Taft Says He Will Be Nominated

Back in White House After Ohio Disaster President Ready to Invade New Jersey

TAFTS' CABINET HAS REVIEWED POLITICAL SITUATION

WASHINGTON, May 22.—Claiming 570 delegates to the Chicago convention or 30 more than enough to assure him the nomination, President Taft, in a statement today declared he was going into New Jersey to make assurance doubly sure. He will leave Washington for Philadelphia at 7 o'clock tomorrow morning, and make his first political speech at Camden in the evening.

The president's statement was issued after a day of activity at the White House. Political conferences with members of the cabinet were followed at 4 o'clock by a meeting of a full cabinet. It was stated that the meeting was devoted to the regular routine business, but members of the cabinet admitted that the political situation was the main topic.

"Our opponents quote from a statement of mine made in Cleveland that the fight in Ohio, my home state, much to my gratification, would be the decisive one," said the president, in his statement "and would settle the question of my nomination. This is true. I shall have at least 17 votes from Ohio, including the delegates at large, for we have every assurance that we shall control the state convention."

"This will constitute a clear majority in the national convention. Indeed, in addition to the votes from Ohio, delegates elected for me from other states of which I have been advised since my Cleveland statement, give me at the most conservative estimate, 570 out of the 1,078 votes in the national convention—30 more than the number necessary to nominate. "I am going to New Jersey to take part in the coming campaign there, for the same reason that I went to Ohio, and such delegates as we may receive from New Jersey will thus make assurance doubly sure."

ENGINEER FLEMING RECOVERS FOR DAMAGES

RALEIGH, N. C., May 22.—Governor Kitchin has ordered a special term of court for Alamance county, the term to begin June 17, and continue two weeks, with Judge C. C. Lyon presiding. Both civil and criminal cases will be tried. Another special term is for Graham county, to begin July 1 and continue one week, with Judge H. P. Lane presiding.

In a batch of 11 opinions handed down by the Supreme court this evening are two of more than usual interest. One of these is that of R. H. Seward, appellant against the Seaboard Air Line, from Wake. Seward was discharged by the defendant road after a series of accidents and the Brotherhood of Locomotive Engineers, to whom he appealed, declined to intercede for him. He made application to three other rail roads for employment and these roads asked for his record, he referring them to the Seaboard. The records were furnished, but one of the employees on the road, in writing the record, added, "and will state further that this man is now suing the Seaboard Air Line for personal injury." The superior court judge, after the testimony had been presented, ordered a nonsuit and the plaintiff appealed. The supreme court held that the state ment of this informant was malicious, as it was not a part of the man's record as engineer, in a dissenting opinion, Judge Brown took the position that an engineer who is reckless and careless has no business driving an engine where lives are at stake. The court ordered a new trial.

ROOSEVELT'S MAJORITY IN BUCKEYE STATE IS TWENTY-FIVE THOUSAND

Ex-President Gets Thirty-Two Delegates Out of a Total of Forty-Two, Scramble for Delegates at Large. Democratic Race Close Between Harmon and Wilson.

COLUMBUS, O., May 22.—According to returns in hand tonight from approximately 4,500, of the 5192 precincts in the state, Col. Roosevelt's delegates to the national Republican convention carried yesterday's Ohio primary by a plurality of about 25,000 votes. It now seems scarcely possible that final results from the primary poll will change the number of district delegates for either side by more than one or two. The best figures available show that Roosevelt has 32 of the 42 district delegates selected yesterday and that President Taft has 10.

Although later returns on the Democratic presidential preference primary vote give Woodrow Wilson a fighting chance for one or two more delegates, the New Jersey man's exact standing will not be known for several days, when certain belated rural returns have been secured from dilatory judges who refused to complete the counts in their precincts before taking a night's sleep.

However, Governor Harmon, practically is assured a complete delegation of 43 delegates to the Baltimore convention. His lead now gives him control of the state democratic convention which will select six delegates at large. Also it is said that the convention will provide for the unit rule, which will force the Wilson delegates, selected by districts yesterday to vote for the Ohio executive.

Examining Witnesses Long Arm of the Law Reaches Far Out

Latest Criminal Mystery Enters Upon Stage Where Justice Means to Rule. Family of Dead Girl Put on Stand.

ASHEVILLE, May 22.—Witnesses took the stand in the Hawkins case at Hendersonville today and swore positively that the body found in Lake Osceola last fall was that of Myrtle Hawkins. Coroner Kirk testified to examining the body and said that he recognized it as that of Myrtle and that he found that death had resulted from an illegal operation.

Homer Hawkins, brother of the missing girl, Mrs. Lula Thomas, of Asheville and Mrs. Lela Curry of Morriston, sisters, and Mr. and Mrs. W. H. Hawkins, parents of Myrtle, all were put on the stand and all swore positively that they had identified the body as that of Myrtle's both by marks on the body and clothing worn. The brother was emphatic in regard to certain marks on the body and the sisters equally so in their identification of the clothing in which the body was found. Cross examination failed to shake the testimony of any of the witnesses.

Woman Lawyer Loses Case

NEW YORK, May 22.—Miss Lucile Pugh (the young woman attorney) disagreement of the jury on the first from North Carolina, who secured a trial of her client, Lore Poindexter, a negro of whose defense she had been assigned at the prisoner's request, lost her case on the second trial of the prisoner, concluded today. Poindexter was convicted by a jury for manslaughter in the second degree for the killing of Thomas Brown, colored, after a dispute over a crap game last March. Miss Pugh summed up for the defense and scored the police for what she alleged was their unfair antagonism to the prisoner. Poindexter was remanded to jail until next week for sentence, which may be for seven and a half to fifteen years imprisonment. The jury was out 26 hours. Miss Pugh was called into the case because Poindexter said that her family had formerly been protectors of his family on the Pugh estate in North Carolina and he had confidence in her ability and interest in seeing that justice was done him.

The delegates at large situation in the Republican party will not be known or settled until June 3, when the state Republican convention is convened here. The Taft leaders claim that they will control the state convention and designate the delegates at large for the President. But the Roosevelt managers declared that late returns show the number of Taft delegates to the state convention to be dwindling instead of increasing as was announced early today. There is no question but that the Taft Roosevelt fight will be carried on the floor of the state convention, when the final struggle in Ohio will be made for the half dozen delegates at large.

In only 23 of the 88 counties in the state were delegates to the state convention chosen. In the remaining counties, the delegates will be named by county conventions.

Even in the matter of district delegates an official count will be necessary to determine the exact results. An instance of this sort arose today in the 13th congressional district (Sandusky) where the late returns indicate that the district will be divided almost evenly between Taft and Roosevelt delegates and Harmon and Wilson. Early figures gave the two delegates in this district on the Republican ticket to Mr. Taft.

Texas Representative Attacks Roosevelt

GOES BACK TO HISTORY TO PROVE ERRORS

WASHINGTON, May 22.—In one of the most remarkable speeches of the present session of Congress, Representative Dies, of Texas, Democrat, today assailed former President Roosevelt in bitter terms and referred in almost as bitter fashion to the leaders of his own party, including Speaker Clark and Governor Wilson, to whom he alluded as "Parson" Wilson. Mr. Dies forsook the crumbling of the republic, the eventual rule of the mob, and assigned as the cause of growth of demagoguery and influx of ignorant immigrants from southern Europe.

Tracing the history of Rome, Greece, Italy, France and down to the present day in Mexico, the Texan expressed his fervent hope that "history would not repeat itself under Teddy." He prophesied that Colonel Roosevelt because of his victory in Ohio yesterday, would sweep the country, "in the coming presidential campaign. "You are a pessimist," interrupted a voice on the Republican side. "No, I am not a pessimist," shouted Mr. Dies. "I look only for the worst. Out of the jungle comes the join-tamer, his hands reeking with the blood of wild beasts. Up goes the cry, 'We want Teddy! We want Teddy!' not even LaFollette—not even Cummins is advanced enough. They do not know the meaning of progressivism."

Titanic Disaster Has Not Proved Check

Largest Steamer Ever Will Be Launched in Germany To-morrow Beats All Records

BUILT FOR COMFORT AND NOT FOR SPEED

BERLIN, May 23.—A party of distinguished engineers, newspaper representatives and other left today for Stettin, the guests of the Hamburg-American Steamship Company to attend the launching of the company's new liner Imperator. The new vessel, which is larger than any craft afloat, is to be launched tomorrow from the yards of the Vulcan Shipbuilding Company on the Elbe. The ship will probably be ready to make her first trans-Atlantic voyage early next winter.

The Imperator is designed to eclipse all previous records of ocean greyhounds for size and splendor. She is to be about 20 feet longer than the Olympic and her sister ship, the ill-fated Titanic and will have a displacement exceeding those vessels by 5,000 tons. The length of the Imperator over all will be 900 feet, and when complete and laden she will displace about 50,000 tons. There will be eleven decks on the new liner and she will be fitted out in the most luxurious style.

The deck of the new liner will have the beam of Broadway, New York's leading thoroughfare at its widest part—96 feet. Nine of her eleven decks will be above the water line, equal to the height of the largest apartment houses. If the Imperator were set up on an end beside the cathedral of Cologne, the famous tower would come only to the second funnel of the steamship. Nearly 2,000,000 feet of Oregon fir were used for her decks alone.

With so much space available features are possible that have never before been introduced. There will be a promenade deck nearly a quarter of a mile long, a great entertainment hall two stories high, holding 700 guests, a conservation room, a smoking room, a ladies hall, a winter garden, a Ritz-Carlton restaurant, a reproduction of ancient Roman baths in bronze, marble and ivory, rathskeller, womens salons in different decorative periods and national styles, universal telephone, the biggest gymnasium yet, running track of tan bark, squash court, submarine signals and powerful air pumps to waft below currents of the purest air and afford equable temperature throughout.

The Imperator will, when completed not only be the largest vessel in the world, but will in addition insure her passengers against the terrors of seasickness. This happy condition is to be brought about by the installation of Frahn decks on board the new Goliath of the Ocean, a device that reduces the motion of a ship to a minimum. It has been tried out by the Hamburg-American Line on a small ship and so it is averred, has reduced the oscillation in heavy weather from 63 to 3 degrees.

The new liner will not be a fast boat, being built more for solid comfort than great speed. Her time across the Atlantic will be in the neighborhood of seven days. Her engines will be of the reciprocating type.

It goes without saying that the company is preparing to equip the Imperator with a sufficient number of (Continued on page 3)

THURSDAY, MAY 23, 1912.

A SINGLE TERM.

Resolutions have been introduced in both senate and house submitting an amendment limiting the president to a single term. They should receive unanimous support. Eighteen years ago Mr. Bryan introduced such a resolution. It read as follows:

"Fifty-third Congress, third session, House Resolution 234. In the House of Representatives, December 6, 1894. Referred to the committee on election of president and vice president and representatives in congress and ordered to be printed. Mr. Bryan introduced the following joint resolution: "Proposing an amendment to the constitution making the president ineligible to a second term.

"Resolved by the senate and house of representatives of the United States of America assembled (two-thirds of each house concurring therein), that the following amendment be proposed to the legislatures of the several states, which, when ratified by three-fourths of said legislatures, shall become and be a part of the constitution of the United States, namely: That section one of article two of the constitution be amended by adding the words 'neither shall any person be eligible to that office who shall not have attained the age of thirty-five years and been fourteen years a resident within the United States' the words, 'No person once elected to the presidency shall be thereafter eligible to election to that office.'"

Some prefer a six-year term—in fact, considerable work has been done in favor of a single term of six years. A four year term is long enough—long enough for a good president and too long for a bad one—but a six year term with a provision making the president ineligible to re-election would be better than the present system. Now, a president claims a second term as an endorsement of his first term and feels that he has been repudiated if a second term is denied him. So strong is the pressure brought by friends that some of our presidents have run a second time in spite of the arguments they have themselves advanced in favor of a single term.

If a president is looking forward to a second term it is next to impossible not to use the first term as a means of getting the second. The pressure of ambition and self-interest on the mind must be taken into consideration. The country is entitled to the best service that a president can render and frail human nature is weak enough with the strongest. One entrusted with the enormous power given into the hands of a president ought to consider himself to his country's service with no selfish interest to blind his eyes or pervert his judgment. The present threat of a third term ought to hasten the submission of an amendment limiting the president to a single term—preferably to a four year term, but a six year term at most.

A GOOD APPOINTMENT.

President Taft has made no mistake in selecting Miss Julia C. Lathrop of Chicago for chief of the children's bureau. If all his appointments had been as good, his administration would have escaped much criticism.

Speaking of Miss Lathrop, Mrs. La Follette, writing in her husband's paper, says: "The appointment of Miss Julia Lathrop of Hull House, Chicago, as head of the new children's bureau set at rest any fears that have been entertained with reference to the scope of the work of the bureau or to its efficiency or dignity. The chief objection that was raised to its establishment was on the ground that all matters pertaining to the welfare of children could be handled by existing bureaus and in certain quarters there was a disposition to fear that because there was supposedly not enough for it to do and because it was to deal with child life, an undesirable sentimentality might creep into its policies and administration. But with Miss Lathrop at the head of it there is no danger that the scope of its investigations will be narrow or its standards low.

"Miss Lathrop is a woman of great intellectual vigor who has chosen as her field of interest and investigation as well as of active labor, the administration of public charities. She graduated from Vassar college in 1880 and was recently chosen alumna trustee of that institution. She has been a resident of Hull House almost from the time of its beginning in 1889 and was for several years on the Illinois state board of charities. By travel and study she has made herself familiar with the administration of public charities in all parts of the world. She has never, however, failed to look behind conditions for causes. The scientific attitude of her mind with reference to dependency was well illustrated in an article written not long ago for the Survey (September 3, 1910) in which she urged that the records of public institutions be more carefully kept in order that they might throw light upon the debated subject of the relation between dependency in the child and the character of the occupation of the parent. This desire to study causes combined with her mental vigor, her natural sympathies and her wide experience qualifies her exceptionally for the new work which must of necessity be largely investigational."

If the county convention does the right thing Saturday it will disapprove of any effort to inject the senatorial question into it. A primary has already been arranged for election to settle the senatorial matter and it should not come in conflict with the work of conventions.

Easily conventions will at least spare the candidates some suspense.

Roosevelt, Taft and La Follette. California may be accepted as typical of the newer states and their advanced ideas, and the vote of the republicans in the recent primary in that state is unquestionably typical of the attitude of progressive republicans toward President Taft, Colonel Roosevelt and Senator La Follette, the three Republican leaders who made strenuous efforts to win an endorsement for president from the republicans of the state.

Colonel Roosevelt received about as many votes as the other two candidates combined in spite of the earnest efforts of Taft appointees and an effective campaign by Senator and Mrs. La Follette, which was designed especially to round up the votes of the recently enfranchised women of California.

Such a division as exists in California between the branches of the republican party offers democracy its supreme chance. President Taft cannot poll the vote of the progressive of his own party in such a state. A progressive democrat can easily win them.

Senator La Follette, in the current issue of the American Magazine, gives an analysis of Colonel Roosevelt which is especially interesting in the light of recent developments. This article was written long before the California campaign and consequently none of the bitterness engendered by the struggle on the Pacific coast enters into it. In Senator La Follette's opinion, Colonel Roosevelt's fatal weakness is his willingness to act on the maxim that half a loaf is better than no loaf at all. Colonel Roosevelt is prone to sacrifice a primary by accepting a halfway measure which is ineffective, but in a measure quiets the public demand for a need reform.

Senator La Follette illustrates his point by citing the following example:

"Roosevelt is the keenest and ablest living interpreter of what I would call the superficial public sentiment of a given time, and he is spontaneous in his response to it; but he does not distinguish between that which is a mere surface indica-

ly twenties and then travelled in the Orient for several years, also visiting the British colonies and the United States. Later he became Berlin correspondent of The London Times and in 1899, succeeded Sir Donald MacKenzie Wallace as director of The Times's foreign department a position he still holds.

tion of a sentiment, and the building up by a long process of education of a public opinion which is as deep-rooted as life. Has Roosevelt, for example when he came to consider railroad rate regulation, estimated correctly the value of the public opinion that had been created upon that subject through the space of nine years, he would have known to a certainty that it lay in his power to secure legislation which should effectually control the great transportation companies of the country. But either through a desire to get immediate results or through a misunderstanding of the really profound depth of that public sentiment, he chose to get what little he could then rather than to take a temporary defeat and go on fighting at the succeeding session of congress for legislation that would be fundamentally sound."

This criticism of Colonel Roosevelt by Senator La Follette is mild as compared with the criticism he makes of President Taft, and is absolutely lukewarm when contrasted with Colonel Roosevelt's criticism of President Taft. With such a hot three-cornered fight vitiating the republican candidates, and with the constant suggestion that a member of the supreme court of the United States may be asked to leave the bench and make the race to succeed President Taft, it is plain to see how panicky the republican party is getting.

President Taft has demonstrated that he lacks popular support. The voters are not with him. Roosevelt has popular support. Where there is a primary he wins hands down. But in conventions the party leaders put president Taft across. So whichever of these men wins the nomination will also incur the opposition of the other branch of the republican party. Senator La Follette will also oppose either of them.

It is unlikely that Mr. Justice Hughes would consider jumping into such a race even if President Taft asks him to do so. And were the famous justice to enter the contest the public would be so disgusted it is unlikely that he could be elected.—Tennessean.

UNDERWOOD AND THE ISSUES

PLAIN WORDS ON BIG QUESTIONS.

[Extracts from interview of Oscar W. Underwood, reported in staff correspondence of the New York World, editorial section, Dec. 3, 1911.]

"There has been no attempt on the part of the manufacturers to give labor its share of the benefits derived from the tariff. They have kept all the profits."

"To protect profits is to protect inefficiency and to strangulate rather than develop industry."

"I prefer to lower the tariff wall by taking bricks off the top of the wall rather than by dynamiting the structure at the bottom."

"The people have lost faith in the Republican party because it has not kept faith with them."

"If it (the Sherman act) is enforced as a criminal statute it is an efficient instrument for preventing and punishing monopoly and restraint of trade."

UNDERWOOD THE ONLY SOUTHERNER.

It is Underwood of Alabama and Wilson of New Jersey.

Say what you may, let politicians talk themselves purple in the face, it is Oscar Underwood of Alabama, and it is Woodrow Wilson of New Jersey. You cannot rub that out. Underwood represents Alabama in the halls of congress. Woodrow Wilson represents the sovereign state of New Jersey as its executive head. It is not Underwood of Kentucky; it is not Underwood of Minnesota any more than it is Wilson of Virginia, Wilson of South Carolina or Wilson of Georgia. To call Wilson a Georgian is absurd. By the same token Mr. Taft is a Georgian and Roosevelt is more one.

But the people cannot be fooled by such political chicanery. They know that Oscar Underwood is an Alabamian and Woodrow Wilson a New Jerseyite. When any editor does not give his readers credit for at least as much sense as he has, he is making a grievous blunder. The people who do a little thinking on their own account resent the unwarranted, designing, specious, unpatriotic, unsouthernlike attack on Mr. Underwood by those who should be proudest to hold up his hands. Such peanut politics is a reflection on the sound sense of the state. —Augusta (Ga.) Chronicle.

Fight to Save Murderer's Life.

BOSTON, Mass., May 23.—Counsel for Bertman G. Spencer, who was convicted of the murder of Miss Martha E. Blackstone at Springfield two years ago, appeared before the full bench of the Massachusetts supreme court here today to make a final plea to save the condemned man from the electric chair. Spencer's lawyers, in support of their plea for a new trial, contend that evidence of the prisoner's insanity, produced by competent alienists, was disregarded by the trial jury.

Miss Blackstone's murder, while she was sitting at the table of friends whose home Spencer had entered to burglarize and Spencer's subsequent arrest in April, 1910, culminated a series of breaks and robberies which had most of the city of Springfield agog with fear for a long time. After his arrest Spencer confessed to killing Miss Blackstone and also admitted his guilt of a score or more of burglaries. For nearly a year after his arrest he was confined in an insane asylum for observation. At the end of the period the experts declared him sane and he was tried and convicted of the murder.

The Evolution of Travel.

NEW YORK, May 23.—To demonstrate the evolution of transportation methods, especially in the United States and Canada, is the object of the Travel and Vacation Exhibition, which was opened in the Grand Central Palace today under the auspices of the Transportation Club of New York. The exhibition which is the first of its kind ever held in the United States will continue for one week. Many historical relics, originals and models, lent by the Navy department, the Smithsonian Institution and numerous steamship and railroad companies are included in the display. The sledges used by Peary in his trip to the North Pole are to be seen among the exhibits referring to exploration. Another section is devoted to the exhibition of appliances for minimizing accidents in railway and steamship travel.

King Opens Big Flower Show.

LONDON, May 22.—The King officiated today at the opening of the International Horticultural Exhibition on the grounds of the Royal hospital at Chelsea. The exhibition is said to be the largest of its kind ever held. The display of plants and blossoms occupies nearly twenty-five acres of ground, about seven acres of which has been placed under canvas.

AN ACT TO ENLARGE THE PRESENT STOCK LAW TERRITORY OF PITT COUNTY.

The General Assembly of North Carolina do enact

Section 1. That the following described line shall constitute a part of the boundary line of the stock law territory of Pitt County: Beginning at the stock law gate on the Greenville and New Bern road near Burney's Cross Roads and runs on the east side of said road towards Greenville to Sermon's and Frank Bell's place; thence with the road running by Red Banks church out to the Greenville and Washington road, between J. H. Boyd's place and Major Hill's place; thence down said road towards Washington to the Ricky Moore and the Moore girl's line; thence with their said line to Tar River. And all of the territory west of said boundary line not heretofore included within the stock law territory shall be established and added to and consolidated with the present stock law territory of said county.

Section 2. That on and after January first, one thousand nine hundred and twelve, the territory so becoming a part of the now existing stock law territory of Pitt county shall be subject to all provisions of the law that now applies or may hereafter apply to the stock law territory of said county.

To the People of Pitt County:

We have been requested by many citizens to have published in full the Stock Law as passed by the legislature of 1911 and also the law making it a misdemeanor for persons living in the stock law territory to allow their stock to run at large and in compliance with said requests we herewith publish said acts and hope all the people will carefully read said laws.

Believing it our duty under the law we have constructed the stock law fence—it is now the duty of the citizens to protect their crops by enforcing said laws.

Section 3. That all laws and clauses of laws in conflict with this act be and the same are hereby repealed.

Section 4. That this law shall be in force and effect from and after the first day of January, one thousand, nine hundred and twelve.

Ratified this the 7th day of March, 1911.

Revisal 1 Section 3319. If any person shall allow his live stock to run at large within the limits of any county, township or district, in which a stock law prevails pursuant to law, he shall be guilty of a misdemeanor and fined not exceeding fifty dollars or imprisoned not exceeding thirty days.

UNDERWOOD FOR PRESIDENT.

Notes and Comments From the Press.

Underwood in removing the duty on sugar is certainly in a fair way to become the "candy kid" if he doesn't become the candy-date.—Gainesville Sun.

The tariff the "central issue," according to Governor Wilson. But there is no Wilson tariff! There is an Underwood tariff. Why say more?—Atlanta (Ga.) Constitution.

What is the matter with Underwood? Nothing so far as we know, nothing so far as anybody knows, unless it be that Bryan does not happen to like him because he has not been able to boss him.—Charleston News and Courier.

Arranging his forces for the national campaign, Congressman Underwood continues to lay up stores of tariff ammunition with a fine contempt for the new thought cult in politics which insists that the initiative, the referendum and assorted recalls are the burning issues of the hour.—Providence Journal.

We Democrats must not allow the hullabaloo of irrelevant issue to obscure the great main question on which the party is to win the fight in 1912—the tariff question. Underwood is the leader in the tariff revision fight. To Underwood must the party look for leadership in a fight based on this vital subject.—Athens Banner.

UNDERWOOD CAN WIN.

An Old Soldier's View of the Situation.

Quitman, Ga., March 31.—In spite of the demonstration made by the recently organized Wilson club here, there is a very strong following for Underwood in Brooks county. This is illustrated by the statement of the Rev. W. R. Talley of Dixie, who was in town yesterday and said that out of a voting population of forty in Dixie he knew of only three Wilson men. The others were all supporting Underwood. Mr. Talley, who is a Confederate veteran and a man of prominence in county affairs, said: "As to Mr. Underwood not being a southern man, the fact that he is now living in the south seems to be sufficient. Representing a southern district in congress, he has become the leader of his party, and I think his record shows him to be a man of sufficient ability to deal with the real issues of the campaign adequately and squarely. They say we can't win with a southern man. We have been defeated with a western man and with a northern man, and I am willing to take chances with a southern man. I often pick a winner, and in this case I have a conviction that I am right in supporting Underwood."—Savannah (Ga.) Morning News.

New Century

No Levers. No Springs Always in Balance.

Farmers actually want the "New Century" on account of its many distinctive features, which are briefly: Operator's weight balances gangs, perfectly balanced pole without even so much as a balance lever. Simplicity unequalled—not a lever, spring, ratchet or other nuisance on it. Light on draft, because it weighs less and has draft closer to shovels. Evenness of cultivation, that is, movement does not effect position of gangs. Six shovels, spring break works perfectly in widest or narrowest rows cotton, corn, beans, peanuts, tobacco, potatoes, etc.

Learn more about this cultivator. Fifty of the best farmers in Pitt county using this cultivator. Call and let us demonstrate to you its many distinctive features.

We also sell the celebrated *New John Deere Walking Cultivator*, the best and most satisfactory walking cultivator on the market. When in need of anything in the hardware line be sure to see us.
