises and don't go barefooted for a year and the worms will die out in the soil if your neighbor doesn't bring them to you. Get him to take treatment and to use sanitary closets also and we will soon be rid of this scourge.

Friends have acted for you and brought this opportunity to your door, now act for yourself and accept it before it is too late.

Full of pathos, full of interest, is the scene at the hookworm dispensaries. One never realizes the number of children and even men whose lives have been blighted, whose minds and bodies have been stunted by this miserable disease, until he sees the number who come eagerly and hopefully to the "Hookworm Doctor" for treatment. They come in large numbers, boys and girls of 18 years, who have the appearance of 12 years. Their faces colorless, lifeless, unambitious. Hoping against hope, they come for something that will bring life into their limbs, red blood into their veins, and strength to their bodies. Does any one doubt this? Let him spend the day at the dispensary or even pay it a short visit.

It is a good sign that our people have made haste to take advantage of the treatment. It is good that there are so few scoffers, so few who are sceptical. It is true, that there are some few who have the same attitude of the old farmer who went to the circus for the first time. He was an extreme sceptic and his credulity received almost more shocks than it could stand. He saw so many things that were strange and the existence of which he had always doubted that when he saw the giraffe he was struck dumb with the consciousness that there was such a "critter". He walked around the animal and finally in an awed tone said "there ain't no such a thing". But these are in a small minority for the dispensaries have more patients than they can handle. And splendid results have already been obtained. Some of the patients have received benefits that were never dreamed of. Boys, who with sickly frames and devoid of energy, have been unable to work at all, have been enabled to do a man's work and feel as new beings already.—Sampson Democrat, Clinton, N. C.

## Social and Personal

D. J. Whichard, Jr. Reporter

Mr. J. T. Timberlake left this morning for Farmville.

Mr. J. F. Stokes spent this morning in Farmville.

Messrs. C. B. Barnhill, Lester Savage and J. B. Kittrell spent Friday night in Wilson.

Mr. J. L. Evans returned this morning from Charlotte.

Mr. Joe Anderson left this morning for New Bern.

Mr. F. S. Langley left this morning for Cincinnati and will return Wednesday to resume his duties as auctioneer at the Liberty warehouse.

County Supt. W. H. Ragsdale held an examination of teachers Thursday and Friday.

Messrs. H. G. Sparrow and L. A. Squires, of Washington, proprietors of the Gaiety theatre, spent last night here.

Mrs. Bascom Hoskins, of High Point who has been visiting Miss Hennie Ragsdale, returned home this morning.

Miss Nannie Bowling left this morning for Buffalo Springs, Va., to attend the marriage of a relative.

Col. and Mrs. F. G. James and Mr. Charlie James returned last night from Greenville, Tenn., where they went to attend the marriage of Mr. J. B. James and Miss Lucy Brown. Miss Lucy Goodwin, of Philadelphia, who had been attending the marriage, came home with them for a visit here.

Lieut. Com. Lyman A. Cotten, U. S. N., navigating officer on the flag ship Connecticut, is visiting his parents, Mr. and Mrs. R. R. Cotten, at Cottondale.

Mr. D. J. Whichard, editor, and Mr. C. W. Hearne, foreman, left this morning for Greensboro to attend a meeting of employers and printers to be held in that city tonight with a view of inaugurating a printers' cost congress for North Carolina.

Rev. H. C. Boblitt, who has been conducting a series of revival services in the Christian church here for the past ten days, closed the meeting last night and left this morning for his home in Rocky Mount.

Miss Mildred Carr Entertains.

On Friday evening from eight to eleven, Miss Mildred Carr delightfully entertained a number of friends at

her home on Greene street.

When the guests arrived they were welcomed by the hostess, assisted by Mr. Willis Fleming, and were served fruit punch by Miss Ernestine Forbes and Mr. Whit Brown.

The game of the evening was hearts and Mr. Sherwood Ragsdale, making the highest score, received the prize, a beautiful box of Huyler's candy.

When the game was over delicious refreshments were served.

### AT THE CHURCHES.

Where You can Worship Tomorrow in Greenville.

**Baptist.**—Rev. C. M. Rock, pastor Sunday school, Baraca and Philathea classes meet at 9:45 a. m. Preaching at 11 a. m. and 7:15 p. m.

# DANDRUFF

Read what a prominent North Carolina physician writes regarding the great Dandruff Cure—

## TO-BAC-TON

"I have been affected with dandruff for just ten years and have tried various remedies for same, but found nothing that would cure it. After using TO-BAC-TON for one month am entirely relieved of trouble. I heartily recommend this remedy to anyone affected with same disease."  
"W. C. LINVILLE, M. D., Winston-Salem, N. C."

This is only one of many letters praising TO-BAC-TON, "The Greatest of All Hair Tonics." If you are suffering with Dandruff, if your hair is falling out or your scalp giving you trouble, use TO-BAC-TON.

Different from any other hair tonic—it contains no alcohol or grease, which is injurious to the scalp. It is principally made from the juice of the tobacco leaf, which is recognized by physicians as the most effective germicide. TO-BAC-TON is delightfully perfumed. The ingredients are stimulating and healthful. This wonderful Hair Tonic prevents Baldness, cures Dandruff, all diseases of scalp and makes beautiful, luxuriant hair.

Get a bottle today at your drug store or ask your barber to give you a TO-BAC-TON application. You can't lose a cent because TO-BAC-TON is guaranteed to give satisfaction.

For Sale at All Drug Stores at 25c, 50c or \$1.00 Bottles.

FREE! Our booklet, "The Indian Weed." It tells you all about the care of the hair.

TO-BAC-TON MANUFACTURING COMPANY, Winston-Salem, N. C.

Call.

The Civic League met at the home of Mrs. T. A. Person Thursday afternoon.

A very interesting letter was read from Mrs. R. R. Cotten, also a communication from the mayor and board of aldermen, granting their hearty co-operation in anything the league desires that lies in their power.

The league now issues a call to every property and lease owner in the town to please clean their premises thoroughly on Saturday, October 21. Get rid of every can, bottle, all paper and rubbish of any kind. The town carts will take this away on Monday, the 23, the usual day of removing trash.

We further ask the school children to help in this work. No league can do good work without the school children's support.

We were glad to have with us at this meeting Mrs. Meade, of Danville, Va., who made an interesting talk of league work in that city.

The next meeting will be held at the home of Mrs. Frank Wooten, on Thursday, October 26th.

PRESS REPORTER.

Many an innocent youth has taken a young widow by the hand and prattled of love, in a spirit of fun, only to find himself facing the parson with her later.

### CAN YOU ASK MORE?

Your Money Back For the Asking. You Promise Nothing.

We are so confident that we can furnish relief for indigestion and dyspepsia that we promise to supply the medicine free of all cost to every one who uses it according to directions who is not perfectly satisfied with the results. We exact no promises and put no one under any obligation whatever. Surely nothing could be fairer. We are located right here where you live, and our reputation should be sufficient assurance of the genuineness of our offer.

We want every one who is troubled with indigestion or dyspepsia in any form to come to our store and buy a box of Rexall Dyspepsia Tablets. Take them home, and give them a reasonable trial, according to directions. If they don't please you, tell us and we will quickly return your money. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity. Threesizes, 25c., 50c., and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store, Moye's Pharmacy, Greenville, N. C.

## This is the Coffee Andrew Jackson Liked so Well

ANDREW JACKSON

After his brilliant victory at Chalmette in 1815, Andrew Jackson led his troops past the old French Market in New Orleans and treated the officers and men to fresh, hot *French Market Coffee*. And in 1843, Henry Clay—at the conclusion of his eloquent speech at the great banquet in his honor—slipped away, with his friends, to the old French Market for a cup of the same famous beverage. Then you could get

## French Market Coffee

nowhere in America except at the old French Market in New Orleans. But NOW you all may serve it—daily—on your own tables. For the old French Market blend is perpetuated by

The Same Unique Hygienic Roasting Process and we deliver genuine French Market Coffee everywhere in hermetically sealed cans. It reaches you fresh from the mill with all its enticing aroma and delicious flavor. "There is only one real old French Market flavor"—only one coffee with a history. Get it from your grocer.

But be sure it is the genuine French Market Coffee—packed only at the

### TEXAS STATE FAIR OPENS.

Largest Exhibition of Its Kind in the Southwest.

DALLAS, Texas, Oct. 14.—The twenty-sixth annual Texas State fair, the largest exhibition of its kind in the southwest, opened today for two weeks' business. The feature of the opening exercises was an address by Governor Colquitt. Attractive displays fill every department of the exhibition this year and especial attention has been paid also to the amusement features. Special days will be observed throughout the two-week period of the fair and numerous organizations will take advantage of the reduced rates to hold their state conventions here.

### READY FOR GIBBONS' JUBILEE

WEEK OF IMPORTANT EVENTS.

The Cardinal Will Officiate at the Pontifical Mass.

BALTIMORE, Md., Oct. 14.—Baltimore is overflowing with ecclesiastics of all degrees and Catholic lay pilgrims from throughout the United States, Canada and Mexico, have arrived to take part in the splendid ceremony at the cathedral tomorrow to usher in the celebration of the golden jubilee of Cardinal Gibbons as a priest, and his silver jubilee as a cardinal. The celebration will be of a very ceremonious character and as much will eclipse in brilliance the civil celebration of last June, which in itself was the most extraordinary demonstration of love, respect and veneration that has ever been paid to a prelate of the American Catholic church.

The venerable Cardinal will officiate at the pontifical mass in the cathedral tomorrow morning. The jubilee sermon will be preached by Archbishop Glennon, of St. Louis. Archbishop Falconi, the apostolic delegate at Washington, will be present in the sanctuary, together with archbishops and bishops from all parts of America. After the cathedral services dinner will be served at St. Mary's Seminary, at which the governor of Maryland, the mayor of Baltimore and other distinguished laymen will be among the guests. In the evening at 8 o'clock, the sermon will be preached by Archbishop Blenk, of New Orleans.

The entire week to come will be filled with important events in connection with the jubilee. Included among them will be the national convention of the Holy Name Society, a great street pageant, and receptions and ceremonies of various kinds.

Cardinal Gibbons, in honor of whom this great celebration is held, has had a remarkable and brilliant career. He was born in Baltimore, July 23, 1834, and served in succession in a mission at Canton, as secretary and chancellor of the archdiocese, bishop of North Carolina, later of Richmond, and in 1877 was made coadjutor to Archbishop Bayley, of Baltimore, succeeding him later in the same year. He was apostolic delegate to the plenary council in Baltimore in 1886, and after its adjournment was made a cardinal.

"Jones writes more foolish things than any other man I know."  
"What is he, a poet?"  
"No; congressional stenographer.—Latin.

"Have you anything to declare?" asked the customs inspector.  
"Only that I still love George," replied the bride with a blush.—Detroit Free Press.

### DON'T SUFFER WITH Rheumatism

It is the most distressing and discouraging of all troubles. Nine cases out of ten can be cured by Noah's Liniment. Where there is no swelling or fever a few applications will relieve you. It penetrates—does not evaporate like other remedies—requires little rubbing.

Noah's Liniment is the best remedy for Rheumatism, Sciatica, Lame Back, Stiff Joints and Muscles, Sore Throat, Colds, Strains, Sprains, Cuts, Bruises, Colic, Cramps, Neuralgia, Toothache, and all Nerve, Bone and Muscle Aches and Pains. The genuine has Noah's Ark on every package and looks like this cut, but has RED band on front of package and "Noah's Liniment" always in RED ink. Beware of imitations. Large bottle, 25 cents, and sold by all dealers in medicine. Guaranteed or money refunded by Noah Remedy Co., Inc., Richmond, Va.

### AT THE TRAINING SCHOOL.

Morning Talks By President Robert H. Wright.

To the Teachers of Pitt County:

I have thought for some time that one function of the Training school should be to help those who are engaged in teaching. The Training school has been established to help provide efficient teachers for our schools. It is here to help give prospective teachers training that will enable them to become efficient workers when they take up their life work, teaching. But it is to do more than that. Were we to bend our energies alone to help bring in trained recruits to the ranks of our profession our state would never have a corps of trained teachers. Should all the graduates from all the schools and colleges in our state become teachers, the increased demand for teachers due to the normal growth of our educational system, plus the number who go out of the work yearly, could not be met. In other words, if North Carolina is ever to have trained teachers something must be done for those in the profession. To meet this demand we have offered our spring and summer course. It is indeed gratifying to us that these courses have been so well attended.

If the teacher, trained or untrained, wishes to keep abreast of the times, she must, while teaching, carry on some line of study. This study should be well planned and conscientiously carried out if it is to be of any real benefit. Our state department of education realizes this and has established the Reading Circle as a means of encouraging this self-improvement. Furthermore, while one is in the work many problems arise that she would like to hear discussed. If several of us could meet occasionally and discuss our problems we would receive much mutual benefit. Again, our problem is never so vivid to us as while we are attempting to solve it. In some united study we get suggestions, new ideas, new thoughts; and if we get these while we are teaching we can try them out and see if they can be applied to our individual problems. If it could be arranged that each teacher could, while teaching, take a course of study along the line she is most interested or along the line she needs the most help, then we would find that our teachers would get the greatest gain for the amount of study expended.

Since we teach on Saturday, I have taken up with our faculty, the advisability of offering the following courses to be given on Saturdays: Pedagogy, Primary Methods, Drawing, Music, Manual Training, Hygiene and Sanitation, and I am glad that I can say to you that every member of our faculty thinks it would be a good thing to do, provided, there are enough teachers willing to undertake the work.

We stand ready, fellow teachers, to be of any and every service to you we possibly can. If there is any other cause we could give that would help you we will take pleasure in giving it. We are here "to serve" as our school motto indicates. It is not our idea to give a set of lectures to those who wish to come semi-occasionally, but to plan out in each subject taken a definite line of work that will be constructive, practical and at all times, helpful. If there is a demand for any of this work it is our idea to form a class and do some consecutive work. Take Pedagogy for example. The Reading Circle has decided to make a real study of How to Study and Teaching How to Study. We could take that book as a basis for our work and spend one period a week for this year to much advantage. Or, we could take up some other line of work in Pedagogy. There would be no charge for tuition and no fees for any of this work. It would cost your time, traveling expenses, books and stationery only. We hope you all will realize we are here to help you and that we are only too willing to be of some service. We are always glad to have you visit our school, and while with us to have you visit any of our classes.

"What will happen when women have the ballot?"

"I expect there will be a big rush among the young men to get out the good-looking vote."—Louisville Courier Journal.
