Presbyterians Now In Session at Bristol

All Members of Beneficence Committee Resign as Power is Taken Away From Them

ASSEMBLY REFUSES TO ATTACK THE CATHOLICS

BRISTOL, Tenn., May 23.—The dissolution of the fifty-second assembly of the Presbyterian church, in this city, today was marked by a parliamentary struggle to have the body reconsider its action in divesting the powerful systematic beneficence committee of its power.

Moderator Thomas S. Clyce of Sherman, Tex., left the chair to state his position as a member of the committee. He said that the assembly's action was subversive of one of the main purposes of the creation of this committee and that regarding it as implied censure the members would under no circumstances continue to serve.

WYTHEVILLE, Va., May 23.—That Wesley Edwards, still a fugitive from justice distributed cartridges to members of the Allen clan shortly before the shooting up of the Carroll county court, was the testimony of John Dalton, a young farmer, in the case of Claude Allen, charged with the murder of Judge Massie.

Thirteen witnesses were examined today, among them being Detective Lucas, who arrested Claude Allen.

VIRGINIA DEMOCRATS LIKE SOUTH CAROLINIANS NOT FOR INSTRUCTION

Woodrow Wilson Leads All Democratic "Pretenders" Has 11 Out of 24 Delegates - Rest Divided Between Underwood, Clark and Harmon

NORFOLK, Va., May 23.—The Democrats of Virginia in state convention here today named 32 delegates to the Democratic national convention at Baltimore in June to cast the Old Dominion's 24 votes in that convention.

With the exception of two instructed votes for Wilson, the Virginia delegation is without ties of instructions of preferential resolutions. The first district instructed for Wilson.

Of the state's 24 votes the line up is believed to be 11 pronounced votes for Woodrow Wilson and 13 unpronounced in choice. Of the latter 1-2 are expressed for Underwood; 2-1-2 lean to Underwood; one for Clark and one for Harmon.

The unit rule will not be applied until the delegates get to Baltimore and then not until after several ballots shall have been taken and two thirds of the 24 votes are cast for a unit rule application in the delegation. This was a compromise with the Wilson forces which were strong in a desire to have the convention

go on preferential record for their favorite candidate. The convention attended by nearly 1,200 delegates and alternates, was one of the best in many years held by the Democrats of Virginia.

The names of Wilson, Clark, Underwood and Harmon were cheered at every mention. The name of William Jennings Bryan was cheered with a few hisses heard in convention hall, but those who did not cheer for Bryan were for the most part silent and those who hissed his name received no approval.

The convention was distinctly for the best man to lead the Democratic party to success in November. One of the features of the convention was the election to Baltimore in the Tenth district convention of Thomas S. Ryan, son of the New York financier.

Negro Preachers Are Immoral Owners of Titanic Are Severely Criticized

NEW YORK PREACHER DECLARES IN DURHAM THE SENATE COMMITTEE WILL REPORT TODAY

DURHAM, May 23.—In one of the frankest speeches about their real condition, Dr. Charles H. Parkhurst, the noted preacher of New York, today told the assembled negro people at the second commencement of the training school, that they were a child race and that the great trouble with their religion was that they considered religion an emotional pastime to be indulged in on Sundays, but something separate and apart from real morality.

The negro's religion is of the fervent type, in that it is of a lot of steam without turning much machinery. The season of the year is on when you look back and think of the past winter with regret. Regret for these cold days that made you feel gingery and active. Electric fans and ice water are all right, but they cost money.

Wilbur Wright at the Point of Death

Little Hope Entertained For Noted American Aviator. He Has But One Chance in a Thousand to Recover From Illness.

DAYTON, Ohio, May 23.—Wilbur Wright, the noted aviator and airplane constructor, is at the point of death with typhoid fever. Doctors hold out but one chance in a thousand for his recovery. Yesterday's report from his bedside stated that the noted aviator was improving and would recover. However, he suffered a relapse during the night last night and by morning it was seen that there was little chance for his recovery.

Bad Negro Captured in Kinston

KINSTON, May 23.—Charlie Parker, an escaped negro convict, who has given the local authorities more trouble than any criminal in recent years, is again in the Lenoir county jail here. Parker, who has been the guiding genius of one of the most daring and skillful bands of store burglars and housebreakers ever known in a small city, escaped from the county roads on which he had served one month of a long sentence and was at liberty for several weeks. Coming back to this city from what was termed his vacation he was recaptured and temporarily held in the county prison. He pretended to be very ill and for this reason he was not removed to the roads. While recuperating, with the aid of a confederate on the outside, Parker again escaped and in the ensuing few days perpetrated, with the assistance of his colleagues, a series of robberies, strutting by their boldness.

New Head For the Peace Institute At Raleigh

Although Professor Stockard Has Resigned as President He is Still Interested

SUCCEEDED BY DR. Mc. C. WHITE OF RALEIGH

RALEIGH, N. C., May 24.—Dr. W. McC. White, pastor of the First Presbyterian church was yesterday elected president of Peace Institute, succeeding Prof. Henry Jerome Stockard, resigned. Dr. White will not surrender his pastorate and Professor Stockard will not leave the institution, but both will continue to reside in Raleigh, much to the gratification of their friends.

The action of the board of trustees yesterday was in response to the action of the various presbyteries to make Peace Institute, already well known throughout the south, more thoroughly representative of the Presbyterian church, and the election of Dr. White marks its formal passing into the control of the church.

Professor Stockard has been acting as president for five years when he was elected after the church had bought the property from the late Mr. James Dinwiddie, who conducted the school so successfully since the war. The institution was established before the war, but its real service has been rendered since the struggle. In the making of the school Professor Stockard has been a potent force and it is good to know that he, and practically every member of the faculty will continue with the institution. Professor Stockard will teach English literature.

Dr. White will not surrender his pastorate of the First church, he and his able assistant, Rev. James C. Hamphill, looking after the work there in connection with his duties as president of Peace Institute. Dr. White will continue to teach the Bible at the school.

Big Fire at Ballard's Cross Roads

On Thursday night about 9:30 o'clock, the stables of Mr. J. H. Cobb, at Ballard's Cross Roads, were destroyed by fire of unknown origin. Thirteen head of stock were lost with the buildings, the flames spreading so rapidly that only two of the horses could be gotten out. Mr. Cobb estimates his loss at \$3,800 and he only had about \$500 insurance.

This is a heavy loss and coming right in the midst of the busiest work on the farm when team is badly needed makes it all the more severe. Mr. Cobb's friends sympathize with him in this misfortune.

NO OPPOSITION TO SMALL.

The congressional convention of this district will be held in Elizabeth City on Thursday, 30th. So far there has been no mention of any opposition to Hon. John H. Small for the nomination and really there should be none. He makes the district a most faithful representative and when a man as useful as he has proven to be gets in congress, he should be kept there.

HOW TO KEEP WELL. The Drink Habit.

Get the drink habit. It will cure your "spring fever" and make a torrid summer mild for you—if you drink Adam's pure, unadulterated ale. Your sluggish feeling each spring is due to winter accumulations of waste in the body which should be removed.

What to Drink.

Don't drink anything and everything just because it resembles water. Be discriminating. It may be the purest, sparkling water from a mountain spring or it may be a dilute solution of sewerage and deadly bacteria.

About "Mineral Waters".

Don't waste your money on "mineral waters." They may contain certain salts, minerals, odors, tastes, and colors, either originally or by adulteration, but for five or ten cents your druggist will give you enough salts and minerals to make a barrel of "mineral water".

cent of the so-called mineral waters are a hoax—a snare and a delusion. Why put these "minerals" of which you know little into your body of which you know less? The chief virtue of such waters rest in the fact that these "minerals" are usually harmless and people drink so much of this water that their systems are flushed out and cleaned and they feel good.

Don't permit mosquitoes to annoy you or poison you with malaria this summer. Destroy their breeding places by filling up or draining all low, wet places within three hundred to five hundred feet of your house. Bottles, barrels, old tin cans, or anything else containing stale water for over a week will breed the little pests.

Consumption is usually contracted from some other consumptive who was a careless spitter. The little tendency to it which may be inherited is so slight that it may be easily overcome. We inherit more of poor chest capacity than we do of consumption.

The Concord Tribune says that Governor Aycock was known as the educational governor. Governor Glenn as the industrial governor and that already Locke Craig is being styled as the good roads governor.

The presence of flies means the presence of filth. It may be in the kitchen, in the cuspidor, in the uncovered garbage can, the manure pile, or the open privy. At least it is nearby.

We do not think a newspaper is reflecting any credit upon itself in advocating prohibition in its editorial columns and at the same time printing liquor advertisements in other columns.

The editorial column of the Durham Herald being filled with a Washington letter indicates that Joe King is sitting on the creek bank watching his cork. We envy him.

With such a rough and hard feeling between the Taft and Roosevelt factions of the Republican party, it looks like the Democrats should find it easy to elect a president if they will just nominate the right man.

When you are feeling dull and stupid and have a headache, try a good big dose of fresh air. It will generally do you good.

A decreasing death rate is the best evidence of sanitary progress in a community.

When Bob Phillips said so, we took 'em off, but have been sneezing ever since.

The best spring tonic—spring air and pure spring water. Take it every day.

Use the stick fly paper in the house. Swat all flies that escape it.

Don't make a junk shop of your stomach.

No spit—no consumption.

Ade Holds to His Hat

This is certain to be a year of disappointment for one of the great political parties, but it cannot equal the regret felt by the American people at the refusal of George Ade to run for governor of Indiana.

But this humorist with the fun—in a healthy community refuses to toss his sombrero into the ring. He prefers the shades of Roek to the limelight of Kokomo or whatever the Indian capital is.

The suggestion that I might, under certain unforeseen conditions, become a candidate has brought mirth and laughter into many homes.

It is unwell for India that Ade takes his candidacy for a joke, when so many would like to consider it seriously. There is no reason at all why a humorist should not make a capital governor.

The Richeson Case.

Richeson, the degenerate, who murdered under the most shocking circumstances the young girl to whom he had been engaged to be married, has been awaiting for several days the summons from the Massachusetts sheriff who will take him to the electric chair.

Tremendous pressure was brought to bear upon the governor for the exercise of clemency. Petitions were circulated; women and other sympathizers pleaded for mercy; cranks and vicious persons threatened the governor, who stood firm.

Here was a test for the governor. Every normal human being loathes the idea of taking a human being's life. The protection of society is the only justification in law and for governors in permitting men to be exterminated.

Social and Personal

Gleams.

Out of the dark and the cloud and the storm,
A ray of bright sunlight comes dancing;
After the long time of chill and of rain,
A ray of spring glory is glancing
Across the dreary air, like elixir of life,
All hearts with a fresh delight filling
With buoyancy gay, and an energy fine,
One's sluggish blood stirring and thrilling.

One's trouble grow less and one's pleasures grow more,
At the wine of the year's youth thus draining,
And hopelessness flies at the gleam so revealed

Of all that life yet is containing;
Forgot is the time when the clouds hid the sun,
And cold blasts the earth forced to shiver,
For such is the power of one warm spring day
From winter's whole spell to deliver.

And so it is with the sunlight of the heart;
One bright gleam of hope and of loving,

One ray of the light, springing out of the dark,
The load of its sorrow removing,
Can make us forget all the winter that's passed,
All the woe and the trouble upon us,

And teach us the light must some time pierce the cloud,
And make dearer the blessings so won by us.

Funeral of King Frederick.

COPENHAGAN, May 24.—The body of the late King Frederick of Denmark, who died May 14, was interred today in the magnificent old gothic cathedral at Roskilde, the burial place of Danish kings for upwards of a thousand years, with a ceremony the impressiveness of which was accentuated by the widespread evidences of popular sorrow.

The presence of numerous kings and queens, princes and princesses, grand dukes and other members of European royalty, together with scores of dazlingly attired diplomats and military and naval officers, made the scene within the cathedral one of unusual brilliance.

The funeral service was one of impressive simplicity. The primate of the Danish church officiated. Eight officers of the Danish army carried the coffin to the chapel of Frederick V., where the remains were entombed beside the father and mother of the deceased king. The conclusions of the service was marked by a salute of 21 guns and volley firing by a party of infantry.

The burial service was none the more impressive than the scenes enacted in the capital before the departure of the funeral party for Roskilde. Every bell in Copenhagen tolled throughout the progress of the funeral. Business and work were at a standstill throughout the city, while emblems of mourning were displayed everywhere, the little half-masted flags and shreds of black bunting being as conspicuous in the poorer quarters of the city as the rich and solemn draperies that were displayed on the facades of public buildings, commercial establishments and handsome residences in other sections.

The enormous crowds of town people, garbed in black, swelled by thousands of arrivals from the country districts, thronged the square in front of the Christianberg church, while thousands of others stood bareheaded during the passage of the hearse and mourners from the church to the railway station. Both sides of the streets traversed by the funeral cortege were hedged with lines of

MADAME RACHELLE'S ADVICE TO BEAUTY SEEKERS

Mary E.—You are foolish to feel so hopeless about your freckles. They are really very easily and quickly driven away. I recommend that you secure a 50c jar of Wilson's Freckle Cream, either at your drug store or from the Wilson Freckle Cream Co., at Charleston, S. C., and use it every night as per directions. I have found this preparation remarkably effective and it is absolutely harmless.

Mrs. A. B. McC.—I cannot recommend any internal treatment for developing the bust. Massage is sometimes good, but should be carefully employed. Improve your general health and condition and eat nourishing, flesh building food. Wilson's Freckle Cream is sold by Moye's Pharmacy, Greenville, N. C.

The inside of the Ball room and fronting flush with the row of massive brick columns are a large number of seats for spectators. No charge will be made for dancing.

Another feature of the grill room which has been open since May 1st and has been pronounced as a most exquisitely attractive room.

Many of the early visitors to the Casino find the large picnic pavilion at the north end of the building the most fascinating place at Virginia Beach. Here you find a large number of comfortable chairs, tables and ice water for the free use of visitors.

Immediately in the rear of the kitchen, just across the promenade is the spacious retiring room for ladies where a maid will be on duty at all times.

The men's toilet is across the promenade from the grill room.

There is no obstruction of the view of the ocean from any part of the Casino and the spacious lawn and hundreds of benches which line the walk provide the greatest opportunity for genuine amusement or recreation to be found on the entire Atlantic Coast.

All trains of the Norfolk Southern railroad beginning June 1st, will arrive and depart from the Norfolk Terminal station and cars for the Beach will at an early date be operated directly from the Terminal station.

Very cheap excursion, week end, and Sunday tickets are on sale to Virginia Beach via Norfolk Southern and other railroads.
