UNDERWOODS' BACKING

WILLIAM ROCKEFELLOW FOR THE ALABAMIAN

MEANS ALSO STANDARD OIL

Announcement of This Causes Little Surprise in the Various Political Circles

WASHINGTON, D. C., April 1.—When William Rockefeller, brother of John D. Rockefeller and the real active directing and financial head of the Standard Oil Company, declared in favor of the nomination of Oscar W. Underwood as the Democratic nominee for the presidency, there was little surprise in political and legislative circles in Washington. That the active and militant head of the Standard Oil Company trust should express his preference for Mr. Underwood was in the nature of the very fitness of things. Mr. Rockefeller is a life-long member of the Republican party who has never voted for a Democrat; but this fact did not embarrass him in the least in declaring that Mr. Underwood is his choice for the presidency of the United States. Mr. Rockefeller's declaration in favor of the Alabamian was no haphazard remark, but was furnished to the Associated Press and carried by wire to its thousands of clients in every state in the union. The Associated Press telegram, which better than anything else, reveals the true Underwood candidacy is given herewith:

"SAVANNAH, Ga., March 3.—William Rockefeller, in an interview today, stated that of the men most prominently mentioned for the presidential nomination, either Democrat or Republican, he favored Majority Leader Underwood of the house of representatives. His second choice is President Taft."

NEGRESS CONFESSES CRIME

HAS KILLED THIRTY PEOPLE

COUNTY TERRORIZED BY SERIES OF CRIMES COMMITTED WITH AN AX

LAFAYETTE, La., April 2.—Officials in LaFayette and three other Louisiana towns tonight are searching for evidence corroborative of the sensational confession made today by the young negress, Clementine Barnabet, of participation in the wholesale "axe" murders, which have startled this section.

Seven negro families, a total of thirty-five persons, have met death by mysterious midnight assassins, in each case armed with an axe, in Southwest Louisiana towns and in Texas within the past fourteen months. Clementine Barnabet, nineteen years today confessed that she was the principal in annihilating four of these families, with a total of seventeen persons. She said other families had been marked for death and would pay the "sacrifice".

The grand jury's in session but is not expected to return indictments in the axe murder cases until after the authorities have had opportunity to investigate details of the girl's story. By some of the officials her confession is disclaimed and regarded as the vaporings of a demented person. There were five members of the "gang," two other women and two men, according to the Barnabet girl's story. She gave the names of the two other women but declined to tell who the male members of the gang were. The names of the two women are unknown to the local authorities but a systematic search is to be made in the towns where the murders occurred.

Serious Conditions Exist In The Mississippi Valley

Levees up to Last Night Held the Greatest Volume of Water Ever Known. Waters Still Growing.

Farmers Along Innundated Districts Desert Homes

Two hundred miles of levees late Tuesday night had held the greatest volume of water known in Mississippi river history. Early spring freshets, due to heavy rainfall on watersheds of the Ohio, Tennessee and Cumberland rivers, caused the rivers to rise. The crest is not in sight, an average rise of about two feet being yet expected in the district between the vicinity of Hickman, Ky., and Hlena, Ark.

"Fory four feet or higher," is the prediction in Memphis, Tenn., where several hundreds persons were driven from their homes when a small levee broke and where street car traffic is partly suspended, railroad service irregular and the gas plant threatened. The flood stage at Memphis is 35 feet. One of the two levees at Hickman, Ky., broke, rendering

2,000 persons homeless, throwing out of work several hundred men in the lower part of the town. The larger levee, protecting the main portion of Hickman, seems to be holding its own.

Farmers have abandoned their homes and removed their live stock to higher ground near the lowlands that would be flooded should the river force its way through the levees in parts of Kentucky, Mississippi, Missouri, and Arkansas.

Boats carry mails, government steamers and ferryboats are the only craft active on the river.

A special official warning says stages are likely at Cairo, Ill., of 54.5 Wednesday, 55.2 on Thursday and 56 feet on Friday of this week. The Cairo flood stage is 45 feet.

Dail, Jr., W. H. Long, and L. W. Tucker.

White Boy 14 Years old Shoots Twice at Negro 300 Yards Away and Kills Him. Quarrel Over an Alleged Debt of 5 Cents.

GOLDSBORO, April 2.—Because he had not paid a nickel that a 14 year old boy claimed due him by an old negro, Ned Jones, living in Georgetown about one quarter of a mile from this city, was shot and instantly killed about 2:30 o'clock this afternoon by James Hill, it is alleged. The boy, it is said, stood at the corner of his own home, about 300 feet distant and using a small 22 caliber rifle, fired two shots at the old negro, who was seated on his porch talking to a negro woman. The second shot took effect and the boy threw down the gun and ran, being caught about one mile from the scene of the murder. The jury empaneled by Coroner C. E. Stanley, fixed the crime on Hill and a negro boy of 11 years Jim Evans, who was with him at the time. Both were placed in jail.

SCOTLAND NECK, April 2.—Yesterday morning just past midnight, Henry Cotten, a negro in company with one or two other negroes went to a negro woman's house and called out Tom Hawkins, a negro. When Hawkins went out he was attacked by the party, it is alleged, and having a gun he fired. The assault it is alleged was continued and he fired the second shot which took effect in Henry Cotten's abdomen.

About 5 o'clock in the afternoon Cotten died as a result of the wound and Hawkins was taken to Halifax and placed in jail to await an investigation by the grand jury.

CLAUDE KITCHIN DECLARES SO

REPORT CIRCULATED BY UNDERWOOD MEN QUICKLY DENIED BY BROTHER OF GOVERNOR.

WASHINGTON, D. C., April 2.—Underwood people are circulating tonight a statement purporting to be from Representative Claude Kitchin of North Carolina, endorsing Fiaar Leader Underwood's candidacy for the presidency.

When told of this late tonight Mr. Kitchin denied with emphasis that he had endorsed Underwood's candidacy.

"I said that Mr. Underwood would mag a great president," said Mr. Kitchin, "but by no means did I say that I thought he would make the best Democratic candidate, nor did I endorse his candidacy."

Although Mr. Kitchin, because of his close relationship with Mr. Underwood as a leading member of the Ways and Means Committee has been loth to come out in open opposition to the floor leader's candidacy he is put down confidentially as a supporter of Governor Woodrow Wilson and nothing has occurred up to this time to lead Governor Wilson's friends to believe that he has ceased to favor the New Jersey executive.

President Smyth, of Greenville S. C. Recommends Appointment of Committee on Rules

WASHINGTON, April 2.—Opposition to any radical or sudden change in the cotton schedule of the tariff law was voiced by Ellison A. Smyth of Greenville, S. C., president of the American Cootn Manufacturers association in his annual address at the opening session here today of the association's sixteenth annual convention.

"I do not pretend," he said, "that the tariff should not be changed in some respects, but I do claim that it should be changed only after thorough investigation. The majority of the manufacturers of this country, I believe, were gratified when President Taft vetoed the crudely prepared cotton goods tariff bill which had passed the last session of Congress.

"Southern manufacturers have been instrumental in securing investments of millions of dollars in southern cotton mills under existing conditions and present costs, which investments would be sedly jeopardized and impaired by radical and sudden changes in the tariff."

President Smyth recommended the appointment of a committee on rules for cotton buying, seeking some uniformity of action with manufacturers, north and south, and establishing rules that will be uniform, generally observed and alike fair to buyer and seller and providing for the settlement of disputes without recourse to the courts."

THE RATIONAL ANTS.

They Fight One Element.

The Rational Ants had been living peacefully enough. Goody-Goody enough. They had gone about their different callings in a business like manner and the majority of them had accumulated material comfort. Their solid homes and healthy epidermis spoke aloud of their wellfaring, as did all things material which made a setting for them.

The stage was ideal for the play. It was to be a drama; and the rational ants which were to be the actors laid luxuriously back in their Morris chairs blissfully unconscious of the artist's hand which had laid the scene of the performance.

To be sure a few of them who played on margin of the future had taken certain precautions against the happenings of certain events which had hung crepe on the door knobs of some of the other ant's dwellings and had further hastily closed certain books, leather bound and carefully inscribed volumes which the ants treasured in rooms of difficult access without the knowledge of the souls of several mechanical devices.

Unfortunately for the majority of rational ants, these few who dabbled in future margins were indeed a painful few and their purpose in meddling with the future was lost in the careless crowd for what was the use of wielding an inquisitive jimmy against the heavy lid of the coffer holding that which was to come? It was to some and the knowledge of its coming was apparently sufficient to the well to be ants.

Without an advance notice or even a preliminary chord the artist rung the curtain one night on the rational ants and routed them out of their dwellings at a time when the imagination cuts funny capers with common sense. They were asleep.

Some ants who were trying to keep pace with the owls were the first to notice lights on the stage and lost no time in passing the word, or shout, down the dormant aisles.

Some quickly and some slowly repaired to the scene in grotesque confusion. The play was on and it was, as above mentioned, a drama. The villain had already taken a big slice of his share and was ravenously making his way to the rest of it. The situation grew too strong for the ants and a confused attack upon the villain resulted.

On account of the bravery displayed by some of the ants—strange to say the very ones that had not made a mark for themselves in gathering the world's comforts—the villain was prevented from getting too near the heroine and the play ended with frolicsome gambols of the voluntary actors.

The gloomy ants, the ones who had gambled on futures, tried to create a run on their favorite bucket-shop but failed in interesting the other ones in their speculations. What was to come had done so and was

now history, as the wrecked theatre where the villain had shown such good fighting qualities stood as a witness for, and anyway, gambling on the future was not their way.

ANOTHER LEGAL FAILURE.

The trusts have nothing whatever on the Allens when it comes to eluding the law.

Trust after trust is driven to the legal mountains and the lawyer detectives make a circle around them. They call it a cordon, but godness knows why. A cordon of lawyers surrounding the trusts is just as effective as cotton on the other fellow's ears when you do not want to hear anything.

The ridiculous part of it all is that the government behaves in such cases after the style of the professional boxer. The eve of the battle "Kid So and So" is going to get "Kid Such and Such's" scalp to the queen's taste. The following night tables are turned. Yet when the defeated pugilist comes up again for another battle he does not neglect to make his neat little speech about conquering his opponent. The government does very much the same when setting after the trusts.

As a rule the sleuth and lawyers working for Uncle Sam gather enough evidence and evidence of such character that a trust victory seems to be as far off as Christmas on the 26th of December. Yet, inevitably, the lawyers for the trusts play rings around the prosecuting attorneys and Uncle Sam is made to bite the dust of defeat.

In Chicago recently the jury trying the meat packers acquitted them after a "stay out" of 19 hours. It is hard to tell what they inverted this time in. The jurors had very little to say after the banquet tendered them by he accused. Yet one thing was said that carries a great weight with it. Most, if not all, the evidence furnished by the trusts was in the manner of hundreds and hundreds of sheets, covered by figures. These appeared to the jurors as so many Chinese puzzles of diabolical complexion and undecipherable nature. No wonkier they refused to wade through those sheets.

The citizens trying the New York sugar refiners, had a great deal of evidence presented to them. Also of the puzzle variety and after hanging around the jury room for a while, agreed to disagree.

These same sugar people had another set to with the law not so very long ago. It was a case of fraud, pure and simple. Weighers and bosses were involved and Uncle Sam was victimized of many hundreds of thousands of dollars. Small men were convicted wholesale, but the real heads escaped.

They have escaped again and it would appear in that way, the people who are suffering through the restraints imposed upon by the trusts do not have enough energy for once, to come to an agreement and convict some of the big heads Uncle Sam tries so hard to land.

If the split log drag had been used just after the rains on Evans street south of Five Points, there would not now be so many deep cuts in the street. It takes attention to keep streets and roads in good condition.

The Democratic party has not had much bright prospects as to elect a president since the days of Cleveland in 1884.

When Mr. Roosevelt can't find anything else to jump on he takes a whack at the newspapers. But they are able to take care of themselves.

They get Sidna Allen "surrounded" almost every day, but when they close in he is not there.

On with the hotel and then something else.

Straw hats have blossomed in the store windows.

WITH OTHER EDITORS.

Sand-Clay Road's Good Name

Finding no little opposition to a proposed bond issue of \$200,000 for good roads in Cumberland County, The Fayetteville Index hastes into the breach with some assurances which the situation manifestly requires. Those who oppose the bond issue do so principally upon the ground that the money would be spent for sand-clay roads of their acquaintance are not good roads. The Index agrees that any one who judged the proposed condition by what he saw of roads in Cumberland County bearing this name would be well justified if he opposed the bonds. We are prepared to say, therefore, it declares, "that the proceeds of the proposed bond issue will not be used to build such sand-clay roads as those already built but a type of roads that has been tested and tried, and that the roads will be built under the direct supervision of an expert road engineer who knows and has made good in other places where permanently sand-clay roads have been constructed. Every mile of road built will have to come up to the standard. Almost anybody can build a sand-clay road, but only those who know the science of road-building and have plenty of experience can be counted upon to build a sand-clay road that will stand." Our contemporary then outlines some of the requisites for a good sand-clay road, including proper drainage, grading, mixture of sand and clay, packing, construction by layers, rounding, and possibly one or two besides. These conditions were not met in the building of the so called sand-clay roads which Cumberland County now has. Those roads, we gather, are of the sand-clay type only in the respect

that they contain clay and sand. They are not at all what the road engineer meant when he says "sand-clay road." Many people have supposed that everything necessary to make a sand-clay road was clay and sand. They overlooked the third and equally important essential, namely, experience and know-how. It is not enough to dump clay down in mud and roll the two. Such crude attention has given the sand-clay type of construction a bad name with people who were thereby misled. Others hearing of their failure, reached the same conclusion as they. We hope that Cumberland County will vote the proposed bonds for sand-clay roads, which would be thoroughly adapted to local conditions there and which would probably render better service than macadam at five or six times the cost.—Charlotte Chronicle.

Taxless Dogs.

"I wish," said a prominent business man yesterday, "that you would see if some step can't be taken in regard to the dogs that run loose on the streets of Raleigh. The license tax has not been paid on half of them and a great number seem to have no owners. The season of the year is coming when dogs are supposed to go mad. A number of mad dogs have been reported recently, and in my opinion, the authorities should use some measure to clear the city of the tramp dogs."

The speaker was right. Since the dog catcher has not been at work, the dogs seem to have multiplied rapidly, or at least the owners have become lax, not paying their tax and allowing the canines to roam at large.—Raleigh Evening Times.

Social and Personal

Unity.

Heart of my heart, the world is young;
Love lies hidden in every rose!
Every song that the skylark sung
Once we thought must come to a close;
Now we know the spirit of song,
Song that is merged in the chant
of the whole,
Hand in hand as we wander along,
What should we doubt of the years
that roll?

Heart of my heart, we cannot die!
Love triumphant in flower and tree,
Every life that laughs at the sky,
Tells us nothing can cease to be;
One, we are one with a song today,
One with the clover that scents
the world,
One with the unknown far away,
One with the stars, when earth
grows old.

Heart of my heart we are one with
the wind,
One with the clouds that are whirl-
ed over the sea,
One in many, O broken and blind,
Ay! when life seems scattered apart,
Darkens, ends as a tale that is
told,
One, we are one, O heart of my
heart,
One sail one, while the world
grows old.

—Alfred Noyes.

Sail to Inspect Victoria Lands.

SAN FRANCISCO, Cal., April 3.—About two hundred farmers, mostly from California and other states on the Pacific coast sailed from this port today on the steamer Tahiti for Australia to make a thorough inspection of the available irrigation lands of Victoria. The excursionists are in charge of Mr. William Cattanach, a member of the irrigation commission of Victoria, who came to the United States a few months ago, to promote the trade relations between Victoria, the United States and Canada and to induce competent agriculturists to settle upon the reclaimed lands of Victoria. According to his statement there are in Victoria about 1,000,000 acres of land which can be reclaimed for agricultural purposes and of these 150,000 acres are already under irrigation. The climate conditions are almost the same as those of lower California and the land is said to be especially well suited for the raising of fruit and vegetables and for dairying.

The Baracas of the M. E. Church gave a banquet at Hotel Ross, last Friday night.

Mr. J. J. B. Cox of Grifton died Sunday with pneumonia. He will be buried Tuesday by the side of his wife who preceded him only a few days. This is the last of the family of Mr. Cox, familiarly known as "Hunky John".

Mr. Hassie Corbett of Mycrow was in town Monday shaking hands and told us that his father-in-law had given him a nice farm near the town and he would build on it soon.

Mrs. Eugene Cannon left Monday for a visit to her sister, Mrs. Fenner Ange at Winston-Salem.

Mess J. J. Stokes and W. B. Quinerly have each purchased an automobile.

Mr. L. E. Fletcher and wife were on our market Monday. From the looks of their purchase you would think they were starting a new house keeping.

Cards are out announcing the marriage Mr. George Gardner of Grifton and Miss Phyllis Collins of Hanrahan.

When it comes to rabbits Ayden can rival Siler City. Mr. John Everett tells us he went hunting one evening last week and killed eleven rabbits and his dog caught three and his partner, Mr. Lewis Braxton, killed about as many as he did and then he could not miss them they were so plentiful.

For anything like hardware, be sure to see us. J. R. Smith and Bro. Mr. H. A. Hart of Maple Cypress was here Monday.

Mr. Watt Cox, of Fort Barnwell, was here Saturday and tells us the people in his section are badly behind in farm work.

There were more people here Saturday than we ever saw on an ordinary Saturday. Every one jolly and no one mad. We think our chamber of commerce must be getting busy.

Mr. John Corey of Greenville has accepted a position as trimmer in the carriage factory of Mr. L. L. Kittrell.

We regret to learn of the illness of Mr. E. E. Hardy near Ormondsville.

Horse clippers and blades, hand or machine, at J. R. Smith and Bro.

There was a large crowd at Roundtrees Sunday to hear Rev. John W. Tyndall, who held two services and the neighbors spread a bountiful dinner on the ground. All were fed and many baskets of remnants were gathered up. The good people around Bethany and Roundtrees are some of the salt of the earth.

We are glad to hear that Mr. Jon. A. Branch is improving so as to sit up a little.

There will be a tentertainment at the Seminary Friday night for the benefit of seating the auditorium.

Mr. Leonard Armstrong returned Friday from Albermarle sound and tells us they are having heavy run of shad and herrings that surpasses any catch in recent years.

New Type Of Destroyer

QUINCY, Mass., April 3.—The destroyer Henley, representing a type of torpedo-boat destroyer new to the American navy, was successfully launched today at the yard of the Fore River Shipbuilding Company. The Henley will be the first of the best destroyers fitted with both turbine and reciprocating engines. The reciprocating engine will be used for cruising at from ten to fifteen knots speed. When the vessel is to be run at a higher rate of speed the reciprocating engine will be cut off and turbines operated. The contract speed of the Henley is set at twenty nine knots an hour, but it is expected she will be able to make at least thirty one knots.

The Henley is named to commemorate the deeds of two brothers, John Dandridge Henley and Robert Henley. They were nephews of Morthy Washington and both distinguished officers in the early days of the American navy. John Henley commanded the Carolina, the vessel which so aided Andrew Jackson at New Orleans in breaking the force of the advance of the British army. Robert Henley served in the navy during the war of 1812 and particularly distinguished himself at the battle of Lake Champlain.

The Danger After Grip

lies often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of Grip. If suffering, try them. Only 50 cents. Sold and perfect satisfaction guaranteed by all druggists.

BASEBALL NOTES.

Since the season of 1903 no less than forty-nine men have managed clubs in the American and National Leagues. Some of these men have drifted from one club to another in the same circuit, and have occasionally transferred their operations to the other league. The clubs, the managers and the order of their succession follow:

National League—New York, John McGraw; Chicago, Frank Sales, Frank Chance; Pittsburgh, Fred Clarke; Philadelphia, Charley Zimmer, Hugh Duffy, Billy Murray, Charley Dooin; St. Louis, Patsy Donovan, Charley Nichols, Jimmy Burke, John McCloskey, Roger Bresnahan; Cincinnati, Joseph Kelly, Ned Hanlon, John Ganzel, Clark Griffith, Hank O'Day; Brooklyn, Ned Hanlon, Patsy Donovan, Harry Lumley, Bill Dahlen; Boston, Al Buckenberger, Fred Tenney, Joe Kelly, Frank Bowerman, Harry Smith, Fred Lake, Fred Tenney, John Kling.

American League—Philadelphia, C. Mack; Detroit, Ed Barrows, Bill Armour, George Stallings, Hughie Jennings; Cleveland, Bill Armour, Nap Lajoie, Jim McGuire, George Stovall, George Davis; Boston, Jimmy Collins, Chick Stahl, Bob Unglaub, George Huff, Jim McGuire, Fred Lake, Patsy Donovan, Jake Stahl; Chicago, Clark Griffith, Jimmy Callahan, Fielder F. Jones, Billy Sullivan, Hugh Duffy, Jimmy Callahan; New York, Clark Griffith, Norman Eberfeld, George L. Stallings, Hal Chase, Harry Wolverton, Washington, Tom Loftus, Jake Stahl, Joe Cantillon, Jim McAleer, Clark Griffith; St. Louis, Jim McAleer, Jack O'Connor, Rhody Wallace.

According to reports from the Washington training camp Pitcher Thomas Hughes' injured hand is as good as ever.

Manager Hank O'Day of the Cincinnati team, has decided to cut out Sunday exhibition games for the Reds while in the east this season.

Steinfeldt or Smith will play third base for the St. Louis cardinals in case Mike Mowry falls to repart. Mike is holding out for more coin.

Manager McGraw of the Giants says that there is no chance for any of his new men, even the pitchers, to make the first string outfit on the team this year.

The girls of Los Angeles are willing to elect Manager Hen Berry to any office he desires, since Hen announced that ladies will be admitted free to the Los Angeles park every day except Saturday and Sunday.

Rumor has it that Hank Perry, now with the Detroit Tigers, will be sent back to the Providence club. Perry headed the International league in batting last year and was considered one of the finds of the season.

A new pitcher, "Lefty" Kellogg, has joined the Pittsburgh Pirates. Kellogg is six feet three inches tall and built in proportion, weighing now 208 pounds. He has been pitching in the Panama Canal Zone for about a year and a half.

During the recent damp spell the youngsters with the Cubs, "with nothing to do until tomorrow," rolled so many cigarettes, according to Manager Chance, that he was compelled to "call" them. The Peerless Leader allows the veterans to do as they please, but the infants have to behave.

Buffalo has made the White Sox an offer for "Lena" Blackburne, but if he goes out of the big league the chances are that he will land with Hugh Duffy's Milwaukee team. Blackburne cost the White Sox \$11,000 two years ago, but he has never been able to catch the step with Comiskey's crew.

MADAME RACHELLE'S ADVICE TO BEAUTY SEEKERS

Miss M.—For falling hair due to dry, tight scalp, massage scalp every night using a little crude oil or plain vasoline on tips of fingers and rubbing well in. Wash hair not oftener than every two weeks, using some good, mild soap and rinsing thoroughly before drying.

Miss R. T. M.—Freckles are caused by excess of iron in the skin pigments. They may be faded out completely by a few weeks' treatment with a scientific preparation known as Wilson's Freckle Cream. This is entirely harmless and a fine general complexion beautifier. You may obtain it at any drug store at 50c the jar, or direct from the Wilson Freckle Cream Co., Charleston, S. C. Wilson's Freckle Cream is sold by Moye's Pharmacy, Greenville, N. C.

AVOID HARSH DRUGS.

Many Cathartics Tend to Cause Injury
to the Bowels.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall Orderlies. These are prompt, soothing, and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages 12 tablets, 30 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember, you can obtain them only at our store—The Rexall Store, Moye's Pharmacy, Greenville, N. C.

Almost a Miracle.

One of them ost startling changes ever seen in any man, according to W. B. Holsaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all of our family thought he was going into the consumption, but he began to use Dr. King's New Discovery and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for coughs and colds with excellent results." It's quick, safe and reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at all druggists.

JUDGE FOR YOURSELF.

Which is Better—Try an Experiment
or Profit by a Greenville Citizen's Experience.

Something new is an experiment. Must be proved to be as represented. The statement of a manufacturer is not convincing proof of the merit.

But the endorsement of friends is. Now supposing you had a bad back, A lame weak craching one, Would you experiment with it? You will read os many so-called cures.

Endorsed by strangers from far-away places. It's different when the endorsement comes from home.

Easy to prove local testimony. Home endorsement is the proof that backs every box of Doan's Kidney Pills.

Read this case: James Long, Dickinson avenue, Greenville, N. C., says: "I am certain that Doan's Kidney Pills are a remedy of merit and I do not hesitate to recommend them." When I was suffering from backache, pains in my kidney's and other symptoms of kidney and bladder trouble, I got a supply of Doan's Kidney Pills from the John L. Wooten Drug Co. It did not take them long to bring me relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
